Last updated on 1/14/2016 16:09:34

Agriculture and Rural Development (MDARD)

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Jan 12th - 1/12/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and awaiting final ok in the JIC/SEOC; could go out in US Mail as early as Wed. MDARD Food staff will start scheduling water sampling and inspections for next week. MDARD has requested a map overlaying food facilities with the known areas most impacted to help prioritize follow up.

Animal health update: notifications to potentially impacted facilities are nearly complete. After further coordination with Genesee County Animal Control, the three animal shelters in the Flint area are not on City water. The Michigan Veterinary Medical Association notified all veterinarians in the region last week; MDARD will be individually following up with the two clinics. There are no kennels or pet grooming facilities in the City. Genesee Animal Control will be contacting pet stores and the known households that serve as animal rescue operations and does not need MDARD assistance.

MDARD is also looking at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

AGENCY INCIDENT OBJECTIVES
Current Operational Period
List 3 Major Objectives
Coordination / Outreach on food processing, food retail, and food service/restaurants
Review of Animal Health / Exposure concerns
Review of areas where we can assist with nutrition issues
Upcoming Operational Period
List 3 Major Objectives
Determining staff availability / needs for SEOC participation
Analysis of grocery / farm market information for area

MI-CIMS Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Jan 11th - 1/11/16 - MDARD Activities: Have updated the guidance document to be a regulatory document for water in retail food and restaurants/food service; document is going through the approval process including the JIC. MDARD is making plans for distribution and then follow up. On animals - we expect to get a list of kennels, clinics, rescue organizations, etc., by the end of the day for additional outreach. Any materials will be coordinated through the JIC. MDARD provided information on water companies in the State as potential contacts for supplies of water. MDARD goals over the next few days: 1) Food - identification and prioritization of food service and food retail businesses and coordination with Genesee Co. Health Department on notification and inspection related to water usage; 2) Animals - continue outreach and education to animal facilities, in coordination with Genesee Co. Animal Control; 3) Review history and look at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

MI CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Two areas MDARD is monitoring: 1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues. 2). Water consumption by pets / animals. There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A. Jan 7th 2016 4pm update: MDARD and Genesee Local Health Dept. agreed to move guidance on water to a regulatory requirement. New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling. Jan 8th 2016 4pm update: Animals - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals: 1) All the City of Flint street (physical) addresses that are on City of Flint water, 2) All the "Out-County" (physical) addresses that are on City of Flint water. The Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists soon. Other shelters are not on City of Flint water. Jan 9th 2016 4pm update: MDARD has received maps created by the SEOC GIS that locate the food service establishments. MDARD is identifying activities to date and providing coordination in development of strategy for a plan for public nutrition, education and availability together with MDHHS, MDE, and the Genesee Health Department. MDARD together with MDHHS identified a brief nutrition message to be included on the door-to-door hangtag being developed by the JIC.

AGENCY INCIDENT OBJECTIVES

EXECUTIVE SUMMARY
Two areas MDARD is monitoring: 1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues. 2). Water consumption by pets / animals. There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A. MDARD will be reviewing activities in both areas and determine appropriate next steps. 4:15pm update Jan 6th *Call with Animal Industry Division: they are doing outreach to MI Veterinary Medical Assn; MSU College of Veterinary Medicine, and the MSU Diagnostic Center. They will also talk to Genesee County Animal Control about other animal facilities that may need follow up. *Call with Food & Dairy Division: we will get addresses of food processing, retail and food service to help create a GIS layer; they will talk with Genesee Co. Health Dept. about restaurants using the existing guidance on water. MDARD did provide the guidance on water to all licensed retail food facilities, including convenience stores. Food & Drug Administration contacted their regulated facilities in October and found no further action is necessary; USDA-Food Safety Inspection Service is looking into what if any guidance or actions they need to do for meat processors.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Back | Archive | Create PDF

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

The State Chief Medical Executive, Dr. Eden Wells, conducted a webinar today for healthcare professionals in Flint that focused on pregnancy and breastfeeding. The peak number of people/sites in attendance was 42. Positive feedback was received, particularly on the discussion portion of the webinar. The recording was sent to the MDHHS PIO, and will also be available on the flint water website and on MI-TRAIN.

Continue to provide clarification in reference to the teams that are visiting homes in Flint. MDHHS is accompanying DEQ on the Initial Assessment Teams that are visiting homes that have tested high in copper and/or lead.

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

MDHHS PIO participating with JIC

Coordinate with CHECC on planning and tactics

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.

Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy Under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.

MDHHS held a conference call with the Michigan Pharmacist Association and other community pharmacy members to discuss the potential role of pharmacies in the Flint response efforts. Options will be explored in regards to blood lead testing, communications, and nutritional counseling.

Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Two letters addressed to the USDA have been signed by the MDHHS Director asking that they reconsider their decision to deny Michigan's request for exemptions which would allow for nutrition supplemental funding and for an increase in the availability and access to the WIC program in order to offer blood lead testing and services to children up to the age of 10 years old. These two letters were sent by the CHECC to the UCG today.

Working with the DEQ to resolve confusion with local partners regarding teams visiting homes with high lead and/or copper levels reported, and the need for MDHHS staff to support the teams conducting home visits in order to provide health education and encourage blood lead testing. ATSDR staff are working with MDHHS Environmental Health staff on copper informational materials for messaging purposes. The CHECC is working to identify MDHHS staff that are available to accompany those teams, as needed.

Received word that the DHHS ASPR, Dr. Nicole Lurie, will be visiting Michigan on Thursday. The details of her visit are unknown at this time.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.

Coordinated with the CHECC to send MDHHS staff to the Genesee County EOC this upcoming week to accompany the DEQ teams that are conducting home visits for those residences that water tested above 150 PPB of lead. In addition, DEQ and MDHHS staff will be making initial visits to the homes on Monday and Tuesday that have tested above the 1300 PPB level for copper. DEQ has requested one health staff member per team going out each day, and the goal is to send 1 team on Monday, 1 team on Tuesday, and 10 teams on Wednesday.

Held afternoon conference call with CHECC leadership to discuss activities and updates. The CHECC continues to work diligently to strategize and develop a plan for a blood lead testing campaign for all children.

Confirmed that Ginna Holmes will be providing training to MDHHS staff in the CHECC that will be assisting her with donation management. Pam Strobel has offered to attend as well and provide access and instructions to use the new Donations board in MICIMS. Pam will also ensure that donations management is aligned with SEOC logistics.

Confirmed with the CHECC and the SEOC Operations Branch that Barbara Reynolds from CDC is no longer in Michigan but may return in the near future. If she returns and is available to provide training to state officials in the Governor's office and MDEQ staff, then that request will be considered and coordinated through the JIC (per the direction of SEOC Operations).

Requested that DEQ include the GCHD Environmental Health representative, who is in the GC LEOC today, in planning discussions regarding protocol development for elevated copper levels identified in water samples.

Participated on the Local EOC Call at the request of SEOC Operations Chief. Locals expressed concern over the 31 locations that have tested with copper levels above the EPA standard (1300 PPB). The LEOC requested that MDHHS and DEQ work with the JIC to enhance messaging on this topic. Held a conference call with the CHECC executive group to discuss this request. copper information

was located by the CDC ATSDR, and ATSDR was requested by the CHECC to assist with health messaging to the public. The MDHHS PIO will be coordinating with the JIC, DEQ and MDHHS on to accomplish this.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations. Contacted with MDARD EMC to follow-up on an inquiry that the CHECC received from CDC personnel in the UCG, regarding pets and animals in Flint. MDARD was able to connect with CDC staff in Flint to discuss and collaborate on efforts. Inquired with the CHECC regarding GCHD participating in home visits for residences for which test results were greater than 150 PPB. DEQ provided SEOC with a list of the homes visited and it appeared that only home that was listed included a visit by GCHD staff. The CHECC will be contacting the GCHD on Sunday to verify with the local Environmental Health POC, who is off today. Received responses from MDHHS Epidemiology pertaining to the Tele-town Hall questions that the SEOC Operations Chief had requested answers to from a health perspective.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.

MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint again today. He reported that he felt that it was valuable to have a representative with these teams to address health issues. The individuals who were contacted yesterday expressed appreciation for the follow up. The MDHHS representative, in addition to encouraging blood testing, is providing information and applications for the safe lead homes program. Bus passes have been obtained and provided to the teams. They will give bus passes to individuals who need transportation to have lead testing. Coordination of teams by the various entities remains an issue.

Lab Corporation of America reached out to MDHHS yesterday with an offer to conduct "good will" blood lead testing to Flint residents. Today they re-contacted the SEOC to confirm that they are a CLPPP approved laboratory. They will contact the GCHD on Monday to see how they can assist with the mission of getting the residents tested.

MDHHS received a reach out from MEDC regarding grocery stores in Flint. There is funding that could be available for this endeavor to assist with eliminating the "food desert" in Flint. His contact was provided to Gloria Zunker in the CHECC for inclusion in the Nutrition Plan.

Collaborating with MDE to obtain a list of Flint children under 6 in Head Start or Early Head Start which can be compared with the MDHHS list of children who have received lead testing. A plan can then be developed to address identified gaps.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.

MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary. Written information is also being provided. If individuals are in need of transportation for lead testing, transportation will be arranged. Contacted the local EOC and they will also try to get bus passes that could be provided if necessary. No notifications have been received of individuals requiring transportation. There is some concern about duplicative efforts in this follow up endeavor, as the Genesee County Health Department/ATSDR Teams have also apparently contacted all of the homes above 150 ppb; so communication has been initiated with leaders from MDEQ and MDHHS to finesse the plan in collaboration with the EPA and local health department and communicate that to the SEOC.

Lab Corporation of America reached out to MDHHS with an offer to conduct "good will" blood lead testing to Flint residents. Information provided regarding the need to be a CLPPP approved program, and contact information for the Genesee County Health Department was shared with the lab.

Provided information from LARA and MDE to the CHECC in follow up to a request from the GCHD about child care agencies.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. MDHHS and MDEQ facilitated conference calls between MDEQ ECC and MDHHS and LARA that resulted in a plan for an MDEQ Team to contact all of the homes with lead levels above the acceptable range beginning 2/4/16. Health information, including encouragement to have lead blood levels drawn and testing locations where to have lead testing done will be shared with the residents of these dwellings during the MDEQ visits. This activity is in support of the GCHD. The home site visits will be tracked on an iPad. The initial goal is to reach all homes that have tested at or above 150 ppb 2/4/16, then the homes at 100 ppb or above. LARA will also have plumbers available on 2/4/16 to accompany the team(s). This information was also relayed to the Governor's representative in the SEOC. A new LNO officer, Janet Odom has arrived at the CHECC and will be there through Sunday 2/7/16.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD.

Participated on a conference call with DEQ, LARA, EPA, CHECC, and MDHHS Environmental Health to discuss the plan and process going forward to follow-up with the homes that have tested at 150 PPB or higher for lead. DEQ has drafted a plan that will be provided to the State Director for implementation as early as tomorrow, 2/3/16.

Requested that CHECC communications staff support MSP staff with updates to the Flint Water website.

Confirmed with MDARD and the JIC that MSU is not offering free lead testing for pets; and therefore, this information should not be provided to callers who call the CHECC hotline. This information has also been provided to Human Services for 2-1-1.

Confirmed with MDE the correct zip codes to be used when responding to the CHECC's inquiry for nutritional planning.

Confirmed with the CHECC that no additional activities have occurred involving CMS since the letters to healthcare providers were sent and posted to the Flint Water website.

Held a discussion with the CHECC regarding identification and outreach to pregnant women and young children in Flint. Those activities are ongoing and include the development of an info-graphic as well as inclusion in the Wednesday webinar series that Dr. Wells will be providing to health professionals weekly.

Worked with GIS to obtain a map that depicts an overlay of blood lead level testing results and water testing results. Not available for dissemination, as they contain sensitive health information protected by HIPPA.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD. Contact information for the MDHHS Environmental Health Director was provided to the Paul Smith from the Governor's Office this afternoon at his request, to discuss blood lead level data for a dashboard that is in development. Requested that MDHHS Environmental Health Director include EPA on the notification list for homes in Flint that are testing high for lead, at the request of DEQ. The notification is currently being provided to the GCHD. EPA would like to be notified at the same time if possible. Worked MDHHS PIO and DTMB on the translation of materials on the Flint Water website, as well as updating outdated information that is currently on the website at the request of MDARD. Forwarded Aerator informational document from the JIC to DTMB for translation as well. Working with LARA to ensure all documents are translated in not only Spanish, but also Mandarin and Chinese. Confirmed that Dr. Eden Wells will serve as the MDHHS representative for the FEMA-Congressional Call tomorrow. Coordinated with the MDHHS PIO to prepare Dr. Wells for that report. Provided the Flint Blood Lead Count Report by zip code to the SEOC and the Lt. Governor's representative in the SEOC, who had requested the information previously.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD. The CHECC is also working with the GCHD to assess the potential need for volunteer staffing and management support, as well as a communication strategy for messaging to pregnant women and oral health professionals.

MDHHS participated in the Unified Coordination Group (UCG) call this morning at 0900. UCG will be setting up four (4) Task Force Teams, as detailed below. State and local entities will only be involved with these task forces on an "ad-hoc" basis if subject matter expertise is requested.Discussion took place with the UCG on the development of a "Science Group," that would advise and provide technical expertise outside of operations. The objectives of the Science Group will be set by the Flint Water Interagency Coordination Committee (FWICC).

- Health and Medical Task Force – Led by HHS
- Human Services Task Force – Led by Administration for Children and Families
- Water Quality Task Force – Led by EPA and ATSDR (CDC)
- Nutrition and Education Task Force – Led by USDA

MDHHS participated in a meeting with the CDC ATSDR and NCEH to discuss priorities in relation to data and surveillance, to include what involvement may be necessary from the state.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC. CHECC hotline received multiple calls related to water filter efficacy. Overall total call volume remains low. Nutritional planning and Disaster Behavioral Health planning is ongoing in the CHECC and with partnering agencies. Received a communication from the Michigan Pharmacist Association offering to collaborate and brainstorm ways that pharmacies in the Flint area can support response efforts. A call may be scheduled with MPA and the CHECC to explore this option further.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.

Participated in conference call with various state agencies, MDHHS Environmental Health, CHECC, JIC, MDARD, MDE, MDEQ, FEMA, SEOC Incident Command, and EPA PIO. Discussed consistent and understandable messaging related to water test results. This conversation will continue during UCG calls.

Received communication from SAMHSA that they will be sending staff, Commander Jamie Seligman, to Lansing on Monday. An eight person Disaster Behavioral Health team from SAMHSA was requested and has also been approved to be sent to Michigan.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.

Dr. Wells, the Chief Medical Executive will begin weekly communications with the healthcare community through webinars and/or newsletters. The first webinar is scheduled for Wednesday 2/3/16.

Historical blood lead data is being obtained and an accurate display that is clear and understandable is in development.

Dr. Barbara Reynolds, Senior Advisor for CDC Crisis and Risk Communication provided technical assistance with risk communication strategies and a training in Flint.

Dr.'s Lurie and DeSalvo will be visiting a WIC clinic in Flint tomorrow.

The Genesee County Health Department has requested assistance with risk communications. The Public Health Team lead will be in Flint tomorrow and will be able to assist with this request. The MDHHS will also provide technical assistance as requested.

EXECUTIVE SUMMARY

The CHECC remains activated at Level 2, and a phone bank is staffed at the CHECC from 0800 - 1700 daily to support the Genesee County Health Department by answering health-related questions that 2-1-1 cannot answer. The CHECC experienced a low level of calls today.

MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. The team will be led by a Mental Health professional.

A behavioral health community partners meeting was held at Genesee Health System (GHS) to provide mental and behavioral health agencies and stakeholders the opportunity to identify resources that can leverage behavioral health services, and determine strategies to develop a short, intermediate, and long-term recovery plans. There were sixteen participants in attendance from a variety of disciplines, ranging from faith-based organizations to community health.

Barbara Reynolds, the CDC Senior Advisor for Crisis and Risk Communication on-site in the CHECC held a phone conference call with Dr. Wells (CME) today. Ms. Reynolds will be in Flint on 1/28/2016 to discuss the current situation and help develop appropriate risk communication strategies.

MDHHS Bureau of Epidemiology (BOE) met with CDC subject matter experts to delineate technical assistance needs, including statistician, lead epidemiologist, and a GIS specialist. BOE submitted a draft Flint Blood Test Report reflective through Jan. 22, 2016 to HHS Communications staff. They also submitted the first Daily Blood Count Report to HHS management, along with a drafted response to the Governor's Task Force letter. BOE also held a meeting/conference call with EPA, CDC, GCHD to discuss response to high lead water test results at individual homes or other locations.

MDEQ has asked MDHHS Bureau of Laboratories (BOL) to help with water testing to increase surge capacity. Testing protocols, training, competencies and proficiency testing issues are being addressed. The Kent County Local Health Department and Saginaw County Local Health Department laboratories have offered to help with water testing as well. DEQ has been notified of this offer.

The CHECC is developing a process for the mobilization of health volunteers to integrate with the current local volunteer operations, in order to leverage what is already in place. GCHD expressed concern as to having enough staff to support operations locally.

The CHECC continues to work on outreach materials and messaging targeted at pregnant and nursing mothers.

MDHHS EMC has been working DTMB and the JIC to translate materials into Spanish, that can be provided to the GCHD.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains activated at Level 2, and a phone bank is staffed at the CHECC from 0800 - 1700 daily to support the Genesee County Health Department by answering health-related questions that 2-1-1 cannot answer. In summary, as of January 26, the CHECC hotline had received a total of ninety calls since initial activation on Friday, January 15. Of these calls, twenty-three had been referred to personnel assigned to the CHECC Epidemiology Desk. Furthermore, the CHECC hotline received and facilitated five requests for rapid response team deployment. Common questions/issues directed to the hotline focused largely on lead testing and bathing considerations, noted on the table below.

The CHECC continues to work on a variety of activities to include Disaster Behavioral Health planning, nutritional planning, coordination with the local health department, development and dissemination of messaging to healthcare providers, and gathering information necessary to support the overall federal response efforts. The CHECC reached over 80,000 healthcare providers using WebMD Medscape, and continues planning efforts to craft messages for various medical specialty providers such as pediatricians and

obstetricians.

In support of the Disaster Behavioral Health planning, MDHHS has also facilitated the implementation of the Disaster Distress Hotline that has been made available on the Flint Water website, offering 24/7 anonymous crisis counseling for individuals affected by the incident.

MDHHS has worked with the US DHHS to query emPower data on the medically-dependent individuals residing in the Flint area, to ensure that they are contacted by the Flint Water Response Teams. Their locations have been mapped by GIS and provided to the LEOC for follow-up and rapid response deliveries.

MDHHS leadership and CHECC staff continue to meet with federal partners from SAMHSA and HHS/CDC today to discuss technical assistance and federal activities. Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. A LNO will be located in the CHECC to serve as the liaison between the UCG and MDHHS.

MDHHS ordered 100 Blood lead level testing kits, and the accompanying ancillary supplies, to be shipped to the Genesee County Health Department in support of their blood lead testing clinics. MDHHS is also working in coordination with Michigan State University to support blood lead testing efforts.

The CHECC maintains ongoing daily correspondence with both the EMCs in the SEOC and the Local Health Department to offer assistance and guidance as necessary.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The CHECC remains activated at a Level 2. Phone bank received a low volume of calls today. MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities. Michigan's HHS Regional Coordinator will serve as the lead within a Unified Coordination Center that will be stood up within the next couple of days to help streamline information and coordinate activities. An LNO will be located in the CHECC and serve as the liaison between the Unified Coordination Center and MDHHS. Confirmed with the local health department that the palm cards that have been translated to Arabic will be delivered to Flint's Arab-American Heritage Council. Participated in tactics meeting and updated ICS Form 204. Confirmed with FEMA that blood lead testing kits may be an allowable purchase under the "other related necessary resources" within the Emergency Declaration if, and only if, the State and Locals are unable to procure them otherwise. Therefore, MDHHS has proceeded today with fulfilling the LHD order for blood lead testing kits and ancillary supplies.

EXECUTIVE SUMMARY

The CHECC remains activated at a Level 2. Phone bank calls referred from 211 decreased today.

DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. DEQ reports that households will be able to be pull up their own results on the web.

The CHECC worked with MDHHS purchasing to process a request for additional blood lead level testing supplies.

The CHECC is developing a request that will be provided to HHS/CDC that identifies the specific types of public health technical support that will be required of staff deployed to MI.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Response received from SAMHSA indicating that the request for TA has been received and will be routed accordingly. The CHECC anticipates this request to be approved and for a SAMHSA representative to be onsite in the CHECC on Monday.

CDC informed MDHHS that they would be sending a senior officer to Michigan early next week to coordinate CDC activities in Michigan related to Flint Water.

The CHECC contacted GCHD representative in the LEOC to discuss the details of resources requests that were submitted in MICIMS for blood lead sampling kits and ancillary supplies. Discussions are ongoing to determine the urgency and necessity for their request, in order for the SEOC to know the feasibility of procuring these items. The CHECC confirmed that these resources are not available at the State level to support the request. Information from the GCHD who needs the supplies was contradicting to the information communicated by the LEOC EM, listed as the POC for the MICIMS request. The CHECC is working to clarify and provide effective communication to the SEOC so that this resource request can either be cancelled and ordered by the locals or processed and ordered by DTMB.

MDHHS was contacted by the MDEQ representative in the LEOC with an offer for a representative from MDHHS to be included on the EPA water sampling team that started sampling the Flint water for residual chlorine today. DEQ confirmed that the sampling would begin this afternoon and go one for a least a few days. The CHECC contacted the Environmental Health Division Director and confirmed that their physical presence on this team is not necessary at this time; however, they have requested that EPA share the results of the testing with MDHHS.

Provided a listing of all LTCs in the 16 zip codes in the Flint area to LARA, in order to cross-reference with their listing, in an effort to ensure all nursing homes in the affected area have been contacted.

Received communication from GCHD representative in the LEOC that a group had set-up a mobile testing clinic at the Flint Masonic Temple to perform free blood lead testing from 1000hrs to 1300hrs today (1/23/16), expected upwards of 300 tests to be conducted. Testing was provided by Quest Laboratories (a national laboratory group). The CHECC, LEOC, and SEOC Director, MSP representative, Operations Chief, and Logistics Chief were made aware of this in preparation for anticipated requests. No requests were received related to this activity. A communication was provided via email to MDHHS leadership from the CHECC for informational purposes only.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Worked with GIS and SEOC Logistics to update the maps provided from GIS to also include the locations for "hot shot" requests filled as of 1/20/16, in addition to separating-out the homecare patients from the other categories of medically-dependent individuals identified. Created a resource request for SEOC Logistics to provide this hot shot location data weekly. Maps provided in Activity Log.

Emailed GCHD EPC regarding concerns reported from the Michigan School of the Deaf in Genesee County in reference to bathing for students who live in the school dormitory (information relayed from LARA EMC). Inquired if GCHD could send a SME, suggested the local Medical Director, to the February Parents meeting to answer their questions and provide additional information. LHD EPC forwarded this request to GCHD leadership and will confirm whether or not they can send someone from the health department.

Forwarded hot shot request received in the CHECC to SEOC Logistics to track and coordinate with the LEOC.

Provided information from MDHHS/CDC Medical Epidemiologist to 2-1-1 regarding an "unresolved" question received by 2-1-1. Abbreviated version below:
Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?
A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Followed-up with LEOC EMHSD Liaison and SEOC Ops regarding health-related calls being forwarded from 2-1-1 to the CHECC hotline after hours. Confirmed that neither the CHECC hotline, nor the GCHD phone number, is being monitored after hours to receive health-related calls. 2-1-1 should inform callers to call back during normal business hours (0800 - 1700) for health related questions that 2-1-1 is unable to answer. The CHECC is not considering answering calls to the hotline after hours due to their current low call volume.

GCHD EPC confirmed that the 13,000 EPA nutritional pamphlets that were ordered DID arrive this morning to the GCHD (23 boxes).

St. Joseph Mercy Health System offered to provided resources and support for lead screening. This information was forwarded to SEOC logistics. The St. Joseph Health System POC asked to speak to someone today; therefore, contact information was provided to them via the MDHHS PIO for them to contact GCHD.

Requested information from DEQ to confirm whether or not zip codes 48531, 48550-48557 are on the Flint Water Authority system. Medicaid includes these zip codes in their reports related to Flint; however, they were not listed in the 16 zip codes that have been identified for the response. DEQ is still working on this request and will provide information when available.

Provided MDARD EMC with GCHD Environmental Health POC contact information for coordinating efforts to ensure restaurants in Flint receive the water resources they need. Efforts will focus on the restaurants in the most highly impacted areas first.

Inquired with MSP regarding the Water Response Teams visiting zip code 48502. This is a business district; however 138 children are on Medicaid live in that area. Confirmed with GIS and MSP that the WRTs have canvassed the zip code area 48502, when the teams canvassed zip code area 48503 that completely surrounds the 48502 area. Map provided in Activity Log.

EXECUTIVE SUMMARY

The CHECC remains activated at Level 2, and communications have been maintained between the SEOC and CHECC.

RADM Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

Held a conference call this morning with SAMHSA and the local Community Mental Health agency to discuss coordination. Technical assistance from SAMSHA was offered to CMH if requested. The National Disaster Distress Hotline is operational and listed on the Flint Water website.

Addresses for medically dependent individuals was provided to GIS and maps were produced indicating whether or not they have been reached by the Water Response Teams. Additional information from logistics is necessary to determine whether these individuals were contacted by the "hot shot" operations for special requests to receive assets.

Contacted the GCHD regarding the status of reaching-out to restaurants in the affected area. Coordination was discussed with MDARD as to the plan or process for ensuring that restaurants receive the resources that they may potentially need (i.e. filters, filter cartridges, etc.). Additional coordination and planning is necessary. GCHD Emergency Preparedness Coordinator provided a point of contact from their Environmental Health Division for MDARD to reach out to.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The CHECC remains activated at level 2, and communications have been maintained between the SEOC and CHECC.

Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived in MI and is meeting with the Governor this afternoon. Dr. Lurie will be meeting with the MDHHS Director, Nick Lyon; MDHHS Chief Medical Executive, Dr. Eden Wells, and other MDHHS leaders tomorrow morning. She will then meet with the CHECC and will follow with a briefing at the SEOC by Captain Kelenske. Following the SEOC briefing, she will be escorted to Flint. It is anticipated that she will provide some local one on one media interviews as she tours various sites in Flint.

Additional Federal partners have also arrived in MI, including Anthony Voirin, the Region V ASPR representative for MI; CDC representatives from the Agency for Toxic Substances and Disease Registry (ATSDR) and National Center for Environmental Health (NCEH).

The National Disaster Distress Helpline has been activated to support the Disaster Behavioral Health response. A phone conference was conducted today to connect Genesee County Community Mental Health with the helpline.

The CHECC continues to operate a phone bank to answer questions related to lead or legionella referred from 2-1-1. This is in response to a request from Genesee County Health Department.

Addresses for individuals who are dependent on medical equipment in the home, were provided to the SEOC GIS section to ensure that all of the at-risk individuals in this population have received the resources that are being provided by the Flint Water Response Teams in the door to door campaign.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) -- that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Communications have been maintained between the SEOC and the CHECC, which remains activated at a level 2.

The CHECC was notified that the CDC Agency for Toxic Substances & Disease Registry will have a team of 3-5 people in MI as early as Wednesday this week. This team is coming to MI to provide technical assistance as part of their regular mission. Details are still being worked out with the MDHHS Division of Environmental Health. FEMA and SEOC Incident Command have been made aware.

The CHECC provided an update from the Midwest Kidney Network (ERSD Network 11. "At this time, no dialysis related ramifications have been identified or reported to Network 11" for this at-risk population. The information was shared with LARA as the licensing agency for dialysis centers.

EMpower data has been received which identifies individuals who are dependent on electrical medical equipment in the home. The data is being cleaned for redundancies and will be able to be compared with other data sets to ensure that those at-risk individuals are not missed by the Flint Water Resource Teams that are distributing resources door to door.

The CHECC continues to work with the Behavioral Health and Developmental Disabilities Administration (BHDDA) to address behavioral health needs associated with this incident in collaboration with CMH and SAMHSA.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

To support and provide information to the CHECC Disaster Behavioral Health planning lead, MDE was inquired regarding potential application for the "Project School Emergency Response to Violence," (SERV) grant. Follow-up was received from Louis Burgess who indicated that information will be gathered by MDE regarding this grant to determine the applicability and feasibility.

Provided MDHHS PIOs with drafted letter developed by the CHECC and reviewed/approved by Dr. Wells, Dr. Johnson, and April Swartout, for approval from the JIC to be signed and sent to GCHD. This letter serves to encourage Genesee County pediatricians to accept and use portable lead analyzers being offered to them by the GCHD. This letter was approved by the JIC this afternoon, pending minor edits. The final version of the letter will be provided to the SEOC State Director for approval before sending to GCHD.

Provided a MDHHS timeline of Flint Water-related activities, to date, to the Operations Section Chief as requested. This timeline included both health and human services statistics such as water and filter orders, number of blood lead tests conducted, and data on the number of elevated blood lead levels reported in children (categorized by age) in Flint.

Coordinated with the JIC and CHECC on nutritional information available online, as well as the possibility of activating the Disaster Distress 24/7 helpline through SAMHSA. These two projects are a work-in-progress to be further facilitated by the subject matter experts working on them later in the week.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend). Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates. Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon. In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department. Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined. Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders. This will be discussed further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate. Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Coordinated with the Community Health Emergency Coordination Center (CHECC) on activities involving nutritional planning, gathering information on disaster behavioral health, drafting a timeline of Flint Water-related activities, financial tracking, health communications, and hotline activities. The CHECC was also asked to investigate an inquiry received in the SEOC from the LEOC regarding mobile lab operations. The lab was informed of the proper mechanism for integration into the existing structure fro the response through the Local Health Department and the necessary registration and reporting requirements to the Childhood Lead Poisoning Prevention Program (CLPPP). This information was provided to Capt. Kelenske and the JIC.

Due to the LHD being closed for furlough, weekends, and holidays, the CHECC stood-up a hotline this morning and has already received a number of calls from the public. The hotline will be staffed from 8:00 AM - 5:00 PM through the weekend and on Monday, 1/18/16.

Nutritional planning is occurring through multi-agency coordination, facilitated by a lead identified in the CHECC. A new task for this project was assigned today for the development of a distribution strategy of lead and nutrition information materials. JIC approved for the EPA's "Fight Lead Poisoning with a Healthy Diet," pamphlet to be disseminated.

Communications continued with Substance Abuse and Mental Health Services Administration (SAMHSA) regarding the potential resources for Disaster Behavioral Health and the Disaster Distress Helpline.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Communications between the JIC and the CHECC have been maintained throughout this operational period for information sharing and progress reports on tactics identified in the form 204. MDHHS reviewed and commented on the letter that will be submitted to FEMA for a presidential declaration. Assistance was provided for a special needs individual to receive additional water in collaboration with the local EOC. A resource document was provided to the CHECC lead for the nutrition plan. The document contains multi-agency resources to be considered for inclusion in the plan. The CHECC will be open and staffed over the week end and the holiday and will be covering the GCHD hotline.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Communications have been maintained between the CHECC and the SEOC throughout this operational period. MDHHS, MDE, LARA and MDARD have collaborated on the beginnings of a nutritional plan that includes educational components, consistent messaging across agencies, short term and longer term goals to address the "food desert" that exists in Flint. Information obtained was provided to the CHECC and a lead has been assigned to further develop this multi agency the nutritional plan .

The CHECC began to assess needs and resources to address disaster behavioral health needs for citizens and responders associated with this response. Contact was initiated with the Substance Abuse and Mental Health Services Administration Disaster Technical Assistance team. Discussed disaster behavioral health resources with FEMA V Disaster Recovery Coordinator.

CHECC Continued communication with LHD EPC to determine additional support that may be required.

The CHECC continues to track responses to volunteer availability through the MI Volunteer Registry.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Provided lead health impact information requested to planning section for presidential letter.

Tasked CHECC with coordinating with Sue Kangas and Farrah Hanley to track financial expenditures.

CHECC is working to ensure that contact lists are current in the MI-Volunteer Registry, should volunteers from the registry be needed. Tracking responses from MI-Volunteer Registry query.

Received confirmation from MDHHS Environmental Health regarding NSF certification requirement for filtering lead from water.

CHECC is coordinating with HHS to obtain EMPower data regarding medically dependent individuals in Flint.

Requested that the CHECC contact Lowes regarding the ability to purchase Brita faucet filters.

Confirmed that +100,000 sq. ft. is available in Lansing through MDHHS MOU with private sector partner. On standby if these resources are necessary.

"Enhanced Lead Testing Guidelines Recommended for Children in Flint, MI," developed by Dr. Wells, was sent to healthcare providers via Medscape - WebMD at 0700 today.

Community Health Emergency Coordination Center (CHECC) is activated at a Level 2 - Partial Activation, consisting of BETP leadership staff and CHECC Section Chiefs.

Provided daily summary to executive leadership.

EXECUTIVE SUMMARY

Coordinating with MDE and MDARD on nutritional planning communications.

Coordinating with the CHECC to determine status of ETC lead investigator(s) request.

Requested that the Human Services EMC have visibility of CHECC Activity Logs.

Task assignment for IMATS support has been re-assigned to the CHECC.

Requested that the CHECC research the availability of volunteer support for the door-to-door operations.

Spoke to the Local Health Department Emergency Preparedness Coordinator regarding the data entry of distributed filters. She is currently collecting all of the information cards from various locations and working with American Red Cross volunteers to get that data entered into the database as quickly as possible.

CHECC will be looking into the nutritional planning for MDHHS.

Held a conference call with CHECC leadership staff to discuss activities. Reassigned the request for information from the Bureau of Epidemiology to the CHECC to facilitate.

The Community Health Emergency Coordination Center (CHECC) has officially elevated it's level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Spoke to MDHHS PIO regarding the issue of water sampling test kit instructions not being provided with the test kits given out on 1/09/16 at one resource site location. DEQ confirmed with American Red Cross that local volunteers are making photocopies of the instructions to ensure adequate supply going forward.

Spoke to LEOC logistics regarding potential state facility resources available via MOUs between the private sector and MDHHS. The status of this resource request is on hold.

MDHHS EMC for ESF#8 was appointed as Health Branch Director in the SEOC. Branch consists of MDEQ, MDARD, and MDHHS (health side only).

Spoke with the JIC and MDHHS leadership to determine the need for a 24/7 phone line for questions regarding health and Flint water. It was determined by MDHHS, the JIC, and LHD that the message would instead be to call 2-1-1 or contact their primary care provider, rather than setting up a separate toll free number.

Confirmed with the JIC and the LEOC in Genesee County that updates to 2-1-1 on water resource sites that are listed on the pre-recorded 2-1-1 message will be provided to 2-1-1 daily by the JIC.

Confirmed with Tom Page, Executive Director of 211, that the 211 pre-recorded message for Monday, January 11, 2016, will include a listing of the water resource sites by zip code in Genesee County.

Held a conference call with CHECC leadership and MDHHS ESF#6 EMC to discuss the CHECC level of activation.

Community Health (MDCH)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
MDHHS is collaborating with the MDHHS PIO in the JIC to provide health related information for the document that will be delivered to all homes in Flint. Collaborated with LARA to obtain a contact list of all health professionals in Genesee County for distribution of Guidelines for Lead Testing in Children. Per Genesee County Health Department, all inquiries about lead testing are being referred to 211 or their individual healthcare provider. Dr. Eden Wells, Chief Medical Executive, participated in the Congressional Briefing.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Back | Archive | Create PDF

EXECUTIVE SUMMARY

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Advised senior leadership of forthcoming FOIA process request.

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

Identify communications and logistics barriers not presently addressed in current operations plans

Identify marginalized communities at greatest risk of exposure and with limited means of accessing services, including information flow

Provide notice to community groups and social service agencies of available resources for targeted communities

Upcoming Operational Period

List 3 Major Objectives

Solidify engagement with community groups interested in participating with water distribution teams

Identify channels for distribution of non-English information on current crisis and resources

Transmission of addresses for mapping from alternative distribution/engagement/outreach site(s)

CONCERNS / ISSUES

Concerns / Issues:

Information is available through websites that may not be linguistically or technologically accessible to at-risk, marginalized communities within the Flint area.

Door-to-door outreach with capacity to engage LEP/Non-English speaking populations. Material preparation and distribution to same.

Is the agency ECC Activated?	
Agency facilities/operations impacted?	None

DISABILITY ISSUES

Per MDARD, lead contamination in water has the same impact on animals as humans - this may have an impact on service animals used by persons with disabilities. Service animal hydration will be an issue, particularly during cold months.

CIVIL RIGHTS INFRINGEMENT ISSUES

Availability of non-English fact sheets, forum participation, and information flow relative to risk, resources, and recourse.

Last updated by bishopm3@michigan.gov on 2/11/2016 16:01:30

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Suggested safety planning be considered in routine contacts with community groups due to increased media exposure and propensity for detractors to target those groups. Discussed App development with GIS and MDCH for self-reporting of skin rash concerns and issues raised in press release #28 for underrepresented/vulnerable populations. Suggested MDEQ/DHS Teams include an interpreter to ease the teams entry/action plan for addressing >150 ppb residential testing follow up.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities.

Forwarded Metro Times assessment of Bill Signing event coving Flint Recovery to MSP-SEOCPIO in follow up to last week's discussion on same subject:
http://www.metrotimes.com/blogs/archives/2016/02/01/gov-snyders-flint-aid-bill-signing-a-pr-disaster

Reviewed coverage of Baltimore Pastor Dr. Jamal Bryant's mid-day "The Environmental Justice Rally" today
The assembled group has collected some 47,124 bottles of water. The collection of water will be distributed among six churches: First Trinity M.B. Church, 1226 Beach Street; Cathedral of Faith Church of God in Christ 6031 DuPont Street, Christopher Martin, Pastor; Quinn Chapel AME Church 2101 Lippincott Blvd, Rev. Gerald Cardwell, Pastor; United Outreach Ministries 1429 Roosevelt Ave., LeMarcus Keels, Pastor; and Kingdom of Heaven Ministries 2430 Dutcher Road. The rally was open to the public and Flint, MI Mayor, Karen Weaver was scheduled to give remarks. See more at: http://afro.com/baltimore-pastor-jamal-bryant-heads-to-flint-to-lead-environmental-justice-water-rally/#sthash.L6lr1UiT.dpuf

Discussed Hispanic/Latino outreach with LARA and use/distribution of resource materials in Spanish; discussed grass-roots activity vs Water Resource Teams engagement

Discussed with MDE and DHHS data inquiry of individuals who may have left the respective Flint service areas for other Michigan or national points of service - may be a possible avenue for finding at-risk/high risk individuals exposed or entitled to services

Forwarded list of Departmental activities to Planning inquiry:

* Michigan Department of Civil Rights (MDCR) continues to try and track down information/materials that have been or are scheduled to be translated into foreign languages and American Sign Language (ASL). MDCR is also trying to confirm what has actually been distributed on the ground in Flint and to whom/which agency or entity. (We have been getting many questions from various organizations related to these communities).

* MDCR Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues on 02Feb16 in Flint

* The Hispanic/Latino Commission of Michigan will host its business meeting on Wednesday, 03 Feb from 12:30-14:45 at the Hispanic Center of Western Michigan, 1204 Grandville Ave. SW, Grand Rapids, 49503. LARA Director Zimmer will attend the meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA)

* MDCR Communications Director Vicki Levengood will be at the JIC 03 Feb and 04 Feb (Wednesday and Thursday)
* MDCR Communications Staff Lisa Collins will be at the JIC 02 Feb and 03 Feb (Tuesday and Wednesday)

AGENCY INCIDENT OBJECTIVES

Current Operational Period

MI CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Provided contact information for community group to provide additional water filter data to GIS. Shared additional Flint demographic data with staff from the American Community Survey. Today Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). Each commission will continue working to enhance economic opportunity, prevent discrimination and encourage cultural awareness. LARA is the home of the Office of New Americans, and the move will help streamline the human resources and budgetary functions of each commission. The transfer will take effect in 60 days.

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. The Michigan Civil Rights Commission (MCRC) has adopted a resolution to hold hearings on the Flint water crisis starting in the next 30 days; will post/forward a copy of the resolution once it becomes available. Pursued copies of the palm card/door hanger and water sampling instructions in all available languages. Reviewed media coverage of local protests and weekend water delivery/community engagement activities. Addressed concerns received from staff from community and advocates through internal channels.

AGENCY INCIDENT OBJECTIVES

Current Operational Period
List 3 Major Objectives
Identify communications and logistics barriers not presently addressed in current operations plans
Identify marginalized communities at greatest risk of exposure and with limited means of accessing services, including information flow

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Requested clarification on data capture and ID validation at PODs for water and filter distribution, mapping, and messaging as to same. Posted SOM lists of available translators/interpreters (rev. Dec 2015). Briefed senior leaders MDCR on current operations and issues. Engaged community group as possible bi-cultural/bi-lingual resource for water resource teams; will follow up with Logistics as possible service donation. Confirmed 2-1-1 has language line capacity for handling non-English speaking calls within 60-90 seconds of learning of language need.

AGENCY INCIDENT OBJECTIVES

Facility Impacts

DEQ continues to reach out on water testing.

School related issues

Stevens Hall. The contractor is working to replace the old faucets in the facility with new ones. Since September 2015, no students have been drinking unfiltered City water at Michigan School for the Deaf. They installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories.

Education (MDE)

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

1. U.S. Department of Education visit to Flint on February 12, 2016. Scheduled at 0830 at GISD. Agenda to be developed. DHHS staff will also attend the meeting. No other state agencies are needed to send representatives.

USED:
Dan Schreier, OSEP, Part B
Charlie Kniseley, OSEP, Part C
Paul Kesner, Office of Safe and Healthy Students
Sujeet Rao, Office of the Secretary of Education
Tahira Rashid, Office of School Support (Elementary and Secondary Education Office)

MDE:
Teri Chapman, Office of Special Education
Jan Weckstein, Office of Special Education
Mike Radke, Office of Field Services (Title Programs)
Sherri Boyd, Michigan Alliance for Families (Michigan's Parent Information Center)
Harvalee Saunto, Michigan Alliance for Families
Caryn Pack-Ivy, Michigan Alliance for Families
Kyle Guerrant, Deputy Superintendent

2. Emergency Funds for Flint include $340,000 for Flint Community Schools to hire/contract school nurses.

Education (MDE)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

1. Michigan School for the Deaf parent meeting on February 9, 2016. Dr. Eden Wells and Dr. Johnson (Genesee County Medical Executive), did a presentation and answered questions. Only 12 parents and staff in attendance. Local media showed up late. Positive atmosphere.

2. Submitted Genesee ISD racial/ethnic information to State Director of Operations. Information prepared in conjunction with GISD (2/9/16).

3. MDE's office of Great Start reported 13 children with Flint addresses served by Carmen-Ainsworth Early Head Start Program. Requesting names and addresses to be forwarded to DHHS.

4. Dr. Katie Wilson, Deputy Under Secretary @ USDA Food Nutrition Services visited a Flint elementary school and the health department today (2/10/16) to discuss how USDA programs can help provide relief to those affected by water contamination. From that visit, came a media release that highlighted the efforts between the USDA, MI Dept of Education and all Health/Human Services partners to expand nutrition programs.

Stevens Hall. The contractor is working to replace the old faucets in the facility with new ones. Since September 2015, no students have been drinking unfiltered City water at Michigan School for the Deaf. They installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories.

Last updated by malnarj1@michigan.gov on 2/10/2016 16:59:19

EXECUTIVE SUMMARY
1. Michigan School for the Deaf will hold regularly scheduled parents meeting on February 9. MDE will have a public affairs rep; JIC notified. Dr. Eden Wells will also be in attendance. Media coverage is expected. 2. MDE portion of the Flint Water Emergency Funds have been approved as of February 8, 2016. Flint Community Schools and Genesee Intermediate School District have been notified.

MI CIMS

Education (MDE)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
1. Donations Management Group asked MDE for information regarding which schools in Flint have drinkable water and which schools do not. This request was in response to schools turning down bottled water. Donations management wants verification of what schools need water. MDE is following-up with impacted schools. MDE will update the Donations Management Group when further information is received. 2. MDE participated in a conference call, Friday (15:00) being coordinated by MDARD and related to school testing 3. As a result of conference call, MDE tasked with providing LARA a listing of all educational programs (Non Public) that are within impacted zip codes that are not registered with MDE as a school/entity (Non Publics are not required to register with MDE). 4. MDE is working to provide a spreadsheet to DHHS with the names and addresses of all Flint kids enrolled in Early Head Start/Head Start under age 6. The information will be compared to the list of children who have had lead testing.

EXECUTIVE SUMMARY

1. Michigan School for the Deaf. Report from MSD that two of the three new drinking fountains were installed this past weekend (Jan 30-31). Landlord said he anticipates this weekend (February 6/7), to install final new drinking fountain. Based on that, MSD will contact Joe Madziar on Monday (8 February), to establish a tentative date for LARA to schedule Stevens Hall testing.
2. MDE was contacted by Senator Stabenow's office. Her representative was very interested in CEP and the schools in Flint. We sent her some info yesterday. She also told us Stabenow's office is available to assist us in any way they can. We will continue regular communication with her and keep SEOC posted.
3. MSD reports they received confirmation that Dr. Eden Wells, Chief Medical Executive of the Michigan Department of Health and Human Services, will be attending the February 9th MSD parent meeting to address any parental concerns regarding lead exposure.
4. MSD reports visit by Dr. Jamal Gwathney, representing the U.S. Department of Health and Human Services. He said his agency is part of a coordinated federal response involving HHS, FEMA, and CDC. He asked background questions about the school's response to the water crisis, and offered to assist MSD with any unmet needs. He seemed satisfied that the school's needs are met.
He asked about other potential contacts within the Deaf Community, and MSD referred him to Communication Access Center (CAC). They are the local non-profit group that runs several group homes for Deaf people, a Deaf senior citizens program, interpreter services, and provides contracted staff to MSD.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
1. Provided spreadsheet to LARA, as requested, with detailed child care provider information for Genesee County. 2. Provided requested data to DHHS, with breakdown of students ages 5-10 that reside within impacted zip codes. 3. Uploaded spreadsheet to Activity Log from GISD with listing of student enrollment in all districts of students that reside within impacted zip codes, by school district and age of enrolled students, ages 0 to 21+. 4. GISD is critical MDE partner in communication to local districts. 16,424 students that reside within impacted zip codes attend 35 Public/PSA districts in Genesee County. Nearly 11,000 of those students attend a district/entity other than Flint Community Schools. 1,424 are less than Kindergarten aged (0-4) and enrolled in Early On programming through GISD.

DEQ continues to reach out on water testing.
School related issues
Stevens Hall. The contractor is working to replace the old faucets in the facility with new ones. Since September 2015, no students have been drinking unfiltered City water at Michigan School for the Deaf. They installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories.

Education (MDE)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
1. MSD reports that LARA has tentatively scheduled Stevens Hall for testing on 5 and 6 February. 2. MSD is coordinating with parents to get their consent forms for Genesee County Health Department blood testing on February 8. 3. MSD reports they have been getting abundant water donations. 4. Marla Moss reports Vista Fletcher, USDA Branch Chief, School Nutrition Programs and Food Distribution, is onsite in Flint. 5. GISD (Dr. Treder) has shared a detailed listing, by school, of students residing in impacted zip codes from Early Childhood-grade 5 students and by age groupings. Work continues in this regard

EXECUTIVE SUMMARY

1. The Michigan Department of Education (MDE) is requesting additional USDA Commodity Foods under the Household Disaster Feeding Distribution program from the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS). These additional foods will be distributed to eligible TEFAP (The Emergency Food Assistance Program) participants by current distributing agencies within the 16 affected zip codes for the Flint Water Crisis.

2. USDA approved the request from the Michigan Department of Education (MDE) submitted on January 21, 2016, seeking additional federal funds in the amount of $62,700 for immediate expansion of the Fresh Fruit and Vegetable Program (FFVP) in Flint, Michigan.

3. Michigan School for the Deaf report that Lieutenant Governor visit went very well. No issues reported.

Education (MDE)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Michigan School for the Deaf: 1. Landlord's action plan added to MiCIMS. 2. Team of LARA and DEQ staff have mapped school building and LRC dorm building for water testing. They will be back 1/23 for collecting samples in those areas. 3. Testing in Stevens Hall dorm will be delayed until after faucets are changed and 3 new drinking fountains are installed. Drinking fountains are on order and probably will not be installed until next weekend, meaning testing in Stevens Hall is probably at least two weeks away. 4. Plumbers have begun swapping faucets in Stevens Hall and are planning to be finished by Sunday evening. 5. Genesee County Health Department (GCHD) to be at MSD blood testing students whose parents consent; February 8th. 6. MSD is polling staff to see if there is sufficient interest to have GCHD set up a blood testing clinic for all state and contracted staff. 7. Working with DHHS to have a health expert attend the February 9th parent meeting.

MI GIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
MDE is monitoring the situation and coordinating as necessary with other state agencies. Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25. The State Superintendent sent notice to school districts, public school academies, and non-public schools on donation and volunteer opportunities related to the Flint water crises.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Back | Archive | Create PDF

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

Coordinated school sampling with DLARA.

Coordinated delivery of test kits for Michigan Works.

Deployed Sentinel water sampling collection crews and continued data collection and monitoring.

Continued assembling data for EPA Emergency Administrative Order and second EPA request.

Tracked progress of data collection for Sentinel water testing sites.

Reviewed incident objectives to reflect activities for the upcoming week.

Conducted an After Action Review focused on Sentinel sampling effort.

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

Coordination with state, local and federal agencies.

Continue MDOC supported transport of water samples and kits to and from the lab.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today:
Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow
Worked with DEQ lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main break.
Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.
Reviewed upcoming deadlines from EPA Order tracking spreadsheet.
Coordinated putting together sentinel site teams .
Briefed updated Incident Objectives to reflect activities for the upcoming week.

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

Research of copper reduction certified filtration systems. 31 homes with elevated copper results >1300ppb. Local EOC will coordinate contacting residents; provide bottled water and health information, retest and develop plans for reverse osmosis filtration installation.

143 samples were received at the laboratory

- Continued work on closing communication and administrative gaps.
- Produced tracking sheet for the request by U.S. Congressional Committee of Energy and Commerce.
- Reviewed upcoming deadlines from EPA Order tracking spreadsheet.
- Organization Chart was updated.
- Updated incident objectives to reflect activities for the upcoming week.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

One team comprised of DEQ and DHHS staff continued with contacting residents and providing services. The team contacted 13 residents on February 4, 2016. All those agreed to participate in sentinel sampling and further assessments.

Access to the Flint Water website was gained to provide for the ability of department staff to upload EPA reports.

Finalized sentinel sampling plan to commence activities beginning February 10th, 2016.

Received 12 iPads for deployment with teams for status tracking.

Continue to establish and clarify protocol for sampling teams and developed mobile data collection software application ("Collector").

Ensured that EPA deadlines from EPA Order Tracking spreadsheet (item 61) was completed.

Updated resource tracking (aka glide path) to include ECC and DNR personnel working on the incident.

DEQ ECC Organization Chart was updated.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued coordination for > 100ppb state response plan and implementation;

Requested development of an application for IPADS to collect information from high lead water test sites, in coordination and consultation with other agencies;

Refined plan for school water fixture sampling, in light of decision to replace fixtures at all schools

Resource maps of high lead level homes were updated with new data and provided to Operations

Shadowing for SITL, OSC and LOG positions for transition tomorrow

Finalize SharePoint protocol and file naming convention for incident documents

Continue to establish and clarify protocol for sampling teams and information collection

Information Flow Chart completed for document review, approval, and distribution

Ensured that EPA deadlines from EPA Order Tracking spreadsheet (items 59 A, B and C) were completed

Updated resource tracking (aka glide path) to ensure a smooth transition of IMT members.

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

Revamping results release to citizens. Developing a better way to relay results in "laymen terms."

Continue MDOC supported transport of water samples and kits to and from the lab.

Move forward with posting of information on website.

Upcoming Operational Period

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today: 382 samples were delivered to the lab this morning. Coordinated with EPA for participation on High Lead Home Strike Force. Coordinated with EMHSD for DEQ to obtain ability to upload DEQ reports to the Flint Water website. Finalized EPA tracking sheet and summary and worked on new tracking spreadsheets for EPA Flint Drinking Water Task Force and Safe Drinking Water Plan. All required postings made it to web by EPA timeline.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today: 205 test kits were delivered to the lab this morning. Assisted with website update to ensure documents can post in the "DEQ Reports to the EPA" tab. Developed a data spreadsheet with graphs of water testing results by month, showing total tests for four threshold categories. Continue to monitor results and update documents.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today:
Participated in the Unified Coordinating Group conference call.
Coordinated and facilitated conference call with partner agencies to discuss coordinated messaging.
Provided statistics on most recently available sample analysis data.
Creation and web posting of Summary of DEQ Actions in Response to EPA Emergency Order" and Talking Points.
Continue to clarify and provide consistent messaging.
Establishment of glide path for team members and replacements.
Coordinated GIS data, provided data for Director briefing with local officials and media.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today: Requested Michigan Department of Corrections to continue support of sample transport from collection sites to the DEQ Laboratory through February 15, 2016.

Provided updated test bottle orders to EMHSD finance.

Provided direction to all involved in supporting the efforts with local public entities regarding the need for credentialing.

Established procedure for participation of SEOC DEQ Representative in DEQ Emergency Coordination Center Planning Meeting.

Facilitated conversation with EMHSD and DNR-GIS reference statistical points relative to provided maps.

Lead service line mapping completed by DNR GIS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

Coordinated GIS support staff from DNR and EMHSD. ARC GIS accounts to be established for support staff, DEQ Director, DEQ EMC and DEQ SEOC Representatives to view all available data.

Requested modification to iPad application utilized by volunteer plumbers who are assisting residents with water filter installation to allow for capturing the water service line type.

Activation of the department emergency coordination center and establishment of SharePoint site.

Requested IT support for modification of laboratory Crystal Reports this has been fulfilled by DTMB.

Forwarded Holmes STEM Academy, Doyle Ryder Elementary and Potter Elementary Reports to SEOC PIO for posting to website.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today: • Coordinated for maps from MSP-GIS showing known lead service lines based off of geographical locations and zip codes. Wall maps provided for Chief Hagler, SEOC DEQ staff and Director Creagh. • Coordinated with the local plumbers and pipe fitters union who is providing free filter installs to provide future data showing whether houses are serviced by lead lines or not. Further coordination needs to happen to capture the data. • Samples transported to the lab today by MDOC. • Working on a MDEQ Flint working group secure SharePoint for information distribution for senior management.

MI CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities today: • Worked on posting water test results on line for in an easily understandable and transparent way. • Coordinated water sample pick up by MDOC and transport to the MDEQ lab in Lansing. • A senior center was identified as not having water so local staff supplied bottled water (week's supply). Arrangements have been made to resupply center as needed. No other facilities have been identified and those that need assistance are asked to call 211. • Began collaboration and coordination with U.S. EPA who arrived on-scene today.

• Continued providing support to the local emergency operations center.

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

- Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the local Emergency Operations Center and provide for water test kits for their use.
- Facilitated logistics for bottle delivery and water test kit assembly.
- Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
- Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
- Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

WASTE MANAGEMENT

Last updated by wolfj1@michigan.gov on 1/19/2016 16:31:22

EXECUTIVE SUMMARY

The Department of Environmental Quality (DEQ) completed the following activities today:

- Identified MDEQ employee George Krisztian to attend the Tuesday Flint health briefing.

• Coordinated one 24' trailer or truck to be delivered to the ARC HQ in Flint. This will be used to store water test kits once assembled by the ARC. Duration of request was 7 days.
• Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
• Provided support for possible transition of test-kit provision to FEMA
• Initiated expedited delivery of sample bottles already on order.

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

Coordinate 24' truck or trailer for ARC to store DEQ test kits once assembled

Coordinate MDEQ representation at the Tuesday Flint Health Meeting

Upcoming Operational Period

List 3 Major Objectives

SKU numbers to FEMA for test water bottles.

Environmental Quality (MDEQ)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) completed the following activities: • Direction provided to MDARD for food establishment sample collection. • Plumbing Investigation Team plan implementation project coordinator identified. Coordination with DLARA plumbing technicians to complete the mission as requested. • Additional SEOC support staff participated to gain knowledge of ongoing activities and processes. • Coordination with American Red Cross to establish warehouse space for test kit assembly. • Water test kit procedures were updated and provided to the Recovery Branch. • Coordinated laboratory data export for plotting in GIS. • Calculation of demand and supply needs for test kits and established appropriate thresholds to maintain an adequate supply.

AGENCY INCIDENT OBJECTIVES
Current Operational Period
List 3 Major Objectives
ID vendor contracts for procurement of water test bottles
Identify tasks associated with the receipt, testing, and labeling of new bottles at the GCCARD
Provide staff to assist with test kit assembly and oversite of volunteers and field observation assist with supply tracking
Upcoming Operational Period

EXECUTIVE SUMMARY
The Department of Environmental Quality (DEQ) Laboratory (lab) provided 1000 water test kits for stock at Flint points of distribution. 500 kits have been prepared for MDARD inspectors for pickup Monday morning. 1000 additional kits will be prepared for pickup Monday for supply for the teams scheduled to begin on Tuesday. 3000 kits are being ordered Monday morning to supplement stock. DEQ lab staff are scheduled to provide training to the teams in Flint on Monday afternoon. Contracts are being

identified and examined to possibly expand vendor capabilities for providing additional resources.

DEQ staff are coordinating with Licensing and Regulatory Affairs (LARA) for the implementation of the Freeman Elementary faucet replacement plan.

DEQ and DNR staff are supporting state and local activities where needed.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Met with MDARD & MDE on joint efforts regarding food service establishments and schools. Working with State VAL and Recovery on process for distributing replacement cartridges in the future. Participated on 10:00 conference call with GCHD. GCHD continues to get resources out. They have lots of federal agencies there, The NCCC team arrived 02/01/16, they are being oriented to the area and what efforts have already been completed. Provided logistics with information on bottle openers received from Aging and Adult and Civil Rights. This is to address the concern of some citizens with grip or strength limitations to open water bottles. Reached out to see if MDHHS might have existing data that would help identify high population / low income areas. CHECC continues to maintain a Level 2 Activation

Human Services (MDHS)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Two Genesee Co MDHHS offices continue to be points of distribution for filtration devices. Health and Human Services Branch met with LARA & MDEQ, conferenced in Steve Yager MDHHS Children Services Administration (CSA) on water testing of Child Care Institutions(CCI), and licensed foster care homes. CSA will provide list of CCI to LARA and will reference Flint Water website to cross reference foster homes with the intention of identifying if they have received the water and filters they need. Enter new resource request for a donations management email address. Flintdonations@michigan.gov. This email will need to be associated with one of the iPhones that was previously given to the donations management staff. Provided Donations Management with a template for additional staff resource request. This information will be useful in obtaining the help they are requesting. Had meeting with Donations Management and several branches of State and FEMA regarding donation and volunteer management. Going to schedule regular meeting on Wednesday with the group for weekly face to face updates. CHECC continues to maintain a Level 2 Activation

Human Services (MDHS)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Had conference call with local MDHHS Director for Genesee Co. Genesee Co MDHHS is taking a targeted approach for their foster care and adult foster care homes. They are calling every single one, inquiring if they have water and filter, then following up with an actual home visit to verify. All this gets documented in the case file. Arranged for inventory to be taken between GCCARD and warehouse. Provided donated goods resource contact info to several requesters. Confirmed single point of contact back to 211 with information requests from them. Updated resource request for pitchers. CHECC continues to maintain a Level 2 Activation

Human Services (MDHS)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests with water filtration products delivered today.

Participated in numerous briefs and conference calls, related to the response.

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today. Genesee MDHHS staff have been identified for Friday.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

We now has access to master filter address list and can get live numbers. This is the database that the local health department is maintaining and where all addresses are forwarded to. Shared this database with SEOC GIS

MDHHS coordinated water deliveries, which is the 93 pallets from South Carolina reported last Sunday, is as follows. Three semis were in Flint yesterday 1/13. The last two semis will be here Friday 1/15. This will conclude all water deliveries coordinated by MDHHS. Understanding DTMB is lead and will just assist through them.

CHECC continues to maintain a Level 2 Activation

EXECUTIVE SUMMARY
Participated in AM & PM State Agency briefings, Updated resource requests. Confirmed delivery to GCCARD versus Home Depot to complete the delivery of 2000 filters, 18,400 replacement cartridges. *Arranged for DTMB to pick up around 700 (23) cup pitchers from schools surplus. Plan is to split these up between the FDs.* Made contact with Menards to identify filters and replacement cartridges and relayed that information to DTMB for procuring options. Had conference call with MDHHS finance. They have concerns of the accountability of our purchases and who's driving the ordering. I explained the urgency and the process. They understand now and said carry on. Identified 16 MDHHS staff volunteers who will be assisting in the door to door distribution operation for Wednesday, Thursday, and Friday. 16 local MDHHS staff participated in the mission of the Water Resource Teams today. CHECC continues to maintain a Level 2 Activation

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Back | Archive | Create PDF

EXECUTIVE SUMMARY

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures. MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

We received the 2 additional box trucks for warehouse use to replace non-functioning trucks. Thank you DTMB.

Warehouse inventory has been modified to adjust for different sized containers.

206 Test kits were delivered from Flint to Lansing today.

AGENCY INCIDENT OBJECTIVES

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The MDOC staff manage and operate the warehouse to supply all of the P.O.D.S. (points of distribution locations) and have coordinated the following materials:

- Water Filters: 104,861 total to date
- Cases of Water: 303,720 total to date
- Filter Cartridges: 211,721 total to date
- Test Kits: 35,998 total to date
- Thousands of other supply deliveries from plumbing materials to palm cards.

The MDOC continues to operate both warehouses at this time.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout the weekend and will continue to be well supplied moving forward.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.
MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

DTMB is securing 2 additional box trucks for warehouse use to replace non-functioning trucks.

The Warehouse is working with Mike from FEMA and Logistics Branch to modify the inventory sheets to include 1 gal and 5 gal containers of donated water.

227 Test kits were delivered from Flint to Lansing today.

MI-CIMS Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
We continued operations at the warehouse and all PODs were well supplied. We continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies. 382 Water Samples were collected and delivered to the DEQ Lab in Lansing. We had 17 employees and an SAI work crew on the ground in Flint today. We continue to staff the SEOC from 0800-2000, 7 days/week. The overhead bay door was damaged yesterday by one of our drivers (Rod Ridgeway). It was reported to the Local EOC and Lt. Russo completed an accident report as there was damage to the facility.

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
We continued to streamline operations at the warehouse to assure that PODs are well supplied. Today was the second consecutive day the PODS did not run out of supplies. We will continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies. 203 Water Samples were collected and delivered to the DEQ Lab in Lansing. A total of 3 Semi-Tuck and Trailers and 3 full box trucks of water were and loaded today at the warehouse and delivered to the Home Depot parking lot for the large scale volunteer event with Red Cross. We are in the process of training backfill personnel for the staff assigned to the detail.

IMPACTS TO PAROLEE MONITORING

Last updated by travelbeeb@michigan.gov on 1/30/2016 16:15:08

EXECUTIVE SUMMARY

We continued to streamline operations at the warehouse to assure that PODs are well supplied. We will continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

14 Penske Trucks remain as of 1630.

333 Water Samples were collected and delivered to the DEQ Lab in Lansing.

MDOC had the following resources operational today.

(- MDOC employees

( ) - MDOC SAI prisoners w/Corporal

(1) - Passenger van w/driver

(1)- Regular Cab Pickup w/driver

(1) – F-250 Pickup

(5) – Box Trucks w/driver

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(1) – Warehouse Manager

(1) – Warehouse Security Person w/vehicle

MI-CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

The MDOC continues to operate the warehouse on Clio Rd. The primary mission of the warehouse is to manage the flow of water, kits , etc. to the residents of Flint. To that end, staff in Flint continue to work closely with the MSP and the National Guard to maintain a steady flow of product to the PODS in a timely fashion and other sites as determined by both local EOC and the SEOC. In addition to this mission we continue to deliver the test kits to DEQ for processing, today 564 test kits were delivered to DEQ in Lansing. We also continued the process of delivering loaned vehicles from Penske back to their point of origin.

For today's mission we had the following resource's and personnel on site in Flint:

( ) - MDOC employees

( ) - MDOC - SAI Provided one (1) person work crew

(2) - Passenger vans w/driver

(1)- Regular Cab Pickup w/driver

(1) – F-250 Pickup

(5) – Box Trucks w/driver

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(1) – Warehouse Manager

( ) – Warehouse Security Person w/vehicle

All vehicles drivers have 800 MHz Radio Operability

AGENCY INCIDENT OBJECTIVES

MI CIMS

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

At this time the MDOC has assumed responsibility for all warehouse operations. The *mission is to supply* the PODS (Point of Distribution) with water, filters and test kits. Additionally, we will be handling requests to support "rapid response" deliveries as directed for homebound residents and deliveries identified by the Local EOC and SEOC. Lastly, we will also be assisting in returning rented and donated vehicles to their point of origin.

We continue collecting and delivering water test kits from Flint to the DEQ lab in Lansing.

We will continue to fill resource requests and track/monitor all ground resources throughout the week and report the final assets in our daily reports.

The MDOC will have the following resources dedicated to Warehouse Operations for Tuesday, January 26, 2016:

( ) - MDOC employees

- MDOC SAI prisoners w/Corporal – SAI supplying

(2) - Passenger vans w/driver – SMT and RGC supplying

(1)- Regular Cab Pickup w/driver – Regional Maintenance supplying

(1) – F-250 Pickup – Mike Whitford and Lt. Fred Bevins supplying

(5) – Box Trucks w/driver – DRC, WHV (Vehicle Only) and Regional Maintenance supplying

(1) – 20 Person Shuttle Bus w/driver (Sent to Red Cross Volunteer Sight) – Mike Whitford and Lt. Fred Bevins supplying

(1) - 53' Refrigerated Semi-Trailer – Mike Whitford and Fleet Supplying

(3) - Electric Pallet Jacks - Regional Maintenance supplying

(7) – Hand Pallet Jacks - Regional Maintenance supplying

(1) – Warehouse Manager - Regional Maintenance supplying

) – Warehouse Security Person w/vehicle – TCF Supplying

All vehicles drivers have 800 MHz Radio Operability

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

We continue to fill resource requests and track/monitor all ground resources throughout the day and report the final assets in evening reports. Executive Team (MDOC) was briefed as follows:

1. The primary duty of our employees is to transport and support the (18) ten member Flint Water Resource Teams on the ground, going door to door providing water, filters and special individual needs. This team is made up primarily of Michigan National Guard troops and Michigan State Police staff.
2. Provide for the pickup and transportation of the water samples from the seven designated collection sites in Flint and deliver to the DEQ Laboratory daily.
3. Assist the Flint Food Bank to deliver/transport emergency food deliveries to ensure available warehouse space is available to receive additional emergency food items.
4. Provide pickup and delivery of water bottle testing kits from the warehouse to the American Red Cross so they can be assembled

and transported back to the warehouse where they will be delivered to the citizens by the Water Resource Teams.
5. Provide management and organizational support to the main 80,000 square foot main warehouse located on Clio Road.
6. Provide prisoner work crew support inside the warehouse to load and unload, stack water deliveries and assist in garbage/debris management.
7. The weekend operational period requires an increase in the need for logistical support due to the notable increase in available volunteers. Specifically, the weekend force is expected to increase by over 300 persons. Each of these volunteers will be assigned as a Flint Water Resource Team and require transportation, supplies, law enforcement security oversight and lunch. Our staff are a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.
8. Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. This assignment is currently set to expire Monday February 1 at 1930 hours.

All current resources will remain for Sunday 1/24/2016.

Corrections (MDOC)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Good evening all,

Today was another productive day, with the collaborative efforts of all responding state departments we were able to reach almost 7,000 homes today! The Michigan Department of Corrections has provided substantial resources toward the relief efforts. All of the resource requests have been filled, today we were able to provide a "gatekeeper" to the main warehouse. This request was pushed to our department based on the leadership skills of our staff. This is just one of the many "gaps" that the MDOC has been asked to step up and fill for the people of Flint. Please KNOW that the assigned staff have gone over and above to assist, aid and make a difference. I have been approached by several other agencies complementing our staff on their work ethic, positive attitude and professionalism. I am very proud of our staff and their efforts to provide clean and safe water to the people of Flint during this Governors Emergency

Declaration.

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

) - MDOC employees

(- MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Friday, January 22, 2016:

(- MDOC employees

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

You will be receiving updated information as we progress with the operation.

This information is not to be shared outside the agency.

Please feel free to contact Brent Travelbee, Mike Farmer or Todd Bechler with specific questions or concerns regarding SEOC operations.

Thank you everyone for your continued hard work!

Good Evening All,

The efforts continue to ramp up, we are carrying all of our current resources forward through Sunday, January 24, 2016 at 1700 hours.

If you have been extended through Tuesday, January 26, 2016 please continue to provide requested resources through that date. Additionally, we have added an SAI prisoner work crew to the efforts. I will contact all of the stakeholders tomorrow and confirm resources for the upcoming weekend.

The National Guard have multiplied the force in this effort and will increase our ability to carry the mission forward.

Please do not share this information outside of our department. Thank you again for all of your help and efforts, you are making a difference!

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

( ) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

If you have any questions regarding this evenings report, please contact Mike Farmer at 517-614-6902.

Mike Farmer on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All Requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Wednesday, January 20, 2016 as requested.

We are building up additional resources for Thursday, January, 21, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

- MDOC employees

(3) - 15 passenger vans

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

- MDOC employees

- MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

If you have any questions regarding this evenings report, please contact Mike Farmer at

Mike Farmer on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All Requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Wednesday, January 20, 2016 as requested.

We are building up additional resources for Thursday, January, 21, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

2 – 6 passenger vans

1- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

AGENCY INCIDENT OBJECTIVES
Current Operational Period
List 3 Major Objectives
Monitor and fill resource requests
Facilitate and coordinate the resources and communications
Maintain communication with both SEOC and Executive staff
Upcoming Operational Period
List 3 Major Objectives
Continue current objectives
Staff accountability and communications
Respond to all requests in a timely manner.

Technology, Management and Budget (MDTMB)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY

Continue to provide DTMB management with daily updates and resource requests received.

Two DTMB drivers were involved in an accident last evening upon return to Lansing. Their vehicle was hit from behind at an intersection. Both were treated and released and were medically cleared to return to work. The accident was reported to their supervisor in compliance with internal processes and protocols and they reported to Flint on Thursday morning for work.

Processed resource request for:
(2) 20 foot trucks to replace MDOC trucks that are out of service
Printing 3,000 more recycling cards

AGENCY INCIDENT OBJECTIVES

Current Operational Period

List 3 Major Objectives

Coordinate vendor and contract support for SEOC activities

Review MEMP and DTMB procedures and policies for roles and responsibilities

Monitor and respond to issues associated with state infrastructure.

Technology, Management and Budget (MDTMB)

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

EXECUTIVE SUMMARY
Continue to provide DTMB management with daily updates and resource requests received. Provided expenses to date to include personnel overtime from January 6 through February 6, 2016 to the Financial Chief. Coordinating equipment delivery for Pierson Road warehouse. Reconciled expenditures to-date for record keeping. Requested to acquire two replacement 16-20 foot trucks with 6 foot lift gates to replace two vehicles that have broken down to assist with water distribution.

LONG TERM DISTRIBUTION COA BRIEF

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Facts & Assumptions

Facts

- Move to long term distribution plan in 2-4 weeks
- EM Dec expires 14 April 2016
- FEMA can only procure H20 for 90 day
- One filter in every residence
- Stewardship {reports, oversight}
- Restore Confidence in Government at the Federal/State/Local level
- Desire to move to direct distribution of:
  - H2O filters
  - H2O Cartridges
  - Pitchers
  - H2O would still be at Pods

Assumptions

- Move State Distribution
- State will maintain commodities past 90 days?
- Does state want to pre-purchase commodities other than water?

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Criteria

- **Ease of Sustainability (5)**
  - **Must be sustainable for a year or longer with no disruption of service to the affective population. (less is better = fewest days of disruption)**
- **Ease of Implementation (5)**
  - **Time and effort to operationalize COA (less is better = least amount of time and effort)**
- **Cost (1)**
  - **Ability to implementation and sustain (less is better = fewer $$$)**
- **Public Perception (3)**
  - **Public has confidence in the long term distribution plan (less is better = measured as # of negative social media posts)**
- **Survivor Centric (4)**
  - **Most convenience to population (less is better = distance and available hours to pop)**

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Evaluation

		COA				
Factor	**Weight**	**1**	**2**	**3**	**4**	**5**
Sustainable	5	10	25	16	6	18
Implementation	5	8	18	15	13	11
Cost	1	15	10	13	21	19
Public Perception	3	14	12	8	15	7
Survivor Centric	4	12	14	13	8	14
	Unweighted	59	79	65	63	69
	Weighted	195	317	244	193	241
	Ranking	**2**	**5**	**4**	**1**	**3**

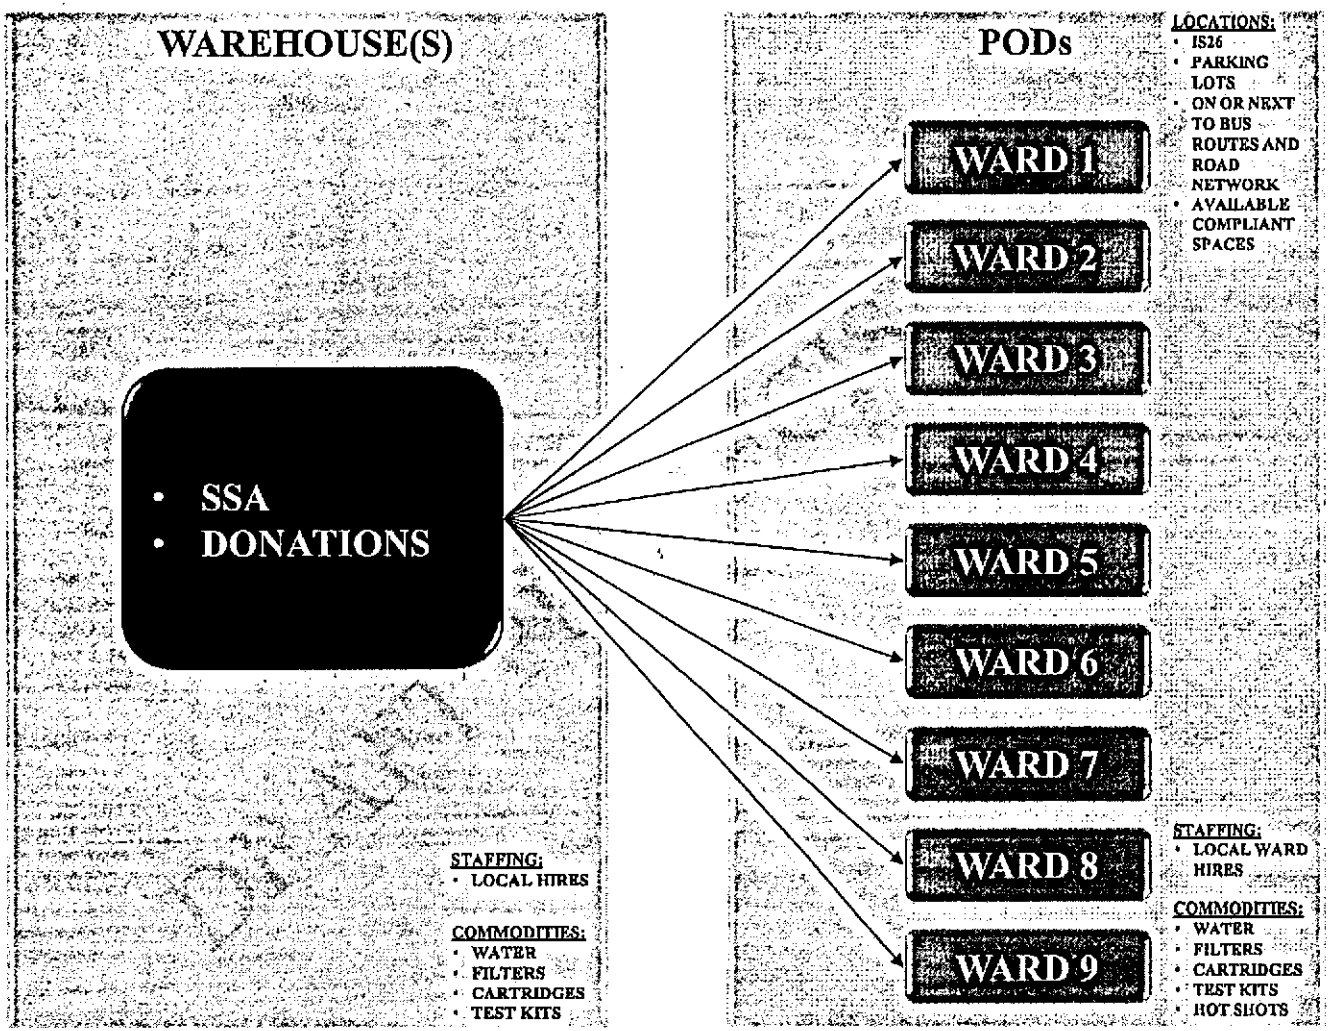
PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

COA #1: IS26

- **One Point of Distribution (POD) per Ward**
- **IS26 compliant checklist to identify locations**
- **Minimum Staffing: 9 per POD for 81 personnel**
- **Staffing would be provided all or in part by workforce development grants**
- **Location based upon**
  - Fixed Location (parking lots)
  - Utilize semi/box truck w/just in time commodities
  - Parking lot next to bus route &/or transportation route
- **Full Service POD:**
  - H2O, Filters, cartridges, test kits (only advertise H2O, cartridges and test kits) + Recycling
- **Rapid Response Teams for 211:**
  - 1 x 16' Penske
  - 2 personnel per POD to address vulnerable population in this COA
  - Approx. 3,000 vulnerable people; many are not mobile

PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1 Talking Points

STRENGTHS

- JUST-IN-TIME DELIVERY
- EFFICIENT, DEVELOPED, AND PROVEN SYSTEM
- ACCOUNTABILITY OF RESOURCES
- EASILY LOCATED
- MORE ABLE TO TRACK BURN RATES
- FOLLOWS FEMA-APPROVED GUIDELINES
- BUY IN AT ALL LEVELS OF GOVERNMENT
- ON-LINE TRAINING (EMI-IS)
- SCALABLE & FLEXIBLE
- WARD BASED
- BRIDGING STRATEGY USING NATIONAL GUARD & VOLUNTEERS W/IN LESS THAN 7 DAYS
- ROLE FOR FAITH BASED ORGANIZATIONS
- SUSTAINABLE LOCAL JOBS FOR 12 MONTHS
- PROVEN DISTRIBUTION STRATEGY
- # OF LARGE SITES TO PICK FROM
- STIMULATE FLINT ECONOMY
- ON BUS/TRANSPORTATION ROUTES
- NO PREDETERMINED SITES
- COUNCILMEN ACTIVE PARTNERS

RISKS

- POLITICAL RAMIFICATIONS
- STAFFING
  - TRAINING
  - RETENTION
  - VETTING

WEAKNESSES

- TRAINING AND CERTIFICATION
- TRACKING OF COMMODITIES
- HIGH COST OF BRIDGING STRATEGY ~$1M FOR 71 NG PERSONNEL PER MONTH
- STAFF SCALIBILITY LIMITED TO GRANT
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SEE EQUIP. LIST FOR IS26
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

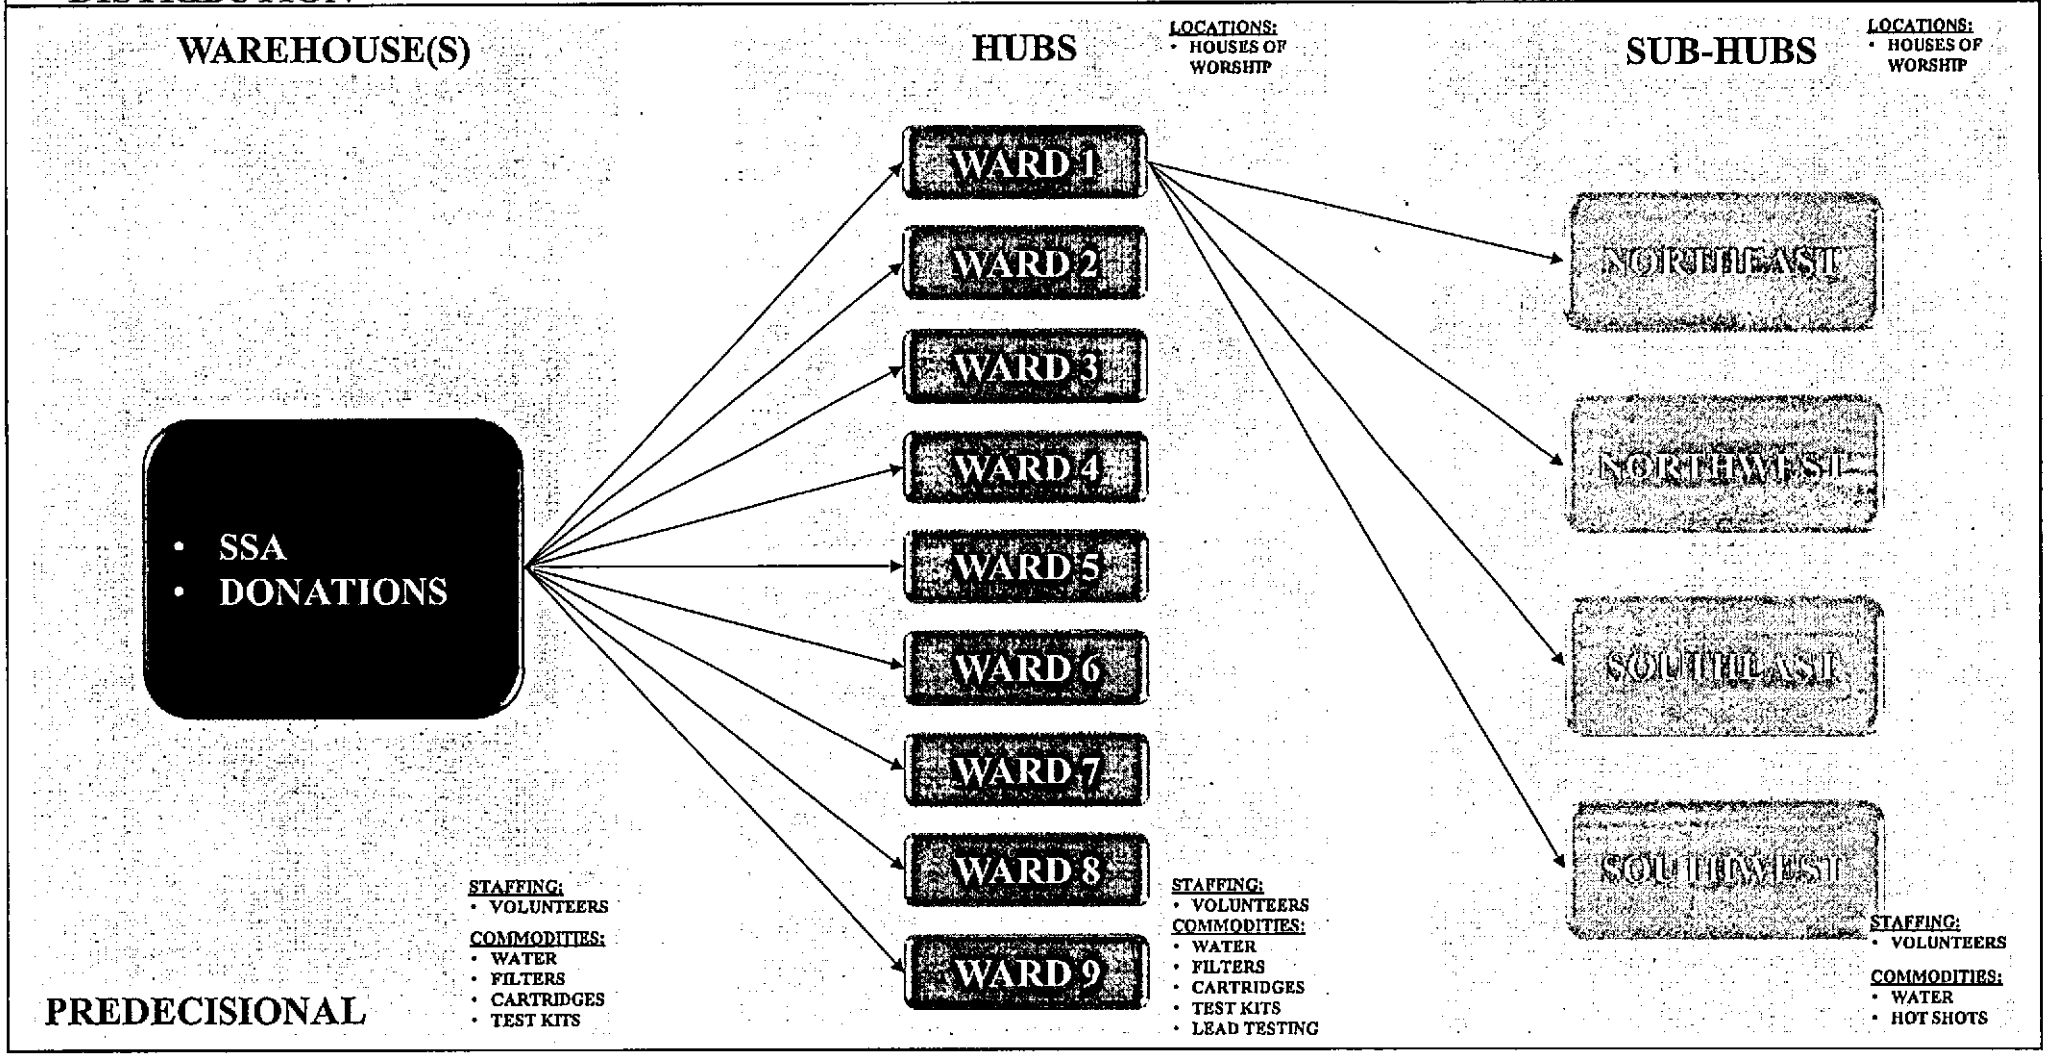
COA #2:Faithbased – 9 Wards w/ Hubs /4SH

- **Staff: Volunteers**
- **This plan is based on distribution centers to faith based organizations utilizing Food Bank and Red Cross distribution**
- **9 Wards; 1 Hub in each ward; 4 Sub-hubs in each ward**
- **Hubs:**
  - 4 commodities
  - Mobile lead testing clinic twice per week
    - For individuals without insurance; to include lead awareness testing, nutrition, and education
- **Sub hubs**
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2



PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED
- COMMUNTY GENERATED PLAN
- NO LABOR COSTS
- INCORPORATES STRATEGIC PARTNERS
- REDUCES TRAVEL TIME FOR RESIDENTS
- SURVIVORS CAN BE VOLUNTEERS

RISKS

- LOCATION SELECTION/AVAILABILITY: QUANTITY OF SITES
- RELIGIOUS SENSITIVITY (Internal discord among interfaith network)
- POLITICAL RAMIFICATIONS (Competing political interests)
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- COMMUNITY BUY-IN MAY BE AFFECTED BY DISRUPTIONS TO LOCAL COMMUNITY ACTIVITIES

WEAKNESSES

- STAFFING OF 459 VOLUNTEERS (ABILITY TO SUSTAIN)
- IDENTIFY 45 SUITABLE FACILITIES THAT MEET IS26
- VOLUNTEERS MUST BE TRAINED AND CERTIFIED
- VOLUNTEERS REQUIRE SPECIFIC SKILLS
- BACKGROUND CHECKS REQUIRED FOR RAPID RESPONSE TEAMS
- HOST ORGANIZATION MUST COMPLY WITH VOLUNTARY LABOR LAWS
- LACK OF CONTINUITY IN STAFF
- DIFFICULT TO MAINTAIN A SUPPLY CHAIN ACCOUNTABILITY OF COMMODITIES
- RAPID RESPONSE TEAMS WOULD NEED TO WORK OUT OF HUBS TO GET FILTER, *CARTRIDGES, & TEST KITS*
- IMPACTS & FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION AFFECTS OPERATIONAL STABILITY
- EXCEEDS SPAN OF CONTROL RELATED TO STAFFING AND SITES
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PERSONNEL INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS
- BRIDGING STRATEGY UTILIZING THE NG IS NOT VIABLE
- LACK OF EQUIPMENT/WEAR AND TEAR
- RELIGIOUS SENSITIVITY

EQUIPMENT, POLICY, PROCEDURES, ETC.

- 45 SITES
- EQUIPMENT LOG LIST
- STAFFING: VOLUNTEER POLICY CONSIDERATIONS
  - AGE, ABILITY
  - INSURANCE
- OFF-SITE EBL TESTING IS NOT SUPPORTED BY MEDICAL COMMUNITY
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS
  - RENTAL
  - MOU

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

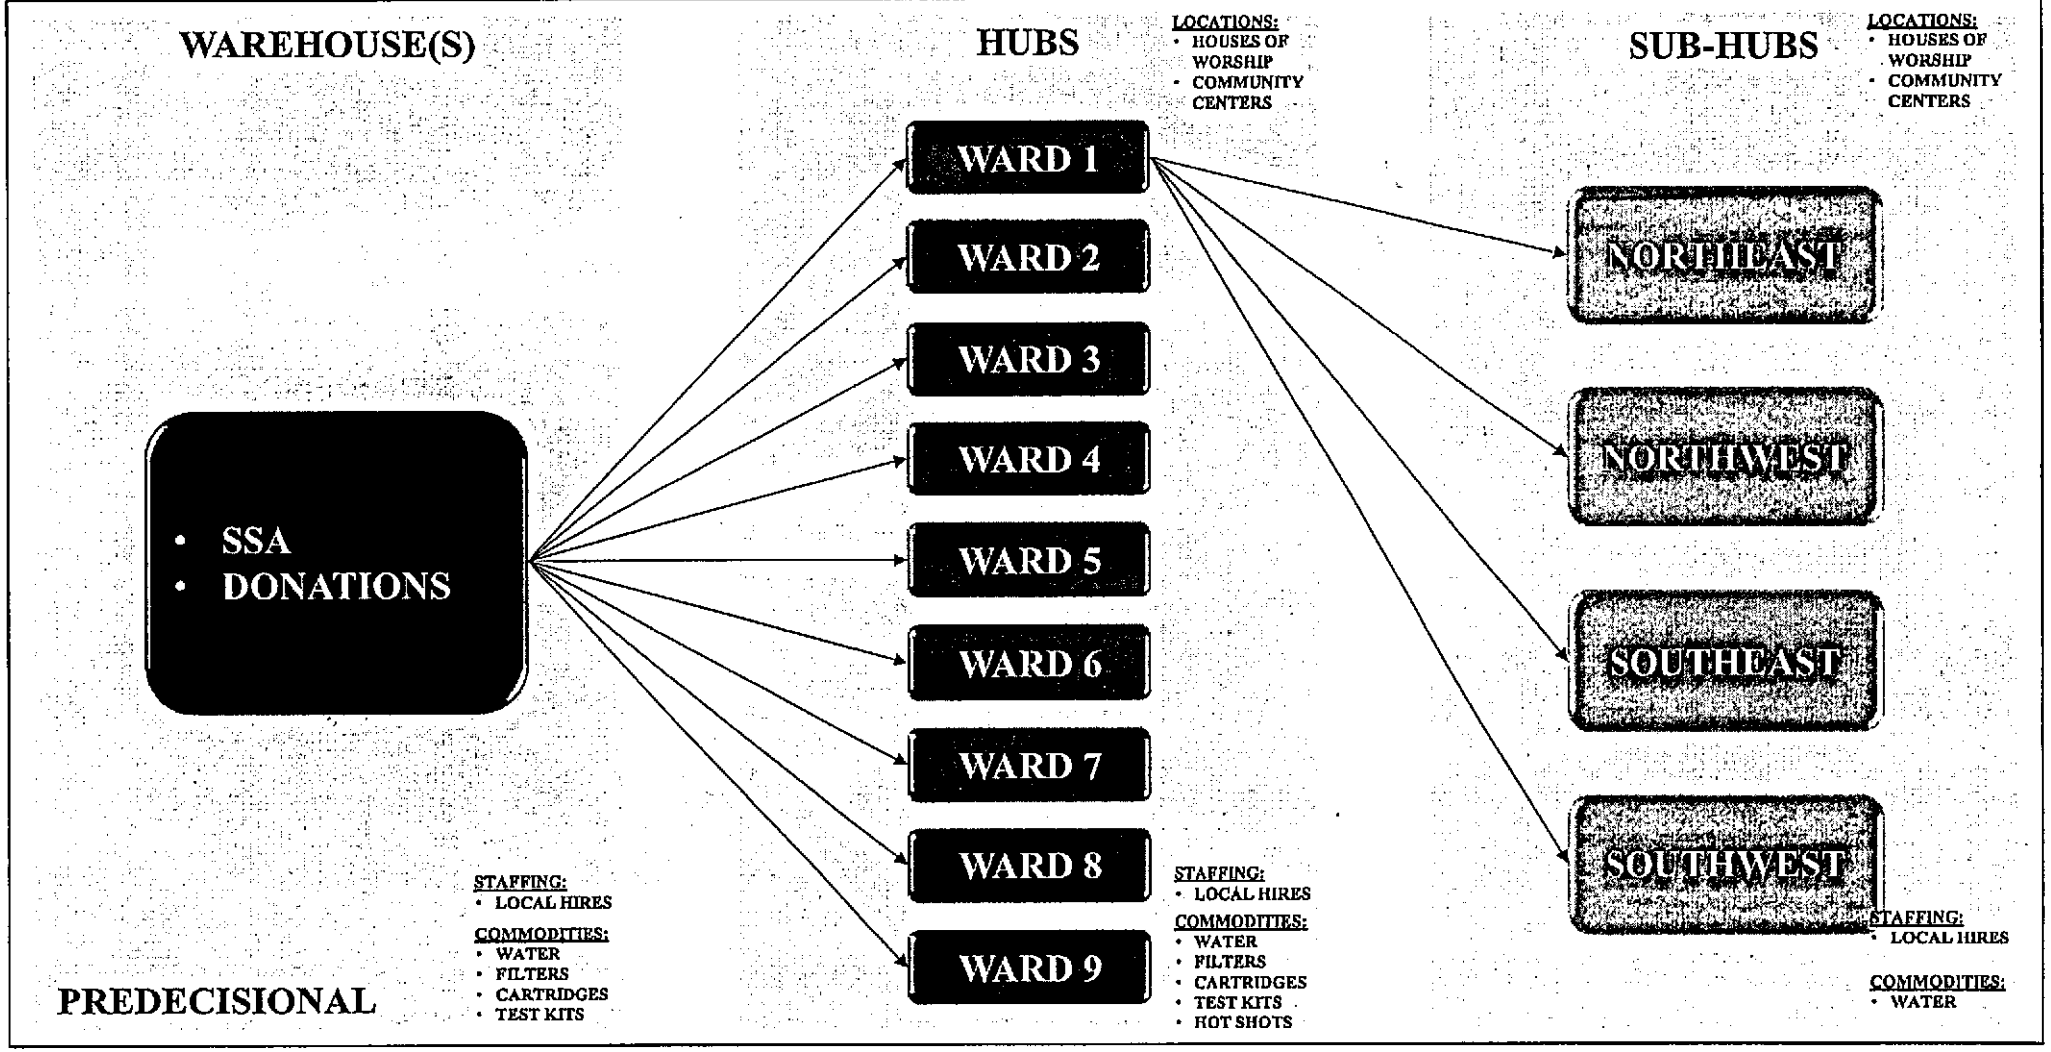
COA #3: WARDS: 9 HUBS/4 SH – LOC HIRE

- Staffing is hired full and part time
- This plan is based on distribution centers to faith based organizations utilizing Food Bank and Red Cross distribution
- Utilizing one hub in each ward and four sub hubs in each ward.
- Hubs will have all four commodities
- A mobile lead testing clinic twice per week for individuals without insurance at each hub (where they receive lead awareness testing, nutrition, and education on lead prevention tips for families)
- Sub hubs
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3



PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- SKILLED LABOR POOL
- RELIABLE WORK FORCE
- MONEY STAYS WITHIN COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED

RISKS

- LOCATION SELECTION/AVAILABILITY
- RELIGIOUS SENSITIVITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - LOCAL HIRING
  - TRAINING
  - RETENTION
  - VETTING
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- POTENTIAL CHANGING COMMUNITY CONCERNS

WEAKNESSES

- STAFFING OF 459 EXCEEDS GRANT CAPACITY (~200)
- FINDING 45 SUITABLE FACILITIES
- TRAINING AND CERTIFICATION
- FUNDING SOURCE
- CONSISTANCY
- ACCOUNTABILITY OF COMMODITIES
- HOW DO RAPID RESPONSE TEAMS GET FILTER, CARTRIDGES, & TEST KITS WORKING FROM SUB HUBS
- IMPACTS AND FINANCIAL CONCERNS AT CHURCHES & COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION
- EXCEEDS SPAN OF CONTROL
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PERSONNEL INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITES
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #4: DIRECT DELIVERY

- Direct delivery for filters, cartridges, and pitchers
- PODS water only and recycling
- Rapid Response - could use one per Ward
- Designated Officials will arrange pickup for Franchise customers from SSA
- MI Department of Technology Management and Budget would issue request for proposals (RFP) for direct delivery of the three commodities
- Tracking and protection of Personally Identifiable Information is responsibility of contractor
- Write RFP to incorporate an upper limit per household per month
- State to provide addresses
- This COA may be supplemented by faith and community based distribution centers at their discretion
- Distribution Model
  - FEMA procured commodities delivered to SSA
  - Vender assumes commodities at SSA
  - PODs in each of 9 wards using IS26 protocol for water distribution only

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4 Talking Points

STRENGTHS

- TURN KEY FOR THREE COMMODITIES
- IMPROVED EFFICIENCIES, ACCOUNTING AND TRACKING
- FLEXIBLE AND RESPONSIVE
- CONVIENENT/SURVIVOR CENTRIC
- INDIVIDUAL AGENCIES' PRE-EXISTING COMPETENCIES MAXIMIZED
- MEETS ALL IS26 STRENGTHS
- AS DEMAND FOR H2O DECREASES ALLOWS A TRANSITION TO COMMUNITY LED H2O PODS

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- CONTRACTOR PERFORMANCE
- STAFFING OF PODS
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- COST
- DUPLICATION OF EFFORTS
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU FOR PODS
- NO PREDETERMINED SITES FOR PODS
- TIME REQUIREMENTS TO START
- INCREASED POSSIBILITY FOR RETAIL FRAUD

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE FOR WATER PODS
- ACCOUNTABILITY SYSTEM
- CREDENTIALING FOR PODS & RAPID RESPONSE TEAMS
- BACKGOUND CHECKS FOR RAPID RESPONSE TEAMS
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

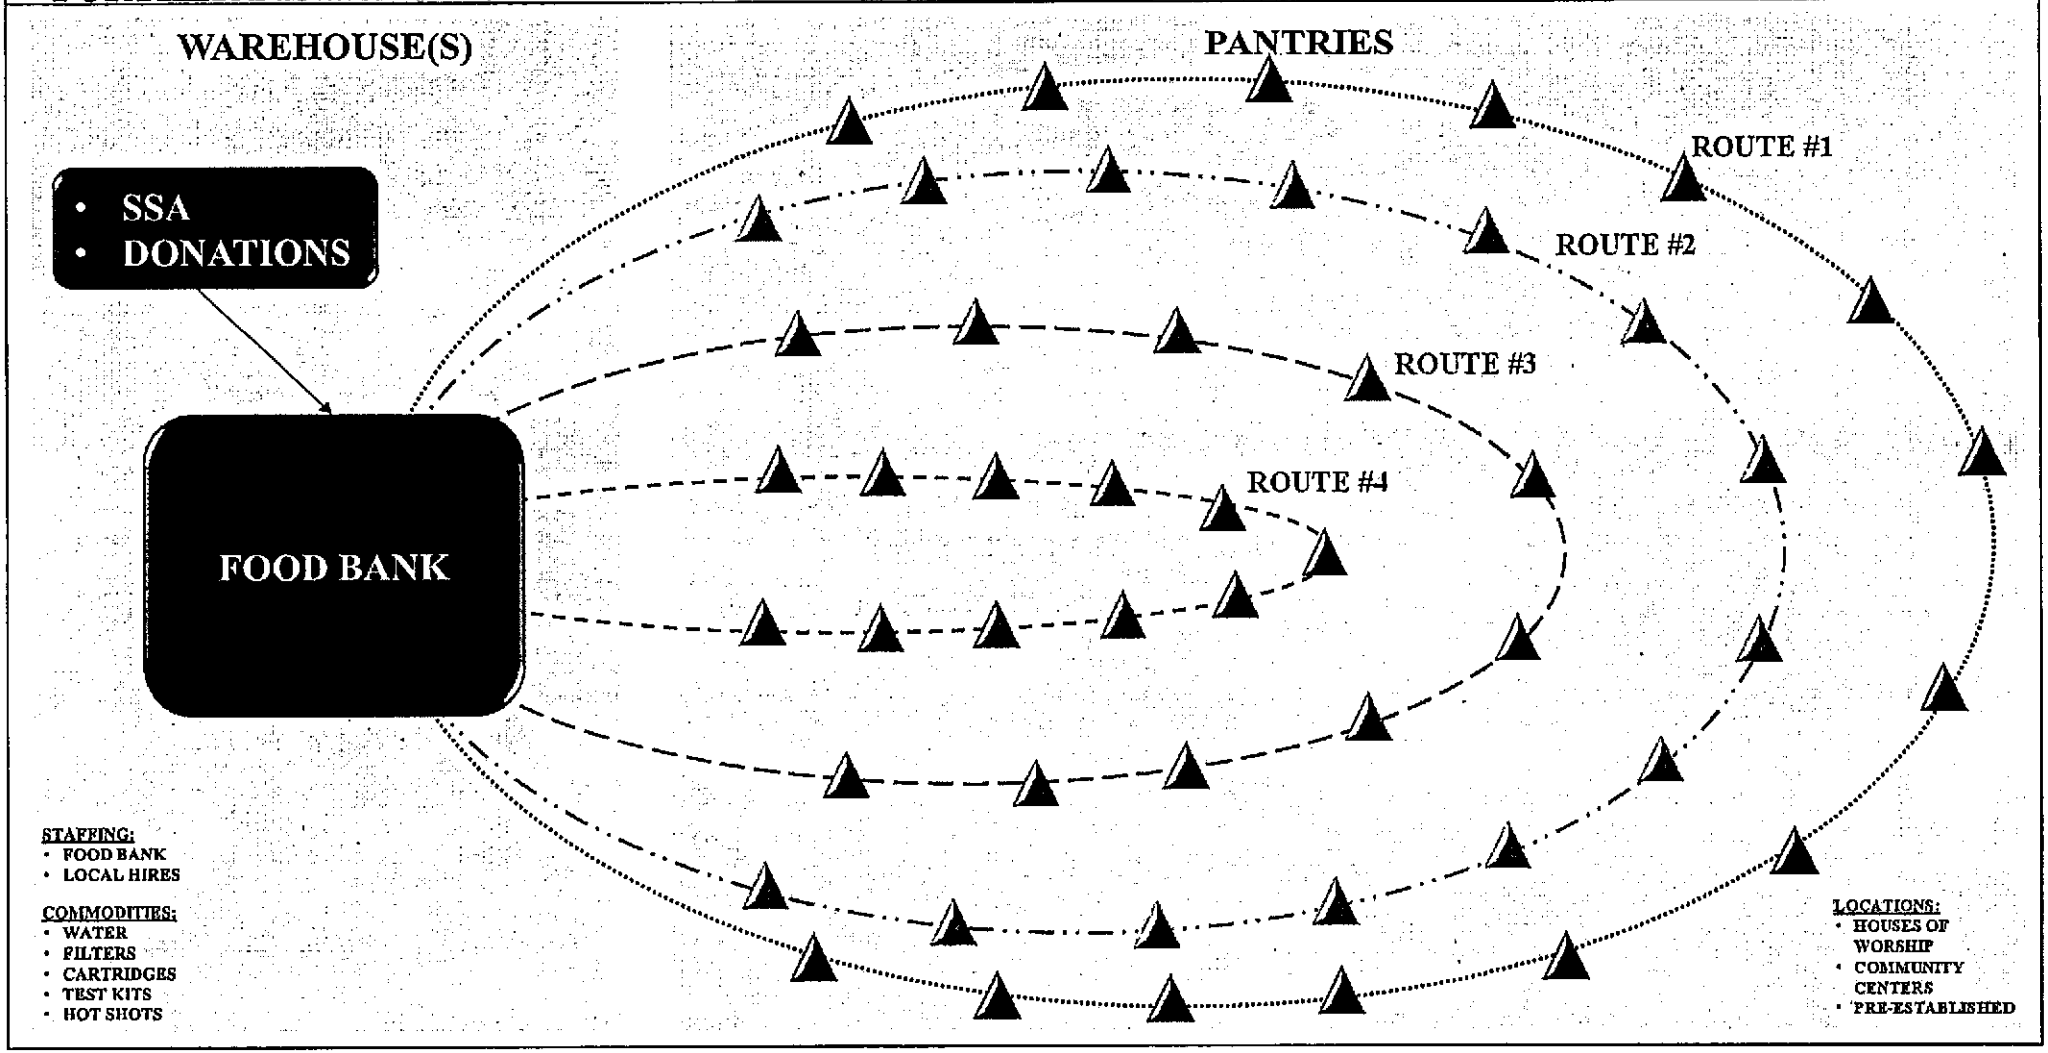
COA #5: FOOD BANK DISTRIBUTION

- Expands on Food Bank (FB) distribution model
- Expand on existing four routes per week
- Contract with Food Bank of Eastern Michigan for distribution services
- 86 existing pantry locations
- Utilizes existing community partners
- Staffing would be based upon current FB staffing model
- All four commodities at every site
- Mix of paid and volunteer staffing

PREDECISIONAL

PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5 Talking Points

STRENGTHS

- RAPID EXECUTION AFTER GRANT IS SIGNED
- COMMUNITY BASED
- TRACKING SYSTEM TO PANTRIES
- GOVERNMENT AND NGO BOTH HAVE ROLES
- HIRED WORKFORCE
  - SUPLEMENTED WITH VOLUNTEER AND FAITH-BASED
- WELL DISTRIBUTED
- PRE-ESTABLISHED LOGISTICS SYSTEM (FOOD BANK ROUTES)
- EXPANSIVE CONNECTION TO PANTRIES
- ALREADY SELECTED SITES

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- RECRUITMENT OF VOLUNTEERS
- POTENTIAL ROUTE ADJUSTMENTS TO REPRESENT EACH WARD
- IMPACTS TO CURRENT BUSINESS PLAN
- FUNDING SOURCE
- LARGE NUMBER OF LOCATIONS
- CAPACITY/CAPABILITIES (SUITABILITY OF FACILITIES)
- NUMBER OF DELIVERY VEHICLES
- RESTOCKING PROCEDURES FOR PANTRIES
- ACCESSABILITY (ADA, HOURS, TRAFFIC)
- ACCURATE BURN-RATE (LITER/CASES VS POUNDS)
- COMMODITY SOURCE TRACKING MECHANISM TO HOUSEHOLDS
- LOSE CONTROL OF HOURS OF OPERATION AND LOCATION
- TIME FOR RFP PROCESS
- UNKNOWN TOTAL COST
- NOT EVENLY DISTRIBUTED
- UNKNOWN EQUIPMENT STAFFING MODEL, RFP SPACE, INTEREST
- UNKNOWN IF THEY WILL DELIVER CARTRIDGES/FILTERS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

QUESTIONS

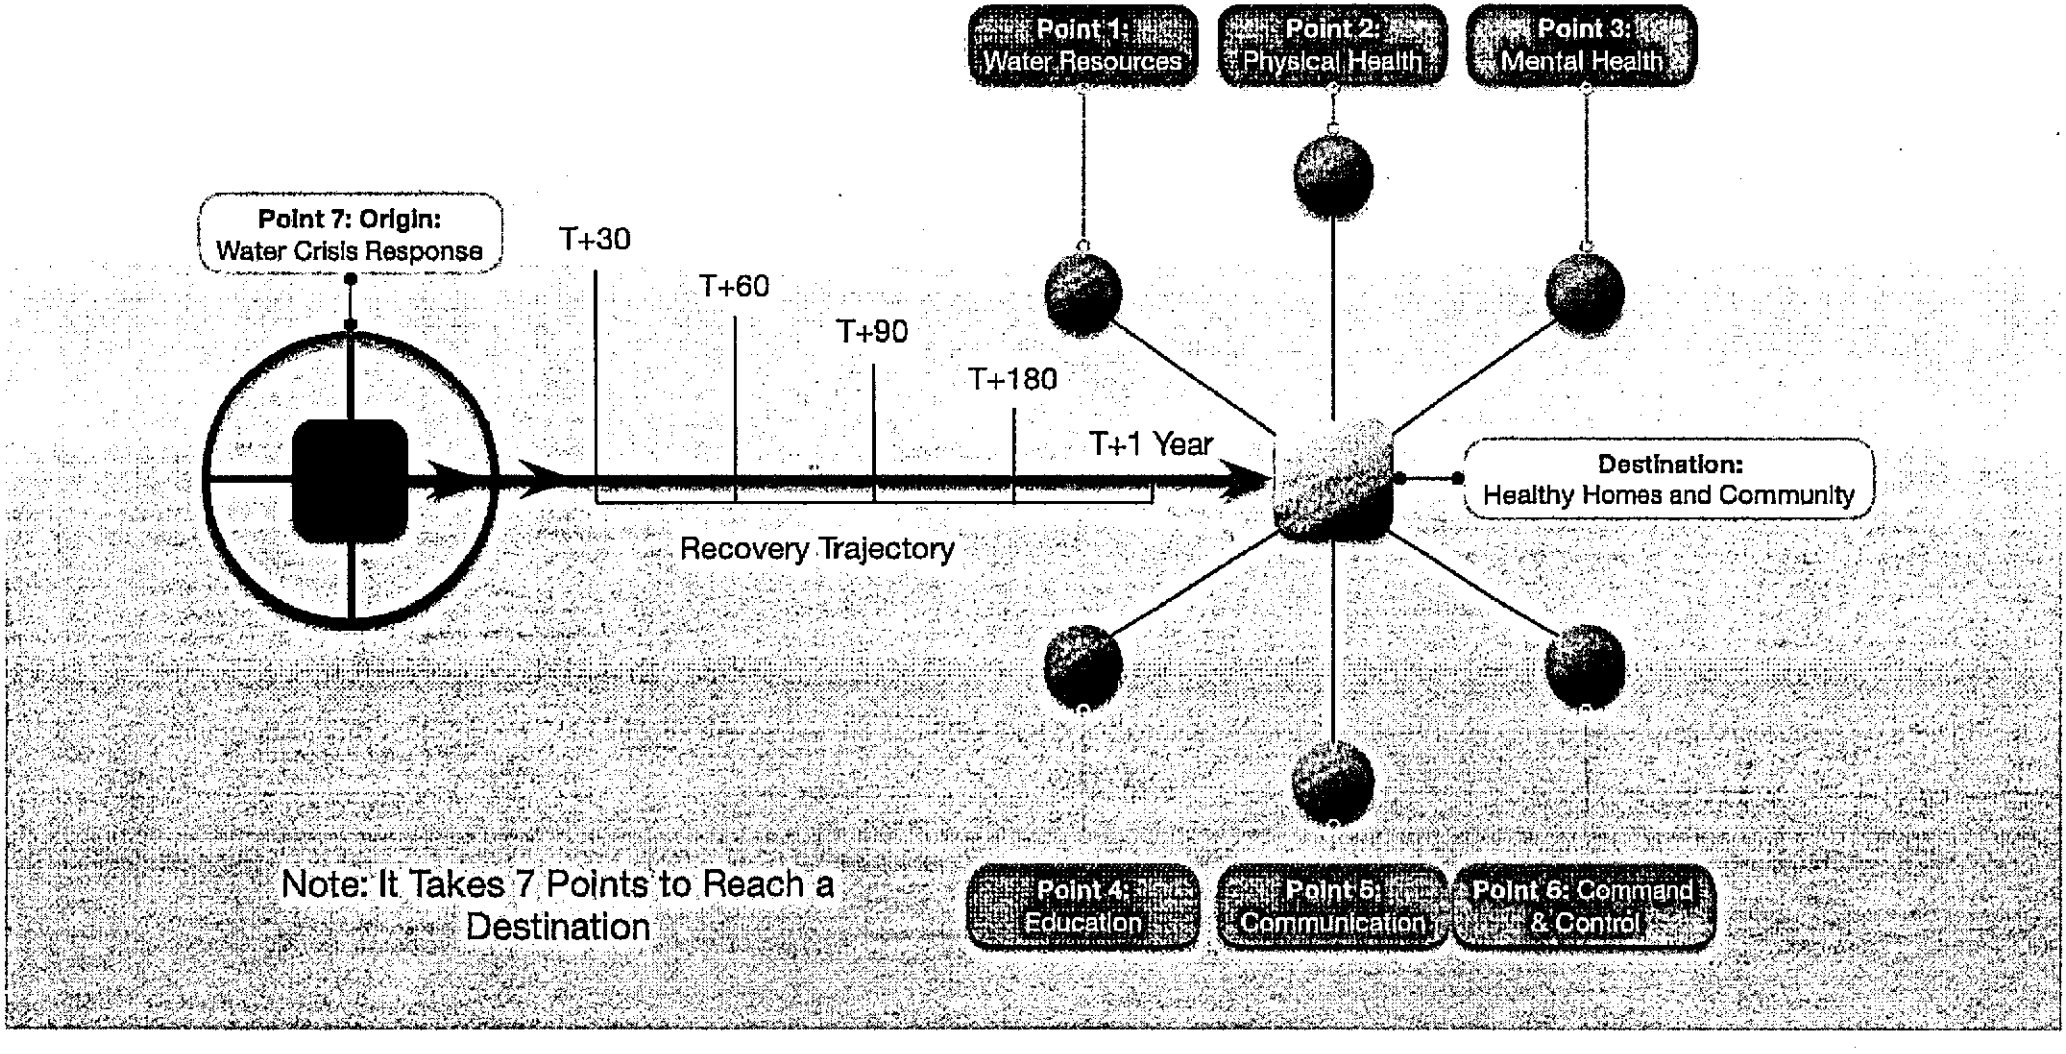
- What are limitations on each site's usage; i.e., churches?
- Can limitations be waived?
- Max number of personnel to support?
- How much advance notice is required?

FLINT MI WATER CRISIS

RECOVERY MODEL

RECOVERY – RESILIENCE – RETURN TO HEALTHY HOMES AND A HEALTHY COMMUNITY

DESTINATION RECOVERY



RECOVERY DESTINATION DEFINITION

HEATHY HOME?

- FILTERED WATER
  - FILTERS CHANGED AT KNOWN INTERVALS BASED ON CURRENT LEAD LEVELS
- SAFE AND REGULAR SUPPLY OF DRINKING WATER
- SAFE AND REGULAR SUPPLY OF WATER FOR:
  - COOKING
  - HYGIENE
  - LAUNDRY
- PERSONAL EDUCATION
- INDIVIDUAL AND FAMILY PHYSICAL HEALTH RECOVERY
- INDIVIDUAL AND FAMILY MENTAL HEALTH RECOVERY

HEALTHY COMMUNITY?

- SAFE WATER
- REPAIRED INFRASTRUCTURE
- EDUCATED COMMUNITY
- SELF-SUSTAINING HOUSEHOLDS
- COMMUNITY TRUST AND POSITIVE PERCEPTIONS
- SAFE ENVIRONMENT

POINTS OF RECOVERY

- **R** - WATER RESOURCES
  - MACRO DISTRIBUTION TO MICRO DISTRIBUTION
- **P** - PHYSICAL HEALTH
  - MITIGATING AND REVERSING THE PHYSICAL HEALTH IMPLICATIONS OF PROLONGED LEAD EXPOSURE
  - NUTRITION
- **M** - MENTAL HEALTH
  - MITIGATING AND REVERSING THE PSYCHOLOGICAL IMPACT OF WATER CRISIS
  - REESTABLISHING TRUST
- **E** - EDUCATION
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO RECOVER
  - INDIVIDUALS AND FAMILIES UNDERSTAND THE RECOVERY PROCESS
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO PROTECT THEMSELVES
- **C** - COMMUNICATION
  - RAPID AND TRUSTED COMMUNICATION NETWORKS
  - RELIABLE MESSAGING
- **CC** - RECOVERY COMMAND AND CONTROL
  - PROVIDING RESOURCES
  - RECOVERY PLAN EXECUTION AND MONITORING
  - DATA COLLECTION AND METRICS

CITY OF FLINT

INCIDENT ACTION PLAN

STATE OF EMERGENCY

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents, not to exclude franchise customers (i.e. Burton, Flint Township, Genesee and Mount Morris Townships) Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current

condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and evaluation of complex data. Wayne State University's center for Urban Studies will serve a supporting role to assist the City efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for clear and precise information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Incident Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of this information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the

Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IT department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents. 211 is an important resource to receive information about where to get water filters and other important updates. The PIO will regularly be in contact with 211 personnel to ascertain the frequency and content of inquiries in order to continuously provide relevant information.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the City, coordinated by Genesee County Health Department, where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

The city can help establish mobile distribution centers and delivery systems with the help of transportation agencies, like the Metro Transit Authority (MTA), Meals on Wheels, and GCCARD that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department.
3. Genesee County Health Department comprehensive plan to address immediate and long term health issues for segments of the population.

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee Health System (GHS) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (GHS) services.

a. Infant mental health (30 day capacity)
b. Child case management
c. Home based services
d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:

At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:

Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs

The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **IN PROGRESS Additional Corrosion Control added to the Water System:**
   This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000).

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	Estimated Costs:

a.	*Transfer Station to Dort Reservoir*	*$4,500,000*
b.	*Raw water line to pump station #4*	*$636,000*
c.	*Phosphoric acid feed system*	*$186,000*
d.	*Alum Feed system*	*$40,000*
e.	*Post filtration system*	*$387,289*
f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Ruth and C.S. Mott Foundations

The C.S. Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million for the reconnection to DWSD.

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the Public Health Emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers concerning lead and public health. They have also diligently provided prevention information

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public. On October 1, 2015, Genesee County declared a Public Health Emergency recommending that people not drink the water coming from the City of Flint.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts and program evaluation guidance to ensure implementation effectiveness.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.

- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

DRAFT/PRE DECISIONAL

Long-Term Distribution COA Facts & Assumptions

Facts

- Move from State to ??? distribution method
- EM Dec expires 14 Apr 16
- Distro COAs included faith based
- DEQ 3rd party H2O safe
- FEMA provide H2O 90 day
- FEMA 3 commodities
- One filter in every residence
- State engaged – high level
- Stewardship {reports, oversight}
- Restore Confidence in Govt F S L

Assumptions

- Move to long term distribution plan in 2-4 weeks
- Move State Distribution
- Distro command defined as
  - H2O filters
  - H2O Cartridges
  - Pitchers
  - H2O Pods
- ***State will maintain commodities past 90 days?**
  - **Does state want to prepurchase commodities other than water?**

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA Criteria

- **Ease of Sustainability (5)**
  - **Must be sustainable for a year or longer with no disruption of service to the affective population. (less is better=fewest days of disruption)**
- **Ease of Implementation (5)**
  - **Time and effort to operationalize COA (less is better=least amount of time and effort)**
- **Cost (1)**
  - **Ability to implementation and sustain (less is better=fewer $$$)**
- **Public Perception (3)**
  - **Public has confidence in the long term distribution plan (less is better=measured as # of negative social media posts)**
- **Survivor Centric (4)**
  - **Most convenience to population (less is better = distance and available hours to pop)**

- USER AGREEMENTS
  - RENTAL
  - MOU

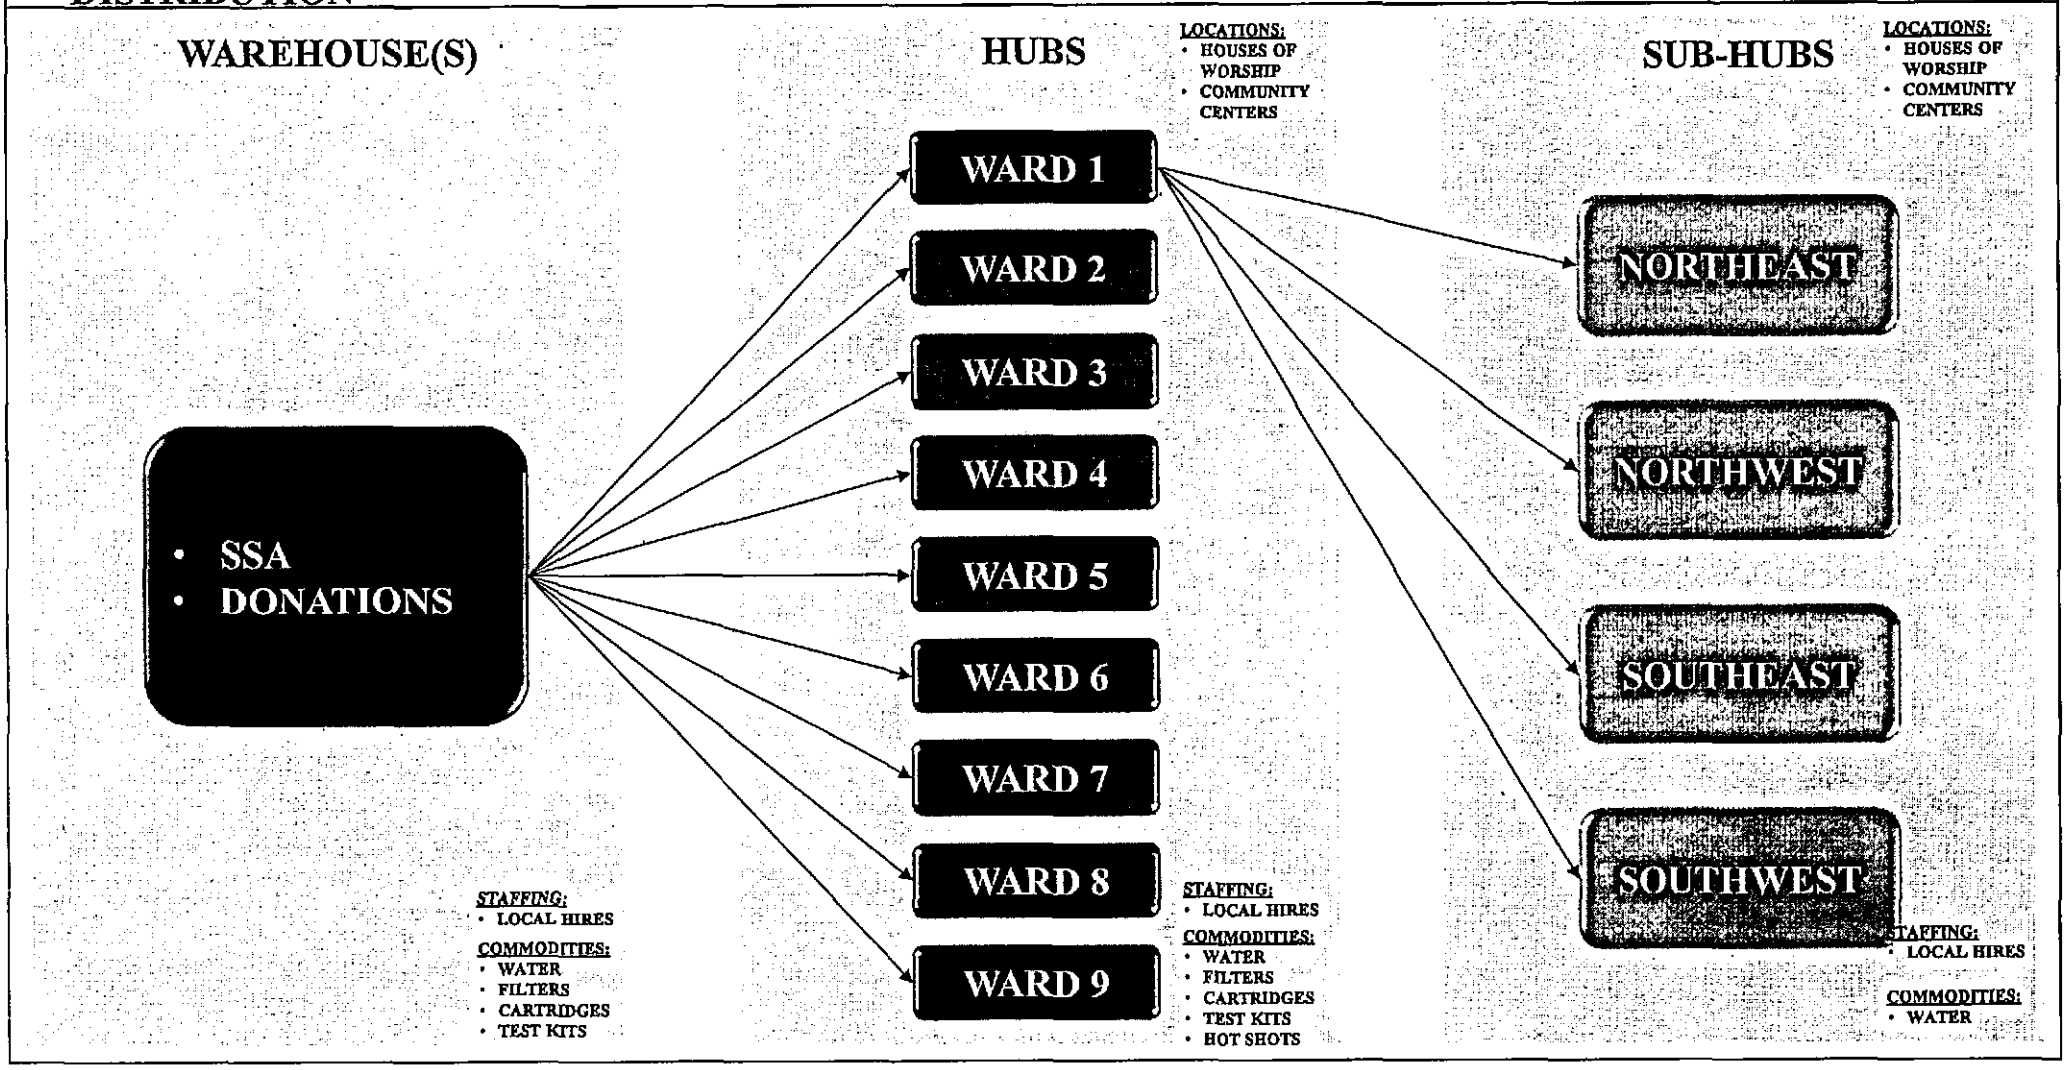
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3

- Staffing is hired full and part time
- This plan is based on distribution centers to faith based organizations utilizing food bank and Red Cross distribution
- Utilizing one hub in each ward and four sub hubs in each ward.
- Hubs will have all four commodities
- A mobile lead testing clinic twice per week for individuals without insurance at each hub (where receive lead awareness testing, nutrition, and education on lead prevention tips for families
- This COA will likely be supplemented with faith and community based distribution centers
- Sub hubs
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- SKILLED LABOR POOL
- RELIABLE WORK FORCE
- MONEY STAYS WITHIN COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED

RISKS

- LOCATION SELECTION/AVAILABILITY
- RELIGIOUS SENSITIVITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - LOCAL HIRING
  - TRAINING
  - RETENTION
  - VETTING
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- POTENTIAL CHANGING COMMUNITY CONCERNS

WEAKNESSES

- STAFFING OF 459 EXCEEDS GRANT CAPACITY (~200)
- FINDING 45 SUITABLE FACILITIES
- TRAINING AND CERTIFICATION
- FUNDING SOURCE
- CONSISTANCY
- ACCOUNTABILITY OF COMMODITIES
- *HOW DO RAPID RESPONSE TEAMS GET FILTER, CARTRIDGES, & TEST KITS* WORKING FROM SUB HUBS
- IMPACTS AND FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION
- EXCEEDS SPAN OF CONTROL
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PAX INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS

EQUIPMENT, POLICY, PROCEDURES, ETC.

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4

- Direct delivery for filters, cartridges, and pitchers,
- PODS water only and recycling
- Rapid Response could use one per Ward
- Designated Officials will arrange pickup for Franchise customers from SSA
- DTMB would issue request for proposals (RFP) for direct delivery of the three commodities
- Tracking and protection of PII is responsibility of contractor
- Write RFP to incorporate an upper limit per household per month
- State to provide addresses
- This COA will likely be supplemented with faith and community based distribution centers
- Distribution Model
  - FEMA procured commodities delivered to SSA
  - Vender assumes commodities at SSA
  - PODs in each of 9 ward using IS26 protocol for water distribution only

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4 Talking Points

STRENGTHS

- TURN KEY FOR THREE COMMODITIES
- IMPROVED EFFICIENCIES , ACCOUNTING AND TRACKING
- FLEXIBLE AND RESPONSIVE
- CONVIENENT/SURVIVOR CENTRIX
- INDIVIDUAL AGENCY PREEXISTING COMPETENCIES MAXIMIZED
- MEETS ALL IS26 STRENGTHS
- AS DEMAND FOR H2O DECREASES ALLOWS A TRANSITION TO COMMUNITY LED H2O PODS

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- CONTRACTOR PERFORMANCE
- STAFFING OF PODS
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- COST
- DUPLICATION OF EFFORT
- UNKNOWN BURNRATE
- WOULD REQUIRE MOU FOR PODS
- NO PREDETERMINED SITES FOR PODS
- TIME REQUIREMENTS TO START
- INCREASED POSSIBILITY FOR RETAIL FRAUD

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE FOR WATER PODS

- CREDENTIALING FOR PODS & RAPIDS RESPONSE TEAMS
- BACKGOUND CHECKS FOR RAPIDS RESPONSE TEAMS
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

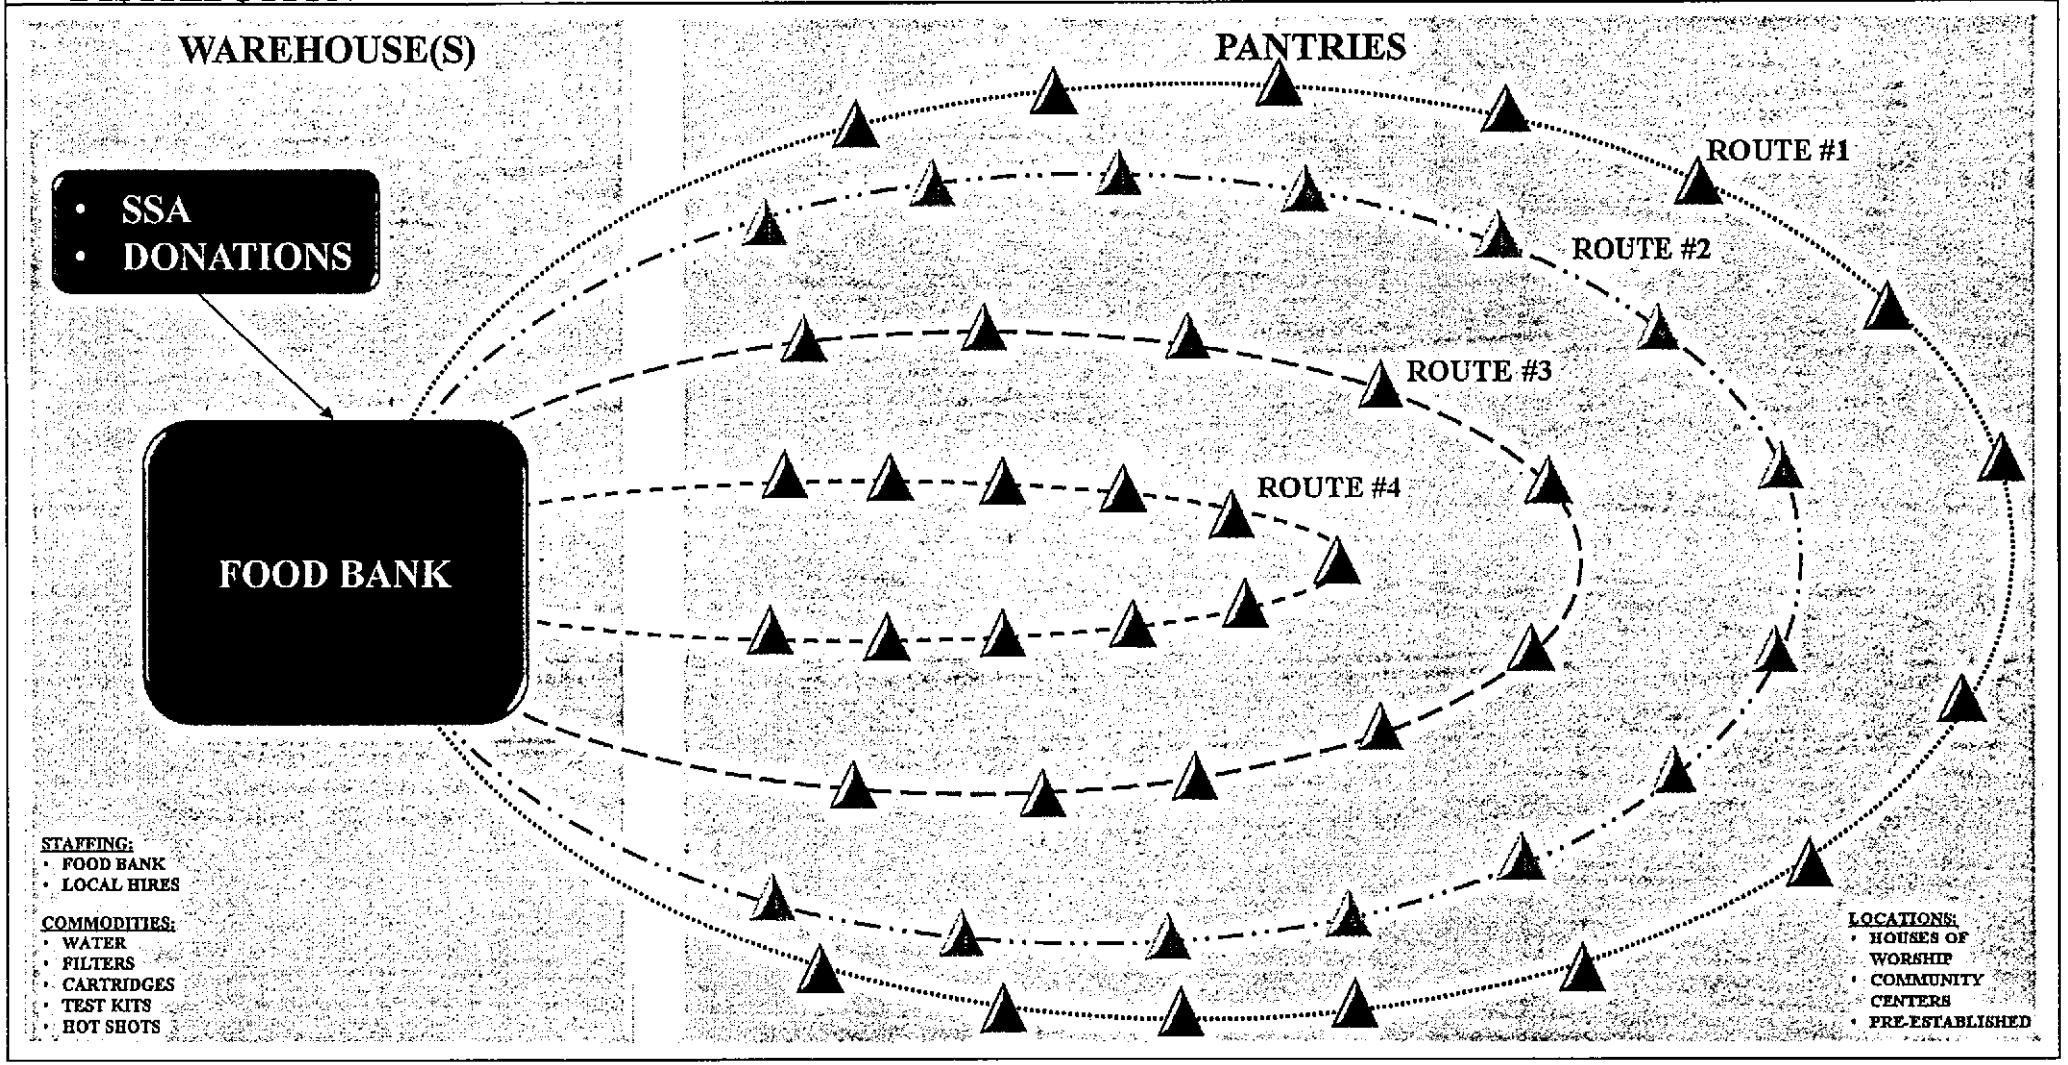
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5

- Expands on Food Bank (FB) distribution model
- Expand on existing four routes per week
- Contract with Food Bank of Eastern Michigan for distribution services
- 86 existing pantry locations
- Utilizes existing community partners
- Staffing would be based upon current FB staffing model
- All four commodities at every site
- Mix of paid and volunteer staffing

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5 Talking Points

STRENGTHS

- RAPID EXECUTION AFTER GRANT IS SIGNED
- COMMUNITY BASED
- TRACKING SYSTEM TO PANTRIES
- GOVERNMENT AND NGO BOTH HAVE ROLES
- HIRED WORKFORCE
  - SUPLEMENTED WITH VOLUNTEER AND FAITH-BASED
- WELL DISTRIBUTED
- PRE-ESTABLISHED LOGISTICS SYSTEM (FOOD BANK ROUTES)
- EXPANSIVE CONNECTION TO PANTRIES
- ALREADY SELECTED SITES

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- RECRUITMENT OF VOLUNTEERS
- ROUTE ADJUSTMENTS (WILL EACH WARD BE REPRESENTED?)
- IMPACTS TO CURRENT BUSINESS PLAN
- FUNDING SOURCE
- LARGE NUMBER OF LOCATIONS
- CAPACITY/CAPABILITIES (SUITABILITY OF FACILITIES)
- NUMBER OF DELIVERY VEHICLES
- RESTOCKING PROCEDURES FOR PANTRIES
- ACCESSABILITY (ADA, HOURS, TRAFFIC)
- ACCURATE BURN-RATE (LITER/CASES VS POUNDS)
- COMMODITY SOURCE TRACKING MECHANISM TO HOUSEHOLDS
- LOSE CONTROL OF HOURS OF OPERATION AND LOCATION
- TIME FOR RFP PROCESS
- UNKNOWN TOTAL COST
- NOT EVENLY DISTRIBUTED
- UNKNOWN EQUIPMENT STAFFING MODEL, RFP SPACE, INTEREST
- UNKNOWN IF THEY WILL DELIVER CARTRIDGES/FILTERS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

QUESTIONS

- What is limitation on sites usage i.e churches?
- Are they waivable?
- Max number of personnel support?
- How much advance notice?

LONG TERM DISTRIBUTION
COA BRIEF

DRAFT PREDECISIONAL

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Facts & Assumptions

Facts

- Move to long term distribution plan in 2-4 weeks
- EM Dec expires 14 April 2016
- FEMA can only procure H20 for 90 day
- One filter in every residence
- Stewardship {reports, oversight}
- Restore Confidence in Government at the Federal/State/Local level
- Desire to move to direct distribution of:
  - H2O filters
  - H2O Cartridges
  - Pitchers
  - H2O would still be at Pods

Assumptions

- Move State Distribution
- State will maintain commodities past 90 days?
- Does state want to pre-purchase commodities other than water?

DRAFT PREDECISIONAL

PREDECISIONAL
NOT FOR FURTHER
DISTRIBUTION

Long-Term Distribution COA Criteria

- **Ease of Sustainability (5)**
  - **Must be sustainable for a year or longer with no disruption of service to the affective population. (less is better = fewest days of disruption)**
- **Ease of Implementation (5)**
  - **Time and effort to operationalize COA (less is better = least amount of time and effort)**
- **Cost (1)**
  - **Ability to implementation and sustain (less is better = fewer $$$)**
- **Public Perception (3)**
  - **Public has confidence in the long term distribution plan (less is better = measured as # of negative social media posts)**
- **Survivor Centric (4)**
  - **Most convenience to population (less is better = distance and available hours to pop)**

	Ranking	**2**	**5**	**4**	**1**	**3**

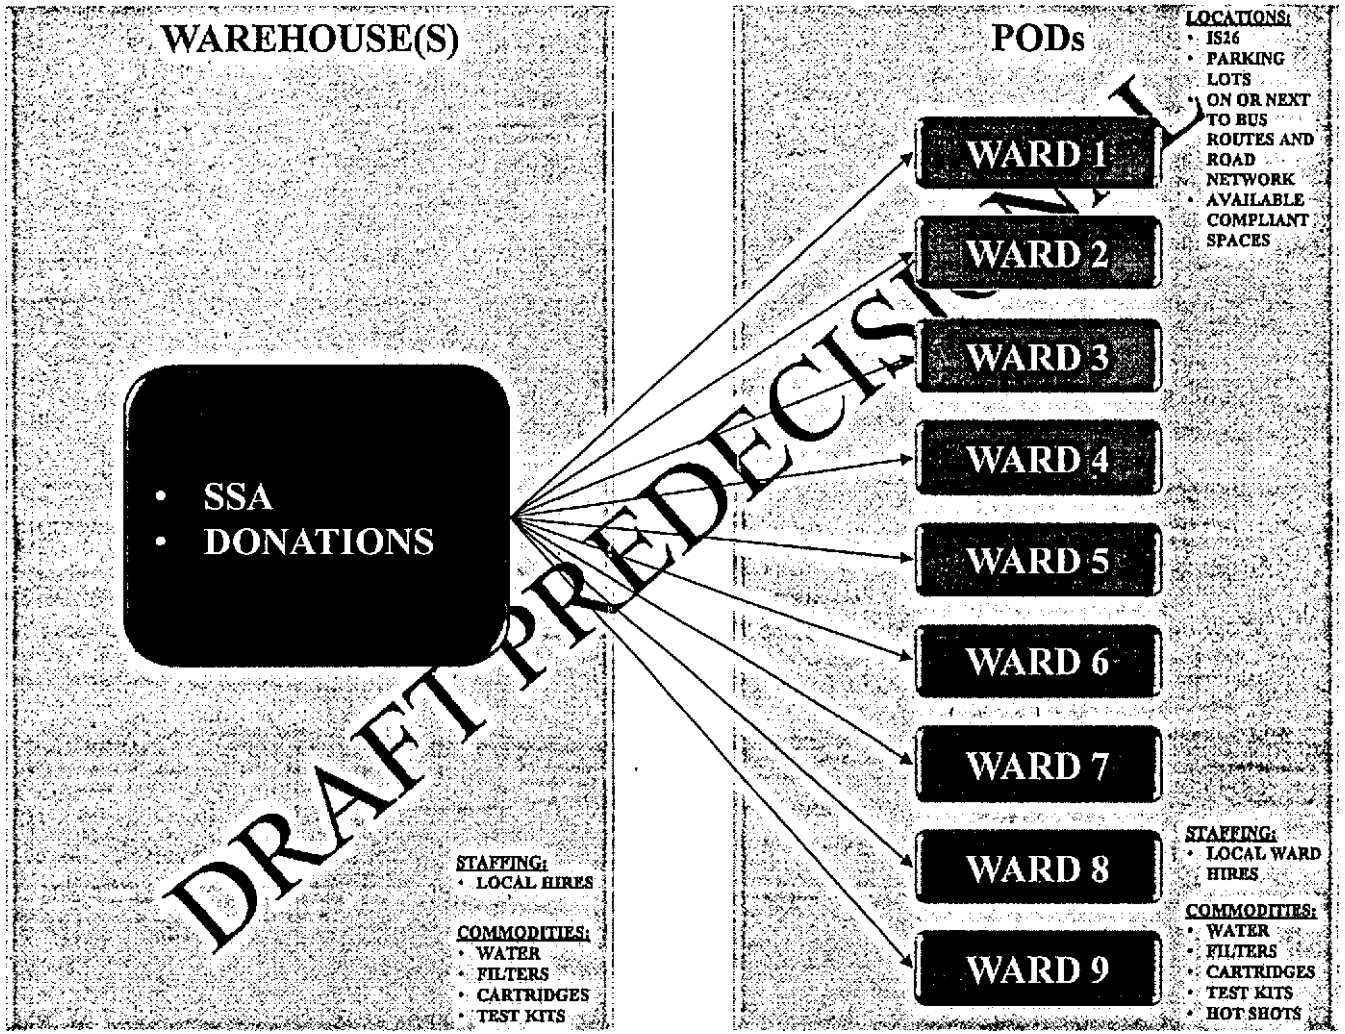
COA #1: IS26

- **One Point of Distribution (POD) per Ward**
- **IS26 compliant checklist to identify locations**
- **Minimum Staffing: 9 per POD for 81 personnel**
- **Staffing would be provided all or in part by workforce development grants**
- **Location based upon**
  - Fixed Location (parking lots)
  - Utilize semi/box truck w/just in time commodities
  - Parking lot next to bus route &/or transportation route
- **Full Service POD:**
  - H2O, Filters, cartridges, test kits (only advertise H2O, cartridges and test kits) + Recycling
- **Rapid Response Teams for 211:**
  - 5 – 16ft Box Trucks (currently have these; need to retain)
  - 2 personnel per team, running from the warehouse
  - Approx. 1,900 vulnerable people; many are not mobile

DRAFT PREDECISIONAL

PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1 Talking Points

STRENGTHS

- JUST-IN-TIME DELIVERY
- EFFICIENT, DEVELOPED, AND PROVEN SYSTEM
- ACCOUNTABILITY OF RESOURCES
- EASILY LOCATED
- MORE ABLE TO TRACK BURN RATES
- FOLLOWS FEMA-APPROVED GUIDELINES
- BUY IN AT ALL LEVELS OF GOVERNMENT
- ON-LINE TRAINING (EMI-IS)
- SCALABLE & FLEXIBLE
- WARD BASED
- BRIDGING STRATEGY USING NATIONAL GUARD & VOLUNTEERS W/IN LESS THAN 7 DAYS
- ROLE FOR FAITH BASED ORGANIZATIONS
- SUSTAINABLE LOCAL JOBS FOR 12 MONTHS
- PROVEN DISTRIBUTION STRATEGY
- # OF LARGE SITES TO PICK FROM
- STIMULATE FLINT ECONOMY
- ON BUS/TRANSPORTATION ROUTES
- NO PREDETERMINED SITES
- COUNCILMEN ACTIVE PARTNERS

RISKS

- POLITICAL RAMIFICATIONS
- STAFFING
  - TRAINING
  - RETENTION
  - VETTING

WEAKNESSES

- TRAINING AND CERTIFICATION
- TRACKING OF COMMODITIES
- HIGH COST OF BRIDGING STRATEGY ~$1M FOR 71 NG PERSONNEL PER MONTH
- STAFF SCALIBILITY LIMITED TO GRANT
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SEE EQUIP. LIST FOR IS26
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA

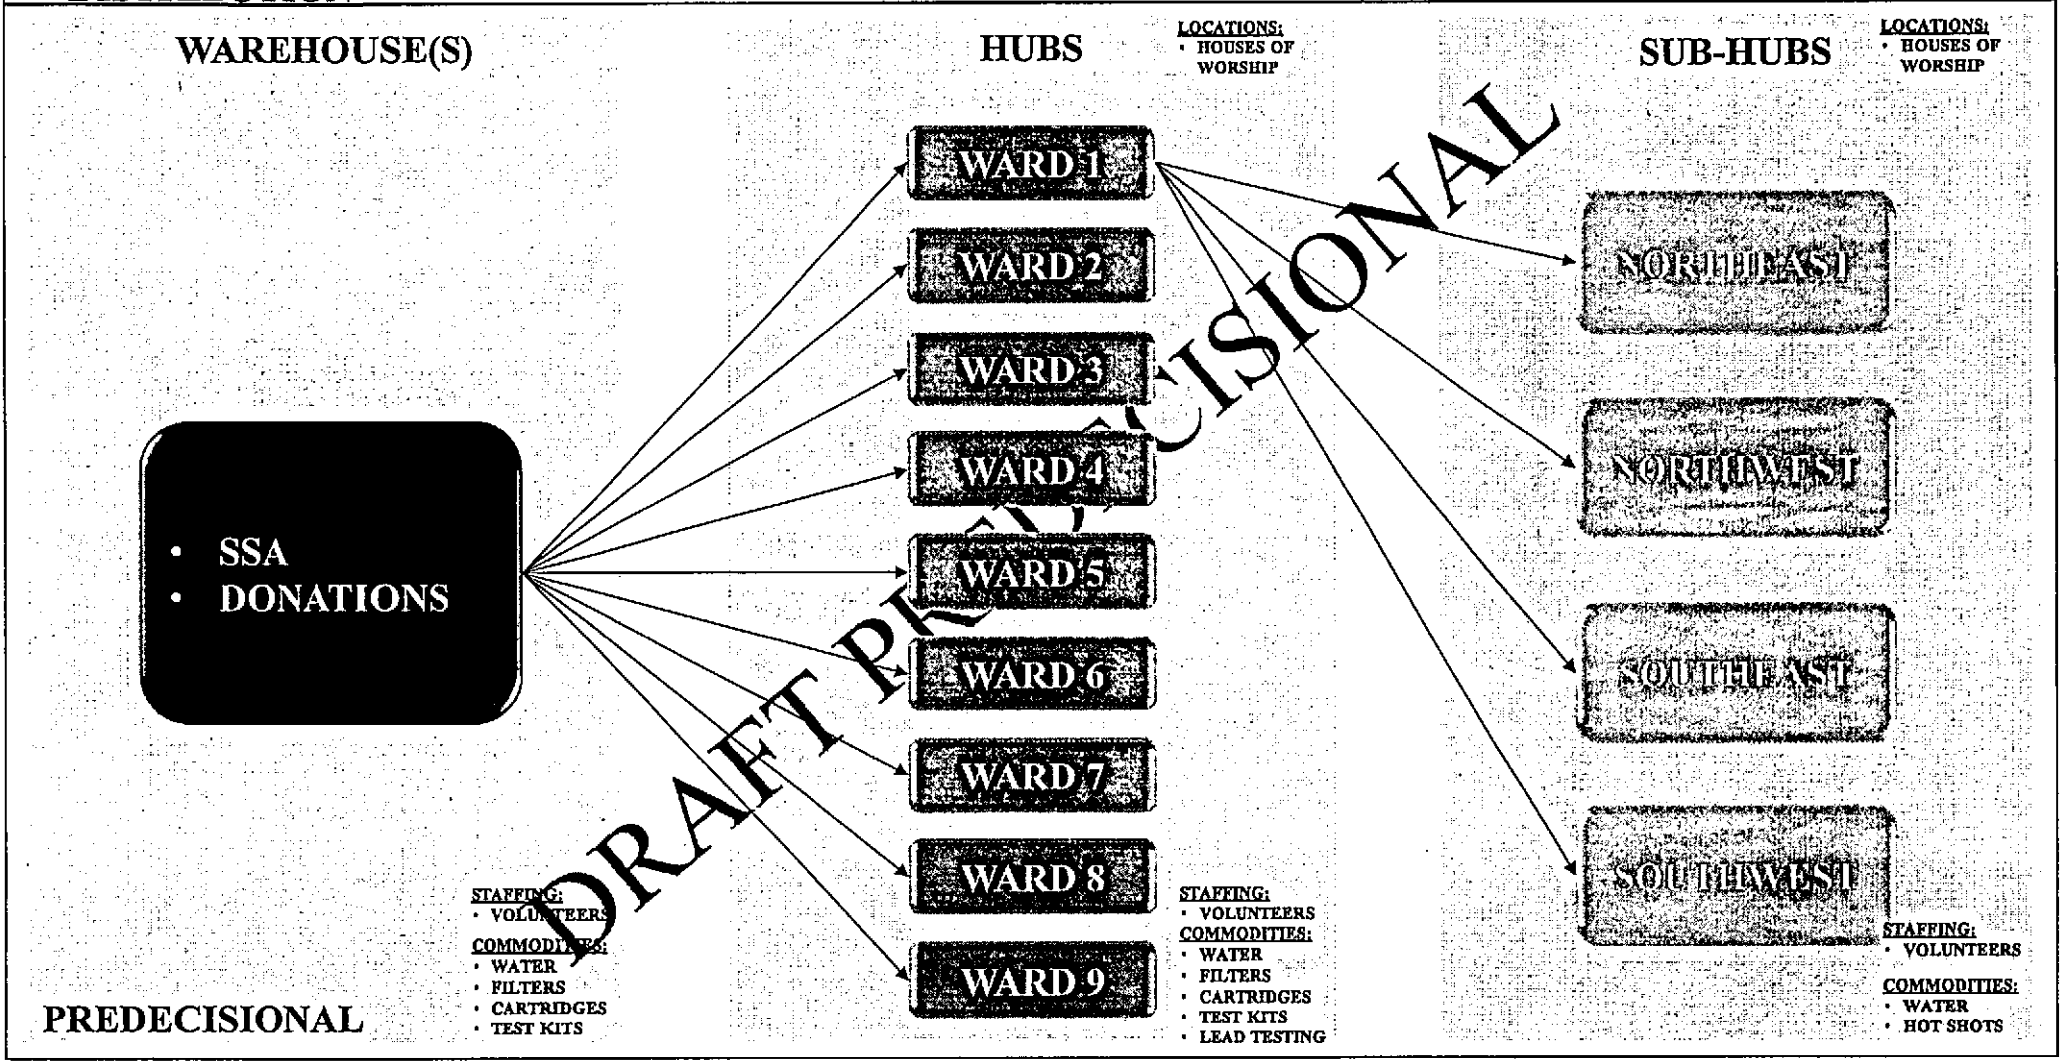
COA #2:Faithbased – 9 Wards - 9 Hubs /36 Sub Hubs

- **Staff: Volunteers**
- **This plan is based on distribution centers to faith based organizations utilizing Food Bank and Red Cross distribution**
- **9 Wards; 1 Hub in each ward; 4 Sub-hubs in each ward**
- **Hubs:**
  - 4 commodities
  - Mobile lead testing clinic twice per week
    - For individuals without insurance; to include lead awareness testing, nutrition, and education
- **Sub hubs**
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

DRAFT PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2



PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED
- COMMUNTY GENERATED PLAN
- NO LABOR COSTS
- INCORPORATES STRATEGIC PARTNERS
- REDUCES TRAVEL TIME FOR RESIDENTS
- SURVIVORS CAN BE VOLUNTEERS

RISKS

- LOCATION SELECTION/AVAILABILITY: QUANTITY OF SITES
- RELIGIOUS SENSITIVITY (internal discord among interfaith network)
- POLITICAL RAMIFICATIONS (Competing political interests)
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- COMMUNITY BUY-IN MAY BE AFFECTED BY DISRUPTIONS TO LOCAL COMMUNITY ACTIVITIES

WEAKNESSES

- STAFFING OF 459 VOLUNTEERS (ABILITY TO SUSTAIN)
- IDENTIFY 45 SUITABLE FACILITIES THAT MEET IS26
- VOLUNTEERS MUST BE TRAINED AND CERTIFIED
- VOLUNTEERS REQUIRE SPECIFIC SKILLS
- BACKGROUND CHECKS REQUIRED FOR RAPID RESPONSE TEAMS
- HOST ORGANIZATION MUST COMPLY WITH VOLUNTARY LABOR LAWS
- LACK OF CONTINUITY IN STAFF
- DIFFICULT TO MAINTAIN A SUPPLY CHAIN ACCOUNTABILITY OF COMMODITIES
- RAPID RESPONSE TEAMS WOULD NEED TO WORK OUT OF HUBS TO GET FILTER, CARTRIDGES, & TEST KITS
- IMPACTS & FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION AFFECTS OPERATIONAL STABILITY
- EXCEEDS SPAN OF CONTROL RELATED TO STAFFING AND SITES
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PERSONNEL INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS
- BRIDGING STRATEGY UTILIZING THE NG IS NOT VIABLE
- LACK OF EQUIPMENT/WEAR AND TEAR
- RELIGIOUS SENSITIVITY

EQUIPMENT, POLICY, PROCEDURES, ETC.

- 45 SITES
- EQUIPMENT LOG LIST
- STAFFING: VOLUNTEER POLICY CONSIDERATIONS
  - AGE, ABILITY
  - INSURANCE

DRAFT PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4 Talking Points

STRENGTHS

- TURN KEY FOR THREE COMMODITIES
- IMPROVED EFFICIENCIES, ACCOUNTING AND TRACKING
- FLEXIBLE AND RESPONSIVE
- CONVIENENT/SURVIVOR CENTRIC
- INDIVIDUAL AGENCIES' PRE-EXISTING COMPETENCIES MAXIMIZED
- MEETS ALL IS26 STRENGTHS
- AS DEMAND FOR H2O DECREASES ALLOWS A TRANSITION TO COMMUNITY LED H2O PODS

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- CONTRACTOR PERFORMANCE
- STAFFING OF PODS
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- COST
- DUPLICATION OF EFFORTS
- UNKNOWN BURN RATE
- WOULD REQUIRE MOU FOR PODS
- NO PREDETERMINED SITES FOR PODS
- TIME REQUIREMENTS TO START
- INCREASED POSSIBILITY FOR RETAIL FRAUD

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE FOR WATER PODS
- ACCOUNTABILITY SYSTEM
- CREDENTIALING FOR PODS & RAPID RESPONSE TEAMS
- BACKGOUND CHECKS FOR RAPID RESPONSE TEAMS
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

PREDECISIONAL

DRAFT PREDECISIONAL

NOT FOR FURTHER DISTRIBUTION

COA #5: FOOD BANK DISTRIBUTION

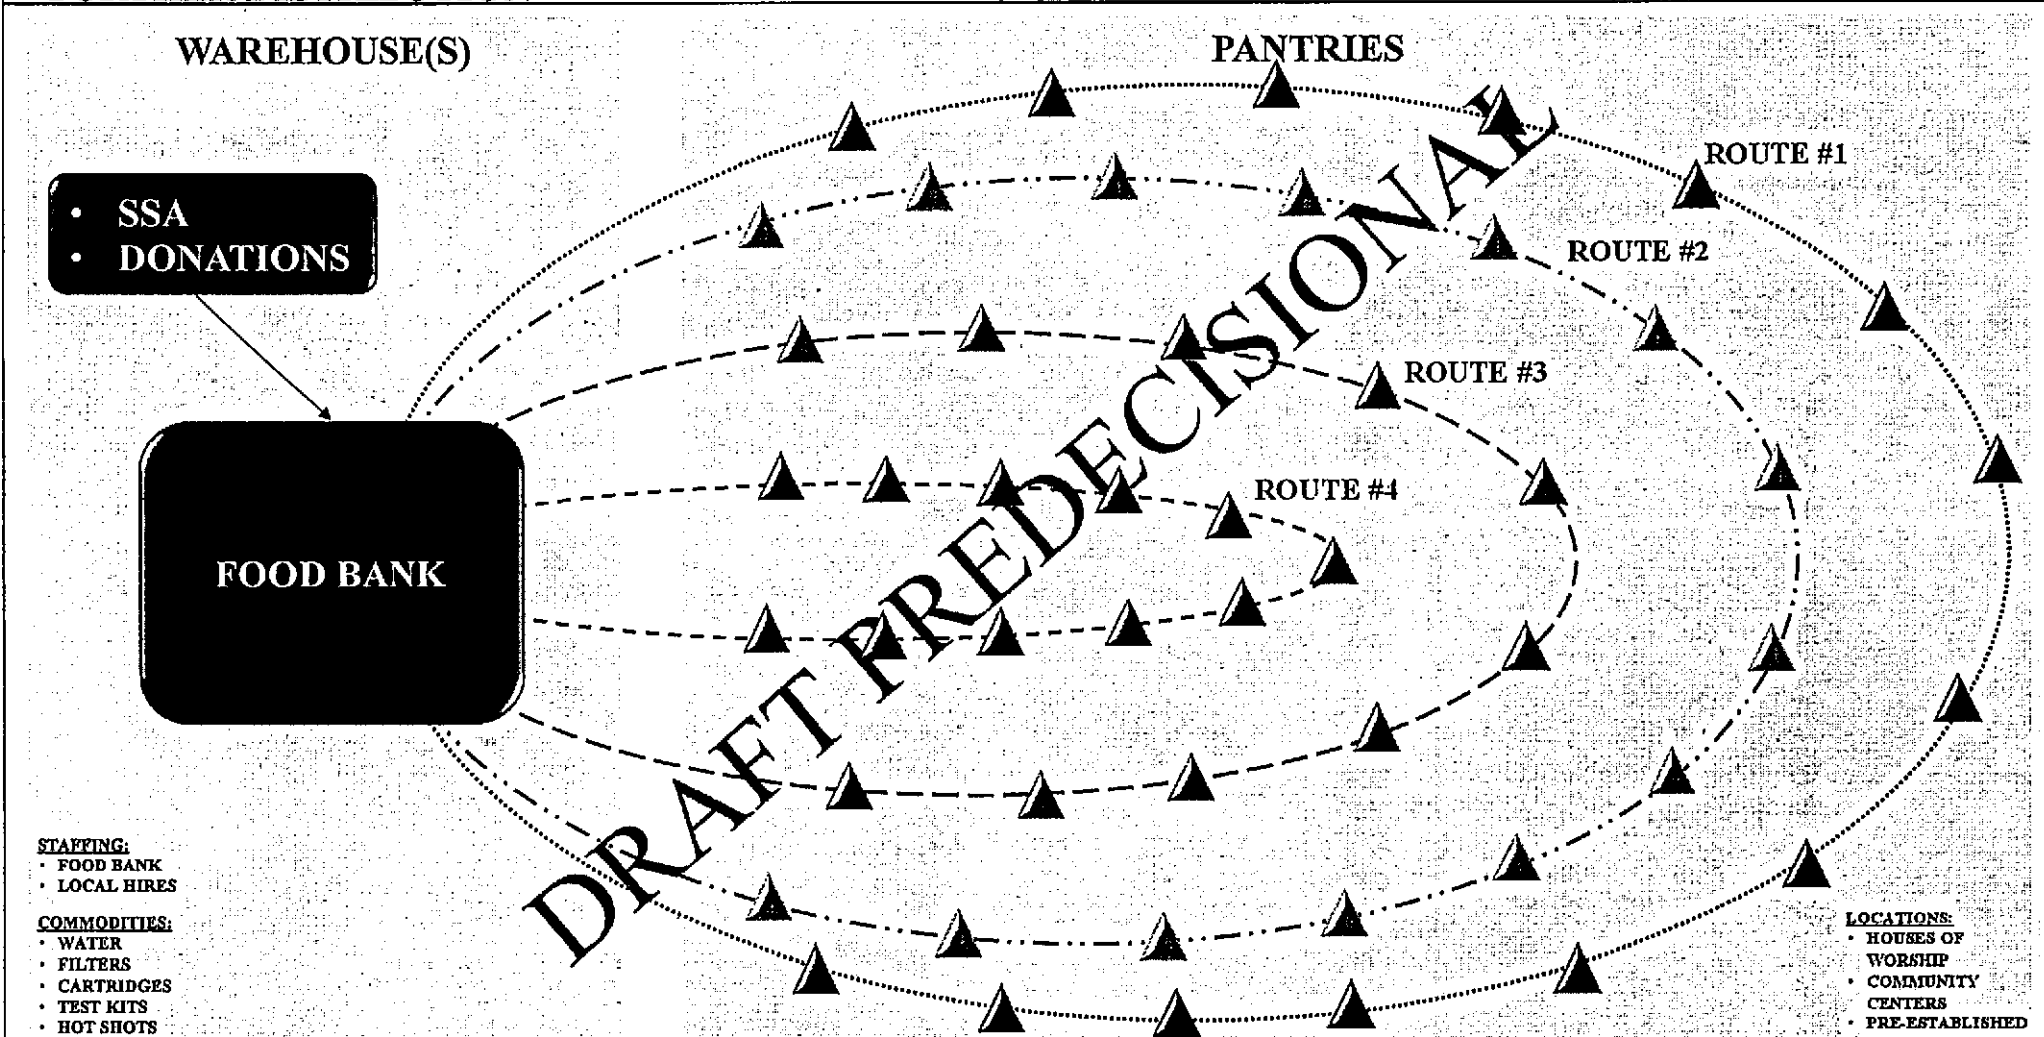
- Expands on Food Bank (FB) distribution model
- Expand on existing four routes per week
- Contract with Food Bank of Eastern Michigan for distribution services
- 86 existing pantry locations
- Utilizes existing community partners
- Staffing would be based upon current FB staffing model
- All four commodities at every site
- Mix of paid and volunteer staffing

DRAFT PREDECISIONAL

PREDECISIONAL

PREDECISIONAL NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5 Talking Points

STRENGTHS

- RAPID EXECUTION AFTER GRANT IS SIGNED
- COMMUNITY BASED
- TRACKING SYSTEM TO PANTRIES
- GOVERNMENT AND NGO BOTH HAVE ROLES
- HIRED WORKFORCE
  - SUPLEMENTED WITH VOLUNTEER AND FAITH-BASED
- WELL DISTRIBUTED
- PRE-ESTABLISHED LOGISTICS SYSTEM (FOOD BANK ROUTES)
- EXPANSIVE CONNECTION TO PANTRIES
- ALREADY SELECTED SITES

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- RECRUITMENT OF VOLUNTEERS
- POTENTIAL ROUTE ADJUSTMENTS TO REPRESENT EACH WARD
- IMPACTS TO CURRENT BUSINESS PLAN
- FUNDING SOURCE
- LARGE NUMBER OF LOCATIONS
- CAPACITY/CAPABILITIES (SUITABILITY OF FACILITIES)
- NUMBER OF DELIVERY VEHICLES
- RESTOCKING PROCEDURES FOR PANTRIES
- ACCESSABILITY (ADA, HOURS, TRAFFIC)
- ACCURATE BURN-RATE (LITER/CASES VS POUNDS)
- COMMODITY SOURCE TRACKING MECHANISM TO HOUSEHOLDS
- LOSE CONTROL OF HOURS OF OPERATION AND LOCATION
- TIME FOR RFP PROCESS
- UNKNOWN TOTAL COST
- NOT EVENLY DISTRIBUTED
- UNKNOWN EQUIPMENT STAFFING MODEL, RFP SPACE, INTEREST
- UNKNOWN IF THEY WILL DELIVER CARTRIDGES/FILTERS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

DRAFT PREDECISIONAL

PREDECISIONAL

QUESTIONS

- What are limitations on each site's usage; i.e., churches?
- Can limitations be waived?
- Max number of personnel to support?
- How much advance notice is required?

Filter Distribution Plan

- Increase Effectiveness/Community Acceptance. A potential alternative to faucet filters and cartridges would be a plan of installing whole house filters in each customer household to alleviate questions about bathing and to reduce the time frame between cartridge replacements.
    - FEMA has considered this possibility, and if it's thought to be an acceptable potential, it will be researched further.

- Reduce the Need. Consider a plan with City to eliminate billing for a pre-determined period to encourage flushing of the system and reduction of latency.

- Messaging. Develop a public messaging plan with city, county, state and trusted SMEs (Drs. Edwards and Hanna-Attisha).

- All Resources.
    - The community would like to be able to continue to make all resources available at all PODs.
    - Source: Mayor's office; Catholic Charities; United Way; Concerned Pastors; and Food Bank of Eastern Michigan
    - Over the course of a year, with a faucet filter as the preferred solution, we may need to distribute as many as 4,500,000 cartridges.

- Rapid Response. Continue Rapid Response/home delivery for Functional Needs households and individuals.
    - 2-1-1, Local EOC, American Red Cross, and UPS
    - UPS has indicated they would like to assist with this. They are coordinating a conference call with their local operations to facilitate this.

- Bulk Distribution. Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified).
    - CC and FBEM coordinating with SOM warehouse
    - The state would continue to distribute filters, with the assistance of UPS (conference call pending), to Rapid Response calls. This eliminates the need for Food Bank or Catholic Charities to track addresses.

- Fire PODs. Maintain Fire Station PODs until community hubs and PODs are running adequately or demand at each POD is below 250 cases per day.

- Staffing.
    - A jobs program through MTED is being investigated.
    - The Seventh Day Adventists have expressed interest in assisting with donations management and warehousing. Further contacts are being made to discuss their capacity.
    - CERT has expressed interest in assisting. This is also being pursued as they could assist with multiple tasks.

- Filter/Cartridge Tracking.
    - Rapid Response Teams would continue to track distribution by iPad.
    - UPS would track deliveries scheduled through them.
    - Establish a mini-canvassing effort to address addresses that continue to show no filter. Red Cross and CERT could potentially carry out this effort, if approved.
    - Other distribution points would maintain a voluntary sign-in to track outgoing resources to the extent possible.

- Retail "Purchase." Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores.
    - MDHHS will identify costs with DTMB.
    - Planning Consideration – MOUs would be needed with vendors to supply the appropriate cartridges and maintain minimum stock.
    - Stores could also use their own "gift" cards, with established specific commodity codes.

- Sustain Resources. Maintain availability of resources at PODs until daily burn rates are below 250 cases per day, and devolve operation to the next nearest POD/Hub.

- Operational Closeout. Once overall demand is below 750 cases per day, distribute remaining commodities in the Hubs and Rapid Response teams until the EPA, DEQ, and independent monitoring indicate the water is safe in all areas and any addresses that are an exception have an intervention/repair of infrastructure in place.

Bullet Points on Long Term Distribution Course of Action
Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs primarily for water distribution and recycling.
    - 1 POD per Ward = 9 total PODs
    - Fixed Location: Parking lot next to bus route and/or transportation route based on FEMA IS26 compliant checklist
    - Box truck with just in time commodities
    - Staffing would be provided all or in part by workforce development grants
    - 9 per POD for a total of 81 personnel
- Rapid Response Teams for Access and Functional Needs (AFN)
    - 1 Rapid Response Team per Ward = 9 total Rapid Response Teams
    - 1 Rapid Response Team = 1 Box Truck and 2 personnel
    - Staffing would be provided all or in part by workforce development grants
    - Approximately 3,000 AFN in affected area
- Designated officials will coordinate pickup for franchise customers.

Strengths

- Tracking and protection of personally identifiable information is the contractor's responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation of a POD.
- PODs are Ward based, giving local government more visibility of the operation.

Weaknesses

- Increases the cost of the response, at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Other COA Weaknesses

- Faith based courses of action
    - Require excessive number of volunteers to sustain operations
    - Unmanageable number of distribution points
    - Religious sensitivities

Draft Flint Water Operations Plan

January 22, 2016

The State of Michigan's emergency response to the Flint water crisis will involve several phases: Initial Mass Distribution; a distribution Surge, Volunteer Expansion (an increase in the utilization of the volunteer force to distribute commodities over the longer term, Ongoing Resourcing, and Long Term Recovery.

Initial Distribution

- Canvassing teams were initiated by the sheriff and fleshed out by MSP, American Red Cross, National Guard, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by National Guard.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Initial Distribution complete the morning of January 21 based on feedback from local EOC.

Surge

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. Daily missions were intended to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Goal – Reach every residence with water, filters, filter cartridges, and test kits.
    - Metric 1 – Every household will be identified as having either been reach and resources distributed or information left at the door as to how to have resources delivered.
- Canvassing was based on geographic areas to provide manageable areas for each team and to assure that areas where risks of lead contamination or vulnerable populations were known to be more likely were adequately covered. Also, where distribution in the Initial Distribution phase needed additional support were identified and re-canvassed.
- Points of Distribution (PODS) staffed by National Guard continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 is addressing all questions and serving as Point of Contact for all special needs requests (hot shots).
- Surge completion is planned for COB January 24; remaining hot shots will be addressed by ARC or other volunteer teams.

Volunteer Expansion

- Goal – Move from manual distribution mechanism to less labor intensive processes.
    - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to a more volunteer/community based distribution of water, filters, cartridges, and test kits noting Fire Station PODS to be relocated to locally operated PODs by January 31 (*Suggested alternate: February 12*).
- Identify new water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- With a working group of SEOC staff and local agencies, develop and implement best methodology for long-term distribution of filters and filter cartridges by *the target date.*
- Volunteer Expansion complete by COB January 31 (*or February 12*).

Draft Flint Water Operations Plan

January 22, 2016

Ongoing Resourcing

- Goal – Implement long-term, workable processes to sustain provision of potable water to residents.
  - Metric – Every household and franchise customer has access to adequately filtered water at each faucet within the home.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or by faith-based or other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.

Long Term Recovery

- Goal –water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – Households do not require filtration at the faucet.
  - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
  - Metric 1 – Surveys indicate that __% of residents and customers agree that the water tastes fresh and they trust test results.

Bullet Points on Long Term Distribution Course of Action
Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs primarily for water distribution and recycling.
    - 1 POD per Ward = 9 total PODs
    - Fixed Location: Parking lot next to bus route and/or transportation route based on FEMA IS26 compliant checklist
    - Box truck with just in time commodities
    - Staffing would be provided all or in part by workforce development grants
    - 9 per POD for a total of 81 personnel
- Rapid Response Teams for Access and Functional Needs (AFN)
    - 1 Rapid Response Team per Ward = 9 total Rapid Response Teams
    - 1 Rapid Response Team = 1 Box Truck and 2 personnel
    - Staffing would be provided all or in part by workforce development grants
    - Approximately 3,000 AFN in affected area
- Designated officials will coordinate pickup for franchise customers.

Strengths

- Tracking and protection of personally identifiable information is the contractor's responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation of a POD.
- PODs are Ward based, giving local government more visibility of the operation.

Weaknesses

- Increases the cost of the response, at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Other COA Weaknesses

- Faith based courses of action
    - Require excessive number of volunteers to sustain operations
    - Unmanageable number of distribution points
    - Religious sensitivities

Draft Flint Water Operations Plan
January 23, 2016

The emergency response to the Flint water crisis is an "all-in" mission and will involve several operations: Initial Distribution; a Surge, Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery.

Dates given in this draft plan are all subject to the agreement of all parties.

Metrics are intended to be SMART: (Specific, Measurable, Achievable, Realistic, and Time-bound).

Initial Distribution

- Canvassing teams included the sheriff, MSP, American Red Cross, National Guard, and volunteers.
- Stops were made at every residence. When residents were home, they were offered water, filters, filter cartridges, and test kits.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) were established and operated at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; these were initially ARC staffed and then by the National Guard.
- The 2-1-1 system was used to address all questions and serve as the primary Point of Contact (POC) for all special needs requests (hot shots).
- The Initial Distribution was completed the morning of January 21.

Surge

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. On the weekend, this increased by an additional 30 Red Cross teams.
- Daily missions were to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Every household was identified as having been reached with resources, or with information left at the door with instructions for having resources delivered.
- Canvassing was based on geographic areas to assure they were covered where risks of lead contamination and vulnerable populations were known to be higher.
- Areas with lower percentages of positive contacts in the Initial Distribution received additional support for re-canvasing.
- The PODS staffed by the National Guard continued at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- Messaging focused on distribution of water, filters, cartridges, and test kits.
- 2-1-1 addressed all questions and served as POC for all special needs requests (hot shots).
- The Surge was completed January 24; remaining hot shots will continue to be served by ARC or other volunteer teams (National Guard and MSP can also be recalled if additional resources are needed.

Volunteer Expansion

The Flint Community Water Crisis Response Meetings will provide critical guidance this plan. The input received and the plan are a cooperative "whole community" effort that will provide the opportunity for all involved parties to provide input to the process, including the residents, local charities and non-governmental organizations, the city, the county, and the state. An initial working group comprised of the Food Bank, Catholic Charities, American Red Cross, 2-1-1, United Way, and local and state emergency management staff will develop and implement these initial strategies for long-term distribution of filters and filter cartridges by the target date. As operations stabilize within this Volunteer Expansion, additional working groups will be formed to address specific missions.

- Goal – Transition to full coverage and streamlined processes.
  - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to volunteer and community based distribution of water, filters, and cartridges.

- Identify statistical trends in the Fire Station PODS and transition to more available and locally operated PODs, in locations identified by a data driven strategy, by February 14.
- Provide for smooth transition and soft openings of new PODs as they open.
- Identify water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- Provide public messaging and mapping that makes locating a POD or calling for delivery to vulnerable populations both simple and quick.
- Utilize multiple methods of public communication; e.g., reverse 9-1-1, robo-calls, Nixle, Facebook, backpack notes, etc. Strategies will be coordinated with 2-1-1.
- Continue to collect and analyze all available geospatial and demographic data to identify needs and hot spots (and identify successes).
- Identify "Super PODs" that can resource smaller neighborhood PODs and identify their logistical requirements, including credentialing requirements.
  - Metric – a Super POD or Neighborhood POD within close proximity by walking or driving.
    - Assumption – MTA and ride share options as well as walking and delivery are considered.
- 2-1-1 will receive all calls/questions and serve as POC for special needs requests (Rapid Response Teams).
  - Assumption – Rapid Response Teams will transition from the local Emergency Operations Center to the ARC. The ARC and 2-1-1 will coordinate.
  - Metric – A measurable reduction in response times to Rapid Response Team requests.
- Volunteer Expansion target complete date: February 14.

Ongoing Resourcing

- Goal – Implement a medium-term logistics system of supplying filtration components which supports a long-term, workable process to sustain provision of potable water to residents.
  - Metric – All households and franchise customers have access to safe, clean drinking water from the Flint water system, which is augmented by adequately filtered water within the home.
    - Assumption – Identify average family size and consumption, including burn rate, cooking and hygiene utilizing any available research from military operations guides, Peace Corps, Samaritan's Purse or other sources which may identify consumption rates.
    - Assumption – Filter cartridges last 100 gallons.
    - Assumption – People will move to Flint who will need initial filtering supplies.
- Identify warehouse spaces adequate for commodities for the planning period (initial assumption 1 year)
- Water distribution would be led by the city, food banks, faith-based or other volunteer groups.
- Messaging should strongly promote the use of properly certified filtration.
- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customers to participate in the ongoing repair and improvements to the water system and fully leverage and maximize the benefits of all available programs.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- Create a calendar of activities/distribution including the when and where of how the activities and missions will be provided to water system customers. Include decision points for planning teams.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable programs.
  - Is it supportable by FEMA's 90 day mission?
  - What are implications of over supply?

Long Term Recovery

- Goal – water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – All water tests meet or exceed all established water quality metrics and regulations.
  - Metric 3 – Households do not require filtration at the faucet.

- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customer to participate in the ongoing repair and improvements to the water system and maximize the benefits of all available programs to insure that we have leveraged all state, local, federal, and non-governmental resources.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
    - Metric 1 – Independent surveys indicate that residents and customers trust water test results.

**Dates are to be negotiated and confirmed by all parties involved.

Draft Flint Water Operations Plan

January 22, 2016

The State of Michigan's emergency response to the Flint water crisis will involve several phases: Initial Mass Distribution; a distribution Surge, Volunteer Expansion (an increase in the utilization of the volunteer force to distribute commodities over the longer term, Ongoing Resourcing, and Long Term Recovery.

Initial Distribution – Add completion date?

- Canvassing teams were initiated by the sheriff and fleshed out by MSP, American Red Cross, National Guard, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by National Guard.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Initial Distribution complete the morning of January 21 based on feedback from local EOC.

Surge

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. Daily missions were intended to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Goal – Reach every residence with water, filters, filter cartridges, and test kits.
    - Metric 1 – Every household will be identified as having either been reached and *resources distributed or information left at the door as to how to have resources* delivered.
- Canvassing was based on geographic areas to provide manageable areas for each team and to assure that areas where risks of lead contamination or vulnerable populations were known to be more likely were adequately covered. Also, where distribution in the Initial Distribution phase needed additional support were identified and re-canvassed.
- Points of Distribution (PODS) staffed by National Guard continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 is addressing all questions and serving as Point of Contact for all special needs requests (hot shots).
- Surge completion is planned for COB January 24; remaining hot shots will be addressed by ARC or other volunteer teams.

Volunteer Expansion

- Goal – Move from manual distribution mechanism to less labor intensive processes.
    - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to a more volunteer/community based distribution of water, filters, cartridges, and test kits noting Fire Station PODS to be relocated to locally operated PODs by January 31 (*Suggested alternate: February 12*).
- Identify new water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- With a working group of SEOC staff and local agencies, develop and implement best methodology for long-term distribution of filters and filter cartridges by *the target date.*
- Volunteer Expansion complete by COB January 31 (*or February 12*).

Draft Flint Water Operations Plan
January 22, 2016

Ongoing Resourcing

- Goal – Implement long-term, workable processes to sustain provision of potable water to residents.
    - Metric – Every household and franchise customer has access to adequately filtered water ~~at each faucet~~ within the home.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or by faith-based or other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.

Long Term Recovery

- Goal –water distribution operations are normalized.
    - Metric 1 – Households are served by the Flint water system.
    - Metric 2 – Households do not require filtration at the faucet.
    - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
    - Metric 1 – Surveys indicate that ___% of residents and customers agree that the water tastes fresh and they trust test results.

**Dates are to be negotiated and confirmed by all parties involved.

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved. It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water
At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries
The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions
The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact
Lt. B.J. Roach l, Roachb@michigan.gov
Lt. Mark A. Russo Russom2@michigan.gov

CHURCH DISTRIBUTION HUBS

NORTH
Foss Avenue Baptist Church
1159 East Foss Avenue
Flint MI
Pastor Flynn 810-965-1515
Point of Contact: Jackie Scott 810-787-9019
Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

NORTH WEST
St. Mark Baptist Church
3020 DuPont NE
Flint MI
Pastor Thompson 810-280-9985
Point of Contact: Angie George 810-955-6297/810-234-6609
Delivery: 25 pallets starting 1-29-2016 @ 11:00 am

SOUTH CENTRAL
El-Shaddai Church of God in Christ
920 Walnut
Flint MI
Pastor Steve Hawkins
Point of Contact: Elder Eddie Kennedy 810-513-6762
Delivery: 20 pallets starting 1-29-2016 @ 9:00 am

SOUTH EAST
Grace Emmanuel Baptist Church
3502 Lapeer Road
Flint MI
Pastor Jennings 810-743-3900
Point of Contact: Glenna Gates 810-449-7853
Delivery: 8 pallets starting 1-30-2015 @ 10:00 am

SOUTH
Divine Revelations
902 Huron Street
Flint MI
Pastor Williams 810-931-0310
Delivery: 25 pallets starting 1-30-2016 @ 11:00 am

Hub Based

This is a collaborative effort, and may change with input from all parties involved.

- What do we want to do?
- Who is responsible for doing it?
- How do we communicate with each other?
- What is the procedure?

Work SMART:
Safe – Keep our community safe! Let our police and fire fighters protect and serve us!
Measurable – How will achievements be measured?
Action Oriented – Is an action verb used to describe expected accomplishments?
Realistic – Is the outcome achievable with given available resources?
Time Sensitive – What is the timeframe?

HUB churches will network with surrounding churches and establish agreed upon distribution schedules.

HUB churches will provide the list of churches that will obtain their water from the HUB church. This list will be sent to Lt. Roach at Roachb@michigan.gov.

Each ward will have one central church to be the Hub for water distribution for that area/ward. Within that ward will be the 3 sub-Hubs that will provide services to that area. Each hub will have the following:

- Loaders (National Guard/Sheriff work detail)
- Admin (Address look-up to direct you to your nearest hub)
- Water
- Water filters/replacement cartridges
- Home water test kits
- Provide mobile lead testing clinic, twice a week for individuals without insurance. The mobile clinics will ONLY be at the ward hubs. There will be no door to door clinics. Once tested, residents will receive a lead awareness nutrition booklet which will provide education on lead prevention tips for families.
- Recycling center for the empty water bottles will be placed at all 9 ward hubs.

Current Burn Rates

Station 3	2,404 cases/day
Station 6	2,362 cases/day
Station 8	2,299 cases/day
Station 1	2,248 cases/day
Station 5	1,663 cases/day

Requests for Water
The Church HUB point of contact is Lt. Roach . The Church HUB will call and provide the quantity of water, and schedule the delivery time, at least 24 hours in advance.

Deliveries
Deliveries will be conducted by a MI DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, people will need to be available to help off-load.

Church Distributions
The Church Distribution HUB will be responsible to network with the surrounding churches, and set up distribution schedules, including amounts of water needed.

- Members of the committee are
- Mayor Karen Weaver;
- Genesee County Board of Commissioners Chairman Jamie Curtis;
- Virginia Tech university professor Marc Edwards;
- Dr. Mona Hanna-Attisha, director of the pediatric residency program at Hurley Medical Center;
- City Administrator Natasha Henderson;
- Jim Koski, former Saginaw county drain commissioner;
- Dr. Lawrence Reynolds, president and chief executive officer of the Mott Children's Health Center;
- Laura Sullivan, a professor of mechanical engineering at Kettering University; Genesee County Health Officer Mark Valacak;
- Harvey Hollins, director of the Michigan Office of Urban Initiatives;
- Col. Chris Kelenske, deputy state director of Emergency Management and Homeland Security Department with Michigan State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his designee; Nick Lyon, director of the state Department of Health and Human Services, or his designee;
- Mike Zimmer, director of the state Department or Licensing and Regulatory Affairs, or his or her designee;
- state Treasurer Nick Khouri or his designee; and
- Brian Whiston, superintendent of public instruction, or his designee.
- One additional member will be named at a later date, a news release from the Governor's Office says, and members will serve three-year terms expiring Dec. 31, 2018.

Draft Flint Water Operations Plan
January 23, 2016

The emergency response to the Flint water crisis is an "all-in" mission and will involve several operations: Initial Distribution; a Surge, Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery.

Dates given in this draft plan are all subject to the agreement of all parties.

Metrics are intended to be SMART: (Specific, Measurable, Achievable, Realistic, and Time-bound).

Volunteer Expansion

The Flint Community Water Crisis Response Meetings will provide critical guidance this plan. The input received and the plan are a cooperative "whole community" effort that will provide the opportunity for all involved parties to provide input to the process, including the residents, local charities and non-governmental organizations, the city, the county, and the state. An initial working group comprised of the Food Bank, Catholic Charities, American Red Cross, 2-1-1, United Way, and local and state emergency management staff will develop and implement these initial strategies for long-term distribution of filters and filter cartridges by the target date. As operations stabilize within this Volunteer Expansion, additional working groups will be formed to address specific missions.

- Goal – Transition to full coverage and streamlined processes.
  - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to volunteer and community based distribution of water, filters, and cartridges.
- Identify statistical trends in the Fire Station PODS and transition to more available and locally operated PODs, in locations identified by a data driven strategy, by February 14.
- Provide for smooth transition and soft openings of new PODs as they open.
- Identify water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- Provide public messaging and mapping that makes locating a POD or calling for delivery to vulnerable populations both simple and quick.
- Utilize multiple methods of public communication; e.g., reverse 9-1-1, robo-calls, Nixle, Facebook, backpack notes, etc. Strategies will be coordinated with 2-1-1.
- Continue to collect and analyze all available geospatial and demographic data to identify needs and hot spots (and identify successes).
- Identify "Super PODs" that can resource smaller neighborhood PODs and identify their logistical requirements, including credentialing requirements.
  - Metric – a Super POD or Neighborhood POD within close proximity by walking or driving.
    - Assumption – MTA and ride share options as well as walking and delivery are considered.
- 2-1-1 will receive all calls/questions and serve as POC for special needs requests (Rapid Response Teams).
  - Assumption – Rapid Response Teams will transition from the local Emergency Operations Center to the ARC. The ARC and 2-1-1 will coordinate.
  - Metric – A measurable reduction in response times to Rapid Response Team requests.
- Volunteer Expansion target complete date: February 14.

Ongoing Resourcing

- Goal – Implement a medium-term logistics system of supplying filtration components which supports a long-term, workable process to sustain provision of potable water to residents.
  - Metric – All households and franchise customers have access to safe, clean drinking water from the Flint water system, which is augmented by adequately filtered water within the home.
    - Assumption – Identify average family size and consumption, including burn rate, cooking and hygiene utilizing any available research from military operations guides, Peace Corps, Samaritan's Purse or other sources which may identify consumption rates.

    - Assumption – Filter cartridges last 100 gallons.
    - Assumption – People will move to Flint who will need initial filtering supplies.
- Identify warehouse spaces adequate for commodities for the planning period (initial assumption 1 year)
- Water distribution would be led by the city, food banks, faith-based or other volunteer groups.
- Messaging should strongly promote the use of properly certified filtration.
- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customers to participate in the ongoing repair and improvements to the water system and fully leverage and maximize the benefits of all available programs.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- Create a calendar of activities/distribution including the when and where of how the activities and missions will be provided to water system customers. Include decision points for planning teams.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable programs.
    - Is it supportable by FEMA's 90 day mission?
    - What are implications of over supply?

Long Term Recovery

- Goal – water distribution operations are normalized.
    - Metric 1 – Households are served by the Flint water system.
    - Metric 2 – All water tests meet or exceed all established water quality metrics and regulations.
    - Metric 3 – Households do not require filtration at the faucet.
- Work with the federal HHS Unified Coordination Group and the Flint Water Interagency Coordinating Committee to maximize opportunities for Flint water system customer to participate in the ongoing repair and improvements to the water system and maximize the benefits of all available programs to insure that we have leveraged all state, local, federal, and non-governmental resources.
- Ongoing public messaging and education are offered to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
    - Metric 1 – Independent surveys indicate that residents and customers trust water test results.

**Dates are to be negotiated and confirmed by all parties involved.

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach .. The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Draft Flint Water Operations Plan
January 23, 2016

The State of Michigan's emergency response to the Flint water crisis will involve several operations: Initial Distribution; a distribution Surge, Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery.

Dates given in this draft plan are all subject to agreement of all parties.

Metrics are intended to be SMART: (Specific, Measurable, Achievable, Realistic, and Timely).

Initial Distribution - Complete

- Canvassing teams were initiated by the sheriff and fleshed out by MSP, American Red Cross, National Guard, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by National Guard.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Initial Distribution complete the morning of January 21 based on feedback from local EOC.

Surge – Complete February 24

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. Daily missions were intended to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Goal – Reach every residence with water, filters, filter cartridges, and test kits.
  - Metric 1 – Every household will be identified as having either been reached and resources distributed or information left at the door as to how to have resources delivered.
- Canvassing was based on geographic areas to provide manageable areas for each team and to assure that areas where risks of lead contamination and vulnerable populations are known to be more likely receive more coverage. Also, areas with lower percentages of positive contacts the Initial Distribution received additional support for re-canvasing.
- Points of Distribution (PODS) staffed by National Guard continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 is addressing all questions and serving as Point of Contact for all special needs requests (hot shots).
- Surge completion is planned for COB January 24; remaining hot shots will be addressed by ARC or other volunteer teams.

Volunteer Expansion

- Goal – Move from manual distribution mechanism to less labor intensive processes.
  - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to a more volunteer/community based distribution of water, filters, cartridges, and test kits noting Fire Station PODS to be relocated to locally operated PODs by January 31 (Suggested alternate: February 12).
- Identify new water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- With a working group of SEOC staff and local agencies, develop and implement best methodology for long-term distribution of filters and filter cartridges by the target date.
- Volunteer Expansion complete by COB January 31 (or February 12).

Ongoing Resourcing

- Goal – Implement long-term, workable processes to sustain provision of potable water to residents.
  - Metric – X households and franchise customer have access to adequately filtered water at each faucet within the home.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or by faith-based or other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.

Long Term Recovery

- Goal –water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – Households do not require filtration at the faucet.
  - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
  - Metric 1 – Surveys indicate that __% of residents and customers agree that the water tastes fresh and they trust test results.

**Dates are to be negotiated and confirmed by all parties involved.

Long-term Recovery Bullets – 2/4/16

- Facilitated Community Partners Workgroup Meeting at 1:30 p.m. at the Food Bank of Eastern Michigan
- Attended Community Partners Meeting at 3 p.m. at the Food Bank of Eastern Michigan
- Met with Maggie Sayles, MTED, reference a potential local hire program to sustain operations
- Followed up on items for the White House's Office of Public Engagement

Long-term Recovery Bullets – 2/7/16

- Working with State Agencies to determine if a need exists for their activities on the ground in Flint that could benefit from the potential local hire program

NDWG Proposed Narrative. 2.19.16

Elevated lead levels have been detected in the water supply in a number of areas in the City of Flint. The State of Michigan officially declared a state of emergency in flint on January 6, 2016, and the Federal Government followed on January 16, 2016. Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it.

On January 16, 2016 and at the request of the State of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city. This declaration mobilizes FEMA to assist in the efforts and also makes certain federal funds available to the city for the purpose of supporting those activities.

This NDWG will support the activities set in place by the State of Michigan Emergency Management Team, which has established a State Emergency Operations Center (SECO) in Flint. The Michigan State Police, Michigan National Guard, FEMA and other agencies are operating the center to ensure water and filters are distributed to Flint residents.

The project's primary goal will be to: 1) develop temporary jobs that benefit the residents of Flint affected by the Flint Water Crisis by employing workers on projects that provide emergency water, water filters, lead testing kits and replacement cartridges, 2) provide support services to the persons placed into the temporary jobs, 3) provide support for temporary job through warehousing water and other commodities, and recycling the bottles and filters as needed during the crisis. While the overriding emphasis will be to support the local recovery effort through temporary jobs for humanitarian purposes, there will also be a range of broader workface services directly connected to the temporary jobs programs to assist participants the workers in finding permanent employment. The structured temporary jobs program will allow workers to spend time on learning reemployment skills. When appropriate, the following reemployment activities may be included to support the temporary jobs program:

- Connect temporary workers with local employers
- Implement structured skill building activities (equipment use and safety)
- Offer soft skills activities at worksite to build job readiness
- Use any available down-time to provide career planning assistance

The project plans to serve 400 Dislocated Workers and Long Term Unemployed (those who have been out of work more than 20 nonconsecutive weeks in the past five years, enrolled as adult) who reside in Flint.

The WDA will partner with Genesee Shiawassee Thumb Michigan Works (GST) as the project operator. GST will provide WIAO services for all participants who are found eligible and enrolled in the project. SEEDS (operates the largest Conservation Corps in the State) will serve as the employer of record and provided services in conjunction with GST.

The temporary workers will perform specific water crisis related work along with the other work consistent with the core mission of the SEOC to provide allowable humanitarian relief employment on projects that provide assistance to residents of Flint affected by the water crisis. Other allowable activities may include clean-up (recycling), repairing, renovating and reconstructing damaged water lines as it relates to the crisis.

The temporary jobs created would pay an average of $11 per hour. Participants will be provided support services deemed necessary to complete the assignment (including, but not limited to work clothes and tools). These temporary jobs will not be provided unemployment insurance benefits.

Flint Water – Proposal
Local Hire Program

TOTAL STAFF REQUESTED: 124

Assumed Period of Operations: 1 year (at a minimum)

Church Distribution Hubs

- 5 total hubs
- Each hub requires:
  - 10 Loaders
  - 2 Admin Staff
  - 2 Recycling Staff
  - 1-2 Manual and/or electric pallet jacks
- **Total Staff Requested:** 70 personnel
- ***Total Equipment Requested:***
  - 5-10 Manual and/or electric pallet jacks

Warehouses

- 2 warehouses currently
- Each warehouse requires:
  - 1 warehouse manager
  - 13 warehouse staff (at least 3 forklift certified)
  - 9 truck drivers
  - 1 overnight security personnel
  - 9 Trucks – 20' or longer with lift gate and electric pallet jack (trucks over 26k lbs require CDL)
  - 2 electric pallet jacks
  - 3 forklifts (operators must be certified)
  - 1 laptop
  - 1 phone
  - 1 printer
  - Office Supplies
  - Packing tape
  - Shrink wrap
  - Dispensers
  - Cardboard pallet boxes to stabilize stacks of water
  - Box cutters
  - Side snips
  - Disposal arrangements – 40yd dumpster
- **Total Staff Requested:** 48 personnel
- **Total Equipment Requested:**
  - 18 Trucks – 20' or longer with lift gate
  - 11 Electric pallet jacks (9 for trucks; 2 for warehouse)
  - 3 forklifts
  - 1 laptop
  - 1 phone

    - 1 printer
    - Office supplies
    - Packing tape
    - Shrink wrap
    - Dispensers
    - Cardboard pallet boxes to stabilize stacks of water
    - Box cutters
    - Side snips
    - 40yd dumpster
- **Leases:** 2 warehouse spaces

Rapid Response Deliveries

- 5 box trucks – 16' with lift gate
- 2 staff per truck
- **Total Staff Requested:** 10 personnel
- **Total Equipment Requested:**
    - 5 box trucks – 16' with lift gate

Emergency Operations Center Staffing

- 4 Data entry personnel
- 2 Planners
- **Total Staff Requested:** 6 personnel

Recycling Operations

- Is this something we could work on? This is still being developed at the local level.

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants
Alisha Tate-Nadeau, FEMA
Jeannie Moran, FEMA
Tom Weber, MSP/EMHSD
Zach Baker, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
LTC Seely, National Guard
Jason Gamble, FEMA
Maggie Sayles, MTED

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under this grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million

Who can be the employer of record?

- It can be a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

Need to identify employer of record **(very important next step)

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- No matter who the employer of record is, the employee should be working closely with MI Works
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours works, 5 hours school (training/work enhancement opportunities), generally
- LTC Seely will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)

**-Action items for MSP/EMHSD

    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- MI Works (GST Works – locally) has space in their facility that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions
- MI Works could help determine appropriate pay scale for jobs

Maggie – Research
- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them

**-Action items for MSP/EMHSD

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants

Maggie Sayles, MTED
Tom Weber, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
Zach Baker, MSP/EMHSD
LTC Seeley, National Guard
Alisha Tate-Nadeau, FEMA
Jason Gamble, FEMA
Jeannie Moran, FEMA

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under the grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million (additional asks can be made as needs arise)

Who can be the employer of record?

- It can be NGO or a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

****Need to identify at least one employer of record (very important next step)**

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- No matter who the employer of record is, the employee should be working closely with MI Works
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours work, 5 hours school (training/work enhancement opportunities), generally
- LTC Seeley will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)
    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- They initially pull from people they already have signed up for work opportunities, particularly with special skills.
- MI Works (GST Works – locally) has space in their facility near downtown that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions (FEMA and Brianna are putting together based on COAs)

- MI Works could help determine appropriate pay scale for jobs

Maggie – Research

- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them (MO uses this program fairly regularly now after declared disasters)

**-Action items for MSP/EMHSD

  - Side snips
  - Disposal arrangements – 40yd dumpster
- **Total Staff Requested:** 48 personnel
- **Total Equipment Requested (lease or buy):**
  - 18 Trucks – 20' or longer with lift gate
  - 11 Electric pallet jacks (9 for trucks; 2 for warehouse)
  - 3 forklifts
  - 1 laptop
  - 1 phone

    - 1 printer
    - Office supplies
    - Packing tape
    - Shrink wrap
    - Dispensers
    - Cardboard pallet boxes to stabilize stacks of water
    - Box cutters
    - Side snips
    - 40yd dumpster
- **Leases:** 2 warehouse spaces

Rapid Response Deliveries

- 5 box trucks – 16' with lift gate
- 2 staff per truck
- **Total Staff Requested:** 10 personnel
- **Total Equipment Requested:**
    - 5 box trucks – 16' with lift gate

Emergency Operations Center Staffing

- 4 Data entry personnel
- 2 Planners
- 2 Geographic Information System (GIS) Technicians
- **Total Staff Requested:** 8 personnel

Miscellaneous Operations

- 2 Translators (1 Spanish; 1 Arabic)
- 20 Plumber Apprenticeships for Local Contractors
- 20 Social and medical case worker training
- 10 Bus drivers
- 10 Mechanics
- 2 Building Inspectors

Recycling Operations

- Is this something we could work on? This is still being developed at the local level.

TO DO

- get list of add'l community partners from Jeannie
- ~~Add new member~~.
- Create Outlook groups for both community partners groups
- talk to Chad about changes and Gov's office list of volunteers (who is managing?)
- What VOADS could help provide:
  - 20' + trucks w/ lift gates (Good 360?
  - 16' box trucks
  - forklifts
  - pallet jacks
- Add Tuesday Water Resource Comm Workgroup meetings to calendar (Kara-FB)
- ✓ Add Thursday 1:30-3pm meetings to calendar.
- Collect/compile jobs program info - send to Maggie by Monday 10 am.
- Compile AFN lists

1/21 Flint Water Emergency

9Am Capt. ___ up to spud
Coordination / local / county
Provide resources
move forward, get it fixed
Situational assessment
Coordinate w/ fema
Presidential Decl. of Disaster - not possible
" " of Emerg. - possible
State agencies to update, what Fed agencies
Water supply
Planning cycle
4pm meeting to define goals
Objectives - 10 am meeting
11:30am - Command & general staff
1pm - Tactics
2pm - Planning meeting
3pm - IAP approval
3:30pm - Ops Brief
Every day until notified
Op period - weekly. Ja now. 8-5p
Activity Log - be mindful where sharing
2015-10-01 - City of Flint - Contamination/Shut
Lead Pipe Replacement Prog. - DEQ?
GIS - determine homes, filters
distribution of filters, any others
data, who are we missing

Methods for distribution
Get quick wins, establish trust
Will set up JIC

Dr. Wells - MDHHS
- Lead - oldest neurotoxin, affects all systems in body
- worried about children (young)
- short & long term affects
  - gastric, ulcers, coma, death, anemia
  - development, cognitive, lower IQ curve, attention
  - 10 micrograms / deciliter → now 5
- no real safe level
- Toxicity - pottery, firing ranges, dirt
- EPA regulations - dropped lead issues since 70's
- Can remove toxins if we can find out where high toxicity levels are
- Lead Prevention Programs (CDC)
- CLPP - Child Lead Prevention Prog. MDHHS runs prog.
- children screened at 1 & 2 or at least before 6.
- follow up if over 5
- 3rd Qtr. of year is higher toxicity levels (summer)
- Water in pipes seasonally changes.

- critical action level - 45
- targeted cities old urban areas
- lead abatement prog. - lead paint seems to be more frequent
- Dr. Mark Edwards - testing water
Elevated blood lead levels inc. since 2014
Am. Journal Public Health article 2 wks ago
- 18% increase in 2 ZIP codes in Flint in children less than 6 (-03 ; -04) higher than they'd like - not significant
- is it due to water? Cannot confirm - children live in highly lead area - water probably does play a role.
- Prob w/ lead testing - can be reduced by removing child from environment
- Current RISKS, any positive results
- half life - less than 30 days
- Exposed population · water supply since 2014
- Potential long-term effects
- more screening needed?
- Surveillance indicators - 262 tested since Oct 1
- 1 hospitalized - fine now
- no deaths
- Contractors - 12 investigations, now testing drinking water, 6 scheduled

- 181 attempted contacts, 109 offered Case Mgmt - 24 started
- Wayne State, MSU working on this
- Water Filter distribution - pitchers - 11,415
  - 200+ pitchers, log. for distribution
  trying for 1 in every house
- Health Comm. Needs - shower/bathe?
Toxicology - being monitored
- Shared testing protocol w/ providers
- 80% testing is goal
- Correct mis-info.
- Citizen comm / trust is huge (PIOs)
- Resilient community
- WIC / SNAP - teach
- Long term needs -

Capt - Technical Briefing on filters?
wells.mi.gov/flintwater - home depot
Is there or talk of App? - To PIOs

OSA - Toxins besides lead?
Wells - there are bacteria, copper, Wilsons disease, no current issues noted

Jackie - Mailings - daycares?
Wells - targeted populations - still need to work on this.

Parent / Provider Letter

Paul Smith - Lasting impacts mitigated?
Wells - Nutrition, education

Capt - Keep focused on coordination / resources.
Filters are a priority
All GIS assigned to this

DEQ - George, Flint Action Plan Coord.
- History
- 1967 - ~~prior~~ Switched from Flint River -> Detroit
- Ran Treatment Plant quarterly w/ no issues, did not distribute
- Jan 2006 - KWA
- Apr 2013 - ~~B~~ April 17-2014 term date
- May 2014 - Flint River source
- Aug / Sep 2014 - Bateria - boiled water adv.
- late 2014 / 2015 - ~~opt~~ changes to filtering
- DEQ required 6mth testing (2 rounds) - implement corrosion control - 6 ppb -> 11 ppb
15 ppb is the action level
- Color, odor issues reported - VA testing found lead
- Sept 25, 2015 - lead advisory, do not drink
- Prelim. screening at schools
- Oct 16, 2015 - Back to Detroit

- Oct 24, 2015 - Plumbing swab at schools. some are over 100 ppb (200-300 samples/facil
- Need to replace faucets etc. to bring levels down. - (solder, lead service lines) corrosion control

- use the filters

ARC - not currently involved.
LARA - helping w/ testing - plumbing inspections done by the County w/ no inspectors
EMAC?
PIO - strategize after this briefing in Terrace
AG - Don't make people paranoid. Pending lawsuit against Gov, etc. - Potential lawsuit under safe drinking water act
MDOT - Infrastructure - long term?
Wells - EPA has plans.
Lt. Roach - working since the local decl.
local groups working since Oct 1
23,000 filters (PUR, home depot donations)
local GIS - identifying lead lines

Capt - get objectives to planning
Tony - DEQ, Ed, DHHS, TED, DTMB, MDARD
Staying
Look at MEMP before leaving

Work on email for potential assets, locations in area

10/1/15 - Gen Co. decl. Public Health Emerg.
12/5/15 - City decl. local state of emerg. & partially activated city EOC.
1/4/16 - Gen Co. decl. local & partially staffed EOC
1/5/16 - Gov. decl. state of emerg for city in city
1/5/16 - Gen Co began damage assessment.

1/7/16 - Flint Water Emergency

- DHHS - come up w/ filter process
- get EOC staffed., local
- MDE reaching out
- PA390 - who has control? Broad authorities

0830 - Local Agency Briefing
- IAP created - not at county - we will publish ours
- weekly op. periods.
- any county sitreps? hopefully by COB tomorrow
- MICIMS access.
- Co. focus on staffing EOC today?
- filter process - DHHS. - Matt at G Card integrated w/ county
- schools have water - public & private? public schools for sure - will reach out to private - unsure of private stock.
- Food Bank distributing water
- What do they need? Working on sit. awareness - GIS of where filters are & what is needed. - Index cards and an efficient way to compile this - (GIS to think) - get inventory of filters & water. - appoint LOG chief. - public health. - we will handle filter process & water supply - Sheriff has 50 people assembled to distribute 1,000 filters in oldest communities that haven't gotten filters. - 5,000 filters to show up today.

can't wait 3 months to get filters- replacement filters will be the next concern (PUR : Brita)- work on request for these filters
· is there a board to assist w/ tracking?
· Bottled water needs - food bank continuous stream of semi after semi of water - 90 locations in the city to distribute - is this mapped? Trying to get w/ food bank to map these - our GIS to work on distribution/storage/quantities
· Lead on water - Feb 1 - significant amounts
· JIC - operational - productive - co-locate w/ locals by the end of the week. - Gov meeting w/ Flint officials - media lines open at 9Am.
Lt. Roach to assist in finding a location
· Planning - IAPs : Sit Reps at co. level will be helpful will put a contact list together - need a full time person in the local.
· Broader filter distribution
· NCCC FEMA Teams?
· All Press Releases route thru JIC.
· MI CIMS - JIT training?
· Are we making prog? Yes
· Do you need anything? Not yet
· How else can we help? Nothing right now.
· Long term recovery
· Trucks for water distribution - currently renting
· Establish Legislative ; Congressional calls. - Fri PM

- Ops- pull format
- Ron- talking points
- Tony to run 1000 call
- 2pm - Flint Post - premeeting
- Filter process - DHHS - work w/ locals
  - ↑ clarify differences between options
  - ↑ installation process - MI VOAD?
- ARC - may be able to help w/ installation
- GIS - map out water storage (staging), quantity, distribution
  - single reception point?
- ABC 12 - tour SEOC
- Resource Requests - use tasking piece as well
- Recycling process - WV? - Michelle
- Donations mgmt plan - activate? - monetary.
  - ↑ website or fund.
- Publish Sit Rep.
- High level - State Recovery Task Force - Summary long-term recovery.
- Local EOC needs help w/ logistics - Jay & Henrik? 1pm or sooner?

1020 - Recovery Plan - review - task matrix (pg 202-354)
- State Recovery Task Force
  - high level direction - Executive group
- Boots on the ground mgmt - Recovery branch
- Who should run task force? Event-driven - say what we want - Gov's office Rep. - mission - define clear mission

- Governor's task Force - can they transition to this role? Would need liasion to SEOC. -
- Recommend adding someone to this task force
- Executive Order
- Current task force name & members?
- Creat objectives of group.

- Recovery has started - filter distribution, water
- What are the needs/issues?
- DHHS in local EOC - need local health dept.
  ↳ local task to GCard - planning for filter needs etc.
- No clear coordination on incoming donations
- Who is in the volunteer group? Not coordinated
- ~~Beer exhaust~~

★ - Recovery Branch
- work w/ DHHS & locals & GIS
- get report & provide to Ops Chief
- What are necessary GIS assets/maps? Jim T. sending 2 people to help coordinate pulling info
- getting things back to normal - health, remediation
- door-to-door - creat door hanger - billboards?
- 211?
- expand food assistance, income levels, state vouchers
- Poison Control?
- EPA?

Recovery Support Plan Review

- Critical Infrastructure Restoration
- Economic Stabilization
- Individual & Family Services
- Environmental Restoration
- State Recovery Task Force (pg 210)
  - Develop a strategy for & oversee/coordinate recovery
  - Structure
    - SMEs from State Agencies,
    - NGO's
    - Private sector
    - MSP/EMHSD to determine needs.
  - Mobilized after response by MSP/EMHSD
  - Leadership (pg 211) - MSP/EMHSD, Gov's office, FEMA, local juris
  - SRTF can be the Recovery Branch under Ops if SEOC activated; under MSP/EMHSD if SEOC closed
  - Discuss recovery steps
  - develop recovery strategy
  - coordinate recovery

Names & Addresses

an

It is the recommendation of the Operations Section/Recovery Branch that the State Recovery Task Force be the Flint Water Task Force and that a member of EMHSD, with decision making authority, become a member of that task force. This would ensure responsibilities per the MEMP are met as well as provide for a unified, coordinated effort in the long term response/recovery of this incident.

A meeting was conducted with key SEOC staff to discuss development of the State Recovery Task Force as well as the Recovery Branch within the Operations Section. First, we must recognize we are currently in the response mode, moving toward recovery.

Response must address immediate risks to health and safety of the public. At this time, potable water is the primary concern. The delivery of water, filters and replacement cartridges to members of the affected community provide the means to address immediate needs. To ensure response is fully addressed, detailed information on supply, storage, and distribution is being gathered from all resources to provide a complete understanding of outstanding needs. GIS data is critical to achieving their objectives. The state GIS Unit is working closely with the City of Flint, Genesee County, and all organizations to provide a clear path to collect and identify all useable data sources. At this point, the local jurisdiction has created a tracking method to include all items delivered to date and going forward.

Messaging continues to be a key concern. While families with school age children and children in day cares have been reached, success is dependent on children delivering written information to households and recognition of the importance for taking action. While that public messaging is occurring through media releases, Twitter messages, etc.; there are remaining concerns that families may not have young children in school, may not be in the work force, may not have internet access, etc. The most effective mechanism to ensure all citizens are contacted is by a door to door canvas of the affected area. The creation of a "door hanger" to provide 211 contact information advising of distribution sites, how to obtain assistance in installation, and basic information about the emergency would be most effective. The Recovery Branch is determining appropriate information to be contained on this door hanger. The JIC will develop the appropriate message, and volunteers will be identified to deliver the messaging materials door to door.

Long term recovery includes two key areas of infrastructure and health. We believe the CDC, Poison Control, EPA and others need to be included in these efforts. The Recovery Branch will ask all state agencies to research all potential assistance. A written report on available resources will be provided to the State Director.

Distribution sites

where? (only 4?)

"get to people"

Plan - Tomorrow

Boots on ground

by Monday

1/8/16 - Flint Water Emergency

0830 Local Call

- unified message - you can use water to bathe - Chris will track down and correct the source
- FEMA arrived in SEOC
- Stafford Act doesn't fit this incident
- Non-Stafford Act Recovery Guide - other sources of funding
- DHHS reported purchase of 5,000 more filters
- water distribution sites being mapped.
- working to fill yesterdays request
- DEQ will be meeting w/ the mayor today
- Local focus - nutritional support recommendation and request - primarily for children
* - impact assessment (get w/ Henrik/Jay)
- take into acct those who work, school in the city but live outside the area.
- JIC transitioning to Flint - will meet w/ locals this after
- Chris working w/ food bank to expand water distribution site - food bank distribution points - fire stations could be points of distribution
- 12 active water distribution sites (up to 90 want to
- missing? - JIC to absorb 211?

0930 State Agency
- ARC - requested locally to hand out filters
- OSA - requested senior addresses needing help.
- MDARD - agreed on guidance & regulations - working w/ JIC on language - Animal Division
- Ed -
- DEQ - samples.
- DHHS - CHECC activated, local EOC, food/nutrition
- DTMB - JIC location - telephones installed.
- NWS - Rain, winter tmrw - 2-4 inches, windy very cold
- PIO -
- capt - water distribution

1052 Lt. Roach - local EOC not planning yet, will call ops chief to advise

1320 - PODs open w/ no water - water isn't being delivered.
- Wainscott (ARC) - Sheriff called
- ARC will be main POC for water distribution Right now
- Fire Stations - bottled water
- Churches need to be as well - we need to engage them
- city EOC not open - Genesee Co. is open - City needs to be in Co EOC.

- duplicating efforts
- fear among residents
- Donations Mgmt - United Way
- Set up an operation and bring the locals in

- Donations Mgmt - money / supplies
  - POC - united way
- Drector Creagh - infrastructure & water testing

- 4 troops - legitimate,
- Lt. Roach - get docs they are using
- ARC Disaster Operations
  ↳ deliver water to PODs

- water & filters in fire stations - end of Day
  ↑
  2 types & ~~replacements~~

- DEQ water sampling - what to tell them?

4:00pm Call w/ locals & GM
- United Way
- experience working w/ UAW & GM
- provided $50,000 in the beginning
- game changing decision?
- how can they help?

- GM
  - volunteers to distribute water & filters
- Richard
  - living convo.
  - fire station volunteers

  - liability concerns? They need to look at that.
  - trucks to move supplies around.

  - Catholic Charities Center of Hope - can take donations (no pallets)
  - warehouse for water donations?
- United way can only help for a couple weeks

1/9/16 - Flint water

0830 Local Call - Lt. Roach/Chris DeVrient

- FEMA LNOs here
- 8 PODs - do they have water?
- Water at food bank - 2 semi's delivered
- currently working on it - going to nail this down today
- Water testing - need to be done
- Fire Stations - water, filters, test kits
- 10 ARC volunteers to help w/ filters
- Concerned pastors group.
  - 2,000 filters - work on this list
- 211 is overloaded - DHHS working on
- local - Vol. mgmt coord. - Chad will be at Girard
- consistent messaging
- Tom
  - 4 add'l objectives
  - Public Nutrition Plan
  - Water Testing Plan
  - Weather Safety
  - Filter/Water distribution
- Lt. Roach
  - 8 PODs - local partners - cannot set hours - high priority today - establish more at messaging?
  - Can we move water? to 80-90 sites
  - Who is working on this? Chad, ARC?
  - Warehouse to store incoming water donations.

- DHHS - SNS sites? - NO
- Lt. Roach - continue fire stations? Yes. - how they are replenished?
- 211 - is there another info line? Not yet. Continue w/ 211 - too many prompts
- Sheriffs office may open a line. - ~~we need to~~
- JIC mtg. - sat on hold w/ 211 for 9 mins
- Sheriffs office opening a line to accept calls re: filters - we need to be part of this
- Making progress? - Yes
- Requests? - working on answers
- Need help? No

- Michelle
- DEQ - & Mark - working out well
- IAP developed
- shadow staff today.
- Need accurate # of filters distributed & who has this info
- Through next week in local EOC at least.
- Unmarked vehicles - esp for DEQ - and what they wear (IAP) Safety message - AG
- MSP needs to be here - Kellery/Bolger.

* - Develop Written Plan

0930 State Agncy Call
- ARC at fire stations

- working on logistics for churches
- establish safety officer
- MDARD - worked on regulatory requirement, animals shelters involved, nutrition for door hangers
- ARC - Disaster Relief Operation set up. - establish churches before noon, may be able to work to get 20 volunteers
- Ed - child nutrition prog. contacts
- DEQ - staff at local EOC
- LARA - water testing at schools
- DTMB - driver on site - picked up test kits, getting filters & water to get to fire stations set to deliver tmrw to churches.
- MSP - en route shortly
- DHHS. MCSC
- ☆ NWS - Winter storm tonight - 1pm webinar. 20's tmrw, snow, & hazardous roads, winds.
- Sick - take care of yourself.
- R Document work in MI CIMS.

1200 State Agency
- Local - church coordination
- Local POC - for teams
- volunteer mgmt / donations mgmt
- Tues. mtg to develop volunteer mgmt

- LARA - faucet rep. prog. approval
- MDARD - food info, public nutrition
- DEQ - no fee for testing
- Filters - mapping backlog.
- FEMA - LNO only - external affairs in Chicago
- Manage expectations
- 39 pallets en route -
  - how much water do you want?
  - food bank out of waters. water resource sites
- 1 pm news release - fire station news release
  best location for press conf. - 3pm?
- need # for door hangers.
- how can people volunteer?

- Media event tmrw afternoon
- PIOs in the field on the teams : photographer.
- GM Warehouse - for staging

1/10/16 - Flint Water

0830 - Local Agency Call
- Churches / Fire Stations - restocking
  ↑ 9-9p now.
- Water at fire stations, looking at filters
- 4 churches have water today
- Red Cross vehicles
- leave filters at churches? Yes.
- Stockpiles of resources - all of them.
- Supplies? What do we need? They need to look at the stock.
- Warehouse - DCH - 40,000 sq ft.
- Don't disrupt SNS
- PIO - fire station #1 stocked for media - 2:30pm
  Who from sheriff's office will be there?
* - Info sheet for churches this morning?
- Info for church bulletins
- Staffing for fire stations)
* - 10-8p? Door-to-door operations - Change to 6pm
  Risk after dark - to work w/ Gov's office
- Emphasis on warehouse
- need a city rep. in the EOC - someone there on Monday.

- # on teams
  where they will be
  operation tasks

Water Resource Teams.

- ★ Work w/ mike on hrs of operation w/ local post.
- nutrition - what would it take to turn old grocery stores into markets for locals?
- News Release - ~~Tues~~ Mon / Tues - re: teams in the field.
- google reached out.
- ★ door hanger - translation into spanish. for Tues.
- Warehouse set up today to move resources in for one central location

- Scott Schaefer - Gen. Co. - 4 vehicles - just vehicles

- Recovery - 204's - 1230

- No change to hours of operation

Mobilization Plan

- 40 DHHS employees

- 1 Platoon - 4 squads 10a-8p (Mon) - Sun.
  w/ trailers / trucks (DTMB) (4)
  Comm Service mission

- where they should go
- training, location, etc. trainers.

- Tactics meeting
- Security brief - MSP

- Scott - Gen. Co. - box trucks - dead end coming to DTMB
- DTMB drivers for Monday (2)

Data entry & stats to JIC on daily ops.

Test kits - bottle · [redacted] / info sheet

- [redacted] homebound?

1/11/16 - Flint Water

0830 - Local Call

- inventory - filters / test kits / water - how much have we gone through? Before / after declaration
- one distribution center to be established.
- United Way - from before declaration
- What has the State done?
- Capt meeting w/ Gov. @ 10am
- City is designating 1 truck / driver for resupply
- DTMB - 2 trucks for the week.
- We supplement the locals
- ethernet for media JIC event
- Public Info - meeting at 2:30pm - details will be hammered out at 10am meeting
- getting support from sheriff's office is tough.
- sheriff's dept is pulling assets
- what is the sheriff doing? - Relationships w/ other agencies aren't there
- Trigger points - PODs
- Action items in Sit Rep.

State Agency

0930 - Comcast to assist w/ distribution / messaging

JIC

- Flier - to DTMB. - will take to training
- POC will be on team

* Tpr. Rick Jones - JIC Manager @ Mi.gov

- Water? - No stock
  - comcast will be doing this too.

Can we absorb ~~Sheriff~~ team?

Black ones w/ box blue cabinet

Jason

Water Resource Team Coordination Meeting 011616

Goal: Increase the # of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Bottom Line: All teams start day with all resources necessary to meet their assigned mission. Should a team exceed their daily mission with sufficient time to continue canvassing, resupply will come to you. *These are planning considerations and WILL NOT negate the authority to adjust team composition,* routes resides with Water Resource Team Commander and Red Cross OIC

Concept of Operation and Support

1. Planning & Prioritization
   a. Plan Components
      i. Team Type: Mission, Resources (Vehicles, Members) Product
      ii. Priority: Wards – lead, where we've been, vulnerable populations
   b. Accountable: Recovery
   c. Approval: Director
2. Resource
   a. Resource Components
      i. Vehicles
      ii. Product
      iii. Personnel
      iv. Lunch
   b. Accountable: SEOC Logistics
   c. Responsible: SEOC Logistics, SEOC Warehouse, Red Cross Volunteer Resource Center
3. Execution
   a. Water Resource Team Daily Distribution
   b. Accountable: MSP
   c. Responsible: MSP Water Resource Commander, Red Cross OIC providing Wards
4. Execution Support
   a. Team Replenishment Lunch
   b. Accountable: SEOC Logistics
   c. Responsible: SEOC Warehouse
5. Reporting
   a. Distribution Reporting
   b. Accountable: MSP Water Resource Commander
   c. Responsible: All Water Resource Teams

Team Typing

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment

8am - 2015
8:15p

1/18/16 - Flint Water

0830 - Local Briefing
- NG exclusively at the PODS starting today.
- total # of filters in homes.
- ARC data - GIS is working to incorporate
- PODS cleaned out. - NG to assess clean out going forward
- Genesee County activating Mutual Aid w/ mental health. - individual counseling for people and responders.
- Disaster Distress Helpline - DCH? DHHS? Opening Tuesday (National)
- CERT - BJ put out email to all counties in Region 3.
- Volunteers - U m flint & Kettering
- Capt.
  - Water quantities - hoarding or outside of area
  - hacking
  - WRT saturation - Capt. Tafoya - Lauren gave them a list - NG - 100-200?
    Need more trucks - providing only bodies
    - Contact Capt. Tafoya - Supplies?
  - Faith based orgs - working on POC. - Concerned Pastors - Pastor Harris
- Sam
  - FEMA attention - getting everyone up to speed. (HQ)
- Legislative/Congressional Call yesterday

- List of costs incurred - we should have it?
- Intent is to shut down PODs soon - once majority of homes have filters.
- JIC
  - Water distro concerns
  - City of Flint - semi of water - confusion - Janet Hunter - all donations
  - map
  - palm cards - need more - to review

0930 - State Agency Call
- 7 day operational period
- DEQ - 7200 scheduled delivery tmrw, 21000 on route, inquiry re: water supply through tanks.
- Uhauls - for the week - thru Friday 5pm return.
- 3 Penske donated
- Meijer - handwarmers.
  (1) - Penske -

★ - Add'l 20 trucks - tmrw morning w/ or w/o drivers (at least)

1030 - Logistics
- Warehouse out of test kits to be put together
  ↳ 7,200 tmrw, 7,200 later this wk, 14,000 end of wk
- TRUCKS - ARC picked up 2; did sheriffs office pick up
- Volunteers - Tues - Fri - 60-90 M&P/local teams this wk

- What is the most convenient for the people?
- Hot shots
- Partner requests.
- ARC - not skipping anyone, giving everything they have stock of.
- ARC - providing lunches daily - need accurate # by noon day before - #'s from local EOC ; Lauren
- ✓ ★ We should be giving #'s for lunches
  - ↳ LE, volunteers
- ✓ ★ Confirm if Red cross will use App - if not, we need ; Pado back - emailed Robert
- NG - bodies / buses.
- ✓ ★ - 1300 Brief to Lauren
- Need ARC #'s
- Will have GCSO vol # by 1pm
- Current - 20 trucks
  - 5 resupply (could be Type II)
  - 20 on order
  - 2 vans on order
  - 12 on site vans
- ✓ ★ Chad Veesers - Volunteers Requests.
  - ↳ VRC doesn't
- ✓ ★ Slip/falls
- Structure - water is heavy
- ✓ ★ Ginna Holmes - get her on the distro list.

Chad.d.randall.mil@mail.mil

draft.

✓ ☆ - Communication Trail for Vol. / Don. Mgmt
- send equip tracking, drivers.
- Sheriff - 10 people, MDOC, 4T 46
★ - Need to find a place to store - all the trucks.
↳ space issues in EOC for all NG
↳ Recanvass approach - Redeploy based on timeframe. 50-60% of population - priority.
↳ Limitations of volunteers -
- Occupancy.
10
46
28
4

483 vacant

D-R-A-F-T

Flint Water Operations Plan

Phase 1 – Initial distribution

- Canvassing teams initiated by sheriff; fleshed out by MSP, ARC, NG, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing based on geographic areas.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by NG.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Phase 1 complete the morning of January 21 based on feedback from local EOC.

Phase 2 – Saturation Sets you up for success in Phase 3.

- A second round of canvassing teams begins January 21 using NG and ARC personnel augmented by volunteers as judged appropriate.
- Goal – Re-touch every residence with water, filters, filter cartridges, and test kits to demonstrate we made every effort to supply all residences with potable water Canvassing based on geographic areas.
- Points of Distribution (PODS) staffed by NG continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 addressing all questions and serve as POC for all special needs requests (hot shots).
- Phase 2 completion planned for COB January 24; any remainder to be addressed by ARC teams. Verify timeline?

What defines success? Benchmarks criteria

Phase 3 – Transition

- Goal – Move from manual distribution mechanism to less labor intensive processes.
- Develop messaging for implementation of this phase and transition to next phase (phase out of distribution of water, filters, cartridges, and test kits noting PODS to cease operation on January 31).
- Identify new water only distribution sites operated by faith-based or other volunteer groups.
- Determine and implement best methodology for long-term distribution of filters and filter cartridges.
- Phase 3 complete with close of PODS COB January 31. Stop distro of all items??

locally run PODS by end of Jan.?

Phase 4 – Long Term Support

- Goal – Establish long-term, workable processes to sustain provision of potable water to residents.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or faith-based/other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, or other measureable program. credentials for local PODS?

Phase 5 – Normal Operations

- Goal – Resume normal operations.
- Develop messaging for implementation of this phase and transition to next phase.
- Analysis complete, solutions implemented and public trust in Flint water reestablished.

1/21/2016 7:10 PM

0 8am-8:20pm

1/24/16 - Flint Water

0830 ✓ ★ - Team Rubicon - are we supporting? 3 Penskes? DTMB?

- MDOC Vehicles could do hot shots?
- Capt. Tafoya -
- ✓ ★ - What do we do w/ the box trucks? Drop off/pick
- PODs burning water
- MDOT - concerned w/ barricades and any incoming snow?
- 22 churches on BJs list
  - ↳ logistics for a couple churches. approved.
- Businesses - w/ solutions? What are we doing
- ARC - ~~5~~ 10 ERVs through the week. - provide them ward maps for localized ~~e~~ contact
  - ↑ city sections
- LARA - well water. - ~~ash~~ Amanda to get mapped
- St. Marys Church - latino, immigrants
- Our Lady of Guadalupe.
- Multi family units - commercial?
  - ↳ ARC in lobby?
  - ↳ see if locals have a list.
- Reverse call - template letter to schools.
  - ↑ filters, repl.
  - ↑ water, blood lead.
  - ↑ check w/ Ed.

45,000 hookups.
35,000 single residences

Thurs. Jan 21 Paul to VRC? Dave

Here at the SEOC there is a lot of pressure on data analysts and planning staff to provide up-to-date information. Daily meetings to determine tactics for the next day are hampered by having incomplete information. Now that FEMA is here, they too are concerned and have told the SEOC this needs to be fixed. Captain Kelenske has said the same. We (the entire operation, not just ARC) are instructed to find ways to get this accomplished.

I spoke with Robert back on Tuesday about the possibility of asking U of M - Flint for student volunteers to accompany each of our teams for the purpose of getting the data entry done as the mobile bulk distribution team is making its residential contacts. He seemed concerned that such an arrangement would mean displacing a team member who would otherwise be knocking on doors.

Rather, I am proposing that these students (assuming they are available) would not be displacing anyone, but would be attached to the team as a support. Each team would be 'equipped' with data-entry support.

If you have other ideas as to how we can get the household data we collect entered into the data-base via I-pad the day we knock on the door, lets figure out which will best meet the need. The perceived need for this information has grown so strong that we have been told a slowdown in distribution would be tolerated if that were the only way to get timely data. I am hoping we can find a solution for our part of the operation that does not require a slowdown.

If you find my proposal worth considering, know that I did informally discuss with Linda Dintenfass whether such an arrangement with the University would be possible. Should we decide to go that way, she will not be surprised to hear from us.

If we have not had enough I-pads assigned to ARC to support the teams this way, please let me know how many more would be needed so I can get SEOC logistics working on that.

8am - 5:30pm

1/26/16 - Procurement

- OAG involved in Flint
- Expectations of reimbursement?
- MSP controls SEOC procurement/reimbursement.
- David Hatch - Jeff Brownlee
- Redirect $8 M from water → nutrition
- Make clear - no reimbursement
- Current wates costs.
- Draft process for approvals of purchases - Vicki to draft
  - ↳ State Director to sign off - prior to expenditures
- Continuous budget analysis - support from HQ
- get info in writing to State Agencies re: purchasing process.
- get processes in writing or provide training session re: procurement.
- Who is buying what, when.
- No self-deployment of state agency personnel. - must be on a Resource Request.
- end of next week - beginning of the following

Feb 4/5 Feb 8/9

8am - 8:20pm

1/27/16 - Flint Water

0830 - Local Call

* · Need to identify a metric to stop canvassing
· Recycling centers
· GCCARD / Food Bank #s
· Food Bank only wants to work w/ Capt Tafoya
· 211 Reports - sampling water - do not open door for sampling - EPA is out doing this
↳ coordinate efforts (5 diff agencies doing this)
· Don't "flag" emails
· SBA pressure - damage forms (Chamber of Commerce)
↳ 5 forms need to be completed
· 11 am press conf planned by Gov's office
· bathing news release
· telephone town hall meeting? Tonight?
· spot on website for diff languages
· interactive map - UofM website - w/ PODS
↳ what else can they do?
↳ App development

0930 - Working w/ GIS/ARC to refine data for the teams
Will be working on assigning city section areas
10 ARC teams today - need to update screen for today
4 people from MSP HQ working 8-5 on data entry today & tmrw
Hoping to get caught up so GIS data can be more accurate and useful
Still working on apartment targeting
Working w/ Tom & Volunteer groups on missions for volunteers

- ARC has used over 900 EBV
- 74 on the job yesterday - 379 ARC total
- Recycling sites established - ARC to distribute?
- Republic Services - sign up for long term service
- MCSC - recycling canvassing effort?
- JIC - FAQ drafted for recycling
- Long term group - Add Logistics person
- Bullets to Planning - re: target areas / groups
- National VOAD - 3pm - High level - what is going on?
- FHA - to require lead testing

1030
- Dave/Kristy - 10 teams out - East side - 1500 addresses
- Adding a warehouse?
- Recycling volunteers - MCSC evaluating - how soon? who?
- ARC could provide spontaneous volunteers - big groups offering
- Ginna handling MIVOAD efforts
- Printing will go thru Wendy / LOG
- ★ Let them know # of teams going forward.
- Local eoc - pallet jacks for PODS (manual)
- iPads - Jay bringing them back.

1100 - Meeting w/ Ginna
- Donations for filters - how do we handle? general for all commodities
- Transition Plan
  - ↳ focus water at PODs
- Team Rubicon - vulnerable population
- Financial Donations
- how many purchased, distributed, etc?
- MCSC needs to be on distro for sit rep?
* ↳ map data provided by Jim? Is this a standing requirement?
* - make sure ARC knows test kits upon request only
- 211 Rumor Package / Talking points - for new teams on the ground.
- MCSC Staffing - EMAC? - Personnel / Training Needs
  - ↳ State employees?
- Messaging updates
- United Way - VRC.
  - ↳ no fluid way to access VRC.
- Chad -
  - ↳ data mgmt.
- What can volunteers do?
- How much longer? Teams?
- Aren't these local concerns?
- Judge Mathis this weekend.
- general email for donations - Richard

Andy Stoner Request

- Questions for Dave + LM 2:46pm
- Are all teams using i-Pads? Today / yesterday? 1/26
- ~~Duplicate data in what was sent~~
- Can we get more?
- Working on specific assignments for each team to avoid crossing paths

1-27-16

* All teams using the T-PADS - today
* Teams used the T-PADS - partially yesterday
* Yes he will send more back log 1-26 information

1600 - 1800 hours data entered today
Working from GIS maps to determine areas to send teams, will include in plan for tmrw.
Teams - 950+ today -
Working w/ Tom and Katie on long term Recovery.
Add to distro list - let us know.
for plan.

- Apartment list tomorrow

Today 31, 29, 28, 26, 6, top 27

1700 - PODS - Trucks not keeping them supplied
- WRT - very well - finish up a couple tmrw.
- Pitchers - going through too many.
- Home Depot Volunteers - coordinated earlier this wk for warehouse operations
- Dave - stage large group of volunteers - 8am - 12pm
  ↳ coordinating
  ↳ messaging?

8am-8pm

1/28/16 - Flint water

0930 - 4 data entry staff today - will evaluate tmrw needs
Work w/ ARC for the weekend plans
Will work w/ Capt. Tafoya on routes for the weekend w/ the influx in volunteers for the groups weekend
- Apartment list today.
- Dave - Saturday support.

1500 - National VOAD Call
- Name, organization
- Mike - Disasters in World Hunger (taking lead)
  - ↳ community development organizing events
- John Ricketts - feed the Children
  - ↳ large donor (Niagra)
  - ↳ 27 trucks - MSP/EMHSD - ongoing support
  - ↳ Children's Dream Center - going to get them plugged in - house 6 truckloads of water?
  - ↳ Vitamin D supplements - they will get them.
  - ↳ Donations Mgmt Call - announced. - 1pm

- Phil
  - ↳ Request for SMEs - people who can support sub committees. gave out Jeannie's info
  - ↳ Salvation Army
- Inga - Catholic Charities
- Jen Murphy - Americorps teams to arrive next wk

until April
- Barba Trip - Unicorp - $10,000 emergency grant long-term recovery planning

1500 - Long-term Recovery Meeting
- get all documents we are putting out in all 3 languages.
- Catholic Charities - blood lead testing - don't forget this happened
- Act Quickly - braille, text only.
- What do people do? Who do they contact?
- What's wrong w/ 211? There is another # we need to add to materials
- Make good things happen
- Dave Gutierrez
  - Idea of "health" - broader plan?
  - outline for a plan.
- Tom - long term sustainable plan.
- Public Housing Apartment - did not get serviced
  ↳ Public Housing Commission
- Food Bank - partners
  ↳ working to make deliveries
  40+ sites - enough for weekly volume.
  ↳ will supply any agency who wants to hand out water
- Section 8 Housing → no water
  - Senior Resident housing

- Genesee Health System - HHS support
  ↳ follow up meeting - State has been there?
  Flint Community Resilience Group
  behavior health focus
- Chris - local EOC
  - happy w/ state response so far
  - data shows we touched 98% of homes?
  - State is not pulling out - helping to build a sustainable model
  - franchise customers - VAAA ~~on~~ wants this list
    ↳ guidelines / info on this
    ↳ health dept has provided the list
- Publicly post list of customers.
- ★ 25% unemployment - create positions to put people back to work in areas.
- United Way - VRC
  ↳ using Volunteers for other (non-water) missions
- Volunteer Form - who gets them? VRC or Chad?
- flintvolunteer.com
- Should I pay my water bill?
  When will the water be safe?
- Rally - Mon Noon
- Calendar of events for city?
- Community Health Assessment) Democracy Group going door-to-door
- Not receptive to LE or NG
- Social media campaign - hashtags? Plan?
- Genesee Co Health dept FB

- Who could maintain FB ~~group~~ page for group?
- Bottles for Babies
  - ↳ recycling; door-to-door magnet re: nutrition
  - ↳ Do's / Don'ts
  - ↳ Water IQ - 50%. knew they needed replacements
    - ↳ where to get it.
- MSU Extension - Class - cooking - healthy eating and nutrition - Catholic Charities - mons - 1:30pm
- Next Thurs. 3pm Location TBD.

8am-8pm

1/29/16 - Flint water

0830 - Local Call
- Jamie - Gafgen Food Bank - equipment needed
  ↳ buy 2 trucks, hiring crews, warehouse across the street
* - make sure ARC knows not to just hand out water test kits
- PUR filters copper - brita/zero may not
  ↳ ramifications of copper?

0930 - Volunteer surge this weekend - ~~Sunday~~
Will work w/ Capt Tafoya today to determine areas
Work w/ Tom on community planning
Data caught up - just a few pages left at ARC

1030 - Kristy - ARC, LOCAL EOC
- 10 ARC teams - 31 crysler volunteers
- 40 mDOC volunteers? - 5 pallets of water
- Warehouse - donation of water ~~@~~ 53ft semi of unpalletized water

1300 - National VOAD Donations Mgmt Call
- John - Feed the Children
  - product donations - Children's Dream Center
  - Niagra water FTC transportation 25.5 truckloads for POD support
  - Could offer trucking services
  - SME on warehouse/inventory mgmt
  - Volunteer Mgmt Call - coordinate national call

- Convoy of Hope - Stacy
  - engaged, work w/ churches (4) currently.
  - corporate vendors/ donors - 5 loads on the ground - 3 in the works
  - churches reached out, but were unable to get access to water
- Kathy, American Logistics Aid Network
  - support VOADs
- Amy, Uncorp
  - United methodist church
  - generating funds.
- Jim, St. Vincent de Paul
  - standby - trying to find a spot to help.
  - disaster case mgmt service
- Salvation Army, James.
  - pushed up commitments
  - water, meal distro
  - warehouse solutions?
  - VRC Staffing
- Good 360
  - collecting needs
  - Catholic Charities - largest partner.
  - short term storage needs.
- Jessica. National VOAD
  - monitor
- Don. FEMA HQ
  - door-to-door - GIS

- warehousing - consider multi-agency concept take in donations to push back out.
- sorting / palletizing water
- how to donate and volunteer - messaging

1430 - Operations Plan. - Bring sign in sheets.
- Concerned pastors, ARC, Genesee Co, United Way, Catholic Charities, FEMA, Food bank.
- Long-term recovery plan - ARC framework.
  ↳ "Who do you turn to for help?"
- Current distribution points. - get a good list. comprehensive list
- Jamie United Way
  - food bank capacity, will pay membership costs for churches that want to join
  - surge period - peak 10,000/day - concern w/ pull back and reduction in capacity - need more.
  - ended too soon - work NG w/ local groups 2-3 more weeks. - w/ State and Fed support.
- Concerned Pastors
  - cannot skip what looks like abandoned homes.
- get the messaging right!
- Jason - FEMA
  - how can we build a sustainable model?
- Chris D.
  - Lansing makes plans and doesn't communicate w/ Local EOC.

- NG was more efficient, but not well received longer stay. may help.
- Dave G
  - community support community - utilize Non-profits instead of NG or LE.
- Chris D
  - training/mentoring w/ crossover teams
- Capt Tafoya
  - smaller teams, less authoritative.
  - large surge not in best interest
- Gap btw system we want to get to and where we are now.
- Pilot program for tankers & waters
- Concerned Pastors
  - & still don't trust water/filters.
- Should we be asking - "How is the best way to get water" (pick up, store, delivery?)
- NG perception - leaving - messaging issue?
- Food Bank
  - 22 semi's / wk
  - mapped out all points and worked to add sites
  - large donors - now wanting to donate food.
  - more permanent staff/structure.
  - connected to Feeding America.
- Concerned Pastors
  - how much water is actually going out? to get an accurate # for sustainment.

- BJ
  - fear of waters not continuing - stockpiling occurring
- CP (Concerned Pastors)
  - closed down schools - can these be used as hubs?
    - ↳ Lt Russo - none are turn-key.
- Kara (FB)
  - community centers, soup kitchens
  - PNP cannot sustain delivery piece for years.
- Jamie-Lee (United Way)
  - look for their costs to be covered - sustaining costs
- Shared maintenance costs - transporting and bringing in waters, etc.
- FB uses 80,000 volunteer hours/year
- looking for a program from the State
- Dave
  - What would it look like? Then worry about the resources/costs.
- FB
  - 501(c)3 can be a partner.
  - program sites (not 501c3) - in conjunction w/ schools. w/ inspection
  - Nutrition page - funded in part by MDE
- Capt Tafoya
  - financial support is the end game
- Robert
  - what is the end game? What will be the need/how long?

- Tom
  - Needs Assessment.
- Dave
  - Find out what the next delivery model for commodities look like
- Monday/Tuesday AM 9am

put together items for Tony to send

Hi Brianna,

I found out in the 7 PM Logistics Briefing that Ginna is going to hold a meeting at 1 PM Sunday to discuss Rapid Response going forward and that you need to be a part of that call. It will include the ARC and those at the local EOC. She is attempting to clean up the fragmentation because addresses are coming in through so many avenues. Wendy has asked her to do this.

Her call to me today was in regards to the below. Please give her a call at [redacted] prior to the meeting to discuss.

- Are the homes visited that are initiated through 211 being counted in the daily data GIS is mapping?
- She wanted to know how long the ARC would be involved and what the plan would be after they are out?
- She said Team Rubicon will continue daily until Friday, February 5, but an extension is possible if it is justified. She is trying to determine the need.
- She would like to know how the homebound individuals will be followed up with from here on out.

She was concerned that different teams are in the same areas and how that would look bad and not be a good use of everyone's time. I explained to her that we work closely with GIS to distribute maps with priorities identified so areas are not being visited over and over.

Thanks!
Stacy

Bri ⇒ Call Ginna

to discuss Rapid Response Teams 10:10 AM

9:36am - 9pm

1 1.5
8am-5:20pm, 7:25pm-8:40pm

2/3/16 = Flint Water

0830 - SBA - damage to businesses - 40% - need more Economic loss loans - will be denied at this point
- Reducing POD hours?
- ☆ What does your day look like?
- Projections
- ☆ ↳ get a good understanding of what NGOs are distributing
- Need plans for filter cartridges, shifting PODs
  - remove donations from end state
  - Read IAP
- ☆ Who has not been touched? - list of data visited
  ↳ GIS.
  ↳ what has happened? - What we've done?
  ↳ Rapid Response continues.
- ☆ Filter Replacement Plan - multiple options
- City Mayor - group - working w/ Lansing & BWL

1030 - Who is taking over Team Rubicon assignment?
  ↳ Retain these vehicles (at least 2 wks)
- Kroger - Parking lot - Recycling -
  ↳ MSU athletics working w/ MCSC on this
- Crossing Waters
  - group has a warehouse - Federal DHHS told them to ask the state about forklifts?
- Need more palm cards

1200 - Donations Meeting w/ Ginna

- ★ • Staffing - Intern or Student Assistant is acceptable
  - data entry, using MI CIMS
- MI CIMS Donations Mgmt - Reporting
- FEMA - need an understanding of what is being distroed
- Community feeds us burn rates
- ★ • Catholic Charities - need their donation info
- Aqua Hydrate - sending water to warehouse, also distribute water
- Capturing the need for long term recovery
- organic operations
  - a lot of people are doing this
- Change the conversation
- Bonnie was working w/ warehouse
- Alex used MI CIMS - check on that
  ↳ attachment field for intake sheet
- Education - school level - safe to drink or use bottled water long term
- ★ • One file for all burn rates - distribution
  ↳ how can we get as much as possible?
- Donations have declined - contacts to Janet/Dave
- other ways to support elderly/kids - under sink filtration system
- Recycling project - can MCSC head this volunteer effort?
- Southern Baptist - willing to [redacted] next wk

- NCCC running rapid response this wkend.
- Chad - report on MI VOAD calls

- MEDC Questions

- MARCs
  - Dr. Lorri (sp?)
  - Don - USHHS coming to meet w/ Capt today
  - federal agencies would be willing to participat
  - Pastors are trying to do the same thing
  - Want someone from USHHS at the 1pm tmrw?
  - How do we set them up? - follow what we did in Detroit
  - let the locals drive - 1pm tmrw meeting
  - [redacted] cleaning aerators.

Filter Distribution Plan

- Consider a plan of installing whole house filters in each customer household to alleviate questions about bathing and to reduce the time frame between cartridge replacements.

- Consider a plan with City to eliminate billing for a pre-determined period to encourage flushing of the system and reduction of latency.

- The community would like to be able to continue to make all resources available at all PODs.

    - Source: Mayor's office; Catholic Charities; United Way; Concerned Pastors; and Food Bank of Eastern Michigan

- Continue Rapid Response/home delivery for Functional Needs households and individuals.

    - 2-1-1, Local EOC, American Red Cross, and UPS
    - UPS has indicated they would like to assist with this. They are coordinating a conference call with their local operations to facilitate this.

- Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified).

    - CC and FBEM coordinating with SOM warehouse
    - The state would continue to distribute filters, with the assistance of UPS (conference call pending), to Rapid Response calls. This eliminates the need for Food Bank or Catholic Charities to track addresses.

- Maintain Fire Station PODs until community hubs and PODs are running adequately or demand at each POD is below 250 cases per day.

- Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores.

    - MDHHS will identify costs with DTMB.
    - Planning Consideration – MOUs needed with vendors to supply the appropriate cartridges and maintain minimum stock.
    - Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.

- Maintain availability of resources at PODs until daily burn rates are below 250 cases per day, and devolve operation to next higher POD/Hub.

- Once demand is below 250 cases per day, maintain availability of commodities in the Hubs and Rapid Response teams until the EPA, DEQ, and independent monitoring indicate the water is safe in all areas and any addresses that are an exception have an intervention/repair of infrastructure in place.

Volunteer Management

- Requests for volunteer support missions go to Chad Veeser
- Chad works with the VRC to supply appropriate volunteers to the mission
- Chad provides the following information on each mission to the Recovery Branch for inclusion into the daily plan
    - Group (who)
    - Number of Volunteers
    - Details of Mission
    - Commodities Needed, if any
    - Resources Needed, if any (i.e., vehicles, drivers, maps)
    - Date(s) Assigned
- Recovery Branch compiles the daily plan and distributes to the designated list prior to the 7 pm distribution meeting

- The following items should remain priority for volunteer distribution missions
    - Distribution Teams
    - Rapid Response Teams

Donations Management

8am - 8:30pm

Megan Holland

2/4/16 - Flint Water

Jackie

* - Work w/ Jeanine to get meetings & minutes to add'l partners.
- Set up distro lists in Outlook for both groups
- follow up on missing items for White house (faith based / celebrities)
- talk to Chad about changes and Gov's office list.

- DEQ teams - 10am today
- Focus on what you can do.

0930
- Maggie Sayles. - Workforce - Local hire ideas
- GST - Genesee Shiawassee Thumb - Michigan Works
- POD staffing - community as a whole
- Preliminarily, but working on next steps

9 - 9:30 am - assigned to a certain team
Megan, Pat, Chris

8:15am-5:15pm

2/8/16 - Flint Water

0830 - Scott Sheaffer - elevated copper level visits?
- Jackie to follow up w/ DEQ/DHHS
- Chris - animals.
- MDARD posters for pets
- Copper messaging

0930 - Warehouse 2 - maybe not POD w/ all semi and SBA activity.
- FEMA has a "what makes a good POD location" document.
- Food Bank presenting to local EOC today.
- Updata MI CIMS Requests.
- Long term planning
- timeline
- Where is donated money going? Who is tracking? How is it being spent? Capt wants a brief.

1030 - Food Bank meeting / long range planning
- What they will need / work flow
- meeting went well.
* Jay going to put together recommendations
- ARC - 10 teams out.

2pm ★ - get w/ Gina or Southern Baptists - when?

ASAP ★ - Rapid Response - how can we get more real time to ARC? Google docs don't work well in local EOC - MI CIMS?

Long-Term Strategy

1130 FCO/SCO - validate plan - provide timeline

Criteria	Weight (5. is highest importance)
① Ease of sustainability	5
② Ease of implementation	5
③ Cost	1
④ Public Perception	3
⑤ Survivor Centric	4

- State involvement - continued Warehouse operations
- Facts/Assumptions
- NG - Feb 17th
- 2-4 weeks - fact
- maintain all 4 commodities - long term
  - ↳ water - all hubs
    others - by request - Rapid Response)
- When do we shut down filter distro?
- Replacement cartridge plan?
  - ↳ By request? UPS?
- Transition from fire stations - needs Governor approval?
- DEQ, DHHS, UCG to determine water distro - until they say water is safe
  - ↳ filter piece - recommendation to Governor.
- EM decl - water for 90 days. (Jan 16 - Apr 14)
  other commodities - 1 year.
- Political - Shift Apr 14?
- Goal - Every home has a filter
- State has ~~ba~~ to stay engaged - in support (high level) - local -

- Distro until end Dec 2016. - needs Gov. approval.
- Are we allowed to look at other COA?
- Faith based orgs are big there.
- Jobs program - are they doing this in gov's office?
- local EOC needs to give us SA on what is going on down there (FB, Catholic Charities)
- IS-26 → POD Set up.
- State oversight of PODs. - control of commodities and messaging
  - Mayor needs to be engaged in messaging
- locals need to identify locations (faith based)
  - give them tools to determine good POD locations
  - tell them to take IS-26. for good understanding
- Hours of operation - use hourly burn rates to determine
- Logistics
- local EOC.
- local EM

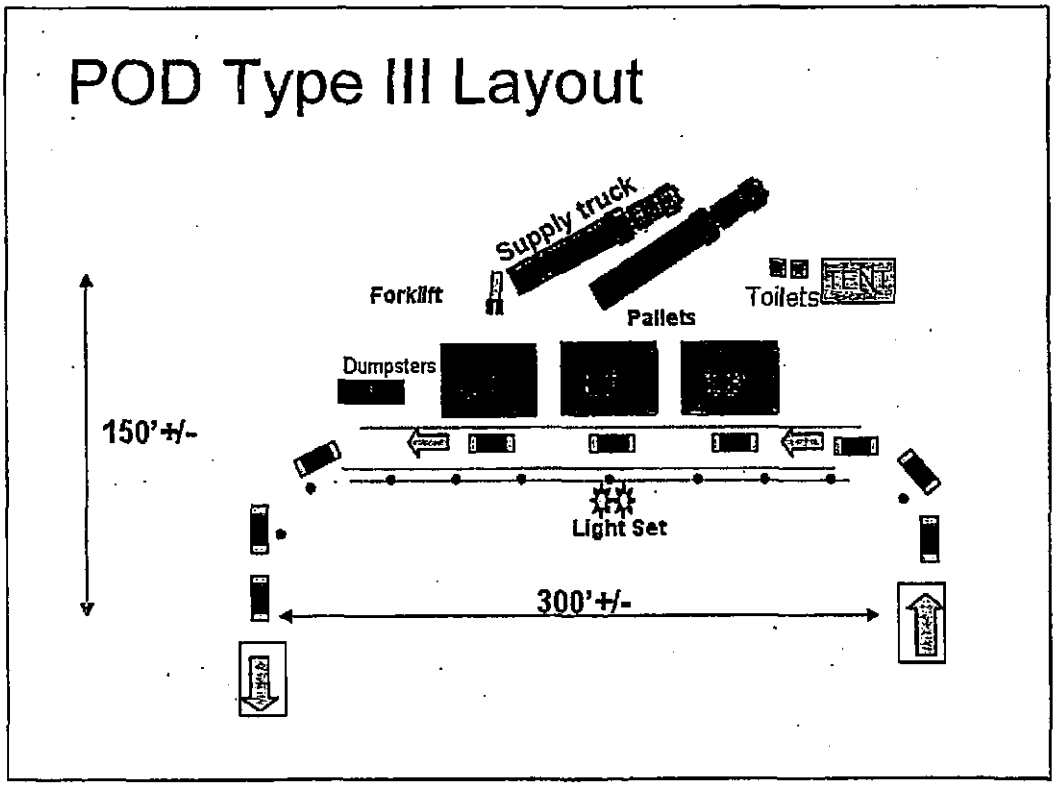
To: Session, Kendal

The United States Army Corps of Engineers has developed a typing standard for PODS. These types are Tier II resource typing definitions and, although accepted throughout most of the nation, are not yet nationally recognized.

The smallest of the PODs is a Type III. A Type III POD serves 5,000 people a day based on one vehicle representing a household of 3 people. A Type III POD is 150 feet by 300 feet and requires a staff of 19 per day and 4 per night.



A Type III POD has three loading points and only one vehicle lane.

2/16/16 Flint

0900 Resource Subgroup Meeting

- 75 active, 40 could take large volumes.
- Dr. Sadler - heat map.
- What else is going on out there? - for long term sustainability
- Semis - areas they could drop off and leave for distro
- 30-day 60-day goals.
- produce distro
- 40 pallets would be requirement to be "Hub"
  - ↳ ideally buildings
- set up for produce side as well
- Body wipes - Peter Plumb
- Scheduling donors -
  - ↳ serve 21 counties
- Church of Jesus Christ of Latter Day Saints did a water distro this weekend.
- 30 day goals
  - define hubs
  - logistics for hubs w/ POD capability
  - define requirements for Hubs (warehouse?)
    - 4 semis (80 pallets) - every other day (min)
    - forklift
    - loading dock (optional)
    - manpower
    - hours
- GM?
- MTA - transfer stations

- 211
- Need to find out who needs to be serviced. - AFN
- there is still a need for door-to-door distro
- One hub in every zip code
  ↳ two in concentration areas
- Card - to show when they need water for access & functional needs.
- Level of door-to-door operations needs to be sustainable
- National VOAD - Vol. mgmt Call
- Volunteer fatigue
- Water distro - app like Uber?
- Smaller vol. group
- Tom - consolidated list of all sites
  ↳ Chrissy is collecting
- Volunteer Safety
- Next Tues @ 9am
- going thru Catholic Charities / Mayor's office for Volunteers

1200
- Brief of COAs.
- credential organizations for direct pickup at SSA for water
- Combo of 1 & 4

- Send FOIA our checklist

8 8am 7:30am - 5:30pm

2/17/16 - Flint

- Chad will be assisting w/ donations full time
  ↳ forms requesting volunteers to VRC.
- Chad can assist w/ VOAD connections
  ↳ Southern Baptists
- Volunteer software for United Way - to provide 3 recommendations
- VRC should have missions for volunteers
- Recycling project
- Feb 27 - ~~Boy~~ Scouts coming
  ↳ suggestions - contact churches they work with.
- Tell Logistics cc: pipeline when groups come
- Meeting tmrw w/ donors.
- MI VOAD call @ 4pm today.
- Donation - 15 units - filter systems for large complexes working on certification
  ↳ Dow?
- * Workgroup - ~~jobs program~~ - include. Ginna?
  ↳ donations mgmt. staff. - data entry
- * List of equipment for new COA - to Ginna to solicit donations
- Amtrak - Ginna is trying to get forklifts from commissioners, etc.

Jobs Prog.
- List of jobs - descriptions
  ↳ drug testing, background checks.
- Monday meeting - GST - Civilian Conservation Corps.
- Grait - could go in next WK after Monday meeting
- Seeds? would be employer of record for all?
- 211 Call Center?

ACTION ITEMS:
1. PSA: Comcast will put a PSA on cable TV in Flint. Governor's Comms office to record PSA today in Flint and deliver to Comcast tomorrow. We need JIC to develop an approved script.

JIC Manager, Nicole Lisabeth, understands this is tasked to her for your State Director approval.

2. Logistics:
- Need to get flyers, water, filters, refill cartridges and water testing kits to the comcast office in Flint. The comcast trucks can have the materials in them while they make service calls to customers in Flint. In addition to the materials, need to send someone to train comcast workers on filter installation. Will also need a way for them to let us know who they give filers too. NEED: who is your lead? Let's put them in contact with Comcast ASAP
- Comcast has said they can have employees who can go door to door on the weekend

This will be handled through the local EOC logistics. As we are currently combining all incoming commodities to one location, we will be able to deploy to Comcast through that process. Along with the commodities will be tracking cards to be completed to include addresses and items given.

3. Additional Public Info:
- Comcast can put up a video on On Demand with how to install water filters. Need to have a video for that. Perhaps the video that is on the mi.gov/flintwater website. Can we ask whoever made that video to add a graphic overlay that says: Call 211 for water resource center locations

DHHS is researching the developer of this video, and we will learn capabilities to overlay with 211 information.

- Comcast Call: We have asked comcast to look into calling their customers with a PSA on where water resource centers are
- After these are implemented need a press release saying the partners who have helped us and what they have done

JIC Manager, Nicole Lisabeth, will coordinate this message and press release.

OTHER ITEMS TO CONSIDER

- Do we need assistance coordinating the logistics? (Volunteers, water distribution, and partnering/tracking how outside groups are helping. i.e Comcast)

This will be coordinated through the **local EOC Logistics**, Jay Eickholt

- We should do a Reverse 911 call to all houses tomorrow morning from MSP with information on where the centers are and to call 211

If this is done, it needs to clearly express that supplies are available on an ongoing basis to prevent the perception of resource shortage. **Nicole**, please determine message that could be considered for approval by command.

Please let me know if you have any questions.

Thank you,
Tori Sachs

Subject: Local Health Dept.

Michelle,

I just spoke to Jen Lixey, she indicated that she spoke to April Swartout, the local Health Dept Emergency Preparedness Coordinator, has the staff and ability to activate her local resources to do warehousing, inventory, transportation and distribution of all the supplies at the GCCard. April was going to either call Chris today or show up to the EOC to talk about what her capabilities are. If for some reason she does not have all the needed resources, she only needs to activate her state resource plan and DHHS will then send in a strike team to do it. When they do inventory, we can see it live here! They enter into a database that Jen can see here.

Obviously this is not a long-term plan, but it can help for a month or two at least. So get with April when she gets there or calls in and see what she can do.

Thanks! Good luck today ☺

Subject: Michigan 529 College Savings Program Webinars

Michigan Education Trust (MET) and Michigan Education Savings Program (MESP) are encouraging parents and grandparents to learn more about college savings by offering monthly webinars beginning in January through October on the second and fourth Tuesday of the month as well as November 15 and December 6, 2016. These webinars will cover program details of MET and MESP.

Webinar sessions are scheduled to last one hour including time for questions and answers. You may be allowed administrative leave to participate in a webinar; however, you must obtain your supervisor's approval before participating. If you are unable to participate in a scheduled Webinar, a power point document is available.

To participate in a webinar session, visit the calendar of events to select the date you would like to participate. Once you have selected a webinar, click "RSVP today" and the "RSVP" site will provide login instructions.

Questions regarding the scheduled Webinars may be directed to the MET office at (517) 241-4884 or 1-800-638-4543 outside the Lansing area. Program information may be obtained by calling MET at 1-800-MET-4-KID (1-800-638-4543) or MESP at 1-877-861-MESP (1-877-861-6377). Enrollment booklets are available on line at MET www.SETwithMET.com or MESP www.misaves.com.

BJ,

This is great! We need water for sure and volunteers as well! I'm sure we could use money, transportation to restock the distribution sites, volunteers to work the sites and to enter data into the spreadsheets, inventory, the list goes on! Lots of things we need.

Please create a task assignment for this. Definitely something Ginna and her team should look into. Thanks for sharing this BJ. *Keep me posted.*

We already have 14 distribution centers active with water, filters, water testing, etc... we also have the warehousing set up with 150 pallet capacity. RED Cross has established the volunteer center lead and this will be fully on line by wednesday. I am ccing in the EOC lead and the red cross lead to tie you into these networks so your efforts can make maximum impact. With regard to filters themselves please do not get filters. State has this completely covered. Water we do need. Amounts ess than 100 cases go through catholic charities center for hope collection point. Semi loads move through foodbank of easter michigan. They feed the already in place network. This should get you started. I have been working in eoc and red cross all day and have to return more calls. Sorry to rush you and I think I have you tied in. All financial donations being directed to UW fund. No admin fees. Just for direct assistance.

Subject: Water Filter Donations?

Hello,

I am writing to you on behalf of a group of Detroiters anxious to volunteer any way we can to support our friends in Flint during this declared state of emergency. Information describing our group of volunteers follows below.

Are water filters still needed in the city? If so, can we help fundraise or purchase more filters for direct donation?

I have already found the United Way Flint Water Fund link. We can easily share this link and/or deliver filters directly. Please advise as to what would be most helpful response and how many more filters/how much more funding is needed.

We plan on doing a bulk water donation delivery by caravan to Mission of Hope next Saturday, Jan. 16, and can help procure water filters too by that time.

Furthermore, a number of us work for different large companies in the area and would like to understand how we can engage our employers to support your water response efforts, if needed.

I look forward to hearing from you soon!
-ale

Background on our group of volunteers
I am the curator (leader) of the Detroit Hub of Global Shapers (globalshapers.org), a community of the World Economic Forum. The Forum describes this community as "a network of Hubs developed and led by young people who are exceptional in their potential, their achievement and their drive to make a contribution to their communities. Shapers are highly motivated individuals who have a great potential for future leadership roles in society... Shapers are united by a common desire to channel the members' tremendous energy and enthusiasm into building a more peaceful and inclusive world."

Our volunteers primarily represent Global Shapers, though hail from organizations and neighborhoods across the city, such as my colleague and friend, Stephanie Kenner (copied here), who is helping me conduct research on water filters for Flint.

- Worked on figuring out a long-term storage option. Because GCCard is large enough, centrally located and comes staffed, we are going to use this for a while until a logical long-term storage option can be found. GCCard has 75,000 sq ft and has warehouse managers to assist with tracking resources coming in and out.
- Requested an inventory of what has been distributed so far. Determined that the local health department wouldn't staff anyone during the weekend, so the only numbers we could obtain have not been updated since 1/8/16.
- Assigned someone at the local EOC to find anyone to enter the address cards collected from all the distribution sites. In order to determine what areas are in greater need, these address cards are essential for the GIS tracking and reporting.
- Determine water quantities in Flint
- Worked with recovery on needs for door-to-door operation
- Completed 204's for 3 objectives
- Instructions for water testing

Assigned requests:

- Extra volunteers for the added fire department hours. (MDHHS – Thelen)
- There was an extra church that was added. A request went through to ensure they received supplies and volunteers. (Local EOC)
- Flyers were created, printed and distributed to the 9 churches. (JIC, DTMB and Local EOC)
- Gate Operations for the broken SEOC Gates (MSP)
- More cards for churches & FD's (Logistics)
- Locate replacement filters in the Flint area (Local EOC)
- Deliver 6 pallets of donated water to GGCard (ARC)
- Develop re-stock plan for distribution sites (local EOC)
- Box trucks to assist with the door-to-door operation
- Purchasing more replacement filters
- Door hangers
- Extra staffing for Brianna

Subject: Tasks Completed

I apologize for the delay in getting these to you. I don't have a Sit Rep, but here are my bullet points for today's activities.

- Training has been confirmed for the door-to-door operations teams scheduled to start Tuesday.
- Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m.
- Logistics are being worked out for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- Currently working on the overall plan for the door-to-door operations.
- Will begin working with the local EOC first thing tomorrow to determine the areas of Flint to focus our efforts and work out the remaining details.
- Trevor Hawks is working with the JIC on the door hanger.

Let me know if you have questions or need anything else.

Subject: NWS Webinar - Update

Weather discussed in the webinar today was Saturday, January 9th through Tuesday, January 12th. Slide deck attached.

Beginning Saturday night – anticipate 9 pm in Grand Rapids, Lansing areas:

- Rapidly falling temperatures due to arctic front
- Hazardous Travel Conditions as road are expected to freeze before the snow begins to fall
- Once snow begins to fall the roads will be icy and snowy
- Rapidly changing road conditions and visibility
- Time to Frostbite from exposure is less than 30 minutes
- Heaviest snow expected 9 pm Saturday to 9 am Sunday
- Temperatures fall into the 20s overnight
- Snowfall totals expected across state 2 to 10 inches with lesser amounts expected in the southeast corner of the state

The snowfall totals are a very tight gradient in the Lansing area and small shifts in temperatures can cause higher snowfall totals

For Monday into Tuesday – HIGH RISK FOR MULTI-CAR ACCIDENTS

- Roads will be icy with additional snowfall and winds approximately 20 – 30 mph, 40 at lakeshore
- The frigid temperatures will cause slush to turn to solid ice and the winds will blow snow across it as well
- Monday and Tuesday commutes are expected to be dangerous.
- These are the conditions where we see multi-car accidents

Temperatures will remain very cold this week with temperatures in the lower peninsula ranging from a high in the 20s to single digits as a low and for the Upper Peninsula highs in the teens to below zero temperatures.

>
> 10 ARC volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
>
> Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
>
> 2,000 Filters will be put on the DTMB for delivery to "yet to be determined" locations for distribution as 10 local churches on Sunday. Logistics remain undetermined. This is a concern as the filters will be on the DTMB truck, which will be returning to Lansing approximately 11:00. We will be working diligently to finalize logistics for this endeavor first thing Saturday morning.
>
> The Recovery branch is working with the JIC to develop a door hanger card. They will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
>
> I understand from DHHS (health side) that 211 appears to have become overloaded. They are researching ways to increase capacity for calls.
>
> A Volunteer Management Coordinator is in the Genesee County EOC as of today.
>
> A Donations Management Coordinator has been requested and she will be in the Genesee County EOC tomorrow.
>
> Richard Thelen had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. He also inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as

we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed (they are not pushing in any way)

An additional staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available. Apparently this will be a major task to complete. More to follow.

I'm sure I will think of more, if you have any questions, please let me know.

Subject: Status Update

The Flint Fire Department, Chief Cox, has been contacted by Lt. Roach to confirm they are willing to be a "drop off AND distribution" site for filters, replacement cartridges, water and water testing kits. They are NOT, however, prepared to start today. They can accept all items and begin distribution tomorrow provided we supply volunteers.

We have

- Identified 5 Fire Station locations and received authorization to use these sites
- Identified 3 locations of resources (water, filters/cartridges, testing kits) to gather for delivery to fire stations
- Identified need for volunteers at fire stations, **DHHS are securing them to report tomorrow**
- Identified need for transportation of supplies - **DTMB has secured**

We have also begun the process for securing a single warehousing site to accommodate all items for donation and distribution to various locations around the city of Flint. – **THIS HAS BEEN PUT ON HOLD AT THIS TIME, HOWEVER A SITE HAS BEEN DETERMINED IF DEEMED NECESSARY**

Informational sheet is being developed to provide to the public as items are picked up and/or distributed by canvasing teams. **(Mr. Katarsky is working with Brianna)**

Teams are being assembled (as a PDA team would be) to **begin canvasing on Tuesday.**

Subject: Re: FD Address

We are waiting for the Flint fire chief to OK this plan. The fire stations would only be for the general public to drop off water they purchased and would like to donate. This came from people dropping off their donations to many spots. We want to get a few central sites for the donations so we can easily collect and distribute as needed.

The idea of using the fire stations for filter, water, testing kit distribution didn't come from the Genesee EOC.

I'm trying to get confirmation of this so that someone can notify each one of these stations warning them. This will not be a distribution site, only a "storage" site. I will let you know, but I want to keep you updated on where the conversations are going.

Subject: Draft Recovery Objective/Tasks

Here is what I see and who should be assigned based on the information we have discussed in the last couple days and what should be accomplished over the coming week. Let me know if you have any questions, concerns or additions to the list. I'm sure something is missing, so please don't be afraid to change things.

Thanks,
Bri

Draft Objective

- Establish teams and process for distribution of water sampling kits, filters and information.

Tasks

- Establish teams to be comprised of at least 2 volunteers and 1 plain clothes officer for deployment early next week (DHHS/MSP).
- Create door hanger with information on filters, water distribution, blood lead level testing, and water sampling (JIC).
- Print door hanger for distribution (DTMB).
- Obtain list of affected homes/businesses with names and addresses from the local equalization department (RBD).
- Establish protocol and language for teams in the field, to include safety concerns and protocol (RBD).
- Create a database with the information obtained from the local equalization department to track who receives filters, sampling kit and/or door hanger (RBD).
- Update GIS data daily with the distribution of filters, sampling kits, and/or door hanger information (RBD/GIS).

Subject: MTED
Importance: High

Good afternoon, Pam.
Per our conversation, I was in attendance at the SEOC from 11:03a to 3:45p. With the recent transition of these responsibilities at MTED, I have not been trained on/logged in to the SIMs system to date. Therefore, this message contains the report from Michigan Department of Talent and Economic Development (MTED), due by 4:30p:

MSHDA

1. Allowable: Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint.
2. Allowable: Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
3. Allowable: Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
4. Allowable: Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
5. Allowable: Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
6. Allowable: Purchase of water for low income households (50% AMI).
7. Allowable: Purchase of water filters for any low income households (50% AMI).
8. Allowable: public awareness through HDF grants

- The grants staff team is already drafting the necessary background materials for a potential grant application request. We would just need to know the recipient of the grant and purpose (allowable uses).

- We are exploring CDBG grant funds or other assistance from HUD.

MSF/MEDC

- MSF/MEDC had offered low interest loans as part of the deep freeze crisis. While this would require legislative action to authorize, it is something that could be considered in this scenario. It would require re-purposing any remaining funds.

Please let me know if there is additional information required. I *am* receiving the SEOC emails/voicemails.
As a side note, Melanie Brown has been temporarily reassigned to DEQ during the Flint Water Crisis. Jeremy Hendges will be acting as PIO for TED (cc'd on this message).

Thank you for your assistance, Pam.

Sent: Wednesday, January 06, 2016 2:28 PM
To: plangc; MSP-SEOCGIS; MSP-seoclgc
Subject: Tactics Established: IAP objectives and command emphases

Please review and provide updates/additions as you deem appropriate. THANKS!

Objectives

Activate the State Recovery Task Force

Identify and obtain approval for assignment of Task Force Leader
Task Force leader will provide recommendations and obtain approval for Task Force membership
State Recovery Task Force shall determine mission and establish means to provide support as needed

Ensure coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

Request and establish LNO in the SEOC to support liaison with other federal agencies
Establish Recovery Unit
Maintain daily SEOC Briefing with state agencies
Establish and maintain routine calls with local emergency manager and EMHSD District Coordinator

Obtain and maintain situational awareness and common operating picture of all activities.

Conduct daily briefings with state agency emergency managers
Monitor MICIMS
Produce "water filter distribution" map to include affected area, infrastructure and outside data
Complete and produce daily situation reports

Establish operational period and hours of operations.

Operation Period has been established as well as SEOC operational hours
Review weekly for alteration of same

Investigate and identify available programs for assistance with direct or related impacts

Identify? Determine agencies to research potential assistance programs
Named agencies will research programs and determine eligibility guidelines, benefits, application process, contacts, etc.
Provide report to Operations Section (Recovery Unit) as to program availability.

Develop a comprehensive GIS strategy

Identify critical needs for maps and overlays
Identify current and potential resources for data collection
Contact and coordinate with identified agencies to obtain and centrally located all data
Provide spatial analytics in support of SEOC

Identify critical resources for acquisition and allocation.

Develop and forward email to all state agencies to identify available resources for deployment

Coordinate response and recovery activities and identify mission areas with MIVOAD.

Establish Recovery Unit
Gather and compile available resources
Gather and compile available assistance programs
Determine resources already provided to affected area in response to emergency

Facilitate and coordinate technical assistance among state agencies and to local agencies.

Identify subject matter experts (Dr. Wells, Dr. Mona Hatta-Attisha, George Krisztian)
Establish and coordinate routine communication between SME's.

Provide technical assistance and facilitate the local Damage Assessment.

Establish Recovery Unit
Provide templates and information as to requirements of damage assessment reports
Conduct daily conference calls with local emergency manager and EMHSD District Coordinator to assess progress and obtain updates
Coordinate daily communication with DC, Recovery Unit Lead, GIS Unit Lead to monitor progress and document data

Establish a Joint Information Center and identify a public information strategy.

State agency PIO's meet to determine needs and strategy for public information dissemination
Determine technical needs for on-site JIC
Coordinate with local (County/City) JIC
Determine need to co-locate state and local JIC
If need identified to relocate JIC, establish location and logistical needs

Monitor MI CIMS for resource requests and address as appropriate.

Logistics Section Chief will monitor and assist with input of resource requests
Review requests and review with command to receive approval to assign and fill requests
Track resources provided to date and those provided throughout the course of this event.

Establish and disseminate cost center information for the incident.

Establish Index/PCA
Distribute information to state agencies
Track costs related to this emergency

Command Emphasis

Provide regular technical briefings
Identify life safety issues.
Identify priorities.
Provide policy direction by observance of SEOC SOPs.
Coordinate with FEMA.
Provide regular legislative/congressional briefings.

Thanks in advance!!

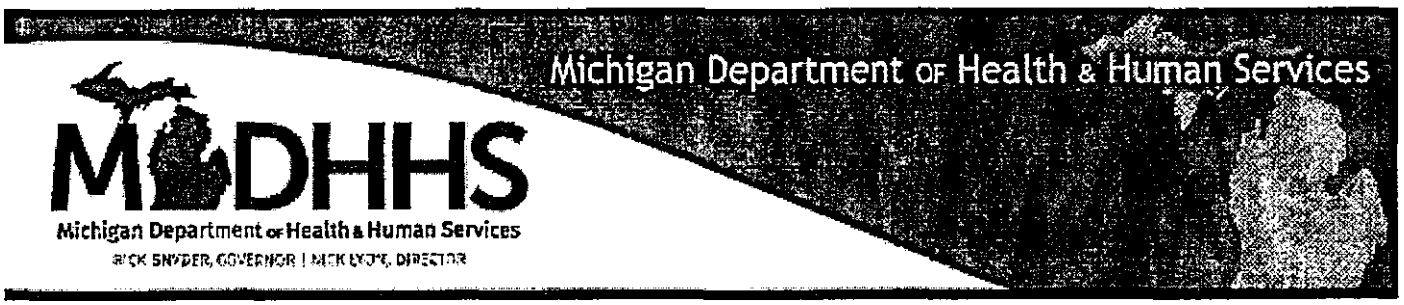
Subject: MDHHS Leadership Announcement



MDHHS Employees:

Over the weekend, Director Nick Lyon had an accident at Boyne Mountain while spending time with his family, and is currently in the hospital awaiting shoulder surgery later this week. He is doing well and we expect him back within the coming weeks once he has had time to heal and recover. Director Lyon had driven to Boyne Friday evening to meet his family and was injured on Saturday.

Until that time, Chief Deputy Director Tim Becker will be leading the department, including the budget presentations this week. Beginning today, MDHHS leadership will be presenting our budget proposals to the legislature. Today's presentation is attached here for your review. Chief Deputy Director Becker has been actively involved in all department priorities, particularly our department efforts in Flint, so there will be continuity in all focus areas.

Please join us in wishing Director Lyon a quick and healthy recovery.

Thank you.

Hello All,

I attended a Genesee Intermediate School District meeting about Flint Water. The school district has David Treder (see contact below), who works for GISD, and has been mapping student/school data in relation to the city of Flint.

Given we both have a target sensitive population under 5 years old, I wanted to make you aware Dr. Treder and that he has data that we may want to collaborate on. I am sending this to my key contacts in State, EPA, and ATSDR. Dr. Treder is open to exchanging e-mails and see how we can help each other.

Subject: Rashes

Please have someone follow up on the below and provide me answers as soon as they can (hopefully prior to 7 pm).

- How many people have reported rashes and do we have the locations documented anywhere?
- What is the current number of residents (not parcels) of people on the Flint water system?
- Does DHHS or DEQ have concerns with the rashes that are occurring?
    - Do either know what is causing the rashes and if so, what is the fix?

Thanks

Subject: RE: Blood Lead Level Testing Clinics for Undocumented Individuals in Flint

I will have to check, but I believe that Woodside Church held an event this last Saturday to help reach some in this community.

Would suggest we arrange for an on-site series of events at Our Lady of Guadalupe with sufficient time for word to get out via their networks (possibly at least one Sunday); same as to a site named/identified by the Genesee County Hispanic/Latino Collaborative (they participated at Woodside on Saturday).

Short of a site specific event, allow/arrange for a more mobile team and engage ambassadors, not just for the language aspect but the bridge. Maybe set it up as a series of events 9-11, 12-2, 3-5, 6-8 kind of thing and move across the community from site to site. Less travel for folks = less exposure.

Goes without saying but I will anyway, you can't flank these events with marked vehicles and certainly not with uniformed officers or squad cars/blue geese.

I'll get with the two advocates I'm working with most closely and see what ideas they have as to feasibility.

The last wrench I'll throw in because I honestly don't know, is whether a non-Flint site would be needed/useful. Given the transient nature of so many in Flint, the group may have more local connection in a neighboring community or have gone on to Southwest Detroit or more toward Grand Rapids or further west.

Subject: Blood Lead Level Testing Clinics for Undocumented Individuals in Flint

Good Afternoon Al and Richard,

Currently, there could be improvement of outreach to undocumented individuals regarding the Flint water response. MDHHS is concerned that undocumented individuals are not being tested for lead due to fear of repercussions. Do you have any suggestions or ideas on how MDHHS and the Genesee County Health Department can include undocumented individuals for testing or to possibly set up a clinic in churches or community centers? Any input would be greatly appreciated.

Alesha, that would be great. There is a school and a dormitory.

The school is newer and has been tested once. It is the dorm (75 years old) that is of current concern. They tested with a level of 28 parts per billion, above the 15 part threshold.

Subject: School for the Deaf

Good morning Louis,

I have had a chance to look at the information you shared regarding the water testing at the school for the deaf. I spoke with Joe, our plumbing division chief, and we agreed that to be consistent, we need to follow the same testing procedures as used in all the other schools. This will give us a better idea of how many fixtures need to be replaced and the specific fixtures that test high. Therefore, Joe is going to put the school for the deaf on the testing schedule for LARA and DEQ to complete.

If you have any questions or concerns, please let me know.

Thanks,

THANK YOU!

Truly, it really means a lot to hear that from colleagues on the front lines with us. With everything moving so quickly I know I forget to say a really heartfelt 'Thank you' to the team at the SEOC that is working with 2-1-1 and making certain we have the most accurate and up-to-date information to share with the public.

Let's touch base in the next week or two and do an initial debriefing. The 211 Ops council met on Tuesday and we spent about three hours talking through the experience, lessons learned, and outlining a plan for integrating what we've learned into our ongoing operations. It could be useful to share this with SEOC and get your perspective on how we can improve our joint efforts moving forward.

There's the water main break, mixed information about the safety of breast feeding –- something new and unexpected every day.

My fun moment today was a complaint that came through New Orleans 2-1-1 – a colleague there has a friend who

works at the White House Budget office who somehow heard anecdotal reports that Michigan 2-1-1 isn't answering or returning Flint calls in a timely way. Fortunately I have call reports to refute that.

Good times...

Tom

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement

instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

Subject: Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is *microbiologically safe water, so our certification to the standards would* essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let *me know.*

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

Subject: UA 370 Plumbers

BJ,

We will need 10 plumbers starting Wednesday, Feb. 10th at 8:45 a.m. through Sunday the 14th. They will be riding along with a DEQ employee (DEQ will provide vehicle). They should plan to bring whatever tools they may need with them which can be placed in the DEQ vehicle.

Their job duties for each day will include:

1. Evaluate the plumbing system inside the home, noting any filter systems, water softeners, service line material where it enters the home, and determine if electrical grounding is done appropriately.
2. Clean faucet aerators and inspect filters, along with any filters added by the homeowner.
3. Ensure state supplied filters are fresh and install or change as needed.
4. Make any other recommendations that may help reduce metal contaminant levels (Pb and Cu) in home owners water system.

Lunches will be provided by Salvation Army at the GC EOC each day.

Tom Tederington has just reported that there is a break in the water main at the Flint Water plant, so staff are unable to collect water samples at the facilities they planned to today, because of lack of water.

As explained previously, most field staff are in mandatory Accela training, however, some staff will begin working with food firms on implementing MDARD's Emergency Action Plan for water loss.

Subject: RE: Water Pressure

I finally reached the City of Flint. I was informed that there is a major break on Dort Hwy and Stewart Ave that is impacting about 80% of the city. The break involves a 24" pipe. They could not give me an estimated time of repair.

I called Tracey Fountain and Union Street has water pressure. She stated they have 10-12 cubicles available today should we need to redeploy.

Of course, UAW staff are asking me what we are going to do. Besides not being able to flush the toilets, they are stating it is a fire hazard as the sprinkler system would not properly function.

Please advise as to how I should proceed.

Subject: 2-1-1 Update Flint Water Response for Monday, February 8, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Friday, February 8, 2016

GENERAL INFORMATION:

- **Beyoncé post-Superbowl announcement of United Way partnership to help Flint**

As part of her Formation World Tour, Beyoncé will be asking fans to support their local United Ways and will include a special request to help in Flint. She will also be partnering with the Community Foundation of Greater Flint to create a fund that will address long-term developmental, education, nutrition and health needs of Flint children. http://investors.livenationentertainment.com/news-center/news-center-details/2016/BEYONC-ANNOUNCES-THE-FORMATION-WORLD-TOUR/default.aspx

Reminder: City of Flint Furlough February 12-15, 2016: Flint City employees will be out on furlough from Friday February 12 through Monday February 15, returning to work on Tuesday. This is a reminder to all partners working with the City of Flint to coordinate activities and ensure coverage for essential activities.

CALL VOLUME:

Flint Water Calls to 2-1-1: Feb 1 – 7, 2016

		Service Requests		
	Calls received	Referrals Made	Unmet needs**	Total Requests
Flint Water	994	1,254	36	1,290
All 211 Calls Statewide	9,479	9,078	604	9,682
Flint Daily Average	142/day	179/day	5.1/day	184/day
State Daily Average	1,354/day	1,296/day	86/day	1,383/day
% Calls For Flint	10.5%	13.8%	6.0%	13.3%

** Percent of Flint calls resulting in unmet needs is down to 2.9% of Flint-related calls.

SPECIAL NEEDS/REQUESTS

☐ **Residents are asking for help understanding lead testing results.** Results are beginning to arrive at people's homes and they are looking for information on how to interpret results and understanding what will happen next. **Can the SEOC provide guidance on the follow up process for households that have received their test results, particularly if the results indicate high lead levels.**

☐ **Residents have asked for the results link to be prominently featured on the Flint Water Site.** The link for residents to check water results on the www/michigan.gov/flintwater web has changed several times in the past week making it difficult for 2-1-1 staff to direct residents appropriately to locate their test results on the state web site.

☐ **National Federation of the Blind of Michigan asks SEOC to follow up** with, Vice President of the Genesee Chapter to coordinate translation of water resource information into braille. Georgia Kitchen: 810-767-0870.

RUMOR/SCAM CONTROL

☑ **UPDATE: Inmates with limited water access/residents arrested during water deliveries**
United Way of Genesee County provided a link to an MLive article refuting this story:
http://www.mlive.com/news/flint/index.ssf/2016/02/police_debunk_rumor_cops_using.html#comments

UNRESOLVED

Many thanks to Sheryl Thompson and Angela Minicuci at DHHS for their efforts to address these unresolved issues.

☑ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue. **From DHHS: *"No cut-off date has been established and donations continue to come in."***

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☑ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability. From DHHS:** *"Under the regulations of the Environmental Protection Agency, there are lead-based paint disclosure requirements any time a home is sold. But when it comes to lead in water for homes in Flint, while there are no similar requirements, we do recommend that individuals looking to buy or sell homes in Flint consider having their water tested. Water testing continues to be available through the City of Flint, or Flint Water Plant by calling 810-648-6942."*

☑ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles? From DHHS:** *"To get a free water test, visit a water resource site, Flint City Hall, or call the Flint Water Plant at 810-787-6537."*

☑ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference. From DHHS:** *"All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.*

NSF Statement on Flint: http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf/

NSF List of Certified Filters: http://www.nsf.org/

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☑ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents? FROM DHHS:** *"At this time DHHS is not aware of any discussion around whole-home filtration. The coating of the pipes remains a top priority. Ensuring the pipes are properly coated to prevent the leaching of lead into the water will help restore safe drinking water citywide."*

☑ **From 2/1/16:** 2-1-1 received a related rumor that due to the class-action lawsuits filed against the state, MDEQ will no longer be able to process lead tests for Flint residents. **Can SEOC investigate this rumor and determine whether or not it is true? FROM DHHS:** *"This is incorrect. Lead in water tests continue to be processed by the state."*

☑ **From 2/1/16:** A few callers are expressing concerns about the reliability of MDEQ test results and are asking how to get independent lab testing for free or low cost. **FROM DHHS:** *"While we cannot provide guidance on independent lab testing, anyone with questions about their test results can call the Genesee County Health Department directly at 810-257-3603."*

Has NOT had his water tested
He is disabled and doesn't drive.
He is angry, and very difficult to get info from, or felt he had to be to get anything.
He has a filter, it doesn't fit, he wants an in-line, whole house filter, not a pitcher filter. He doesn't want to pay an electrician to disconnect his hot water on demand system.
He was also mad that the Guard has only been to his house once.

He is very upset this morning and hung up on staff but does still need help.

Thank you,

Laura Stoken

Subject: FW: Full List of Residential Results for February 6, 2016To

Mike,

Do you have thoughts on their question?

From: Norton, Susan (DEQ)
Sent: Sunday, February 07, 2016 6:35 PM
To: MSP-EOC-MDEQ
Cc: MSP-SEOCOPSC
Subject: RE: Full List of Residential Results for February 6, 2016To

Here are the calculations:

Total number of samples: 7948
7430 out of 7948 (94%) are at or below 15 ppb

<5 ppb: 6513 (82%)
5-15 ppb: 917(11%)
> 15 ppb: 518 (7%)
>30 ppb: 279 (4%)
>100 ppb: 87 (1%)
>150 ppb: 62 (0.8%)

I will add them into the report beginning tonight. Do you know when we might expect to hear from OPS? I am ready to send unless there are changes.

To: Norton, Susan (DEQ)
Subject: RE: Full List of Residential Results for February 6, 2016To

We had that same discussion here earlier. The thought was to tweak the verbiage so there was no confusion, as the spreadsheet indicates results for 2/5 but not 2/6. That might work.

From: Norton, Susan (DEQ)
Sent: Sunday, February 07, 2016 6:02 PM
To: MSP-EOC-MDEQ

I was thinking about what you were saying. Would the following be a better title:

Flint Residential Testing Report – results Analyzed as of <<Date>>

From: MSP-EOC-MDEQ
Sent: Sunday, February 07, 2016 5:38 PM
To: Norton, Susan (DEQ)
Subject: RE: Full List of Residential Results for February 6, 2016To

They are accumulative. Every current report, the total number of tests since September 3rd are calculated.

From: Norton, Susan (DEQ)
Sent: Sunday, February 07, 2016 5:19 PM
To: MSP-EOC-MDEQ; Browne, Elizabeth (DEQ)
Cc: Colberg, Nicole (DNR); plangc
Subject: RE: Full List of Residential Results for February 6, 2016To
Importance: *High*

Okay. I just know they samples may have come in on the 5th but were processed on the 6th. So the 6th February 2016 would be accurate for the pull of the sample data.

Jen—for the percentage breakdowns, are they accumulative? e.g. would be 6,0000 samples processed 12% of these would be >100. Is that how Mitch been making the calculations?

From: MSP-EOC-MDEQ
Sent: Sunday, February 07, 2016 1:03 PM
To: Norton, Susan (DEQ); Browne, Elizabeth (DEQ)
Cc: Colberg, Nicole (DNR); plangc
Subject: RE: Full List of Residential Results for February 6, 2016To

Also for clarification the spreadsheet posted on line is titled, "results through February 6, 2015" When the spreadsheet is sorted with most resent the result is February 5, 2015. The title should match the data. Please advise if this will change as Planning must communicate such to the Governor's office.

Thanks!

From: MSP-EOC-MDEQ
Sent: Sunday, February 07, 2016 12:48 PM
To: Norton, Susan (DEQ); Browne, Elizabeth (DEQ)
Cc: Colberg, Nicole (DNR)
Subject: RE: Full List of Residential Results for February 6, 2016To

In addition to the spreadsheets provided, the Governor's office has requested a breakdown of the data in the following format:

- Residential water results (Analyzed 9/3/15 to 2/5/16)
  Total number of samples: 7744
  7241 out of 7744 (94%) are at or below 15 ppb (503 above)
  <5 ppb: 6357 (82%)
  5-15 ppb: 884(11%)
  > 15 ppb: 503 (6%)
  >30 ppb: 274 (4%)
  >100 ppb: 86 (1%)
  >150 ppb: 62 (.08%)

This is what is included in the Governor's report daily as indicated in the attached email, the planning staff here will take the numbers provided and put it in their format. *This is simply a matter of doing the calculations by highlighting the* appropriate levels in the spreadsheet, taking that count and dividing it by the whole.

Liz or Susan, Do you have staff there that can do the calculations and provide it to Nicole Colberg who will in turn send it to plangc@michigan.gov along with the spreadsheets, etc.?

This note is for Saturday, February 6, 2016

****NOTE**** **No. 3 needs to be sent to the following addresses: MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and renamed to end with this date of February 5, 2016 (3 attachments):

   Asset # 512083 – February 6 2016 Test Results Flint.xlsx
   Asset# 512511 – February 6 2016 Test Results Flint_Sorted By Address.pdf
   Asset# 512510 – February 6 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   Asset# 512820 - February 6 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 6 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

Please note that the results are for all samples reported out through today February 6, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

The question is, I think, what can we put out publically that may be an offer of assistance if needed for those concerned. #1 would be to see their family veterinarian, but for those who are unable, is there a place that will do it for no charge? If so, that information could be provided to 211 who could then assist in getting them the appropriate and available help.

Is Chris asking that we roll out a "free lead testing" for all companion pets as well? Do we feel the need is great? If so, I will ask the MDARD to advise of a plan vs capability to do so. I think at this point, it is being advised that if citizens have a concern, they should see their veterinarian. Is he asking that "if" someone cannot afford to have this done, that it be done for free?

> Chris – I'm not sure where you're getting your information, but there was no tabletop exercise, and MDARD has not been passive in our activities. We did organize a call and included all the organizations we knew of who are interested in the animal component of this – which included Genesee County Animal Control and Genesee County Humane Society, as well as MSU-College of Veterinary Medicine, MSU-DCPAH, Michigan DHHS, MVMA, MAACO, ASPCA, HSUS, USDA, and Red Rover. If you have time to be on these kinds of calls in the future, you are certainly welcome to be.
> The direction and messaging on pets has been consistent and in place since last October – water for pets should be the same as water for people, and if pet owners are concerned about lead toxicity they should contact their veterinarian. On the call with the wide range of partners, strategies for outreach, testing, and treatment were discussed and that's what we and all these other groups are working on. As I'm sure you understand, the complexities in implementing these kinds of field activities are enormous and require resources beyond what any one agency or group or institution can accomplish alone. As the planning for this continues, if the Genesee County Animal Control is not the correct local lead, we will include whatever entity should be involved.
> If there is a specific request from the City of Flint for something related to pets, please identify exactly what the request is, and the SEOC will try to coordinate that.

>
> Dear MSP-OPS,
>
> It has come to my attention that MDARD, GC Animal Control, and other 'animal' groups has held a tabletop in my AO without my inclusion and/or knowledge. This tabletop is reported to have been on companion animals and lead exposure through the current City of Flint emergency. It has also been reported that MDARD is taking a passive role in this emergency, dealing only with symptomatic animals and ignoring any animal not exhibiting symptoms (which is largely the only reason an animal would be tested).
>
> IF humans are being proactively engaged, why are animals not being included in this approach. This would seem to contradict the spirit of the PETS Act, which was originally implemented to ensure animals were an active consideration during disasters/emergencies. It is my intention to ensure that a more proactive companion animal piece is brought to the table despite any 'political' ramifications that are being conveyed to myself as "valid" reasons not to engage that population.
>
> As Michigan has both the Michigan State Animal Response Team and the Michigan Veterinary Medical Reserve Corps, I do not understand why MDARD has not offered these resources to ascertain the level of lead poisoning in companion animals within the City of Flint.

What services are available for "senior citizens experiencing adverse effects from the lead?

What treatments are available for folks over the age of 18?

Adults, including senior citizens, should see their healthcare provider if they think they are feeling the effects of lead.

A health fact sheet can be located at: http://www.michigan.gov/flintwater/0,6092,7-345-75251_75372---,00.html

Concerned citizens can also call the Michigan Poison Control Center at: 1-800-222-1222

Good nutrition that is high in Iron, Calcium, and Vitamin C will also limit the effects of lead. For additional information, please visit: www.michigan.gov/flintwater.

The below bullet point was included in last night's SEOC update from Captain Kelenske. I have no details beyond this.

- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Subject: Flint Water Donations from Canada (US Customs concerns)

Good afternoon Janet,

I hope this email finds you well and having a wonderful day, enjoying the sunshine.

I am writing to you from Buckland Global Trade, a US Customs Broker located in Port Huron, MI.

The reason for this letter is to request any possible information you may have concerning importations of water coming from Canada in regard to the Flint water crisis. We have received word from a carrier company in Canada who is interested in arranging efforts throughout the month of February to have truckloads of bottled water brought from Canada across the border and over to Flint.

Of course, these shipments must be entered through US Customs and FDA. The issue is that these shipments require an importer of record for US Customs purposes. The carrier company that has generously volunteered their time and efforts is not able to act as the importer for these shipments, nor does he have the FDA information necessary to do so.

I have spoken with Carol Ross at the Food Bank of Eastern Michigan and she suggested that you might be the best person to speak to in order to find out information on the water shipments that have recently come from Canada and how they were handled as far as the importation through Customs was concerned. Any information you can give us would be greatly appreciated.

We would love to be able to assist this gentleman and his company in their generous offer.

Thank you in advance for your time.

Kindest regards,

Athena Bedford

Hi Richard and Brian,
Steve Betterly and I were discussing plastic water bottle openers for older adults today and I mentioned to him that I had one that worked well. I received it a promotional item at one of our Senior Power Days a few years back.

Here is a link to Staples Promotional Products, it might be possible to get them to donate some for the Flint crisis and put their own name on them. They are relatively inexpensive.

http://www.staplespromotionalproducts.com/product/Twist-Top%20Bottle%20and%20Can%20Opener/80OFR/

Kroger is also known to sponsor items such as these for Senior Power Days and other older adult events.

To: MSP-seoclgc; Sachs, Tori (GOV)
Cc: Stoken, Laura (GOV); Elsenheimer, Kevin (MSHDA); Rose, Kelly (MSHDA); MSP-SEOC5; Heintzelman Shasta; Eickholt, Jay (MSP); MSP-SEOCOPSC
Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Thank you, Wendy.

Based on our conversation it is my understanding the EOC that would have the replacement cartridges is in Flint.

We would like the central location for housing these cartridges to be in our Lansing office as this is where we are deploying our inspectors for these units.

If it is necessary to get this done today, I could try and send someone to Flint to collect these today and we can house them on our loading dock in this office.

I would like to reinforce for you that MSHDA staff will be inspecting HCV units this week and next week and that these replacement cartridges will be personally dropped off in each unit that we inspect.

Thank you again.

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning everyone,

Yes, we can help with this. However, there was some confusion with the original filter delivery. We asked that each resident personally be handed or install a filter, but later determined they were dropped off in the lobby and many didn't get theirs and we ended up sending a few hundred more. Can we ensure that this doesn't happen with the replacement cartridges? It is imperative that we reach every resident. Thanks for your help and understanding.

Please let me know when you would like to pick them up or if you need them delivered, to where? Also, please send me the point of contact information.

Thanks so much everyone,
Wendy

Subject: RE: Flint Water - MSHDA Housing Choice Voucher Program

Good morning,

I have included everyone from the original January 13, 2016 dialogue in the hopes that I am reaching out the proper individuals to assist us with our current request. If I am not, please direct me to the proper people and I will reach out to them.

Brian Mills, CEO of MSHDA, was able to secure approximately 3,000 filters from MSP on 1/15/16. Those filters were installed in MSHDA funded rental properties (approximately 1,400 units) and distributed to HUD funded Housing Choice Voucher Program participants and landlords for installation in their rental properties (approximately 600). We appreciate that the Governor's office and MSP logistics aided us in this successful effort by providing the water filters. Now that the filters have been distributed, the next step is proper maintenance of those filters to ensure continued efforts towards health and safety are met.

We are requesting that the Governor's office and MSP logistics provide MSHDA with 1,2000 replacement cartridges (2 per household) for our Housing Choice Voucher program households. Our office began inspecting HCV rental properties yesterday to verify proper installation of the water filters and those inspections will continue throughout the month. If we can obtain these cartridges from you today, we can make sure that 2 filters are provided to each household during these inspections. The households we inspected yesterday and today would be revisited to provide them with this important resource.

Please let me know the steps you require from MSHDA to obtain these 1,200 replacement cartridges from your offices. We would like to begin distributing them to our Flint families as early as tomorrow.

Thank you.

Subject: FW: Flint Water - MSHDA Housing Choice Voucher Program

Logistics - Please see below. This should be a top priority to ensure water filters are available for these housing units. Also, please assist in providing Director Elsenheimer, cc'd here, the information his representative should know in regards to SEOC operations.

Peggy - All city of Flint residents should be using water filters or bottled water for drinking and cooking purposes. There are 5 fire stations that are open from 9am - 9pm distributing water filters, bottled water, refill cartridges for the filters and water testing kits. Their locations along with more information can be found here: http://mi.gov/deq/0,4561,7-135-3313_3675_73946---,00.html

The MSP logistics folks will take the lead from here.

Thank you,

Subject: Flint Water - MSHDA Housing Choice Voucher Program

Good Afternoon Laura,

Thank you for talking with me this morning regarding the water situation in Flint. I work with MSHDA's Housing Choice Voucher Program (formerly called Section 8). MSHDA subsidizes approximately 800 rental units in Flint. Approximately 90 of these households have children under the age of six living in the unit.

MSHDA would like to know how to determine the boundaries of the affected area. If MSHDA sends you a list of the MSHDA assisted units would you be able to provide verification of which units are in the affected area and which units have already been verified as having the water filters in place?

Please clarify the purpose of the water pitchers with filters. Are these intended for all units or just for the units with faucets that are not compatible with the filter? Are there any other requirements for units with faucets that are not compatible with the filter?

To help meet MSHDA's requirement for safe and sanitary housing for all voucher holders, MSHDA would like to obtain the following:

- 800 water pitchers with filters
- 1600 faucet filters (one for the kitchen and one for the bathroom)
- 1600 or more replacement cartridges for the filters

These numbers will be reduced if some of the 800 units are not in the affected area or if they have already received the filters.

MSHDA is currently dialoging about an inspection process for the impacted units. Please send me additional information regarding the water testing process that you mentioned during our conversation. MSHDA will need to know specific details including how the testing is done, which faucets in each unit need to be tested (with our without filter), who makes the determination of the safety of the water, and any steps MSHDA would need to take such as sending the water samples out for further evaluation.

Please let me know if you need any additional information.

Thanks Laura,

Peggy

Jeanette! It's been approved by the Governor's office. Can you work first thing with the Maureen to secure the lease? We will want month-to-month, full access to the entire building, as well as the parking lot. Also, Ramsey mentioned we could have use of the forklifts and pallet jacks. Another thing, we will need 99% of the shelving removed. I think the coolers can stay, but probably not the freezers.

Thanks so much Jeanette! This is so exciting!!!

Chad, if you could please proceed with getting the Adventists to staff it?

Just an FYI for everyone else.

Wendy

Insp and Shannon-

Mr. Manning from the AG's office spoke to Lt Wolf and I a few minutes ago. There is office is preparing a press release asking residents to be wary of scams. Included in this release they plan on discussing that if someone comes to their house asking for something/presenting themselves as a state representative, they should ask to see their Flint Water Response ID (see attached). Lt Wolf was instrumental in putting this ID card together. This is what she just mentioned on the 4:00pm conference call

This is what has been developed for all volunteers and state officials to carry.

If you have any questions/concerns on the press release that the AG's office is planning on releasing I would advise to contact Mr. Manning

Thanks
K

Subject: Comcast opens Flint Xfinity Wifi network for National Guard and volunteers

We will be putting out a press release on this soon, but I wanted to get this information to you ASAP. The network was opened up last night. This wifi network is normally only available to Xfinity Internet customers. It will be available for the National Guard and volunteers for the next 30 days. While this network has good coverage in Flint, it doesn't have 100% coverage. Hopefully, this fast, free wireless Internet connection will aid the communication between the volunteers, the National Guard and the Emergency Operation Center. Please feel free to pass this information on to all groups supporting the relief efforts in Flint.

Here is how to sign onto the network.
They need to select Xifinty Wifi in their settings. Once connected open their browser they will then be prompted to enter an email address and zip code. This is what they will see. https://wifilogin.comcast.net/wifi/start.php?cm=00:11:22:33:44:bb&tm=xfw01&bn=st11. Please keep in mind they need to be where there is a hotspot to log on. They can look at this link and enter the zip were they are and it will show the locations. http://wifi.xfinity.com.

Subject: Re: ACTION: Information Request

Daily reporting numbers will be submitted each night by 6:00 P.M., this will include donated water, received water, and all other inventory items received. Outgoing inventory can be reported by 6:30 P.M., however all other outgoing inventory items after 6:30 P.M. will need to be reported the following day.
All water inventories have been converted into Liters per FEMA guidelines and reported as such effective January 27, 2016.
I will need a scanner onsite so that I can forward copies of all received and donated items daily.

Please contact me if you need additional information.

Good morning, Bonnie,

There a few documents that I need to request from you:

- As soon as possible-Please provide an email indicating when you will be reporting numbers by each night, include that you will be converting the water inventories into Liters per FEMA guidelines and the starting date.
- Please send each night a scanned copy of the bill of ladings and make note for each deliveries of water purchases, donated, filters, replacements, pitchers, and test kits.

Thank you for all your time and effort,
Pam

Hi Ray,

Thanks for the email. We have shared your contact info with the MSP logistics team who is planning for the long-term recovery solutions in Flint. They will be in contact soon and are best equipped to determine how we could possibly integrate UPS into the long-term plan. If you need anything else or have questions after speaking with them, please call me anytime at

Thank you and we look forward to working with you.

John, Tori and Harvey,

Sorry for the slow response to yesterday's email as I have been travelling and in a big Corporate meeting for the next few days.
I am confident that UPS can help with these needs.
If you could get me the contact person for the water filter cartridge delivery process initiative, I will help connect that person with the operations team in Michigan and Flint and assist with the facilitation of the planning and implementation process.
I will reach out to Tori and Harvey at first opportunity.
What are the best numbers to reach each of you at.
My contact info is found below. Please feel free to reach out to me at any time.

Thanks, Ray

Subject: Follow Up - Request for Assistance

Ray,

I appreciate speaking with you Thursday and appreciate your patience as we worked on the details related to Flint. The first issue for which we request assistance from UPS is as follows: Can UPS work with the Michigan State Police to assist in delivery of water filters to those individuals in Flint, because of age, disability or other challenges, are unable to physically visit the various resource centers throughout the City? The water filters (depending on the size of the family) need to be replaced anywhere from 1 to 3 months, so there will be an ongoing need for filters to be available and delivered. Our hope is that these deliveries can be incorporated in UPS' daily scheduled deliveries in Flint. If you can identify a contact for further information, I will connect them with a person who can provide additional detail and with which direct arrangements could be made.

In addition, I confirmed to you our understanding that Linden Nelson worked with Aquahydrate of Los Angeles, California to arrange for the donation of 5,000 cases of water to be shipped to Flint once a month for the next year. Here is some additional information on the filtration system: http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

The attached press release that was issued on October 8th, also provides some additional background information for your reference.

On behalf of Governor Snyder, the administration, and Flint, I thank you for your consideration. To assure direct communications are maintained for the greatest efficiency possible, I have included both Harvey Hollins and Tori Sachs on this email, as they are charged with coordinating ongoing efforts and connecting people who want to help, like UPS, with the right people to facilitate the delivery of that help.

I have received filters and and replacement cartridges, which I greatly appreciate. However, my kitchen faucet is not compatible with these filters and I have had to replace it.
My concern is for the residents of Flint facing similar difficulties who are unable to afford replacement faucets in order to utilize the filters you are providing.
Is anyone looking into this aspect of the problem? If there is assistance available we are not being made aware of it.
The pitchers that are being given out are sufficient for drinking water, but are not practical for cooking.
Thank you for taking the time to read this.

Subject: Re: Niagara Water Sept. Recall

Thanks for letting us know. Following are a few thoughts for us to discuss. You all may have already created a process to address the issue.

I recommend we have a process at the Clio warehouse that when it arrives, someone checks to see if any Niagra water is a part of the shipment. If it is, cross reference it with the information listed below to ensure it is not from the locations sited.

For Community donations, the water goes to various sites in Flint that are not monitored by the state. I am thinking we will want to create some information that will assist them with developing a monitoring system for their site.

Again, I realize you may have a process already developed, we just wanted to offer some ideas.

To Donations management and Warehouse management
We will work to put out some type of public messaging on this issue for donations outside of our span of control.
In the meantime, you all must ensure that we received no recalled lots of Niagara Water.
See the corporate statement below:
"Niagara bottled water being sold and distributed in Flint, MI and throughout the country is safe to drink. Niagara issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from **June 10-18th, 2015**. As of **September 7, 2015** Niagara found no contamination of any kind in their finished products or in the spring water that was delivered to their bottling facility. For additional information, please visit

http://www.niagarawater.com/consumer-notice/ or contact Niagara's Consumer Affairs Department at (888) 943-4894."

Captain,

Just an FYI- this does not apply to us. Per DTMB, we got our water from Wisconsin; this applies to water from Pennsylvania. DTMB is confirming, comparing our lot numbers with the ones listed.

On Niagara's website, they do not show Michigan as an impacted state.

Importance: High

Richard and Jennifer,

Wanted to give you a heads up on an item I'm prepping for today's 211 Update. I found this info online about 15 minutes ago and it appears to have been posted earlier today.

- ☐ **WHO FROM STATE OF MICHIGAN IS MONITORING SNOPES.COM?** www.Snopes.com is a popular fact-checking web site works to identify the source of internet rumors, then verify or dispel them. It labels stories as 'True', 'False' or 'Unproven'. There is long article posted today on Snopes at http://www.snopes.com/flint-water-crisis-cps/ titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?"***. The label on the story is **'UNPROVEN'**.
  - **DHHS needs to respond to this rumor immediately to provide factual information.**
  - **Strongly advise a PIO or other communications professional is tasked with monitoring this site on a daily basis to address rumors as they emerge.**

- Attached is a press release from the state regarding updates on Legionellosis.
- Attached is the most up-to-date water filter resource information.
- GCCARD has also offered to be a mini distribution site for housing complexes, apartments and all child placing agencies who have been mandated to have a filter in every licensed foster home. The agencies will track and provide each foster home that receives a filter so that DHHS can enter it in the database on a daily basis.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Genesee County Health Department's Community Health Director, Tamara Brickey met with DaVita staff to discuss plans for ongoing water filter distribution. One hundred water filters were also distributed to the DaVita office located at Hurly Medical Center.

- Through Facebook and Twitter, Genesee County Health Department distributed Michigan State University Extension and Hurley Children's Hospital's nutrition booklet. The "Nutrition & Lead" booklet highlights healthful, cost-effective meals that help lessen the harmful effects of lead. I've attached the low-resolution graphic developed by MSU Extension staff. You are encouraged to post the graphic on your social media platforms and website. As instructed by Extension staff, please link the graphic to the "Nutrition & Lead" booklet found on the Extension's website.

- In partnership with Molina HealthCare of Michigan and Flint Community Schools, Genesee County Health Department's Nursing Supervisor Toni LaRocco has assisted with the development of four upcoming lead screening events at the following locations:

    - Flint Community School, Freeman Elementary School: January 12, 2016
    - Flint Community School, Eisenhower School: January 26, 2016
    - Carriage Town Ministries, February 4, 2016
    - Carriage Town Ministries, February 8, 2016

  To help spread the word of the above events, I have attached the event flyers for Freeman Elementary School and Carriage Town Ministries lead screening events. I have also attached a low-resolution graphic for website and social media posting that promotes the February 4, Carriage Town lead screening event . Please help us promote these very important lead screening events by posting the flyer and/or low-resolution ad on your social media platforms, website, or simply print copies of the flyer and distribute to appropriate clients who will benefit from this service.

- Genesee County Health Department's Nursing Supervisor, Toni LaRocco is currently working with Meridian Health Plan to develop future lead screening clinics.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Based on a recent abc12 news segment regarding Flint residents not using, or not knowing where to pick up a water filters prompted the idea of hosting a joint agency press conference. The press conference would cover the following information: where and when water filters can be picked up, dispel misinformation regarding the Detroit water, water filter usage, and nutrition information.

- Attached is a draft list of talking points for water donations developed by the United Way of Genesee County for review.

- If you would like to assist with the development of consistent messaging regarding the water situation, please contact Sean Kammer at 810.391.7771, or email Kristin Moore at kmoore@cityof flint.com.

- There are still plenty of 8 cup water pitchers for distribution. Please contact: **Anthony M. Sitko** – Director of Shared Services, Flint Community Schools, (810) 767-6030 or tsitko@flintschools.org or Matt Purcell at GCARD, MPurcell@co.genesee.mi.us.

- With regards to water filter distribution, it was suggested by Genesee County Health Department Community Health Director, Tamara Brickey that we as agencies need to go where residents congregate: churches, clubs, senior cents, etc. to distribute water filters.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- In an upcoming broadcast, abc 12 will reinforce the need for water filters, availability of replacement filters and distribution locations:
  MDHHS, 125 E. Union Street, Flint, 48501
  MDHHS, 4809 Clio Road, Flint, 48504
  GCCARD, 601 N. Saginaw Street, Suite A, Flint 48502
  GCCARD, 2727 Lippincott Blvd, Flint, 48507
  Flint City Hall, 1101 South Saginaw Street, 48502

- In partnership with Flint Community Schools and Molina Health Care, Genesee County Health Department will work with these organizations to host a lead screening event on January 12, 3:00 pm at Freeman Elementary school. Freeman Elementary school is located at 4001 Omega Avenue, Flint, MI 48507.

- As of January 4, 2016 **23,879** water filters have been distributed to residents in the City of Flint, Burton and Flint Township.

Michigan Department of Health and Human Services Water Filter Distribution As of December 31, 2015

	Distributed	Remaining
Water Filters	458	**3,585**
Water Pitchers	51	**485**
Replacement Cartridges - Brita	544	**7,525**
Replacement Cartridges - PUR	74	**5,632**
Replacement Cartridges - Zero	5	**370**

Michigan Department of Health and Human Services Water Filter Distribution Summary total from October- December 31, 2015

	Distributed	Remaining

Water Filters	11,415	**3,585**
Water Pitchers	235	**485**
Replacement Cartridges - Brita	1,475	**7,525**
Replacement Cartridges – PUR*	74	**5,632**
Replacement Cartridges - Zero	5	**370**

*Please note that MDHHS did not buy the current PUR filters being distributed. Once these are exhausted if needed DHHS will purchase PUR replacements.

FOR IMMEDIATE RELEASE

GENESEE COUNTY COMMISSIONERS DECLARE EMERGENCY

Flint, MI -- January 4, 2016 – During their first board meeting of the year, Monday morning, Genesee County Commissioners declared a state of emergency in Genesee County. The move a sign that county leaders support Flint Mayor Dr. Karen Weaver and her efforts to get resources and relief to the residents suffering from the ongoing water situation in the city.

Mayor Weaver declared a state of emergency in Flint last month to raise awareness about the severity of the problems surrounding the water situation that continues to effect residents. The problems a result of the man-made disaster caused by the city switching to the Flint River as a water source in 2014.

Following the board's vote today, Genesee County Commission Chairperson, Jaime Curtis said, "This is a state, man-made disaster and we're going to ask the state to fix their disaster. Curtis also said, "Genesee County is the fifth largest county in Michigan and we will not be ignored."

Mayor Weaver hopes the county's show of support will convince the Governor to provide the City of Flint with financial support to help leaders address immediate infrastructure needs. Those needs include more than $45 million to replace every identified lead pipe in the city, reimbursement of the $2 million spent to switch back to the Detroit Water Sewerage Department, $6 million to help with the transfer to the Karegnondi pipeline and additional resources to support the city's Heath Initiative to assist affected adults and children in Flint who have consumed water contaminated with lead.

In an interview with media after the board's emergency declaration Mayor Weaver said, "It's a victory and a step in the right direction." The mayor plans to meet with Governor Snyder in Lansing Thursday of this week to discuss the state's response and next steps.

- The Food Bank of Eastern Michigan is supplying pantries, missions, soup kitchens and shelters with all the water they need for public distribution.

- If your agency would like an updated list of water distribution sites, please contact Dan at 396-0222 or dfilipovich@feedingamerica.org.

- Agencies can also direct everyone to fbem.org. Use the drop down tab that says FIND HELP. At this point your clients will be asked their zip code and then they will be directed to the nearest pantry that is an agency of the Food Bank.

- Today, Michigan Department of Health and Human Services (MDHHS) received approval from Department of Environmental Quality (DEQ) to allow the use and public display of the Bath Time Poster that was developed to address individuals' concerns about using the water to bathe their children (see attached). The Genesee County Health Department encourages all agencies to display the bath time poster.

- Hurley Children's Hospital with MSU extension will offer their first lead focused cooking class at the Farmers' Market this Saturday. Lead focused nutrition recipes and resource book will be distributed at the cooking class . Press release promoting the cooking class will go out tomorrow.

- Mott Children's Health Center continues to work with City of Flint to pick up PUR filters.

From Jamie Gaskin
Over the past 48 hours some additional support has started to surface given the National and regional media coverage. These are all developing streams of possible support and generally reflect organizations and business that got connected several months ago during our initial response. These are developing but I wanted to loop in all of you as this develops and also share some basic information:

1. MSP has again surfaced another source of bulk water that is Federal surplus. This water is free as long as we pay for shipping. I have looped in Bill Kerr at the foodbank as his team is really managing the logistics and understands the local demand and the ability of the local distribution system to handle storage etc.. These

shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between $1000-$2,000 per semi.

2. PUR – They have reached out to me again (Previously donated 2,000 faucet mount systems). I have directed them to consider donation of additional replacement filters and a financial donation. The financial donation would support shipping costs of more bottled water as well as possible prevention work.

3. ZeroWater – I am again working through some ideas with their CEO. He is very interested in the schools. I am not sure how this will develop.

*As we have shared in the past the distribution system currently has supplies of filter mount systems (PUR & Britta), replacement filters (PUR & Britta), and 8 cup pitchers (ZeroWater). If we get to levels below 500 available units for any system it is my understanding that this will serve as a trigger for us to resource more.

I also want to share that I have about $15,000 left of the more than $275k donated. As I get closer to expending all the funds the UW will continue to evaluate our own internal investment and make some adjustments. Please direct any possible financial investors to support the water fund either by calling me directly or making even small donations on our website. I will also be working with Isaiah Oliver at the Community Foundation around the MI Health Endowment Funds. Both the United Way and the Community Foundation are committed to working together and trying to maintain maximum flexibility as the situation develops.

I will follow-up though the normal Health Department updates moving forward but I just felt it necessary to try to bring everyone up to speed on developing work. If you have any questions for me please let me know. I will be available all through the Holiday period via cell phone and I will only be out of town from Christmas eve through the following Saturday. Please do not hesitate to call me for any reason.

- City of Flint picked up Two Hundred (200) ZeroWater 8-Cup Filter Pitchers from Flint Community Schools 12/14/15 for distribution.

- The Genesee County Health Department has a total of 1,650 Pur water filters for distribution.

- Mott Children's Center will give City of Flint 117 water filters from the first batch of filters distributed at U of M Flint.

- Department of Health and Human Services and GCCARD attended the Health Fair on Saturday, December 12 and distributed the following at Bethel United Methodist Church's health fair.
  - 12 Filters
  - 17 Replacement Cartridges
  - 2 PUR replacements
  - 1 Pitcher

- Between December 11 and December 14, 2015, Genesee County Community Action Resource Department and Department Health Human Services distributed the following:
  - 78 filters
  - 6 pitchers
  - 53 replacement filters

- Sheryl Thompson from Michigan Department Health Human Services will order replacement filters when the inventory level reaches 500. After replacement cartridge order is placed, it takes a few days for delivery.
  - The Zero Water Pitcher replacement filters have been delivered. All sites will begin giving out a pitcher replacement filter with every Zero Water pitcher given out.

Summary October through December 14, 2015

	Received	Distributed	Remaining
Water Filters	15,000	11,232	**3,768**
Water Pitchers	720	229	**491**
Replacement Cartridges	*9,000*	*1,258*	***7,742***

Subject: RE: Genesee County Health Department EOC 12/7/15

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

Hi Richard:

Bob Wheaton asked me to put together a blurb for our internal pubs on how MDHHS employees can volunteer or donate for Flint. He thought the website I highlighted is the best place to send them.

Is the blurb below OK for publication?

Scott Davis

MDHHS employees who wish to donate or volunteer to provide bottled water to Flint residents can visit www.helpforflint.com.

We thank all employees who have donated or volunteered to assist the citizens of Flint so far, including those helped out by distributing bottled water, water filters and other items to residents in Flint.

Please note that state employees are not being paid or reimbursed for these efforts, and they should plan to do them on their own time. Volunteers are responsible for their own transportation, and mileage reimbursement for personal vehicles is not authorized.

There are a number of addresses that are facilities that submitted multiple samples. In some cases residents may have sent in a before and after filter sample to test the efficacy of the filter.

We are in the process of setting up a representative set of sampling sites that will be monitored so as to establish a baseline and then to provide trend analysis through the subsequent re-sampling of those same addresses.

LG question-

Is there information showing testing trends at the same location? Or is this just the baseline we intend to measure against?

Below is some good information from DEQ SEOC desk:

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:

1186 total Residential Samples have been reported

1099 Samples are at or below the Action Level of 15 ppb (92.7%)

966 Samples are at or below 5 ppb (81.5%)

87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:

514 total Residential Samples have been reported

477 Samples are at or below the Action Level of 15 ppb (92.8%)

432 Samples are at or below 5 ppb (84.0%)

37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:

341 total Residential Samples have been reported

322 Samples are at or below the Action Level of 15 ppb (94.4%)

298 Samples are at or below 5 ppb (87.4%)

19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

Ok – thank you. I know how busy you all are! We just want to be sure that dedicating the bottled water to the District and impacted ISD schools is the best course of action. If the schools could also utilize filters because the program was completed but not sustainable, Kabir and Lee (my colleagues from the Walmart Foundation) can help us to adjust our commitment so that we get it right!

Erik

The below is the recent article (1/20/2016) I found regarding ZeroWater donations. In this article there is nothing mentioned about school donations.
http://www.wave3.com/story/31013821/zerowater-announces-filters-for-flint-program-in-conjunction-with-united-way-of-genesee-county

I was told by our Health and Human Services rep in the SEOC that the donations from Zerowater to schools happened months ago (Oct 10, 2015 -- link). I believe your quote is from the October article. I apologize but I was not aware of this circumstance until you pointed it out.

We will continue to need water donations for a while and we appreciate your continued support
. We will provide the water to Flint schools as needed/requested.

Did this end up not working?

United Way is also working with the Flint School District to secure water filter systems that will be installed in every classroom in the city of Flint, the county's statement says.

"ZeroWater plans to donate 5,000 portable tumblers to the schools. In addition, the United Way, using funds from the General Motors Foundation, will purchase 2,500 23-cup dispensers. The units are expected to arrive this week and will be distributed to all schools in the city of Flint," the county news release says.

Thank you all for you timely response last night. We are planning to make an official announcement next week at the Walmart store on Corunna Road in Flint (Time and Day TBD – but most likely Tuesday). I thank you in advance for keeping some of these details in confidence until next week, but I also wanted each of you to be aware of the decision the Walmart Foundation and our Executives have made.

The primary goal of the announcement will be a commitment from Walmart to both the Flint District Schools and the ISD schools impacted by water crisis (we estimate 10,133 kids). **This announcement is designed to ensure both the District and ISD have bottled water committed through December 31, 2016.**

We fully understand there will be a great deal of logistics involved in this commitment. Not only with the current circumstances of the schools having an ample supply of water on-hand, but for the duration of the calendar year. (Janet, we look forward to working with you).

Again, thank you all for your time under demanding circumstances.

Respectfully,

Very much so – thank you!

We're trying to assess the need, so frankly we might be able to commit to helping to fulfill that need through either the end of the school year, or even as far out as the end of the calendar year. This information helps to confirm what the Flint District mentioned (they have water on-site, but are concerned about the long-term availability) and what I just discussed with the ISD (again, they have water to distribute to Head-Start etc., but are not sure about their supply for an extended amount of time). While the District mentioned they may have some storage capacity, the ISD does not appear to have much for storage capacity.

Our intention would be to make an announcement, and then work with each of you and the schools on the logistics – whether that might be one truck a week, or perhaps two trucks a week. Knowing we have connected with all the folks that will be making these decisions should help our Executives reach what I hope to be a meaningful decision this evening.

Erik,

Based on your urgent request, the group of us just got together to discuss. Currently the Flint schools have been overwhelmed with water donations and are unable to take more until these donations slow down. We are willing to take these donations, either on or two trucks per week, into our warehouse and the schools will be drawing from our supply as needed.

Our donations management coordinator is Janet Hunter with the Michigan Department of Health and Human Services.

I hope this information will help you in your decision making this evening.

Subject: Flint Water Crisis - Schools
Importance: High

I'm truly sorry for the urgency, but our Executives are hoping to make a decision tonight. I very much appreciate the call I received from Louis Burgess from the State Department of Ed! I know he is trying to pull a map for all the impacted schools (public and private) and assess the need, but he is not aware that we now have a call with our Senior Leadership at 6:30 p.m. to talk all this through. I really need your help determining:

1. **Do the Flint area schools need bottled water?** There has been some confusion on this point and I understand that the residential need may be moving toward water filters and replacement cartridges, but there doesn't appear to be a clear answer for the schools to date;
2. **Is there any way to ballpark the number?** Each truck holds 36,000 bottles. Would the impacted schools (again assuming they still need bottled water) need 1 truck a week? Two trucks a week?

Your attention to this is very much appreciated!!!

Respectfully,

Erik Hingst

- This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- As of November 2, 121 replacement water filter cartridges (Pur and Brita®), have been distributed. Twenty nine of the 121 filter systems were installed and 15 filters were distributed at the November 2 town hall meeting at Bethel Church on Ballenger Highway, Flint. Nineteen water pitchers, 25 Brita and 3 PUR cartridges have been distributed for a total of 121 water filter and cartridges distributed.

- A total of 13,390 water filters have been distributed to Flint residents.

- 3,500 parent packets containing lead education information will be distributed at upcoming lead clinics.

- 6,000 parent packets containing lead education information were distributed to the Flint Community Schools.

- 1,000 parent packets containing lead education information were distributed to Genesee County Community Action Resource Department (GCCARD.)

- In partnership with McLaren Health Plan, there will be a lead screening clinic at Genesee County Health Department's Burton Clinic on Thursday, November 5. Lead screening hours are 8 am to 12 noon and 1:00 to 4:00pm.

- Genesee County Health Department Health Officer, Mark Valacak, with Hurley Medical Center Doctor, Mona Hanna-Attisha presented both technical and lead mitigation nutrition information and answered questions regarding the current lead in water situation at Bethel United Methodist Church on Monday, November 2.

- City of Flint will soon be distributing lead education information in their water bills.

- MDHHS will be releasing a video instructing the community on how to install the Brita replacement cartridges.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Genesee County Health Department's Community Health Director, Tamara Brickey met with DaVita staff to discuss plans for ongoing water filter distribution. One hundred water filters were also distributed to the DaVita office located at Hurly Medical Center.

- Through Facebook and Twitter, Genesee County Health Department distributed Michigan State University Extension and Hurley Children's Hospital's nutrition booklet. The "Nutrition & Lead" booklet highlights healthful, cost-effective meals that help lessen the harmful effects of lead. I've attached the low-resolution graphic developed by MSU Extension staff. You are encouraged to post the graphic on

your social media platforms and website. As instructed by Extension staff, please link the graphic to the "Nutrition & Lead" booklet found on the Extension's website.

- In partnership with Molina HealthCare of Michigan and Flint Community Schools, Genesee County Health Department's Nursing Supervisor Toni LaRocco has assisted with the development of four upcoming lead screening events at the following locations:

    - Flint Community School, Freeman Elementary School: January 12, 2016
    - Flint Community School, Eisenhower School: January 26, 2016
    - Carriage Town Ministries, February 4, 2016
    - Carriage Town Ministries, February 8, 2016

  To help spread the word of the above events, I have attached the event flyers for Freeman Elementary School and Carriage Town Ministries lead screening events. I have also attached a low-resolution graphic for website and social media posting that promotes the February 4, Carriage Town lead screening event . Please help us promote these very important lead screening events by posting the flyer and/or low-resolution ad on your social media platforms, website, or simply print copies of the flyer and distribute to appropriate clients who will benefit from this service.

- Genesee County Health Department's Nursing Supervisor, Toni LaRocco is currently working with Meridian Health Plan to develop future lead screening clinics.

- Based on a recent abc12 news segment regarding Flint residents not using, or not knowing where to pick up a water filters prompted the idea of hosting a joint agency press conference. The press conference would cover the following information: where and when water filters can be picked up, dispel misinformation regarding the Detroit water, water filter usage, and nutrition information.

- Attached is a draft list of talking points for water donations developed by the United Way of Genesee County for review.

- If you would like to assist with the development of consistent messaging regarding the water situation, please contact Sean Kammer at 810.391.7771, or email Kristin Moore at kmoore@cityof flint.com.

- There are still plenty of 8 cup water pitchers for distribution. Please contact: **Anthony M. Sitko** – Director of Shared Services, Flint Community Schools, (810) 767-6030 or tsitko@flintschools.org or Matt Purcell at GCARD, MPurcell@co.genesee.mi.us.

- With regards to water filter distribution, it was suggested by Genesee County Health Department Community Health Director, Tamara Brickey that we as agencies need to go where residents congregate: churches, clubs, senior cents, etc. to distribute water filters.

Replacement Cartridges - Zero	5	**370**

*Please note that MDHHS did not buy the current PUR filters being distributed. Once these are exhausted if needed DHHS will purchase PUR replacements.

FOR IMMEDIATE RELEASE

GENESEE COUNTY COMMISSIONERS DECLARE EMERGENCY

Flint, MI -- January 4, 2016 – During their first board meeting of the year, Monday morning, Genesee County Commissioners declared a state of emergency in Genesee County. The move a sign that county leaders support Flint Mayor Dr. Karen Weaver and her efforts to get resources and relief to the residents suffering from the ongoing water situation in the city.

Mayor Weaver declared a state of emergency in Flint last month to raise awareness about the severity of the problems surrounding the water situation that continues to effect residents. The problems a result of the man-made disaster caused by the city switching to the Flint River as a water source in 2014.

Following the board's vote today, Genesee County Commission Chairperson, Jaime Curtis said, "This is a state, man-made disaster and we're going to ask the state to fix their disaster. Curtis also said, "Genesee County is the fifth largest county in Michigan and we will not be ignored."

Mayor Weaver hopes the county's show of support will convince the Governor to provide the City of Flint with financial support to help leaders address immediate infrastructure needs. Those needs include more than $45 million to replace every identified lead pipe in the city, reimbursement of the $2 million spent to switch back to the Detroit Water Sewerage Department, $6 million to help with the transfer to the Karegnondi pipeline and additional resources to support the city's Heath Initiative to assist affected adults and children in Flint who have consumed water contaminated with lead.

In an interview with media after the board's emergency declaration Mayor Weaver said, "It's a victory and a step in the right direction." The mayor plans to meet with Governor Snyder in Lansing Thursday of this week to discuss the state's response and next steps.

Subject: RE: Genesee County Health Department EOC 12/17/15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. *If you have nothing new to share, please inform Hilda that you have no* updates at this time.

- The Food Bank of Eastern Michigan is supplying pantries, missions, soup kitchens and shelters with all the water they need for public distribution.

- If your agency would like an updated list of water distribution sites, please contact Dan at 396-0222 or dfilipovich@feedingamerica.org.

- Agencies can also direct everyone to fbem.org. Use the drop down tab that says FIND HELP. At this point your clients will be asked their zip code and then they will be directed to the nearest pantry that is an agency of the Food Bank.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Michigan Department of Health and Human Services (MDHHS) received approval from Department of Environmental Quality (DEQ) to allow the use and public display of the Bath Time Poster that was developed to address individuals' concerns about using the water to bathe their children (see attached). The Genesee County Health Department encourages all agencies to display the bath time poster.

- Hurley Children's Hospital with MSU extension will offer their first lead focused cooking class at the Farmers' Market this Saturday. Lead focused nutrition recipes and resource book will be distributed at the cooking class . Press release promoting the cooking class will go out tomorrow.

- Mott Children's Health Center continues to work with City of Flint to pick up PUR filters.

From Jamie Gaskin

Over the past 48 hours some additional support has started to surface given the National and regional media coverage. These are all developing streams of possible support and generally reflect organizations and business that got connected several months ago during our initial response. These are developing but I wanted to loop in all of you as this develops and also share some basic information:

1. MSP has again surfaced another source of bulk water that is Federal surplus. This water is free as long as we pay for shipping. I have looped in Bill Kerr at the foodbank as his team is really managing the logistics and understands the local demand and the ability of the local distribution system to handle storage etc.. These shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between $1000-$2,000 per semi.

2. PUR – They have reached out to me again (Previously donated 2,000 faucet mount systems). I have directed them to consider donation of additional replacement filters and a financial donation. The financial donation would support shipping costs of more bottled water as well as possible prevention work.

3. ZeroWater – I am again working through some ideas with their CEO. He is very interested in the schools. I am not sure how this will develop.

*As we have shared in the past the distribution system currently has supplies of filter mount systems (PUR & Britta), replacement filters (PUR & Britta), and 8 cup pitchers (ZeroWater). If we get to levels below 500 available units for any system it is my understanding that this will serve as a trigger for us to resource more.

I also want to share that I have about $15,000 left of the more than $275k donated. As I get closer to expending all the funds the UW will continue to evaluate our own internal investment and make some adjustments. Please direct any possible financial investors to support the water fund either by calling me directly or making even small donations on our website. I will also be working with Isaiah Oliver at the Community Foundation around the MI Health Endowment Funds. Both the United Way and the Community Foundation are committed to working together and trying to maintain maximum flexibility as the situation develops.

I will follow-up though the normal Health Department updates moving forward but I just felt it necessary to try to bring everyone up to speed on developing work. If you have any questions for me please let me know. I will be available all

through the Holiday period via cell phone and I will only be out of town from Christmas eve through the following Saturday. Please do not hesitate to call me for any reason.

- City of Flint picked up Two Hundred (200) ZeroWater 8-Cup Filter Pitchers from Flint Community Schools 12/14/15 for distribution.
- The Genesee County Health Department has a total of 1,650 Pur water filters for distribution.
- Mott Children's Center will give City of Flint 117 water filters from the first batch of filters distributed at U of M Flint.
- Department of Health and Human Services and GCCARD attended the Health Fair on Saturday, December 12 and distributed the following at Bethel United Methodist Church's health fair.
  - 12 Filters
  - 17 Replacement Cartridges
  - 2 PUR replacements
  - 1 Pitcher
- Between December 11 and December 14, 2015, Genesee County Community Action Resource Department and Department Health Human Services distributed the following:
  - 78 filters
  - 6 pitchers
  - 53 replacement filters
- Sheryl Thompson from Michigan Department Health Human Services will order replacement filters when the inventory level reaches 500. After replacement cartridge order is placed, it takes a few days for delivery.
  - The Zero Water Pitcher replacement filters have been delivered. All sites will begin giving out a pitcher replacement filter with every Zero Water pitcher given out.

Summary October through December 14, 2015

	Received	Distributed	Remaining
Water Filters	15,000	11,232	**3,768**

Water Pitchers	720	229	**491**
Replacement Cartridges	9,000	1,258	**7,742**

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

- Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.

- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.

Subject: RE: Genesee County Health Department EOC 11/20/15

- Parent packets developed by the State and local organizations are almost exhausted. Genesee County Health Department is working with the State on the next version of this parent packet.
- GCHD met with Michigan Department Health and Human Services today to review and revise current lead education material..
- Mark has developed a laudatory resolution to thank the University of Michigan for their assistance with the water filter distribution on Saturday, October 3, 2015. The resolution will be presented to the Genesee County Board of Commissioners.
- Genesee County Health Department's Health Officer, Mark Valacak will meet with United Way's CEO, Jamie Gaskin to discuss grant support for community lead education.
- Water filters distributed as of 11/20/15: 14,473.
- GCHD will share nutrition and lead education with organizations currently doing nutrition education in the community. GCHD will also share locations where individuals can access water filters.

Subject: Re: Genesee County Health Department EOC 11/17/15

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

Subject: Update on Flint blood lead level testing clinic today

Tony LaRocca from GCHD provided an update to Dr. Scott on a BLL clinic which was announced on Channel 12 news. Tony was working in the Local EOC today and the testing location was within walking distance. She visited the clinic and determined that they were using Quest Laboratories and is being staffed by volunteer nurses. They anticipate close to 300 adults and children tested based on the volume that has presented thus far. The clinic hours are from 10 to 1 pm. Tony will be providing educational materials to the site as well. No mention of media at the site at this time but anticipate with the Channel 12 announcement, there may be news coverage.

She did express concern on the GCHD availability of BLL testing supplies. Dr. Scott asked her to use the current system in place to compile a detailed listing of supplies needed and submit that resource request through their Local EOC to the SEOC for assistance. No further action at this time. Please let me know if any questions. Linda

Subject: Re: Southern Baptist Disaster Relief

Richard,

The water buffalo is a semi trailer that hauls about 5,000 gallons of water. The water buffalo is offered by Southern Baptist Disaster Relief of North Carolina. It could be set up at one of our local churches. The water purification unit is design by a company in Texas called Just Water and the filters clean 98% of the lead. The system will remove not only dediment and dirt, in the water, but more importantly it will be removing bacteria. Again, we could set the unit up in a couple of our churches and give the people as much water as they had container to put it in. The unit will do about 3 gallons of water a minute. We would staff the units with our trained volunteers.

Richard, I will be meeting with state DR director from all over the country next week in Nashville and I will be giving a report of the crisis in Flint. And I know we will be offered all kinds of help. If you can think of any way we may be able to help please let me know by phone or email. I will also have more information on the one gallow and five gallow containers of water.

Thanks for your service!

Sean,

The US General Services Administration has Latrine Shower Units available for donation. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for electricity connection, and hoses. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. If you are interested GSA is willing to let the State of Michigan have first pick. I would have to check with Sheryl Thompson with DHHS about transportation costs on the units before we ship them. There is more info on the units below and photos attached.

Ladies,
I am not sure why my pictures are all turned upside down, but I will have to break them down as they are too big to send all at one time. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for

electricity connection, and hoses. There are a few of them that are located on top of each other, and I am unable to know if they are in usable condition. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. Virginia says that if you are able to use them, and want some, you are able to have first pick.

Shelia and Carol,

I hope this finds you both doing well today. I'll be short and to the point. We are receiving a bunch of latrine systems left and right down here. They are the laundry and shower type. My feeling is that they need to be sent to Flint for the people there to have access to clean water and clean restrooms. I don't have any knowledge as to how this works, but I see them coming in one after another, and I would rather send them to Flint than to be allocated to sales at this time. Please think it over, and decide from there. Thanks,

January 15, 2016

LANSING — Michigan Attorney General Bill Schuette announced today that he will investigate the water crisis currently affecting the City of Flint. The purpose of the investigation is to determine what, if any, Michigan laws were violated in the process that resulted in the contamination crisis currently forcing Flint residents to rely on bottled water for drinking, cooking and bathing as they fear for their health.

"As attorney general, I will investigate this situation to determine if any Michigan laws have been broken," said Schuette. "Without fear or favor, I will carry out my responsibility to enforce the laws meant to protect Michigan families, and represent the citizens of Flint.

"The situation in Flint is a human tragedy in which families are struggling with even the most basic parts of daily life. While everyone acknowledges that mistakes were made, my duty as attorney general requires that I conduct this investigation.

"As a husband and father I greatly empathize with the fears of Flint parents and family members, who are rightly concerned for their health. In 21st century America, no one should have to fear something as basic as turning on the kitchen faucet. I look forward to working with federal, state and local officials, community leaders and Flint residents as we seek answers regarding state law and hope through the process we can help restore some of the trust in our government while helping families move forward," concluded Schuette.

Schuette said that the process for moving forward with the investigation will begin immediately. While office policy generally precludes the confirmation of investigations, in this situation Schuette said that the people of Flint and throughout Michigan are rightly concerned and worried about this situation.

Mr. Nelson, thank you for reaching out to us after your contacts with Carol Wolfinger, State Emergency Operations Center (SEOC) and referrals from Captain Chris Kelenske, Deputy Director of Emergency Management & Homeland Security, Michigan State Police, along with Harvey Hollins, Director of the Michigan Office of Urban and Metropolitan Initiatives.

Per our conversation this morning, I understand you are aware of an organization that is interested in donating water for the Flint Water Crisis. Please share my contact information with the organizations' representative. I will provide any necessary information to process the donation and assist with arrangements for delivery.

Please let me know how I can support this effort further. Again, thank you for your kindness and support. Janet

Importance: High

Hi Jane,

The below statement is for review and approval by the State Director. Once approved, we will share with 211 and post on www.michigan.gov/flintwater.

Thank you,
Shanon

Recently there have been some concerns raised about the possibility of lead being in the bottled water that is being given to the residents of Flint. This concern was raised due to measurements that some residents obtained with a TDS meter that was provided with their zero water brand water filters. The term TDS stands for "Total Dissolved Solids" and is a measurement of all of the minerals and other common chemicals that are present in the water. The TDS meter is not sensitive enough to measure the lead in the water and the purpose for including it with the filter is to help the user determine when it is time to replace the filter.

Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water that is being distributed should be tested for lead. Therefore, the DEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. The results show that all 21 brands of bottled water had results of "Not Detected". With respect to lead that means that all 21 brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water that is being distributed is safe and for that, we are thankful for the suggestion.

Subject: RE: 2-1-1

Richard,

My technology manager pulled the statewide call records for last night and the single longest wait time for all eight regions was 14 minutes at the Detroit center. Detroit was not taking Flint calls at that time. If the governor's office can share the voice mail or provide the number the caller used, we can pull the specific call information and determine when they called and if there was some delay our reporting system somehow missed.

Today is another story.

We are experiencing long delays today and do not have any additional capacity available to meet the goal of answering calls in under two minutes. Every available agent in the state, as well as supervisors and managers are handling calls, but the demand is so high that wait times are as long as 25 minutes. We are using our callback feature to offer callers the option of keeping their place in the queue and having 2-1-1 call them back when an agent is available, but the times are still much longer than we would like. The volume today appears to be a combination of demand based on the governor's speech and direction from the state web site to call 2-1-1, along with today being the first day call 2-1-1 to schedule to appointments for free tax preparation.

We doing everything in our power to respond to callers in a timely manner, but unless the volume goes down or a way is found to increase 2-1-1's capacity, we are at our limits.

Richard,

We're checking the call records for last night to verify wait times. Michigan 2-1-1 had additional staff on duty until 8:30 pm last night to handle any surge in call volume resulting from the governor's state of the state address. Through 9:00 pm there was no waiting time to get through to 2-1-1.

Will let you know what I learn from the overnight shift.

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

Subject: 2-1-1 Flint Water Response for Tuesday, January 19, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 18, 2016

GENERAL INFORMATION:

☑ **Positive tests from bottled water:** Thanks to SEOC and DEQ for following up with water testing company, Zerowater, to clarify why people could get a positive response when they test their bottled water. 2-1-1 will use this language and let the JIC know if callers have additional concerns or questions:

"The TDS meter (Total Dissolved Solids) is NOT intended to measure Lead levels in your water. The meter is not sensitive enough to determine maximum safe lead levels, but only TOTAL dissolved solids, which will largely effect taste. The Zerowater filter WILL reduce lead to a safe level as long as it is not used past maximum capacity. Please test your water regularly with the meter and change your filter when the meter reads 006 or higher."

- Zerowater is adding a message to the filter and TDS meter packaging to provide this information. Their customer service team also has this information. Zerowater Customer Service is 1-800-503-2939, open M-F 9am–9pm Eastern.
- MDEQ also contacted the three callers reporting positive tests, provided them a resupply of water and picked up the bottles that tested positive for a lead and copper analysis in the DEQ laboratory.

- 2-1-1 partners have coordinated to increase staffing to handle any call surge based on the governor's state of the state address.
  - The 2-1-1 database went down around 6:00 pm. The vendor was contacted and indicated this outage will likely last several hours. This will delay reporting on today's calls and callers needs as this data will have to be compiled by hand.

CORRECTIONS AND CLARIFICATIONS

- **CORRECTION:** Yesterday's item re: the minister calling for assistance for assistance was actually offering his church as a water distribution site – I misunderstood he was waiting on a water delivery. but no water had been delivered. 2-1-1 has received several calls offering to provide additional distribution sites. These offers are being forwarded to Jamie-Lee Venable at United Way of Genesee County.

- **CLARIFICATION:** It is Genesee County employees who are periodically furloughed, not City of Flint.

Upcoming Genesee County closure dates are:

February 12-15: Presidents Day
March 25 – Good Friday
May 27-30 – Memorial Day

CALL VOLUME:

☐ Call volume was substantially higher than average today (Tuesday). The high volume had some impact on the time it took to answer calls, but there were no reports of caller dissatisfaction.

☐ The Genesee County Health Department has asked 2-1-1 to refer callers with lead and Legionella questions to the DHHS hotline that was available over the weekend. 2-1-1 is awaiting confirmation that the state hotline will be regularly staffed before implementing this change.

SPECIAL NEEDS/REQUESTS

☑ Business owners asking for water filters. Per Jamie-Lee Venable at UWGC, 2-1-1 is directing business owners to the Chamber of Commerce.

RUMOR CONTROL

- One caller reported hearing rumors of contaminated bottled water. *See first item under General Information for guidance on handling of these calls going forward.*

UNRESOLVED

☐ **From 1/13/16:** No solution reported yet for a paralyzed man who needs a water testing kit delivered. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.

☑ **From 1/14/16:** 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized housing) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods. **Is the sheriff's office handling these deliveries now?** ***RESOLUTION:*** *Per agreement with the Sheriff's Department, each time residents call, 2-1-1 will forward their information to the Department for follow up.*

☑ **From 1/15/16:** 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police. 2-1-1 attempted to provide reassurance, but the caller was adamant being removed. **Is there a water delivery option for residents who are concerned about contact with law enforcement?** ***RESOLUTION:*** *The teams have at least one law enforcement representative with each group that goes to residents homes. 2-1-1 Staff will try to reassure callers that canvass teams are only at the residence to provide water resources.*

☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ **From 1/18/16:** One of the top questions is when will canvassers be specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

Jackie,
I will call first thing in the morning - I recognize this may have been for the state of the state. I know Tory and so I will find out what information she needs.

My apologies I did not see this this afternoon - I had to go to Detroit and was driving and did not see this message.

My cell is (personal). Feel free to text me when ever you need something quickly.

I will confirm in the morning.

Thank you

Ginna

Can you reach out and advise? (or should it be DEQ?) We will probably get a lot of these.....Thanks!

Dear Captain Kelenske,

I am ken gruber here in Omaha. I have been in public safety and working with NEMA/FEMA for over 30 years. Bryan Tuma gave me your name as a contact in Michigan.

I want to introduce you to my friend, Dr Ron Fletcher from Ohio.
Dr Ron contacted me about the water contamination problem in Flint. There may be a solution to the problem there and I wanted to connect the two of you.
I hope and pray something can be done ASAP.

Thanks for your time and consideration.

Ken

I left a message with Lt. Roach to call me. Also spoke to Dr. Scott and Linda Scott. They had a conversation with LT yesterday, so this may be already resolved. It is mutual aid and the mou was signed by the commissioner referenced in these messages. The local CMH should definitely be involved in this response.

Gabe,

If this is an existing local mutual aid agreement the request should be approved through the local EMC (Chris DeVriendt). If they are requesting assistance from the State DHHS-Community Health staff this can either be resolved through any existing mutual aid agreements or would need to be a MEMAC request.

Correct Bob. SEOC OPs stated that any donations of good, (water in your example) from state employees (Jackson Co & BSC) in your example should be emailed to SEOC Logistics at MSP-.seoclgc@michigan.gov

I have copied them here in case that has changed.

On putting something on our website, you should just work with the JIC on any of those communications.

Subject: RE: Flint Water volunteer efforts
Importance: High

Richard,

So I'm confused.

Yesterday I learned of a Business Service Center-wide effort started by the Jackson County MDHHS director to collect water and have it delivered to Flint in a semi. I was told by Nicole Lisabeth, one of the JIC managers from MSP, that these types of volunteer efforts need to go through the SEOC, and that they should contact you as our SEOC coordinator.

So what does a county office or a group of MDHHS employees need to do if they want to do something within their local office or with other offices in their BSC?

I've already told the Jackson County director and Kent County (which is also organizing a volunteer effort to assist a Pathways school in Flint) that they need to email MSP-.seoclgc@michigan.gov

Also, I want to put out a message on our intranet on Tuesday providing instructions to employees/county offices, so I need to clarify this.

Thanks,
Bob

Subject: RE: Flint Water volunteer efforts

Just to be clear Bob, these instructions which you were given yesterday just relate to donations of goods from state employees. State employees wishing to volunteer will do so through normal volunteer avenues unless special volunteer projects like this weekend are set up.

Cc: MSP-SEOCOPSC <MSP-SEOCOPSC@michigan.gov>
Subject: RE: Draft Volunteer plan

Individuals (spontaneous volunteers) will go through the Community VRC at the Red Cross (open 9am – 7pm). They have requested that people attend in person. 211 will continue to sit as a phone entry point for multiple details re: Flint water recovery. They would direct people to go to the Red Cross for spontaneous volunteering, and are the appropriate number to list for this level of volunteerism.

For groups, as of yesterday, Victoria Fryer was to be the PoC for group interest: victoria.fryer@redcross.org. She works at the Mid-MI ARC. We are confirming a phone number they want listed for those inquiries (that 313 number is a Wayne county number, and it appears to be a cell from what I can gather – I'm not sure if that's correct, but it may be her cell).

Hi Ginna,

So I was just asked by OPs copied here on "how to volunteer " information.
My understanding is they are looking for ways individuals can volunteer, and the process for groups to volunteer. They are looking to provide this for a press release, so I'm sending to you to ensure it is accurate. We need ASAP.

Thanks
Richard

Subject: *Draft Volunteer plan*

This is the draft plan that Chad created.

He is waiting for contact information from United Way.

At this point, Red Cross does not have a phone number for the peple to call in. They have provide an email address.

We are working with them to determine web presence and if there is a phone number for someone to call - maybe an AmeriCorps member could serve in this role. But at this point, they understandably do not want to be flooded with calls.

We will update when we get more information. Please make requests for additional information to be added - and make recommendations for edits.

We want to talk about what number to list when people have questions. We do not want a number publicized for MCSC at this point. I would like to discuss how we can manage phone calls.

Subject: 2-1-1 Flint Water Response Daily Update for Friday, January 15, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 15, 2016

GENERAL INFORMATION:

- Central Michigan 2-1-1 will be closed for the MLK weekend. Gryphon Place 2-1-1 in Kalamazoo is the regular overnight provider for the region and is providing coverage through 7:00 am Tuesday morning. Michigan 2-1-1 partners have coordinated resources to ensure capacity is in place to handle any short-term increase in call volume with backup assistance from in Detroit and Grand Rapids 2-1-1 providers.

- There continues to be a fairly high level of frustration expressed by some callers who find the response times from agencies to be slower than they like. 2-1-1 works with these callers to manage expectation about response times and de-escalate angry/upset callers.

- **HOLIDAY CLOSURE NOTICE:** The Genesee County Health Department will be closed Saturday – Monday for the MLK holiday. DHHS Office of Public Health Emergency Preparedness (OPHEP) will be staffing a toll-free line to respond to callers with health concerns (both water quality and Legionella).
    - OPHEP asked to limit sharing of their number to only callers expressing a health concern.
    - Please use the following language Saturday-Monday when giving out the number this weekend: *"The Genesee County Health Department at 810-787-6537 can answer your health questions. While they are closed for the holiday weekend, trained DHHS health professionals are available 8am – 5pm at* 888-535-6136 *to answer your questions.*
    - After reports from callers that they could not get through to Genesee Health Department, 2-1-1 learned GHD was closed on Friday due to furloughs. Follow up with DHHS OPHEP confirmed the DHHS number was active today and 2-1-1 began referring callers to this number around 12:00 pm.
    - ☐ ***Can 2-1-1 get a calendar of any future furlough closures for Genesee County government so we can properly refer callers?***

- An unknown source is sending text messages telling people to call 2-1-1 for free water filters. We received two calls between 4:30 – 5:15 with this message, including one from Ionia County. 2-1-1 are working to track down the source of these texts.

CALL VOLUME:

- Overall call volume was lighter today. Total requests for assistance from Saturday through 5 pm on Friday was 1,660 with the highest volume documented on Wednesday-Thursday. There were only two (2) calls seeking information on Legionella.

☑ 2-1-1 tested a solution to provide real-time data on Flint call volume to the JIC. We will be ready to deploy on Tuesday, January 19 after a brief training for JIC staff.

- 2-1-1 has created a file tracking daily call volume. This is available to the JIC. Contact Tom Page at tpage@uwmich.org for details.

	Flint Water	Referrals	Unmet Needs	Total
Saturday	1/9/2016	62	2	**64**
Sunday	1/10/2016	39	6	**45**
Monday	1/11/2016	224	64	**288**
Tuesday	1/12/2016	193	51	**244**
Wednesday	1/13/2016	319	24	**343**
Thursday	1/14/2016	373	26	**399**
Friday @ 5pm	1/15/2016	241	36	**277**

SPECIAL NEEDS/REQUESTS

- 2-1-1 provided the Sheriff's office with the list reported yesterday of homebound residents needing bottled water for medical devices. The sheriff's office is working to find a solution to this need.
- Per a request from the Sheriff's office on Friday afternoon, 2-1-1 has stopped referring caller to the department to schedule water filter delivery. 2-1-1 is collecting contact information from residents needing water filter delivery and will provide a delivery list at least once per day. Jennie Pollak will continue to provide this list to the Sheriff over the MLK holiday.
  - ☐ No solution found yet for a paralyzed man who needs a water testing kit delivered.his health worker a fire station to pick up a water testing kit, but there were none available. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.
  - ☐ As first reported on 1/14/16, 2-1-1 continues receiving calls from elderly residents in senior apartment complexes (non-subsidized) needing water resources delivered. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods.
- Water testing kits instruct residents to take water kits to City Hall or a Water Department site. 2-1-1 has received calls that some state police are telling homebound to call 2-1-1 for test kit pick up. **2-1-1 does not have a resource identified to pick up test kits.** 2-1-1 is scheduling follow up calls to check on status of these kits.
  - As reported Wednesday the Plumbers and Pipefitters Union providing free water filter installation to homebound residents needing assistance.
  - ☑ A protocol is in place for 2-1-1 to forward requests for help with filter installation to the Sheriff's Department, which is coordinating with plumbers to install the filters. Criteria for this assistance are "loose" and include seniors, disabled, or 'general difficulty'.
- **FOLLOW-UP:** Wednesday's update included questions about identification for door-to-door canvassers. On Thursday the JIC Manager confirmed that "All teams have at least one MSP trooper or sheriff's deputy in a marked patrol unit accompanying them."
  - ☐ 2-1-1 has heard from several callers expressing concerns law enforcement is either providing or accompanying all deliveries of water resources to qualifying residents. **One wheelchair bound man demanded to be removed from the filter delivery list due to fear of the police.** 2-1-1 attempted to provide reassurance, but the caller was adamant being removed.

RUMOR CONTROL

- 2-1-1 is still receiving several calls per day with concerns about lead in the bottled water being distributed.

- On 1/14/15 a caller reported using his testing kit to check three different bottles of water at the fire station. ***Two of the three bottles tested positive.*** He showed the result to a national guard member at the station and received "a dismissive response".

What is the direction we are telling groups of state employees collecting water, or other donations. I have two of these like below.

From: Wheaton, Bob (DHHS)
Sent: Friday, January 15, 2016 3:52 PM
To: Thelen, Richard (DHHS) <ThelenR4@michigan.gov>
Subject: BSC Flint Water Assistance Project

Hi Richard,

This is the second of two emails I'm sending you about our local offices being involved in Flint water assistance projects. Ron Leix and Nicole Lisabeth from MSP told me that you, as our SEOC coordinator, need to be aware of any such efforts.

Jackson County MDHHS staff decided to collect and distribute water for Flint. Other county offices within their BSC heard about this and started to get involved. So now I believe most or all offices in the BSC are participating, including Wayne, Washtenaw, Livingston.

Zoe Lyon, Jackson County director, left me a voice mail this afternoon inquiring about possibly pitching this to news media. I don't believe we're going to do that; Nicole informed me that we're not sending media advisories or pitching media on what individual departments are doing because it's a joint effort.

But I'm making you aware in the event that you need to discuss this with Zoe.

Thanks,

Bob Wheaton

Subject: 2-1-1 Flint Water Crisis Daily Update January 14, 2016

This is the daily 2-1-1 summary on the Flint Water Crisis for Thursday, January 14, 2016

There have been a few questions about the format of this report, specifically use of various bullet points.

- Used for a general issue or update
  - A related but distinct topic related to the primary bullet point

☐ An item requiring action or response

☑ An action item from a previous post that has been resolved/addressed.

GENERAL INFORMATION:

☐ The JIC Manager responded that it would be helpful for 2-1-1 to have a regular presence on-site.
  - The MI211 state office will work with our local partners to arrange a schedule for 2-1-1 to be physically present at the JIC 2-3 days per week depending on capacity.

- The MI211 Operations Council (senior leadership team) held its monthly meeting today and included a debrief on 2-1-1's role in Flint response.
  - Identified additional capacity among the statewide partnership to meet any surge demand, including expanding staffing until 7:00 pm to increase coverage through the evening news hour.
  - Reviewed how we handle call routing to ensure a rapid response to Flint residents.
  - Prepared for MLK holiday coverage.
- 2-1-1 are reporting a general public perception that the response in Flint is uncoordinated and information is constantly changing. There is a great deal of frustration with referrals to agencies that are perceived as slow to respond, if they respond at all. On the 2-1-1 side we understand the challenges, but that does not address the public perception. Specific agencies mentioned by callers include:
  - Valley Area Agency on Aging (calls not returned)
  - Fire stations being out of supplies
  - Health Department (can't get a live answer)
- 2-1-1 was able to de-escalate many callers who expressing frustration and concerns by listening and responding with information to manager their expectations.

- **HOLIDAY CLOSURE NOTICE:** The Genesee County Health Department will be closed Saturday – Monday for the MLK holiday. DHHS Office of Public Health Emergency Preparedness (OPHEP) will be staffing a toll-free line to respond to callers with health concerns (both water quality and Legionella).
  - OPHEP asked to limit sharing of their number to only callers expressing a health concern. Please use the following language Saturday-Monday when giving out the number this weekend:

"The Genesee County Health Department at 810-787-6537 can answer your health questions. While they are closed for the holiday weekend, trained DHHS health professionals are available 8am – 5pm at 888-535-6136 *to answer your questions.*

CALL VOLUME:

- 424 callers selected the Flint Water prompt when they called 2-1-1 of 7:00 pm today. Call volume was manageable with no spikes in demand.
    - 16 wanted to donate or volunteer
- On Wednesday 342 callers selected the Flint Water prompt when they called 2-1-1.
    - 8 wanted to volunteer or donate
- 2-1-1 has created a file tracking daily call volume. This is available to the JIC. Contact Tom Page at tpage@uwmich.org for details.

☑ The JIC Manager indicated it would be useful for 2-1-1 to provide real-time call volume data for Flint.

- 2-1-1 will aim to have a solution identified by Tuesday, January 19.

SPECIAL NEEDS/REQUESTS

☑ The JIC Manager confirmed apartment complex managers can call the Sheriff's Department at 810-257-3600 to arrange pickup of water filters for their properties.

- 2-1-1 has compiled a list of homebound residents who need bottled water for medical device. Is there a way to deliver water to this group of fewer than 10 residents.
- 2-1-1 is receiving calls that fire stations are periodically running out of water resources.
    - A paralyzed man went with his health worker a fire station to pick up a water testing kit, but there were none available. He needs a test kit delivered since he is homebound when he does not have an aide available. 2-1-1 has this contact information.
- 10-15 elderly residents in senior apartment complexes (non-subsidized) have been very vocal that they are not on the priority list for water resources. They cannot carry bottled water with canes or walkers, nor stand in line for extended periods.
- A caller contacted 2-1-1 concerned about family members with children who visited Flint over the summer. Caller was referred to Genesee Health Department and the children's local pediatrician.
    - ☐ As reported yesterday the Plumbers and Pipefitters Union has offered to provide free water filter installation to homebound residents needing assistance.
    - ☐ We need to standard protocol for tracking and following up with homebound requests for filter installation.
    - ☐ 2-1-1 has requests from the general public needing help with filter installation. Is there any option to offer these residents?
- **FOLLOW-UP:** Yesterday's update included questions about identification for door-to-door canvassers. The JIC Manager confirmed that "All teams have at least one MSP trooper or sheriff's deputy in a marked patrol unit accompanying them."

RUMOR CONTROL

- **2-1-1 continues to receive reports of bottled water contaminated with lead.**
    - One caller reported using his testing kit to check three different bottles of water at the fire station. ***Two of the three bottles tested positive.*** He showed the result to a national guard member at the station and received "a dismissive response".
- 2-1-1 will begin reporting Legionella calls in tomorrows and will report these calls separately in the updates until further notice.

☑ 2-1-1 first heard news reports of Legionella in Flint yesterday (1/13/15) shortly after 5:00 pm. A request was sent to PIOs at the JIC at 5:24 pm requesting a standard response for callers concerned about Legionella. 2-1-1 received a response at 6:20 pm with information to direct callers to Genesee Health Department. This information was immediately forwarded to Gryphon Place agents handling afterhours calls.

Subject: RE: Request for Volunteer Message - FOR REVIEW

Final message with all information and links to the surveys. I do not know if Capt. Kelenske has seen yet:

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. Teams from the Michigan State Police and the Michigan Department of Health and Human Services have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, click here https://www.surveymonkey.com/r/28NVJBL
To volunteer on Sunday, January 17, click here https://www.surveymonkey.com/r/26NMJKK
To volunteer on Monday, January 18, click here https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: RE: Request for Volunteer Message - FOR REVIEW

I made one editing change to the second to last paragraph (revised below). Please let us know if you need the JIC's assistance in disseminating this message once the surveys are completed.

As discussed, we are working on an on-line way to capture this information to avoid having to pass information through several hands. As soon as I get the mock-up of the survey, I will send it to you for consideration.

In light of this, below is a revision to the email.

Body:
The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. Teams from the Michigan State Police and the Michigan Department of Health and Human Services have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

Volunteers will begin their assignment at _____, Flint at 9 a.m. and end by 4 p.m. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: FW: Request for Volunteer Message - FOR REVIEW
Importance: High

Hi Jane,

Attached is for review by the State Director. This is urgent, as it needs to go Department Directors as soon as possible. Jarrod Agen will send the email to state directors with a copy to department PIOs. We recommend sending the Emergency Management Coordinator list to the state directors so they know who to plug in.

Note - there are two emails to review in the Word document. One is the email directors will send. The other is the email Jarrod would sent to explain this request.

Thank you,
Shanon

From: Tom Page [mailto:tpage@uwmich.org]
Sent: Wednesday, January 13, 2016 6:12 PM
To: Bob Tonander <btonander@gryphon.org>; JICManager <JICManager@michigan.gov>; Holmes, Virginia (DHHS) <HolmesV@michigan.gov>; Jamie Gaskin <jgaskin@unitedwaygenesee.org>; Eisner, Jennifer (DHHS) <EisnerJ@michigan.gov>; Jennifer Pollak (jennifer.pollak@lifewayscmh.org) <jennifer.pollak@lifewayscmh.org>; Thelen, Richard (DHHS) <ThelenR4@michigan.gov>; Leix, Ron (MSP) <LeixR@michigan.gov>
Subject: 2-1-1 Flint Water Crisis Daily Update January 13, 2016

This is the daily 2-1-1 summary on the Flint Water Crisis for Wednesday, January 13, 2016

GENERAL INFORMATION:

- Jennie Pollak, Central Michigan 2-1-1 Manager, spent six hours at the JIC today and met with PIOs and other key personnel to share information and make connections for coordinating activities.

☐ Please advise if it would be helpful for 2-1-1 to have a regular presence at the JIC. If yes, we will work to identify capacity to be available in-person.

- Gryphon Place, the SW Michigan 2-1-1 provider, handles afterhours and weekend service for Central Michigan 2-1-1. Bob Tonander, Gryphon Place 2-1-1 Manager, has been added to this distribution list to ensure the afterhours team has up-to-date information.

CALL VOLUME:

- As of 3:00 pm today call volume was manageable with no spikes in demand.
    - Tomorrow's summary will provide a full count for today's calls. Jennie Pollak was unable to pull this information while at the JIC.

☐ 2-1-1 is exploring options to provide the JIC with access to real-time call data for Flint. This would give the JIC a measure for tracking the impact of media outreach. Please reply all to this email if real-time tracking would be useful for JIC staff.

SPECIAL NEEDS/REQUESTS

☐ Still seeking information on Monday's request on whether an apartment complex manager can pick up filters for the entire complex (47 filters needed).

- 2-1-1 followed up with requests from public housing complexes using information provided by the Sheriff's Department to distribute standard information on how to access water filters and resources for their residents.
- Homebound or limited mobility callers are being directed to Valley Area Agency on Aging or the Sheriff's Department special number at 810-257-3600 to arrange delivery of filters. All other callers are being directed to visit one of the official Water Resource sites.

☐ 2-1-1 provided a list to the Sherriff's Department of approximately 100 residents needing delivery. Distribution is underway. 2-1-1 will continue to monitor the needs of homebound/limited mobility residents and provide updates as needed.

- ☐ The Plumbers and Pipefitters Union has agreed to provide free installation to homebound residents needing assistance. We need a protocol for tracking this need.
- ☐ 2-1-1 has several requests from the general public needing help with filter installation. We will work to provide a count for this need in tomorrow's report. 2-1-1 can track and report on the general public need for filter installation if the JIC thinks it is useful information.

- A phone call between Tom Page and Ginna Holmes identified potential issues related to canvassing to distribute water filters.
  - ☐ *During the 2014 SE Michigan Flood response there were a number of scammers going door-to-door.* We would advise visible and distinctive identification to reassure residents that canvassers are legitimate.
  - ☐ Does there need to be an aligned awareness campaign to give advance notice when volunteer canvassers will be in specific neighborhoods with a warning against potential scammers?

RUMOR CONTROL

- 2-1-1 is receiving reports from callers that news stories are telling them to call 2-1-1 to schedule water filter delivery. **THIS IS INCORRECT.** See above reference under Special Needs re: home delivery of filters to special needs residents.

☐ As this report was being prepared, news reports broke about Legionaire's Disease in Flint. It is unknown if this is related to the water crisis, but it will generate calls to 2-1-1. A separate request was sent to PIO's and a 2-1-1 contact at DHHS Office of Public Health Emergency Preparedness for a standard response to share with callers to provide accurate information and reassurance.

OTHER

- **FOR INTERNAL REFERENCE UNTIL FURTHER NOTICE:** Tammy Bair, SER Manager at DHHS confirmed State Emergency Relief (SER) funding is available to qualified households to replace damaged water heaters. 2-1-1 has this information in our database, but does not plan to share this information broadly without further guidance from DHHS and the JIC.

Subject: City of Flint Home Address
Importance: High

Sue,

It would be helpful to have an excel file/spreadsheet of all the City of Flint/Genesee County residents addresses? We would like to cross reference it with our database on filters and determine which addresses are using the Flint Water System. We believe this will be helpful for the DHHS workers going door to door. Once we have the data we could pre-populate forms; applications or log sheets that require residents signatures when they receive a filter/water. It will reduce the amount of time spent at each house because the home owner/renter would not need to fill in their address. It will also help to organize the door to door planning efforts on the ground.

Maybe Treasury can supply the information. I am not sure.

Information Request:
Filter by City of Flint and Genesee County
Fields should include homeowner's name, address, city, state, zip

I'm not sure how to proceed with this request. Can you help?

Thanks,
Kris

Subject: 2-1-1 Flint Water Crisis Daily Update January 12, 2016

This is the daily 2-1-1 summary on the Flint Water Crisis for Tuesday, January 12, 2016

GENERAL INFORMATION:

- ***Jennie Pollak, Manager of Central Michigan 2-1-1 will be at the JIC around 9:00 am tomorrow morning (1/13/16) to meet with PIOs and other staff to share information and coordinate activities with 2-1-1.***

CALL VOLUME:

- 185 calls requests for water-related issues had been received as of 4:45 pm.
- At 9:30 am Central Michigan 2-1-1 provided training to staff at 2-1-1 partner agencies across Michigan to increase capacity to handle any sudden surge in call volume. Trained agents are flagged in the statewide call routing platform as specially prepared to provide water assistance.
- At 12:08 pm there was a sudden influx of calls to 2-1-1 resulting from news coverage on TV and radio. The call queue increased to a maximum of 25 callers. Additional capacity from 2-1-1 partners ensured the wait-time for callers remained under two minutes during this period.
- Primary reason for calls are water filters and bottled water.

SPECIAL NEEDS/REQUESTS

- ☑ ***Received response to request in yesterday's update on where to send information on callers requesting transportation assistance and water filter delivery.***
- ☐ Still seeking information on yesterday's request on whether an apartment complex manager can pick up filters *for entire complex (47 filters).*
- Central Michigan 2-1-1 contacted the EOC with reports that some fire station were out of water. EOC shared information on the process to restock sites along with a standard message for 2-1-1 to share with callers to provide reassurance.
- Callers are asking when canvassers will be coming to their communities. 2-1-1 is telling these callers the canvassing map has not been released, but the door-to-door outreach will begin in areas reporting the highest lead levels, then will expand across the city.

RUMOR CONTROL

- There were no more reports of rumors lead being found in bottled water.
- Several callers asked about the safety of bottled water for baths – they reported hearing rumors about rashes caused by bathing in bottled water. 2-1-1 referred to information on the flyer at the state web site regarding water safety and also suggested contacting their doctor or health provider with any related concerns.

OTHER

- At a recent Coalition To Keep Michigan Warm meeting, 2-1-1 heard anecdotal reports that some households in Flint have to replace water heaters annually due to corrosive water. A review of 2-1-1 call data identified 15 requests for water heater replacement in Flint since October 1, 2015.

The mix and match of colors is fine. We are really in need of the Brita Filter replacements asap. I have also been instructed that if we can't get at least 1500 by tomorrow that we may have to purchase them *from another vendor.*

Tomorrow starts the major distribution by State employees.

Subject: FW: Filtration Inventory

Good afternoon,

Below are the inventories with the retails of the products available. In addition to the Brita faucet mount (714338) there are 5,000 available which are in transit from another location to the manufacturer. We are not sure of the transit time as of yet on those. All of the products below are certified by the NSF to meet our 53 standards and remove the lead to the acceptable levels. If you will notice, we have given all options which include units in white color as well as chrome. This does not have any effect on the capability of the product, just only is a color change.

Please let me know if you would like to select which you want, or if you would like me to just acquire as much as possible.

Thank you,

Updated with **retails**

PUR

Guys,

Here is the latest list of all available inv. Make sure the state is aware residents may have to mix and match white with chrome. (white system/chrome cartridge or chrome system/white cartridge).

Waiting on retails. Let me know what they want and I'll get the trucks rolling.

Thank you Erik. We have been trying to coordinate with the State Emergency Operations Center (SEOC) and the Joint Information Center (JIC) to get a better sense of this for you.

I am looping in Richard Thelen who has been working at the SEOC and is coordinating some of the logistics on these requests. We are trying to avoid multiple calls going out to partners like yourself and Wal Mart, but it has been a challenge.

Richard—Wal Mart has been and continues to be willing to help in any capacity they can. Could you please give Erik a better sense of what the need is presently and how they may be able to help?

Thank you,
Geralyn

Subject: RE: Long-Term Plan

Geralyn,

We really need to know what kind of long-term solution the state has planned. This weekend, we had to fill an order from the Sheriff for water filters and replacements cartridges for distribution at the Fire Stations. Today, the store has received another call for bottled water – again because we were told the Fire Stations are out.

Is the Sheriff running the show? I thought the State Police Director for Emergency response was calling the shots!? Do I need to call Harvey Hollins? We're promising to do everything we can to assist (from a Foundation perspective and from a best price perspective at the store level), but we can't be placing emergency orders every other day. We can only load 16 pallets of bottled water per truck and the emergency fulfillment center is a 5 hour drive from the store (once the trucks are loaded).

Has the state contracted for water buffaloes at each of the Fire Stations (assuming all 5 Water Resource sites are on the same contaminated system as the residents)? Should we be looking to establish a free water fulfillment center at the store? (The store is on the Port Huron system so they are not impacted). We could have a tap established for area residents to fill up LARGE bottles to take home.

Doing all we can to help, but we need some clear direction!

Respectfully,

Erik Hingst

Subject: Long-Term Plan

With the State of Emergency, what's the long-term plan? Is the National Guard going to be stepping in with water buffaloes? We're doing everything we can at the store level, but need some help with the time-table to determine what else we might be able to do.

Respectfully,

Erik Hingst

Subject: Re: Water Filter Donations? Need connections

I have sent a response to Alessandra R. Carreon and offered the options that she could choose to be involved.

I do not have the emails of the others that were copied by Jamie and so BJ, if you could respond and let them all know that a follow up response has been sent.

I looked up the group - it is a group of young professionals in Detroit that is tied to a national network. It will be interesting to see what develops from it.

We will have the volunteer management and donations management plans ready for your review tomorrow and so communication can be sent out to inform people of how they can get involved.

MCSC will have a staff member at the EOC tomorrow and a staff member at Red Cross to help set up the VRC for Wednesday.

BJ,

This is great! We need water for sure and volunteers as well! I'm sure we could use money, transportation to restock the distribution sites, volunteers to work the sites and to enter data into the spreadsheets, inventory, the list goes on! *Lots of things we need.*

Please create a task assignment for this. Definitely something Ginna and her team should look into. Thanks for sharing this BJ. Keep me posted.

RED Cross has established the volunteer center lead and this will be fully on line by wednesday. I am ccing in the EOC lead and the red cross lead to tie you into these networks so your efforts can make maximum impact. With regard to filters themselves please do not get filters. State has this completely covered. Water we do need. Amounts ess than 100 cases go through catholic charities center for hope collection point. Semi loads move through foodbank of easter michigan. They feed the already in place network. This should get you started. I have been working in eoc and red cross all day and have to return more calls. Sorry to rush you and I think I have you tied in. All financial donations being directed to UW fund. No admin fees. Just for direct assistance.

Hello,

I am writing to you on behalf of a group of Detroiters anxious to volunteer any way we can to support our friends in Flint during this declared state of emergency. Information describing our group of volunteers follows below.

Are water filters still needed in the city? If so, can we help fundraise or purchase more filters for direct donation?

I have already found the United Way Flint Water Fund link. We can easily share this link and/or deliver filters directly. Please advise as to what would be most helpful response and how many more filters/how much more funding is needed.

We plan on doing a bulk water donation delivery by caravan to Mission of Hope next Saturday, Jan. 16, and can help procure water filters too by that time.

Furthermore, a number of us work for different large companies in the area and would like to understand how we can engage our employers to support your water response efforts, if needed.

I look forward to hearing from you soon!
-ale

Background on our group of volunteers
I am the curator (leader) of the Detroit Hub of Global Shapers (globalshapers.org), a community of the World Economic Forum. The Forum describes this community as "a network of Hubs developed and led by young people who are exceptional in their potential, their achievement and their drive to make a contribution to their communities. Shapers are highly motivated individuals who have a great potential for future leadership roles in society... Shapers are united by a common desire to channel the members' tremendous energy and enthusiasm into building a more peaceful and inclusive world."

Our volunteers primarily represent Global Shapers, though hail from organizations and neighborhoods across the city, such as my colleague and friend, Stephanie Kenner (copied here), who is helping me conduct research on water filters for Flint.

Double sided color is fine using the specs below. Once you have it ready, we can send it to Mark Miller this weekend and he will review it so it will be ready for Monday.

Trevor,

See the below specs on what DTMB needs to print the door hanging cards. Brianna has the information you will need to put on them. She will be here at 8 a.m. as well. DTMB will need these by 7:30 a.m. Monday morning in order to have enough ready for us to pass out Monday afternoon.

Thanks Trevor,
Wendy

MSP

- Personnel from MSP have been coordinating and managing the Flint Water Response Teams since Tuesday.
- Over 100 MSP volunteers have reported and worked on the Flint Water Response teams.
- 25 MSP lieutenants and troopers have been coordinating all operational efforts for the Flint Water Response teams in cooperation with state, county, and local partners.
- MSP is also coordinating with the Red Cross Water Response Teams.

MDOC

- The Michigan Department of Corrections has 26 staff and 14 vehicles dedicated (on site) to the Flint Water Crisis response, additionally three MDOC staff are assigned to the SEOC location.
- The resources requested/dedicated currently is as follows:
- (26) MDOC Employees
- (6) Large Box trucks
- (5) 15 passenger vans
- (2) Pick-up trucks
- (2) enclosed transport trailers
- (1)Handicap Accessible Van
- (1)20 passenger Shuttle Bus
- (1) 53' Refrigerated Semi-trailer
- (4) Pallet Jacks for unloading at storage facility

Michigan National Guard

- The request for Guard support is generated by the executive order issued by Governor Snyder on 12 JAN 16. The Michigan State Police are responsible for coordinating all state efforts, including the Michigan National Guard, to assist the City of Flint and Genesee County.
- Members of the Guard will be staged at the 5 water resource sites at fire stations assisting with operations; there are no plans to go door to door.
- The first group of Michigan Guard arrived Wednesday morning to conduct assessment and get acclimated; the full contingent of approximately 30 Soldiers is due to arrive Friday morning.
- The assistance provided by the Michigan Guard allows other agencies to expand their operations and provide even more support to the citizens of Flint.

Human Services

- Provided procurement, acquisition, delivery, and working on disbursement, of hundreds of thousands of water filtration devices.
- MDHHS have provided staff for Flint Water Response Teams 1/12/16 through 1/15/16.
- Continue to provide two locations as points of distribution sites for water filtration devices.
- Michigan Community Service Commission continues to participate heavily in donation management and volunteer coordination efforts at the local level.
- Continue to provide two dedicated PIOs to the event.
- Have four staff dedicated to this event in the SEOC.
- Local MDHHS staff remains active in human service coordination at the local EOC.
- CHEEC remains active in support to the SEOC and Local Health Dept. regarding this event.

American Red Cross

- Convened meetings of local NGOs
- Provided volunteers for the sheriff's distribution effort
- Provided volunteers to operate PODs at 5 fire Stations
- Stood up a formal Disaster Relief Operation and established headquarters in Flint
- Provided volunteers to operate PODs at 9 churches
- Provided volunteers to manage warehouse and inventory operations
- Established operation to assemble water test kits

- Provided volunteers to assemble water test kits
- Operating a Volunteer Reception Center
- Providing volunteers for the Water Response Teams
- Providing a logistics-planning consultant
- Coordinating and providing meals for the staff and volunteers assigned to the emergency response.

Adult & Aging Services

- Coordinate with Valley Area Agency on Aging (VAAA) who are continuing to take calls from seniors and caregivers needing water or filters. They are providing this information to the local EOC each afternoon for follow-up.

- Provided over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

- VAAA local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

DTMB updates

- Leased warehouse space for supply distribution
- Credentialing badges for volunteers
- Located JIC in Flint State Office Building with equipment
- SMART devices for water response teams (30 to-date additional quantities requested)
- Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
- Printing and delivery of water analysis test forms and informational palm cards
- Seven drivers with trucks transporting supplies throughout the city
- Temporary fuel cards

Michigan Department of Environmental Quality

- Facilitate supply of water test kits to all Flint Water Treatment Plant customers in collaboration with City and County personnel
- Laboratory services to process samples for lead and copper analysis
- Staffing of SEOC during all operation hours to coordinate agency services, capabilities, activities and respond to resource and information requests
- Staff support at the Joint Information Center
- Coordination and cooperation with various state agencies for sampling plans and implementation strategies for all state regulated facilities to include the provision of resources
- Staffing at the local level to assist with resource and response management
- Verify NSF/ANSI 53 certifications of products delivered to citizens
- Production of a water test sampling video for public guidance

MDARD

- Updated requirements for food establishments using City of Flint water; mailed on 1/14 and includes offer to collect samples for free.
- Visiting food businesses to ensure they understand requirements.
- Will be visiting restaurants, in coordination with Genesee County Health Department
- Reached out to veterinary clinics and coordinated with the Genesee County Animal Control to contact animal related businesses to see what water system they're on and ensured that they were familiar with the Flint water situation.
- Reached out to Flint Food Works / Food Hub and the Food Bank of Eastern Michigan and offered additional assistance.

MDHHS – Health

- Activated the Community Health Emergency Coordination Center (CHECC)
- Staffing a hotline to field calls that were to be sent to the Local Health Department while the LHD is closed for furlough, weekends, and holidays
- Developing a nutritional plan for education and messaging
- Gathering information in preparation for disaster behavioral health response, if a presidential declaration is approved.
- Epidemiology branch continues to assist work with local health department on blood lead testing and case management
- Communicating to healthcare providers through WebMD Medscape.
- Coordinating health information messaging with the JIC.

MDLARA

- Ongoing effort to reached out to all licensed Healthcare facilities in the affected area to gather information and access any needs they may have, to include: Child Care facilities, Adult Foster Care, and others.
- LARA and it's Bureau of Construction Codes - Plumbing Division will complete the "Freeman School Faucet Replacement Pilot." This weekend to include:
    - On-site assessment plumbing to identify plumbing components of concern and prioritize sample sites.
    - Identify and replace faucets, lines, connectors with lead free components.
- Re-collect water samples to test and analyze.
- Offered to assist with lab testing, utilizing the MIOSHA Lab and Scientists as appropriate in coordination with DEQ.
- Provided MDHHS with a list of licensed healthcare facilities to coordinate the distribute nutritional information.
- Worked with the Office of New Americans to assist with translation of messaging

MDEQ

- Facilitating supply of water test kits to all Flint Water Treatment Plant customers in collaboration with City and County personnel.
- Laboratory services are processing samples for lead and copper analysis.
- Providing staff at SEOC during all operational hours to coordinate agency services, capabilities, activities and response to resource and information requests.
- Providing staff support at the Joint Information Center.

- Coordination and cooperation with various state agencies for sampling plans and implementation strategies for all state regulated facilities to include the provision of resources.
- Staffing at the local level to assist with resource and response management
- Verified NSF/ANSI 53 certifications of products delivered to citizens
- Produced a video of a water test sampling video for public guidance

Water

Today's numbers:

7,824 cases of water arrived today, 1/12/16 (109 pallets)

Ordered:

19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)

- 1/3 is going to GCard and the rest is going to the new warehouse

12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

Filters

Today's numbers:

Ordered 1/11/16 – Delivered 1/12/16 direct to GCCARD

2,000 – Brita filter faucet mounts

Filter Replacements

2,400 – Brita filter replacements (1 pack)

8,000 – Brita filter replacements (2 pack)

Ordered 1/12/16 to arrive Wednesday

Faucet Mounts – To be delivering direct to GCCARD on 1/13/16 (Wednesday)

10,000 – PUR Vertical faucet mount

2,500 – PUR Horizontal mount

Replacement Filters – Delivering direct to GCCARD on 1/13/16 (Wednesday)

10,000 – PUR replacement filters (3 pack)

10,000 – PUR replacement filters (1 pack)

PUR Combination Pack – Delivering direct to GCCARD on 1/13/16 (Wednesday)

10,700 – PUR combo packs

To arrive Thursday

Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

1,300 – Zero Water pitchers

Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)

11,000 – PUR vertical faucet mount

1,500 – PUR Horizontal faucet mount

5,000 – Brita faucet mount

10,000 – Brita adv faucet mount white

12,000 – Brita adv faucet mount chrome

Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)

15,000 – PUR replacement filter

45,000 – PUR replacement filter

40,000 – PUR replacement filter

16,000 – PUR replacement filter

1,600 – Brita replacement filter

Test Kits

6601 unassembled kits arrived at GCard today, 1/12/16.

- 500 have been assembled and are ready for distribution

1000 additional unassembled kits have been ordered to be delivered at GCard (no ETA yet)

10,142 unassembled kits to arrive at GCard early next week

Second warehouse

100, 000 square feet of secure warehouse obtained.

Located in Flint

Accepting commodities beginning Wednesday, January 13

Manpower

An American Red Cross Logistics Planner arrived today as requested. Specialist will assist in streamlining the inventory and distribution of same.

Needed items for JIC (maybe on a daily basis) Data is to date (1/15/16 as of 7pm)

1. 7474 homes visited by the FWRTs.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups
    c. 39,000 includes apartment complexes (is the number we are using as our goal)

4. Resources purchased:
    a. Cases of water 44,688
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

- Ensured the delivery of water and filters to the 9 churches in the Flint area.
- Discussed strategies for community outreach (door to door)
- Worked on facility safety at Collins Road (gate issues/lighting)
- Manage Task assignments for the SEOC (Press avail/door hangers/rules for water pickup)
- Requested a second DC to assist in Region 3 (Lt. Russo), start time TBD.
- Requested product information required to design signs for the fire stations to make it visibly apparent to the public. Awaiting feedback from fire stations (through Lt. Roach)
- Developed Branch Directors within the SEOC to reduce span of control (specifically Human Services Branch (Richard Thelen) and Health and Environmental Branch (Jennifer Lixey-Terrill)
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location.
    - GCCard is large enough, centrally located and comes staffed. We will use this sight temporarily until a logical long-term storage option can be found. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- Distributed to date (1/8/16). Logistics has asked GIS to provide us daily updates of how much was distributed each day.
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Local EOC was asked to identify someone to enter the information collected on address cards from all the distribution sites as essential for the GIS tracking and reporting.
- Fire stations were initially established for 9-4 operations; this has been extended to 9-9 operation. Volunteers were located to accommodate these operations. This will continue as long as the need is realized.
- Logistics is in process of location additional replacement filters.
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory.

Local Program Conference Call Agenda

January 20, 2016

Phone Number:
PIN: [redacted] Host Code

---

1. **Welcome and Roll Call**
2. **Distribution Status as of 1/19/16**
    a. Update of homes visited by FWRT 4,943 (total-27,072)
        i. Added were the ARC numbers after 5pm (2228).
3. **Distributed on 1/19/16 (PODS & FWRT)**

    Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

    a. Number of cases of water **10,348** (total 77,794)
    b. Filters **2,139** (total 69,730)
    c. Filter cartridges **856** (total 184,457)
    d. Test kits **1,193** (total 16,675)

4. **Neighborhood canvasing campaign**
    a. 8:30am-5:00pm /Going to every home again .
        i. 7-9 Blue/black/green teams (6-9 folks) type 3 teams---Goal today 300 homes per team
        ii. 10 Red (ARC) (2-4 folks) type 5 teams----Goal today 100 homes per team
5. **National Guard**
    a. National Guard is bringing in 75 additional troops today (105 will report tomorrow) to help with the FWRT.

Next Call – Tuesday 20th – 8:30 am

Participants:
Genesee County EM
EMHSD District Coordinator

Are we making progress?

What can we do to help?
Anything else we can do?

RETAIN THIS IMAGE

- Is there a reason why we're handing out water by the bottle and not by the jug?

While we would prefer water by the gallon, we are accepting any size that is donated. 99% of what has been donated is bottles.

- Are there any recycling options for the water bottles?

The SEOC is currently developing plans for recycling empty bottles.

-Can apartment complexes pick up supplies for their residents or have them distributed? County advises the city is keeping a list of apartment complexes, but we are not clear on what phone number the apartment complexes should call to get on the list.

Apartment complexes should call 2-1-1 and provide a count, point of contact and any special circumstance.

-Also receiving questions about impacts on water heaters.

2-1-1 is addressing questions regarding water heaters and appliances.

-JIC will need information on how we will respond to the non-JIC/SEOC announcement made by the Governor this afternoon which will result in media calls to the JIC. We also need to be able to confirm how much water, filters, kits, etc. the state has purchased and distributed, the number of water response teams in the field, and the number of homes the teams have visited to date. We have pending media inquiries on this and need an answer from the SEOC. If this information cannot be provided publicly, we need the SEOC to provide us with a statement we can give the media explaining why this information cannot be provided.

	TOTAL	1/14/2016
Occupied Homes	1450	716
Vacant Homes	1967	1654
Total Homes	3417	2370
Resources		
Door Hangars	1487	817
Water	588	217
Filters	945	613
Pitchers	22	6
Water test kits	217	60
Replacement Filter	482	345
Total Resources Dispersed	3741	
Future sample test site	114	52

8 teams were in the field today.

-Who is the state purchasing water from? name of company?

Home Depot

- How much has the state spent to purchase what (for example , how many bottles of water has the state purchased, how many filters, etc.)

How much water the state has purchased and distributed:
State costs:

Water-389,744.64
Filters-4,215,339

- Looking for clarification on water to Flint Schools, it is his understanding that the water is supplied through a department of education contract. What is the cost for the water to Flint schools and who is covering the cost.

We have nothing to do with the water being supplied to Flint Schools. Based on our conversations with them, it has all been donated. They actually have more than they need and have attempted to give to us, but we have declined due to the possible negative perception of taking water from school children.

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

EXECUTIVE ORDER
No. 2016 – 1

CREATION OF
FLINT WATER INTERAGENCY COORDINATING COMMITTEE

MICHIGAN DEPARTMENT OF STATE POLICE

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that he considers necessary for efficient administration; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint switched its water source to the Flint River; and

WHEREAS, the County of Genesee and the City of Flint have taken actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16, 2016, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and

WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Michigan Department of State Police will facilitate the collaboration and

communication between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Michigan Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following seventeen (17) members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Three (3) additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three (3) representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor; and
- Three (3) subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory, or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive, and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes and the rules and procedures of the Civil Service Commission, and the Department of Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules, and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the

Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 11th day of January, in the year of our Lord, Two Thousand Sixteen

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and

WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Michigan Department of State Police will facilitate the collaboration and

communication between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Michigan Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following seventeen (17) members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Three (3) additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three (3) representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor; and
- Three (3) subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory, or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive, and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes and the rules and procedures of the Civil Service Commission, and the Department of Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules, and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the

Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 11th day of January, in the year of our Lord, Two Thousand Sixteen

RICHARD D. SNYDER
GOVERNOR

To: Gorski, Gary (MSP)
Cc: Kelenske, Chris (MSP)
Subject: Genesee County Board of Commissioners Declaration
Attachments: public health emergency declaration 10-1-15.pdf

The following is provided as requested...

At 4:04 PM, Genesee County Emergency Management created the following incident in MI-CIMS:

> Genesee County Health Department has Declared a Public Health Emergency for persons on the Flint City Water System due to a recent report of increased lead levels in children within the City of Flint.
> ****Jenifier Boyer - County of Genesee MGT EM Coordinator - jboyer@co.genesee.mi.us at 16:01:21 on 10/1/2015****

The document associated with this incident (attached) references a "Public Health Emergency Declaration" issued by the Genesee County Board of Commissioners. I spoke with Dr. Jackie Scott of MDHHS, who informed me that there is no such term under public health code. Similarly, this term does not exist under PA 390, where the correct term would be a "Local State of Emergency," which would be issued by the Chair of the Genesee County Board of Commissioners. The attachment states the "County is issuing an "Emergency Advisory" recommending people not drink water coming from the city of Flint using the Flint River as the water source..." It would appear the board is simply issuing a statement not tied to any type of formal emergency declaration.

EMHSD has not received the standard form associated with a Local State of Emergency declaration and the county EOC is not activated. I will pass along key developments as they occur. Please let me know if anything further is needed at this time.

Subject: RE: Flint mayor's state of emergency
Attachments: Fact Sheet - Emergency or Disaster Declaration Process.pdf

Hi Dave,

When a mayor or other chief executive official declares a "local state of emergency," that means they are activating their emergency response plans.

A local community may declare a "local state of emergency" exists when they have sustained widespread or severe damage, injury or loss of life or property. This ensures the response and recovery aspects of the emergency operations plan have been activated, and local resources are being utilized to the fullest extent possible. Authorities may authorize local aid and assistance.

This is not an a trigger for automatic state or federal assistance. It basically means the city is rolling out their emergency response plans, authorizing local aid and assistance.

The city of Flint works in support of the overall Genesee County Emergency Management program. We have no received any requests for state assistance through the Michigan Emergency Management Act.

I've attached a fact sheet that goes through the process.

Thanks,

Ron

Fact Sheet

Emergency or Disaster Declaration Process

The Michigan Emergency Management Act (Public Act 390 of 1976, as amended) outlines the emergency management process for the state of Michigan. If an incident exhausts state resources, the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 USC §§ 5121-5207) establishes the process for requesting and obtaining a presidential disaster declaration and assistance from the federal government

STEP BY STEP: Emergency or Disaster Declaration Process

1. Disasters are first and foremost local events. Most disasters are handled by local government with minimal or no state assistance. At the onset of a disaster or emergency, local emergency responders, joined by volunteers and the private sector, are the first to be involved.

2. A local jurisdiction may declare a "Local State of Emergency" exists when they have sustained widespread or severe damage, injury or loss of life or property. A local declaration ensures the response and recovery aspects of the emergency operations plan have been activated, and local resources are being utilized to the fullest extent possible. Authorities may authorize local aid and assistance.

3. *If recovery efforts are beyond the ability of local government, the community may turn to the state to* request assistance. All requests for assistance are channeled through the Michigan State Police, Emergency Management and Homeland Security Division.

4. The Michigan State Police, Emergency Management and Homeland Security Division reviews specific requests for state assistance and makes recommendations to the Governor's Office. The Governor's authority, granted by the Michigan Emergency Management Act, may include mobilizing state government agencies to provide necessary support and assistance to local authorities under a "State of Emergency" or "State of Disaster" declaration.

5. If state and local government resources are unable to cope with the emergency or disaster, the Governor may request assistance through the U S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), Region V Office in Chicago.

6. At the request of the Governor, FEMA may conduct a Preliminary Damage Assessment (PDA) in cooperation with state and local emergency management officials. The results of the PDA will be reviewed by state officials and the Governor's Office and used as a basis for determining whether to request federal financial assistance.

7. Should the state request federal disaster assistance, FEMA will review the request and make a recommendation to the president, who will make the final determination on any disaster aid to be provided to the state. The goal of disaster assistance is not to make individuals, businesses or government entities whole again, but to restore the community to a level that meets expected health and safety considerations.

Hi Dave,

When a mayor or other chief executive official declares a "local state of emergency," that means they are activating their emergency response plans.

A local community may declare a "local state of emergency" exists when they have sustained widespread or severe damage, injury or loss of life or property. This ensures the response and recovery aspects of the emergency operations plan have been activated, and local resources are being utilized to the fullest extent possible. Authorities may authorize local aid and assistance.

This is not an a trigger for automatic state or federal assistance. It basically means the city is rolling out their emergency response plans, authorizing local aid and assistance.

The city of Flint works in support of the overall Genesee County Emergency Management program. We have no received any requests for state assistance through the Michigan Emergency Management Act.

I've attached a fact sheet that goes through the process.

Thanks,

Ron

Subject: Fwd: Water Donation

FYI.

Are you hearing that the new Mayor wants to declare a local emergency on this water issue?

The below article is reference the water we were able to identify from FEMA.

Emergency Management/Preparedness Sector
FEMA Sends 28,000 Liters of Bottled Water to Flint amid Lead Troubles
(MLive)
Flint, Michigan: The federal government is helping to replenish the bottled water supply in Flint. Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan today, Dec. 14. The water will then be donated to "partner agencies" in the city of Flint who will distribute the water to residents. Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses around the country and makes them available. "These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal-MLive. A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA. Flint remains in a public health emergency and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015. The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment. FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

> >
> > Curtis initially told The Flint Journal-MLive that he didn't believe the county needed to act on Weaver's declaration because county officials had already declared a health emergency in October.
> >
> > The board chairman said the health emergency triggered the release of millions in state funds for water filters and to help reconnect Flint to the Detroit water system.
> >
> > But after a news conference Dec. 15, Weaver said she would send Curtis a certified copy of her declaration and let commissioners decide the fate of her request.

"We're going to do what we said we were going to do ... It can be on their conscience if they don't approve this," she said of the county.

Curtis said he would do "everything I can for the safety of Flint and Genesee County residents," but said he was disappointed in not being included in conversations about the emergency request to date.

Curtis experienced the work required in requesting disaster relief in 2012 after heavy rains flooded parts of the county.

Even though the county documented about 1,800 specific losses tied to the flooding, the Federal Emergency Management Agency ultimately rejected the county's request for disaster assistance.

Weaver's declaration does not include a specific cost associated with the lead in water crisis but she said Tuesday that in addition to damaging the health of citizens, the city's infrastructure, including water transmission pipes, has suffered damage.

John Pearce So stop protecting criminals just because they held an elected position. They should be held to a higher standard, not a lower one There should be no difference in the penalties for a company who endangers lives and lies about it, than for an elected official In fact, I'd consider the elected official more culpable because their job is to protect the people.

Flint's Water Crisis Just Became A Double Emergency
Turns out declaring an emergency doesn't make the emergency go away

12/16/2015 01:09 pm ET | Updated 1 hour ago

JeCorey Hawkins had a scary moment with the water in Flint, Michigan, in September. The 22-year-old psychology student had stopped at a drinking fountain at his university when the water took on a grainy texture in his mouth.

"I was very creeped out because I didn't know if I would be sick," Hawkins told The Huffington Post on Tuesday. He said he and his family, which lives in Flint, hadn't been drinking tap water since earlier this year, though he trusted the University of Michigan's efforts to test and treat water on its Flint campus.

Flint's water problems turned out to be worse than most people realized when a local pediatrician reported in September that more children were being poisoned with lead, a dangerous neurotoxin. The continued problems with the water prompted Flint Mayor Karen Weaver to declare an emergency Tuesday.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver said.

It's the second emergency declaration over toxic water for the beleaguered city -- Genesee County, which surrounds Flint, declared an emergency for the same reason back in October.

Jamie Curtis, chairman of the Genesee County Board of Commissioners, told HuffPost he didn't understand what Weaver hoped to achieve with her declaration, saying the mayor hadn't been in touch with any demands. He said the commission would take it up at its Jan. 4 meeting.

"I'm not sure what her declaration is," Curtis said. "What I don't think the people of Flint need ... is nothing more than rhetoric saying, 'I've declared this emergency,' but nothing comes of it."

The county's Oct. 1 declaration warned Flint residents not to drink the water unless it had been specially filtered and confirmed not to have high levels of lead.

The trouble started in 2014 when emergency managers appointed by Michigan Gov. Rick Snyder (R) decided to try saving money by switching Flint's water supply from the Detroit system to the Flint River.

Local officials toasted the decision, though residents immediately complained about the taste, smell and appearance of what came from their taps. Most importantly, the new water turned out to be more corrosive, causing lead to leach from Flint's old pipes -- and into the city's kids.

Research published by Flint pediatrician Mona Hanna-Attisha in September showed levels of lead in children's blood spiked at the same time as the water switch. Elevated blood lead levels are especially harmful for children, who can suffer stunted growth and irreversible brain damage. In October, after denying any problem, state officials acknowledged they failed to treat the water to adjust for its corrosiveness, and Snyder signed legislation switching Flint back to Detroit's water.

The city has told residents it could take as long as six months for the water lead levels to decline.
A Dec. 11 report from the Michigan Department of Environmental Quality said the state found elevated blood lead in 39 of 1,836 Flint residents who had testing done since early October. Blood lead levels can decline in a matter of weeks after a person is exposed to lead.

This week, in response to Weaver's new disaster declaration, a spokesman for Snyder referred HuffPost to previous statements from the governor's office outlining actions already taken, including an Oct. 2 action plan and the Oct. 21 creation of a special task force to investigate what went wrong and recommend solutions.

Hawkins wasn't impressed by the latest emergency declaration.

"It's kinda scary, but at the same time, it's like, the water has been this bad, you know, for all this time," he said. "They just decided to put a name to it at this point."

Hawkins has two younger sisters, 10 and 7 years old, who he said have suffered some hair loss, which is a common complaint among Flint residents who can't avoid bathing with the water.

"There is no reason for them to be losing hair at their age," Hawkins said.

This article has been updated with information from a Department of Environmental Quality report.

Snyder Administration Leans on Lies to Avoid Flint Water Disclosures
Lie told by Health Department lawyer needs investigation

LANSING — In a recent story by the Detroit Free Press, it was reported that a lawyer for the Department of Health and Human Services claimed that documents related to the Flint Water Crisis could not be released because of a "litigation hold" placed on documents by the Attorney Generals office. However, the Attorney General claims he did not place a hold and the story points out that the term is not a phrase used in litigation surrounding public documents.

"This administration is more concerned with covering the Governor's political ass than they are about the health and well-being of the children and citizens of Flint," **said Lonnie Scott, executive director of Progress Michigan.** "Time and time again when it comes to FOIA, the Snyder administration has hidden behind delays, 'the fee approach' and now they are resorting to making up new legal terms, all in an effort to hide the truth about what happened in Flint and what led to thousands of children being poisoned on his watch They may think that their delays are slick political operating and sound legal logic but where I come from we have a simple word for actions like these: Bullshit."

This week, Mayor Karen Weaver declared a State of Emergency due to the poor water quality in Flint. This comes months after Gov. Snyder stood behind a podium and denied responsibility for the crisis

"Standing behind podiums with a forced look of concern is not leadership," **Scott continued.** "The Governor should immediately show leadership and order all state departments to release all documents showing when the Flint crisis was discovered and what was done to fix it. That's what a real leader would do so I won't hold my breath. This is the latest in a long list of examples that go to show Gov. Snyder has broken his campaign promise of more transparency and failed to address our broken FOIA system."

Subject: State Sen. Jim Ananich News Release

Situational Awareness. State Sen. Jim Ananich, D-Flint, issued the following in response to the Flint Water Advisory Task Force's correspondence with the Governor.

Senate Minority Leader Jim Ananich Wants More Urgency from Governor, Trained Emergency Coordinator on the Ground

17th of December, 2015

LANSING, Mich. — Senate Minority Leader Jim Ananich (D–Flint) responded to today's release of Flint Water Task Force correspondence. He reiterated specific actions that would help organize efforts with the Flint water crisis, including bringing in a trained emergency management professional to coordinate assistance within the City of Flint.

"Political appointees and public relations people are what got us into this mess, and they aren't who we need leading us out of it," Sen. Ananich said. "Anything less than a professional trained in emergency management or public health will *not suffice.*"

Sen. Ananich requested a crisis responder from the Michigan State Police, the Federal Emergency Management Agency or the Department of Homeland Security.

"Dashboards and nice words won't cut it — our community needs action and answers. While I appreciate that the task force seems to recognize it needs to recommend changes before they release their final report, the administration still doesn't seem to comprehend how devastating this crisis is and that it's far from over," Sen. Ananich said.

In addition to calling for more urgency, Sen. Ananich has pushed for stronger legislative oversight and hearings, and additional resources for those families suffering from lead overexposure.

Honorable Mayor Karen Weaver, PhD
City of Flint
1101 S. Saginaw St.
Flint, Michigan 48502

Dear Mayor Weaver:

I am aware through media reports that you have issued a "Declaration of State of Emergency" with regards to the City of Flint's ongoing water crisis. I am also aware through these same media accounts that you wish to have Genesee County issue its own "State of Emergency or Disaster" in order for the County and the City to be eligible to apply for financial assistance from the State of Michigan to address the problem.

First, be assured that I am fully on board to do whatever I can as Chairman of the Genesee County Board of Commissioners to assist the City of Flint as it continues to struggle with its emergency water situation. As you know, back on October 1st, the Genesee County Health Department issued an emergency health advisory for the residents of Flint and all users of Flint city water. That action did result in some assistance from the State of Michigan.

However, in order for all us to work cooperatively in the most expedited manner possible to more fully address these serious health concerns, it is important that you, the City Council, City Administrator, City Attorney, and others understand the procedures that must be followed.

Under the County's formally adopted Emergency Action Guidelines, specifically paragraph 7 of those guidelines, and in accordance with Public Act 390 of 1976, once the City of Flint presents us its declared state of emergency document, it is my duty as the County Board Chair to consult with the County's Emergency Management Coordinator, Sheriff Robert Pickell, and the Michigan State Police Emergency Management and Homeland Security Division for District 3, Lt. BJ Roach. Upon such consultation and review of the City's declaration of emergency and upon

determining that the situation is beyond the capabilities of the County to handle, I, as the County Board Chair, may then declare a "State of Emergency" and request assistance from the State of Michigan and a Governor's Declaration.

So to that end, I look forward to receiving your declaration of emergency so that we may all move forward in addressing this very real threat to the health, safety, and welfare of our community.

Sincerely,

Jamie W. Curtis, Chairperson
Genesee County Board of Commissioners

C: Natasha Henderson, City Administrator
Peter Bade, City Attorney

Subject: Genesee County chairman says he can send Flint disaster request to governor

Situational awareness.

Genesee County chairman says he can send Flint disaster request to governor
MLive, Dec. 18, 2015

FLINT, MI -- Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.

In a letter to Weaver Thursday, Dec. 17, Curtis says county guidelines and state law call for him to consult with the county's emergency management coordinator -- Sheriff Robert Pickell -- and Michigan State Police once he has been given the declaration.

"Upon such consultation and review of the city's declaration of emergency and upon determining that the situation is beyond the capabilities of the county to handle, I as the the county board chair, may then declare a state of emergency and request assistance from the state of Michigan and a governor's declaration," Curtis' letter says.

Curtis declined to comment further on the matter, and The Flint Journal-MLive could not immediately reach Weaver for comment. The chairman's letter says he will "do whatever I can ... to assist the city of Flint as it continues to struggle with its emergency water situation."

Earlier this week, Curtis said he did not plan to call a special meeting of the county Board of Commissioners to consider the disaster request but would add the issue to the agenda of the county board at its next meeting on Jan. 4.

The mayor has said state and federal funds are needed to respond to health problems caused by lead in drinking water here and to replace thousands of lead service lines in the city.

Weaver's declaration, read to the City Council Monday, Dec. 14, did not include an estimate of damages suffered by the city and residents.

To support the request for disaster relief, the city also announced that it has enacted its "Support Emergency Operations Plan" and opened an "Emergency Operations Center."

Sean Kammer, assistant to the city administrator, said the center is available to answer questions from residents and will be used to coordinate relief efforts.

The EOC is located in Flint Fire Station 1, 310 E. Fifth St., and the center can be reached by calling 810-237-6888, extension 5005 from 8 a.m. until 5 p.m. Monday through Friday.

Hi Ron,

So today the legislative black caucus called on the administration to declare a state of emergency in Flint. Wondering if that could happen given the main problem in Flint has already occurred. Considering the water situation in Flint, would a request for a disaster declaration (is this the right term?) be more appropriate?

Also has MSP received anything formal in requesting a state of emergency or something like it?

Thanks,

Alethia Kasben

Hello, I just received notice that the meeting and Flint is Monday at 2 PM at their EOC which is Firestation 1 located at 3:10 E. 5th St. , Flint. I also just talk to Chris DeVriendt and he advised the city still isn't asking for anything specific. It is basically we need help and they keep talking about health problems in the future for the kids. They don't get it. Apparently they did provide some spreadsheets to 'Chris reference some expenditures they've incurred. Monday ought to be interesting. Bj

Here's what all of us came up with:

- It would be up to the Governor to determine which, if any, declaration is appropriate.
- At this time, the Michigan State Police, Emergency Management and Homeland Security Division has not received any formal requests for state assistance through the Michigan Emergency Management Act.

Ms. Natasha Henderson
City Administrator
Flint City Hall
1101 S. Saginaw Street
Flint, MI 48502

Dear Administrator Henderson:

It has come to our attention that the City of Flint's Declaration of Emergency has been elevated to the County level. In order for County consideration for a declaration, a number of steps must be precisely followed by the City of Flint.

These steps are:

1. The Emergency Management Liaison (EML) activates the Emergency Operations Center (EOC). The EOC is located within Flint Fire Station #1 located at 310 E. Fifth Street. If this location is unavailable, an alternate location is at the Office of Genesee County Sheriff.

2. The EOC shall establish an incident tracking system such as the FBI's Virtual Command Center.

3. Emergency Operations Center representatives be notified, through Genesee County 911, by the municipal Emergency Management Liaison to report to the EOC. (This means Chief Cox must bring the Command Staff to the EOC to develop an Incident Action Plan.)

4. The EML directs departments/agencies to respond to the emergency situation in accordance to each agency's functional guidelines indicated in the attachments to this plan. These departments/agencies shall report out their progress to the EOC on the hour.

5. Notify the public officials, as well as the public, of the situation through the Public Information Official, and take appropriate actions. (This means Chief Cox must keep the public informed of any compliance measures.)

6. Keep the County Emergency Management Coordinator (Sheriff Robert J. Pickell) informed of the situation and actions taken.

These steps are mandated by the City of Flint Support Emergency Operations Plan.

Upon the County receiving the local City of Flint State of Emergency Declaration and request for assistance, The County Board Chair, in consultation with the County Emergency Management Coordinator, and the MSP-EMHSD Third District Coordinator assess that the incident is beyond the capabilities of the county, the County Board Chair will declare a "State of Disaster" or "State of Emergency" to provide support from the County, and request assistance from the State of Michigan and a Governor's Declaration.

This request is then sent to the State MEHSD District Coordinator. Affected municipalities may also request this assistance on an individual basis through the county channels addressed above. NOTE: The Chief Executive must declare a "Local State of Emergency" prior to requesting a Governor's Declaration of Emergency or Disaster.

In order to fulfill these mandated requirements, my recommendation is that the relevant City of Flint officials meet with my Emergency Management staff, along with Lieutenant Roach, MSP, to fulfill all the necessary requirements to assure that our declaration has met all the mandated requirements.

Very truly yours,

ROBERT J. PICKELL
SHERIFF

cc: Board Chairperson Jamie Curtis
MSP Lieutenant B. J. Roach

To: Kelenske, Chris (MSP); Katarsky, Anthony (MSP)
Subject: Gongwer: Legislative Black Caucus Requests Emergency Declaration

As Flint Mayor Karen Weaver and the city council declared a state of emergency in the city because of the ongoing drinking water crisis, the Legislative Black Caucus on Friday asked the administration of Governor Rick Snyder to do the same, though city officials have not yet asked for that from the state, a Department of State Police official said.

The caucus said in a statement the issuance of a state of emergency would help address continuing health concerns caused by the increased lead levels in the city's water and give the city access to federal dollars.

The city has stopped pulling water from the Flint River, but the caucus said the state of emergency is in response to continuing reports and studies that indicate the presence of coliform bacteria and high levels of lead in the city's drinking water.

Rep. Sheldon Neeley (D-Flint), vice chairman of the LBC, said he is working with local, state and federal officials to find solutions and resources. He said a state-declared heath emergency will allow the city to access federal funding.

"Issuing a health emergency is the most responsible thing to do," Mr. Neeley said. "This is a public health crisis, and our children are most at risk. We urge Gov. Snyder to issue the state of emergency so the city of Flint can get immediate monetary relief."

But Chris Kelenske, the deputy state director of emergency management and homeland security with the Department of State Police, said the city and the county are currently operating under the state's emergency protocols and have not yet asked for the state to declare an emergency.

Mr. Kelenske said he currently has an MSP official in the city working as a liaison and the department is plugged in to what is happening in the city.

"Right now what they have done is Flint has put in place their ... emergency operations plan," he said.

To get additional state resources and even federal dollars, the city would have to have a very specific list of the resources they need, he said. He said the federal government's first question would be what specific needs the city has.

"State assistance is used to supplement ... local resources. It is not to be used to simple budgetary relief," he said. "There is a process in place and it is just a matter of making sure that we follow the process as well as looking at other avenues of funding."

Anna Heaton, spokesperson for Governor Rick Snyder, also said the administration has been working closely with officials in Flint. She noted the state has given $10 million in grants and other assistance to help cover the temporary switch in water source and improve existing water infrastructure.

"The administration also has in place an action plan that includes increased testing, free filters and other steps to help residents," Ms. Heaton said. "The governor also appointed a bipartisan task force charged with reviewing all of the city, state and federal government actions and recommending changes looking forward that can address potential challenges in Flint and other cities."

It its statement, the caucus said blood tests taken before and after the city ended its contract with the Detroit Water and Sewerage Department and began using Flint River water showed that the number of Flint children with elevated blood-lead levels had jumped from 2.1 percent to 4 percent. Additional tests have disclosed that the blood-lead levels of children living in the poorest Flint neighborhoods have jumped from 2.5 percent to 6.3 percent, the statement said.

"Water is a basic human right," Rep. LaTanya Garrett (D-Detroit) said. "Many of our urban communities have succumb to various water issues. We have a due diligence to work tirelessly to provide relief to our citizens."

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

December 15, 2015

Dear Flint Water Advisory Task Force Members:

Thank you for your correspondence on Dec. 7, and, most importantly, for your hard work to promote public health and protect our residents as we move forward. Your efforts are both respected and appreciated.

As acknowledged in your letter, we have taken many steps to address the challenges in Flint as they relate to reducing lead exposure. I am pleased to see the progress since October, and recognize there is more work that must be done to ensure that this progress continues.

At the state level, there has been a confluence of efforts between Departments of Environmental Quality and the Department of Health and Human Services to coordinate with the Genesee County Health Department, local schools, and our partners in the non-profit community.

These partners are making progress, and we know we must always strive to improve practices and communication for continual improvement.

You make a solid recommendation to establish a person who is independent of any one of the involved state agencies to serve as the point person to coordinate the ongoing work. I am recommending that Harvey Hollins, director of the Office of Urban Initiatives, carry out this effort. Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role. Senior members of our executive team will continue to engage with your task force and provide direction and support to Harvey to ensure you will have continued support and cooperation. We also have retained Chris DeWitt, a veteran communications specialist, to strengthen community outreach efforts to make sure residents have access to the information they need.

I also support your suggestion of a dashboard to make information about our work and progress more accessible to the Flint community. These are critical measures that can be used as we look the challenges and progress in Flint, but also can be a part of efforts moving forward in other areas of our state. It's important that people have confidence that we are working to address any problems and will take the necessary actions to improve interaction among city, state and federal agencies. We also will continue to work with the medical community to consider how we can work together on wraparound needs of children who might experience health problems.

People in Flint and across our state deserve safe, clean water. I want them to be confident that the water coming out of their tap is safe for their families. And I want them to trust that their government – at all levels – is working effectively to protect them.

I thank you again for investing your time and expertise in this vitally important effort.

Sincerely,

Rick Snyder
Governor

Subject: Mayor pins Flint's hopes on water disaster declaration | MLive.com

FYI -- I spoke to this reporter earlier last week and gave him a fact sheet. Otherwise, I would have passed it along.

Mayor pins Flint's hopes on water disaster declaration | MLive.com

FLINT, MI -- The federal government may have never recognized a man-made water crisis like Flint's as a disaster before, but asking for the assistance has been Mayor Karen Weaver's plan since before she was elected Nov. 3.

"Our city is in a crisis -- a water crisis," Weaver said. "So far, what we've had are Band-Aid fixes, (and) it's not enough ... I don't see any other option."

On Monday, Dec. 21, the mayor plans to meet with Genesee County Board of Commissioners Chairman Jamie Curtis and others involved in emergency planning to discuss the city's incident response plan, a step-by-step outline aimed at addressing the water crisis.

"Things are falling together nicely," she said Friday, Dec. 18. "(The plan) is going to say, 'We need this, this and this,' and attach numbers where we can."

The Michigan Emergency Management Act outlines the process for seeking federal disaster assistance, which starts with the local declaration of a state of emergency. In that statement, a local jurisdiction says it has sustained widespread or severe damage, injury or loss of life.

Communities that have typically been granted disaster aid have suffered from natural disasters such as severe storms, flooding and fires, but Weaver believes that Flint's disaster with lead in its water is just as devastating.

There are cases in which less-common disasters have been recognized with federal aid, including one for severe hardship to the salmon industry in Alaska in 1953, a chlorine barge accident in Louisiana in 1962 and dam failure in Colorado in 1973, according to FEMA records.

"The president can declare an emergency or major disaster for any natural or manmade event that the president determines has caused damage of such severity that it is beyond the combined capabilities of state and local governments to respond," FEMA spokesman Mark J. Peterson said in an email to The Flint Journal-MLive

"We're being positive and optimistic" with Flint's application, Weaver said.

The city's state of emergency says, "Flint children have experienced increased blood lead levels since the switch to the Flint River, and this damage to children is irreversible and can cause effects to a child's IQ ... (resulting) in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system."

Weaver has so far not assigned a dollar figure to damage done to children who drank Flint River water since April 2014, and she said this week that Flint's old water distribution system was also damaged by corrosive river water. "So that's where we are (also) going to need some help."

Although Flint City Council members have been generally supportive of Weaver seeking the disaster declaration, and the Michigan Legislative Black Caucus is supporting the request, Flint City Councilman Josh Freeman said he doesn't believe it will be granted.

"It's giving false hope to people that the problem is going to fixed" with a disaster declaration, Freeman said. "At some point we have to stop playing politics and start governing."

The councilman said state and federal officials are unlikely to send disaster relief to Flint because other parts of the county and the state have childhood blood lead levels -- from all sources -- that are similar to children in Flint.

"Maybe I'm wrong. Hopefully I'm wrong," he said.

FEMA's Web site shows 77 disaster declarations nationwide so far in 2015 and eight current disasters.

The current declarations cover damage caused by fire in California; severe storms and flooding in Wyoming; straight-line winds, flooding and severe storms on the Pine Ridge Indian Reservation in South Dakota; severe storms, tornadoes, straight-line winds and flooding in Texas; severe storms, tornadoes, straight-line winds and flooding in Oklahoma; severe storms, tornadoes, straight-line winds and flooding in Arkansas; and severe storms and flooding in South Carolina.

To reach the desk of President Obama, Weaver's disaster declaration must be approved by county Chairman Curtis and both officials must determine that the disaster is beyond the capabilities of the city or county to handle. Curtis has said he is "fully on board" to do whatever he can to help the city of Flint.

In Michigan, all requests for assistance are channeled through the Michigan State Police, Emergency Management and Homeland Security Division. The MSP reviews requests and makes recommendations to the governor, according to Ron Leix, a spokesman for the division.

The governor has the authority to mobilize state agencies to provide assistance, and if the state cannot cope with the disaster, Gov. Rick Snyder could request assistance through FEMA.

The federal agency makes disaster recommendations to the president.

State Rep. Sheldon Neeley, D-Flint, urged Snyder to get Flint's application for help to the president as quickly as possible.

"Issuing a health emergency is the most responsible thing to do," Neeley said in a news release. "This is a public health crisis, and our children are most at-risk. A state-declared health emergency will allow the city to access federal funding."

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Dec. 18, 2015

Talking Points

Flint Water

NOT INTENDED TO BE DISSEMINATED
TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water lines. Local health experts found that children experienced elevated lead levels in their blood during the switch to processing Flint River water.
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency."
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- In addition to the $6 million appropriated to reconnect Flint to the Detroit Water and Sewer System, the following has also been provided:
    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million, the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million
- Dr. Karen Weaver, the new Flint Mayor, revealed her 100-day plan on Dec. 1, 2015. She is calling for a federal disaster declaration so the community can pursue federal assistance to help Flint residents during this crisis. She is working with state legislators and Congressman Dan Kildee.

- Dr. Marc Edwards, the Virginia Tech professor who has been studying Flint water issues, was recently in Flint talking about his findings. Edwards said recent samples of the water show dramatic drops in lead levels (after the switch back to Detroit water), but some homes are still showing very high levels. He said the water is still not safe to drink, adding that it may still take months to get below the safe federal standard.

- On Dec. 14, Flint Mayor Karen Weaver declared a "local state of emergency" and called for a Genesee County to declare a "local state of emergency" to support her declaration.

- On Dec. 15, The Flint Journal reported that Genesee County Board of Commissioners Chairman Jamie Curtis will hold a hearing about Flint declaration request at a meeting on Jan. 4, 2016. The Journal reported that he supported Flint's assistance request, but the city needed to follow administrative procedures. He compared the request to applying for a grant

Disaster Declaration Sought by Local Officials

- The water situation in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by both state and local officials to ensure citizens have safe water at their homes.

- To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, everyone is working together to bring Flint back to a state of normalcy. But remember: Normalcy won't happen overnight.

- The Michigan State Police, Emergency Management and Homeland Security Division continues to support the Genesee County Emergency Management officials and the city of Flint. We have a state police district coordinator who has been engaged with local emergency management officials since the beginning of this public health emergency.

    - **IF NEEDED CLARIFICATION:** Local emergency management officials are NOT the same as emergency financial managers Please keep this in mind.

- The Michigan State Police is working with county and city officials to see how we can continue to assist Flint residents.

    - For example, we recently put area nonprofits in touch with FEMA so they can obtain water. FEMA updates its water inventory regularly and provides nonprofits about-to-expire water free of charge. They are only liable for shipping costs.

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint **exhausts** its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If a request is approved, the Governor will declare a "state of emergency" or "state of disaster."

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources have been already deployed outside of a disaster declaration. For example, the Michigan State Legislature provided more than $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. This total also includes funding for lead testing, case management for children with elevated blood levels, and filters.

What is a Presidential declaration?

- When a state **exhausts** its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration.

Is a Presidential disaster declaration possible?

- A Presidential declaration is not easy to pursue during emergencies or disasters. A case has to be made to prove the incident is outside the scope of both local and state response and recovery efforts.

- A **Presidential emergency declaration** provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. There is a $5,000,000 cap in federal assistance.

- A **Presidential major disaster declaration** provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion

    - In 2014, Wisconsin Gov. Scott Walker requested a federal major disaster declaration due to a deep freeze that damaged millions of dollars in public infrastructure. The declaration was denied. His appeal was also denied.

        - The disaster declaration was denied based on the determination that federal assistance under the federal law (Stafford Act) was not necessary or appropriate under the circumstances.

        - Federal law and regulations outline a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - On Jan. 10, 2014, President Obama declared an emergency existed in West Virginia after chemicals were spilled into the Elk River and affecting the water supply close to 300,000 residents.

        - An emergency declaration provides relief efforts that have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, or to lessen or avert the threat of a catastrophe.

        - West Virginia later tried to obtain a presidential major disaster declaration, but was denied.

IF ASKED: Why has the state not declared a disaster?

- The Michigan State Police, Emergency Management and Homeland Security Division has been engaged since this emerged as an emergency issue. The agency has been working with Genesee County officials throughout this process. At this time, the county has not requested specific resources through the Michigan Emergency Management Act.

    - The city of Flint's emergency management program is a part of Genesee County's program. All requests for state assistance must be channeled through the Genesee County Emergency Management Coordinator.

- To date, a thorough damage assessment has not been conducted by city of Flint and Genesee County officials. Also, no specific resources have been requested. We must know what is needed to provide the correct recommendations.

- Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

Are water service lines eligible for disaster assistance?

- Water service lines are those water lines that go from the water main to the house. Different communities have defined this differently. If a water service line is the responsibility of the homeowner and on private property, then he or she is responsible for replacing it

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act.

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act

December 2014

Fact Sheet

Emergency or Disaster Declaration Process

The Michigan Emergency Management Act (Public Act 390 of 1976, as amended) outlines the emergency management process for the state of Michigan. If an incident exhausts state resources, the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 USC §§ 5121-5207) establishes the process for requesting and obtaining a presidential disaster declaration and assistance from the federal government.

STEP BY STEP: Emergency or Disaster Declaration Process

1. Disasters are first and foremost local events. Most disasters are handled by local government with minimal or no state assistance. At the onset of a disaster or emergency, local emergency responders, joined by volunteers and the private sector, are the first to be involved.

2. A local jurisdiction may declare a "Local State of Emergency" exists when they have sustained widespread or severe damage, injury or loss of life or property. A local declaration ensures the response and recovery aspects of the emergency operations plan have been activated, and local resources are being utilized to the fullest extent possible. Authorities may authorize local aid and assistance.

3. If recovery efforts are beyond the ability of local government, the community may turn to the state to request assistance. All requests for assistance are channeled through the Michigan State Police, Emergency Management and Homeland Security Division.

4. The Michigan State Police, Emergency Management and Homeland Security Division reviews specific requests for state assistance and makes recommendations to the Governor's Office. The Governor's authority, granted by the Michigan Emergency Management Act, may include mobilizing state government agencies to provide necessary support and assistance to local authorities under a "State of Emergency" or "State of Disaster" declaration.

5. If state and local government resources are unable to cope with the emergency or disaster, the Governor may request assistance through the U.S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), Region V Office in Chicago.

6. At the request of the Governor, FEMA may conduct a Preliminary Damage Assessment (PDA) in cooperation with state and local emergency management officials. The results of the PDA will be reviewed by state officials and the Governor's Office and used as a basis for determining whether to request federal financial assistance.

7. Should the state request federal disaster assistance, FEMA will review the request and make a recommendation to the president, who will make the final determination on any disaster aid to be provided to the state. The goal of disaster assistance is not to make individuals, businesses or government entities whole again, but to restore the community to a level that meets expected health and safety considerations.

Subject: Situtational Awareness: Virginia Tech researcher accuses state health officials of "hiding" data on Flint's water

Virginia Tech researcher accuses state health officials of "hiding" data on Flint's water
Michigan Radio, Dec. 21, 2015

Virginia Tech researchers accuse Michigan health officials of trying to "stonewall" the investigation into lead in Flint's drinking water.

The documents obtained through a Freedom of Information Act request are available online.

Marc Edwards says newly obtained internal documents show Department of Health and Human Services employees tried to hide evidence that matched the increased lead levels in children found by doctors at Hurley Medical Center.

"There are emails that show they reproduced the Hurley analysis very early on, and in a document they said is not to be distributed to the public, they noted they found the same thing as Hurley but they didn't tell anyone," says Edwards.

Edwards says state health department officials were following the lead of the Michigan Department of Environmental Quality in the handling of Flint's water crisis.

The MDEQ initially downplayed the importance of the data from Virginia Tech and Hurley Medical Center.

The data suggested elevated lead levels, in the drinking water of some Flint homes and the blood of Flint children, could be linked to the city's switch from Detroit water to the Flint River in April, 2014. Researchers claim the corrosive nature of the river and a lack of treatment resulted in damage to pipes, which then started leeching lead into the drinking water.

After 18 months, the city switched back to Detroit water in October. However, there is still concern lead may continue to be a problem, and Flint residents are advised to continue using filters or drink only bottled water.

There is no safe level of lead. Exposure to lead can have serious health effects, especially in young children.

The Department of Health and Human Services issued a written statement this afternoon defending the agency's handling of the blood lead level data. In the statement, the agency insists it "consistently provided information regarding blood lead levels in the city of Flint."

When initially looking at the citywide and county elevated blood lead level numbers, the increase appeared to be consistent with the routine seasonal fluctuation seen in the summer months. It wasn't until the Hurley report came out that our epidemiologists took a more in-depth look at the data by ZIP code, controlling for seasonal variation, and confirmed an increase outside of normal trends. As a result of this process, we have determined that the way we analyze data needs to be thoroughly reviewed. Additionally, Gov. Rick Snyder has created a Flint Water Task Force to review all city, state and federal responses and actions and is expected to make recommendations moving forward.

The statement went on to say DHHS will continue to work to ensure "appropriate case management and follow up is occurring in Flint."

Subject: State Legislative Black Caucus asks governor for State of Emergency in Flint

State Rep. Sheldon Neely (D-Flint) is calling for the governor declare a state of emergency. I believe this was generated from a news release the Legislative Black Caucus issued a couple of days ago.

It's apparent the news outlet doesn't know the emergency or disaster process as well.

State Legislative Black Caucus asks governor for State of Emergency in Flint
ABC 12, Dec. 21, 2015

FLINT (WJRT) - (12/21/15) - The 19 members of the Michigan Legislative Black Caucus joined with the city, Monday, in asking Governor Rick Snyder to declare a state of emergency in Flint.

"The [consequence] of lead exposure to families is permanent, permanent damage. We need to make sure we provide them them best type of health activity to mitigate some of those damages," said Rep. Sheldon Neeley (D-Flint), who sits on the caucus.

The lawmaker says calling a state of emergency is a crucial step in bringing in some much needed state and federal dollars to try and resolve the issue permanently. This comes a week after Flint Mayor Karen Weaver declared a state of emergency at the local level, which is the first step to those federal dollars.

Neeley says if the governor were to do the same, it would show he cares about what's happening to the people in Flint.

"These requests are falling on deaf ears right now. We're trying to shock the governor into a state of emergency," said Rep. Neeley.

An emergency operations center is now taking calls on the water emergency in Flint.

City & County United to Resolve Water Issue
"The County will Do Everything to Help"
Mayor Weaver is the lead spokesperson

I, along with Mayor Weaver, and officials from the City & County met this afternoon to discuss plans to resolve the water issue affecting residents in the City of Flint The meeting was productive and all officials are on the same page.

The City of Flint and Genesee County are united in the response to the water issue. The County has pledged to provide any and all resources to Mayor Weaver as she moves forward on a plan.

Sir

This morning I requested from the Flint City Administrator, Natasha Henderson, the list of resources they have determined they need to see how we may be able to assist at this time. The county will also look at this to see what they can do. I will forward it as soon as I get it or hear otherwise.

Subject: City Officials Meet with County, Other Agencies Over State of Emergency

City Officials Meet with County, Other Agencies Over State of Emergency

Mayor Karen Weaver hosted the first meeting in the City's Emergency Operations Center (EOC) where City officials met with partners from other agencies to discuss the City's Water Emergency In addition to City Officials, the EOC meeting included members of the Genesee County Board of Commissioners, the Michigan State Police's Emergency Management Division, the United Way, and the Genesee County Health Department The purpose of the meeting was to discuss next steps for the city as it continues to implement its Support Emergency Operations Plan, construct an Incident Response Plan, and coordinate their efforts with outside agencies and governments

"It was a productive meeting, where we coordinated with several agencies and levels of government We are a step closer to bringing permanent solutions to Flint," said the Mayor, who declared a State of Emergency on Monday December 14 over ongoing problems with lead contamination in the City's water.

Genesee County Board of Commissioners Chairman Jamie Curtis and Vice-Chair Bryant Nolden pledged to support Flint's efforts to address water quality issues and public health, which includes assisting in the provision of immediate relief and seeking help to implement long-term solutions.

Immediate relief includes such as water filters, bottled water, and making certain foods available that help treat the effects of lead poisoning The County is working to share critical health and nutrition information with the City to make this possible.

Long term solutions include several capital improvement projects to upgrade and replace the City's water distribution infrastructure. The cost of doing this is still being determined by the City. The City is currently working on a comprehensive Incident Response Plan that details all of the actions to be taken and their costs. The Incident Response Plan will be presented to the County Board of Commissioners after the new year. It is intended to demonstrate the City's need for outside assistance and additional resources to properly address the water emergency beyond what is available

at the County Level The Mayor has continuously called for outside assistance with these efforts because of the serious financial challenges facing the city Flint continues to remain in State receivership while addressing this Emergency

Good Morning

As a follow up I just got a call from Andy Levitt, Chief of staff for Senator Ananich. He wanted to talk about getting the Mayor information on EMHSD. I advised him that she has met with Captain Kelenske and gave him contact information for Lt. Roach.

Chris, Myself and BJ have been keeping each other informed.

Good morning Nichole,

The Mayor and Captain Kelenske met on Monday at 2:00 pm here in Flint, along with Lt. Roach and a few others. At the end of the meeting Captain Kelenske stated we did not have to plan a meeting in Lansing unless the Mayor wanted to come see their operation. With all that's going on we decided to hold off on the meeting in Lansing.

Thanks Nichole and Merry Christmas!

Good afternoon Ms. Murray,

In reference to a conversation between Captain Kapp and Mayor Weaver last week, I have been asked to assist the EMHSD commander, Captain Kelenske, in scheduling a meeting with Mayor Weaver due to his assistant being out of the office for the next two weeks. Captain Kelenske would like to brief Mayor Weaver on the operations of Emergency Management Homeland Security Department (EMHSD).

If you can assist me with a few dates in January where Mayor Weaver is available for about 2 hours to meet in Lansing, Captain Kelenske would like to also give her a tour of the State Emergency Operations and the Intelligence Operation centers where his presentation to her may be of valuable. If she is not available for a tour of the Operations Centers after their meeting, then Captain Kelenske can meet with her at your office.

Unfortunately I do not have direct access to Captain Kelenske's calendar so this may take us a couple of tries, but you and I have become really good at this!!

Thank you,
Nichole

Since I just met with the Mayor and City Administrator we can cancel the meeting we were trying to set up – I told the Mayors assistant it was not needed but the Mayor can call me anytime with questions on EM.

The problem is that people (including legislators) are providing bad information to the Mayor on state and federal declarations. I fully informed the Mayor and City Administrator of what is and is not possible. I advised Lt. Roach that the Chief of Staff should speak to me on this issue.

Thanks Gene.

Subject: RE: Flint Water

Hi Capt., I had a long conversation with Chris Devriendt just a bit ago. He has a little frustrated because he has asked to see the list also in an attempt to determine what resources the county can provide. He has been told it is not ready yet due to them still obtaining info on cost of replacing service lines etc. Chris advised they declined the use of the County EOC right now and prefer to work out of their own. Chris also advised the City is working on an agreement with Wayne State University to do all their GIS mapping- filter distribution, lead levels in children, etc. He further said that Dr. Mona already has GIS maps with that information but will not release/share them until an article of her ref the lead levels in children gets published in a pediatrics magazine. Not sure when that is slated to happen. In talking to Chris it sounds like the Board Chair/Commissioners are still at odds somewhat with the Sheriff and they are not on the same page. In the Flint Water meeting yesterday, which is the Public Health side, some of the group voiced some concern about the EOC opening and efforts being duplicated. I did explain to them the role of the EOC and its importance and advised that Mark Valachak, will be their point person. I also urged Chris to become involved with that group also- if his bosses approve it. I also sent Ron Leix Sean Kammer's contact info. Ron said he was going to reach out to him.

It seems politics are still driving this train. I will stay engaged and let you know if I hear or see the city's request list. Did Senator's Ananich's office reach out to you??? Bj

Of course you can talk to the Senator or staff.

Just loop in F/Lt. Hawkins afterward.

I will forward on to Rich and Harvey.

I did not. I can or do you want to forward?

Also, senator ananich chief of staff has my cell. I have not spoken to him but are you okay with me discussing the EM Act and Stafford act items if they call? I am not going to discuss items outside of these lanes though.

This morning I had a conference call with FEMA Region V Administrator. He has briefed the FEMA Director on the Flint water issue as I have been in contact with FEMA Region V since this started (he and I were in Miami at the time for a meeting and discussed this).

FEMA Region V and I are on the same page reference the Stafford Act and with the information I have relayed to the Mayor, City Manager, County Commissioner and others.

I also contacted the Army Corp of Engineers to see what programs they may have in the form of direct assistance. We are looking into any programs that may allow fixes to infrastructure in case funding does become available from another source. We may be able to use other funding to match any federal funds/assistance the Corp could provide ... still a big unknown though, but I wanted to stay ahead of this. Just wanted to make you aware.

FOR IMMEDIATE RELEASE
Tuesday, Dec. 29, 2015

Gov. Rick Snyder takes action on initial findings from Flint Water Task Force

Changes to take place at DEQ, meeting planned with Mayor Karen Weaver

In response to initial findings from the Flint Water Task Force, Gov.

Rick Snyder today issued the following statement:

"When I became aware that the city of Flint's water showed elevated lead levels and that the state's handling of the situation was being questioned, I requested funding to switch the source back to the Great Lakes Water Authority and appointed an independent task force to identify possible missteps and areas for improvement.

"The task force has done an exceptional job, reviewing stacks of documents and interviewing scores of Flint, Genesee County, state and federal officials. Although the task force's final report is not yet completed, members have made me aware of some interim findings and corrective steps that I have decided to take immediately in order to restore trust in how the state keeps its citizens safe and informed.

"We'll continue to work with the community members to make sure we hear and respond to their concerns.

"In addition, MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force.

"But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water. Let's share research on water and blood lead level testing so we can arrive at accurate and mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term.

"I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure.

"I know many Flint citizens are angry and want more than an apology. That's why I'm taking the actions today to ensure a culture of openness and trust. We've already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we're going to meet soon to

discuss other ways the state can offer assistance.

"These are only initial steps - we fully expect to take more actions following the recommendations of our task force. When it comes to matters of health and quality of life, we're committed to doing everything we can to protect the well-being of our citizens."

Wyant Resigns In Wake Of Flint Water Crisis

Department of Environmental Quality Director Dan Wyant has resigned in response to the water crisis that erupted three months ago in Flint.

"MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Governor Rick Snyder said in a statement.

"But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water," Mr. Snyder said. "Let's share research on water and blood lead level testing so we can arrive at accurate and mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

The DEQ has come under major criticism for how it handled testing for lead in Flint drinking water after the city switched to the Flint River as its water source. The water was not properly treated for corrosion, causing lead to leach from service lines into the drinking water.

"I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure," Mr. Snyder said. "I know many Flint citizens are angry and want more than an apology. That's why I'm taking the actions today to ensure a culture of openness and trust. We've already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we're going to meet soon to discuss other ways the state can offer assistance."

Subject: Flint mayor submits plan to deal with water problems

Mayors office submits "Incident Action Plan" to county regarding Flint water
Dec. 29, 2015
FLINT (WJRT) - (12/29/15) - The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.

According to the city administrator, Mayor Weaver's office submitted an official "Incident Action Plan" to Genesee County Emergency Management and Homeland Security Office.

The move strategically comes just days before a January 4th meeting by the County Board of Commissioners and could help lead to additional assistance.

The action plan includes key steps for immediate relief, like water filter distribution, and for long term solutions, like addressing medical needs and infrastructure challenges.

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. *This committee is comprised of public information officers and public relations* personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **<u>COMPLETE</u> Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **<u>IN PROGRESS</u> Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**
a. Transfer Station to Dort Reservoir	*$4,500,000*
b. Raw water line to pump station #4	*$636,000*
c. Phosphoric acid feed system	*$186,000*
d. Alum Feed system	*$40,000*
e. Post filtration system	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

Attachments: FlintIncidentActionPlan 20151229.pdf; DRAFT County Declaration Flint Water.docx; DRAFT Request for Governor Emergency Declaration Flint Water 1_4_16.doc

Importance: High

Good morning, I received a call from Chris Devriendt advising he was sending this email to me. Chris basically advised the City of Flint is handing over their IAP to the County on Monday and the County is going to ask for a Governor's declaration. I asked what resources have been used and exhausted by the City and the County as well as what resources are being asked for. Chris is caught in the middle here. The City's IAP is basically asking for millions of dollars to fix their infrastructure and asking for the 2 million they spent to make the switch back to Detroit water be forgiven. I also asked if they had GIS mapping to show which service lines are lead in the city. Chris advised the city is working with Wayne State University on those and to his knowledge no maps are available yet. He further advised maps contained in Dr. Mona's article are "locked" by the Institutional Review Board until her article is published. The city is going to request the Board to release the maps to them but that is not a given.

Once again, they are basically asking for money to fix their infrastructure problem. And, Sean Kammer is asking Chris if there is a link to MICIMS that he can share with the public. One word- clueless. Sorry , I know you will delete it if you need to send any of this info on. I will plan on being at the meeting Monday unless I hear otherwise. Please let me know your thoughts. BJ

Subject: City of Flint Emergency / Invitation
Importance: High

Dear LT Roach,

This missive is to invite yourself and any other MSP EMHS personnel to the commissioners' meeting on 1/4/2016. The meeting will be held at the County Admin Building, 1101 Beach Street, Flint, MI 48502 on the 3rd floor in the Harris Auditorium at 9:00am. This is the building just south of the Sheriff's Office and the room is to your immediate left as you exit the elevator.

It is anticipated that at this meeting, the County will declare a state of emergency and quite possibly elevate it to the State level at the same time. I am attaching the City of Flint IAP, County Declaration, and Governor's request for your review and comment. I understand that this is short notice and lacking on proper protocol but I value your input and guidance.

To illustrate the dire need this situation calls for in regards to professional intervention, the City PIO just left me a message asking if there is a link to the IAP on MI CIMS that he can share with the public...

If you or your colleagues have any questions, comments, or observations feel free to share my personal cell phone number with them (

Very Respectfully,

Chris DeVriendt, LVT, MPH

CITY OF FLINT

INCIDENT ACTION PLAN

STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, *this plan serves as a framework and may be altered as the emergency develops.*

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- *MTA-Your Ride mobile distribution:*
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. *Health services must be expanded in the area to accommodate increased numbers of case loads and* specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **<u>COMPLETE</u> Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **<u>IN PROGRESS</u> Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**
a. *Transfer Station to Dort Reservoir*	*$4,500,000*
b. *Raw water line to pump station #4*	*$636,000*
c. *Phosphoric acid feed system*	*$186,000*
d. *Alum Feed system*	*$40,000*
e. *Post filtration system*	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

To: Commanding Officer - Emergency Management Division, Department of State Police; District #3 Emergency Management Division District Coordinator; Post #35 State Police Post Commander

On October 1, 2015 residents within the City of Flint located within Genesee County were exposed to toxic levels of lead resulting in an imminent danger to public health and safety caused by elevated lead levels in the public water distribution system due to utilizing the Flint River as a primary source of water without proper corrosion control treatment. As a result of this situation, the following conditions exist: lead toxicosis in City of Flint residents and accelerated deterioration of the City of Flint water distribution system.

Therefore, as Board of Commissioners Chairperson of Genesee County, in accordance with Section 10 of 1976 PA 390, as amended, I hereby declare that a "state of emergency" exists therein, that the response and recovery aspects of the emergency operations plan have been activated, and that local resources are being utilized to the fullest possible extent.

Authorized by: _____

Jamie Curtis, Board Chairperson

Request For Governor's Emergency/Disaster Declaration

TO: Governor, State of Michigan

On January 4, 2016 pursuant to Section 10 of Act 390, P.A. 1976, as amended, I declared that a "state of emergency" exists in Genesee County due to the introduction of lead into the public water system and subsequently elevated blood lead levels exceeding governmental standards. The response and recovery aspects of the Genesee County emergency operations plan have been activated, and local resources are being utilized to the fullest extent practicable. Despite these efforts, local resources are not sufficient to cope with the situation.

Therefore, in accordance with Section 12 of Act 390, P.A. 1976, as amended, I deem this incident to be beyond the control of Genesee County and I respectfully request, for and on behalf of the citizens of Genesee County that the Governor declare a "State of Emergency/Disaster" exists therein and that consideration be given, if conditions warrant, to petitioning the President of the United States for assistance provided by Public Law 93-288, as amended. In support of this request, we will submit specific damage assessment data through official channels and in accordance with the guidance in EMD PUB-901 (*Damage Assessment Handbook)* within three (3) days of this disaster, unless circumstances dictate an earlier submittal as requested by the Emergency Management Division, Department of State Police. Furthermore, I understand that this request will not be acted upon without sufficient damage assessment data to substantiate the need for assistance.

Specifically, I request the following assistance:

ESF #3 / Infrastructure Systems Recovery Support Function support to include but not limited to:

- Post-incident assessments of public works and infrastructure
- Executing emergency contract support for life-sustaining services
- Providing technical assistance to include engineering expertise, construction management, contracting, and real estate services
- Providing emergency repair of damaged public infrastructure and critical infrastructure

ESF #8 support to include but not limited to:

- Assessment of public health/medical needs
- Health surveillance
- Medical care personnel
- Patient care
- Behavioral health care
- Public health and medical information
- Potable water

ESF #11 support to include but not limited to:

- Provision of nutritional assistance

Accordingly, be advised that Christopher DeVriendt, Interim Genesee County Emergency Management Manager will provide liaison and coordination with state and Federal authorities for assistance related to this disaster and in accordance with Section 14 of Act 390, P.A. 1976, as amended, he/she is directed to transmit this request to the appropriate State Police Emergency Management Division (EMD) District Coordinator by the most expeditious means.

Subject: RE: Flint IAP

Captain,

The State Planning Unit has reviewed the IAP, and offer the following comments:

- The Incident Management Team is referred to in the document. It would be helpful to have the roster included in the document. It would also be helpful to have the roster listed in terms of a traditional ICS format, but the *"function" references are workable.*
- Not included in the IMT are anyone from Planning, Community & Economic Development, or Information Services. They do or could have beneficial roles in the response (documentation, CDBG, information technology logistics, and resource procurement).
- An Emergency Management Team is referenced but is not defined. It may actually be a reference to the IMT.
- The JIC and PIO "team" are referenced, but their composition and organization is unclear.
- EPA assistance with public information is mentioned. Should the state/DEQ be aware of this and communicating this to us?
- Who is "determining the total cost of damage done to the public health and infrastructure?"
- State needs to clarify with the city what any state role in replacing the whole water system may or may not include. Various funds and forgivable loans have been referenced, but the state should have (perhaps the Executive Office does have) an overall Project Manager who can coordinate all state and federal activities that are occurring.
- State should provide assistance/guidance if possible to help develop the capital improvement project for the water system
- An organization chart with contact information should be prepared by either the City or the County EM. The County EM could be serving as a coordinating/liaison role between city/county/state agencies.
- A county IAP with the City IAP as an appendix may be beneficial.
- Most of what is being requested echoes previous resources. Financial assistance is first and foremost what is being requested. Most resources (health monitoring programs) still do not have any cost projection attached. Infrastructure costs are the exception which, as noted, would need outside review for confirmation (or source of the existing estimates).

I would stress that with MSP/EMHSD, MDEQ, MCSC, MDHHS, and potentially MSHDA all providing input, the state needs a project manager for this. Which could take the form of an SEOC activation in the monitoring mode, or something less formal. But coordination is needed.

Gov. Rick Snyder taps DNR Director Keith Creagh to guide DEQ through leadership transition

Bill Moritz will fill role as interim DNR director

Michigan Department of Natural Resources Director Keith Creagh will serve as interim director for the Department of Environmental Quality effective Jan. 4, Gov. Rick Snyder announced today.

Creagh will guide the DEQ through its leadership transition period, following the resignation of former director Dan Wyant. Dr. Bill Moritz will serve as interim director at the DNR.

"Keith has an unparalleled passion for Michigan's environment, working closely with the DEQ during his years with both the DNR and the Michigan Department of Agriculture and Rural Development," Snyder said. "I am confident his knowledge and experience will help ensure a seamless transition while we work to identify a long-term director for the DEQ."

Creagh has served as DNR director since July 2012 and was previously director of the Michigan Department of Agriculture and Rural Development, where he built an extensive resume in

environmental and human health safety issues, including involvement in pesticide enforcement, ensuring the proper disposal of chemicals and cancelling some that posed a danger to human health.

Creagh has worked closely on many environmental and public health issues with the Environmental Protection Agency, Food and Drug Administration and U.S. Department of Agriculture. He served as director of industry affairs for Lansing-based Neogen Corp., which provides food and animal safety solutions to the agri-food industry. He earned a bachelor's degree from Michigan Technological University.

Moritz is the natural resources deputy at the DNR, previously serving as chief and assistant chief of the wildlife division and as a deer research specialist. He also was executive director for Safari Club international and the Safari Club International Foundation. Moritz earned a doctorate in zoology from Southern Illinois University, a master's degree in fish and wildlife management from Montana State University and a bachelor's degree in fisheries and wildlife biology from Iowa State University.

Creagh To Be Interim Head At DEQ

Natural Resources Director Keith Creagh will head the Department of Environmental Quality while the administration seeks a permanent director, Governor Rick Snyder announced today.

Bill Moritz, a deputy director in the DNR, will head that department in the interim, Mr. Snyder announced.

"Keith has an unparalleled passion for Michigan's environment, working closely with the DEQ during his years with both the DNR and the Michigan Department of Agriculture and Rural Development," Mr. Snyder said in a statement. "I am confident his knowledge and experience will help ensure a seamless transition while we work to identify a long-term director for the DEQ."

The new appointments will be effective January 4.

Gongwer News Service will have more on this story in Wednesday's Michigan Report.

Hello Captain Kelenske,

I am in the process of compiling a comprehensive and complete list of resource needs and should have something to you as soon as possible. I can be reached via email or by cell phone at . This list will include needs ranging from financial to personnel requirements, logistics, data processing, and equipment.

Thank you,

Sean Kammer

Team:

Today Harvey and I met with the Flint Water Task Force. It was a good meeting. People were pleased with the G's statement from the prior day. Captain Kelenske joined us and we had a very good discussion about moving forward with the creation of the Flint Water Crisis Agency Coordinating Committee (FIACC). Tim Becker and Captain Kelenske provided me with a fair amount of input. I also read the City of Flint Incident Action Plan for a State of Emergency which Chris received today (enclosed for those who wish to read it as well). I have distilled all of this into a two page plan that I want your edits and comments on and a one page organizational chart (now presented in the "governor's colors" according to our fine people in Communications). Spoiler alert—I made Captain Kelenske Vice Chair of the whole shebang (with the Colonel's blessing) so Harvey wouldn't get lonely.

Here is my ask of you:

1) Within 24 (sooner if you can) hours give me your comments and input
2) Tomorrow I will turn around a final document for Jarrod to review with the Governor either New Year's Day or Saturday
3) Ideally, Governor will approve Harvey sending it to Mayor Weaver Saturday (Sunday latest)
4) Mayor needs to know that this is what the Governor wishes to discuss at the meeting January 7 along with financial resources that we still need some estimates on cost from DHHS for
5) Meegan and Dave need to noodle how best to get out front with this and change the narrative focus on Monday's Genesee County declaration of emergency

I know we are all working way too hard for what should be a rest and recharge period but I do appreciate everyone's efforts and I know the Boss really does as well.

Regards,

Rich

A Proposal to Create the Flint Water Inter-Agency Coordinating Committee (FIACC)

In collaboration with the Flint After-Action Task Force, MSP Captain Chris Kelenske, DHHS Chief Deputy Tim Becker and DHHS Director Nick Lyon, Harvey Hollins and Rich Baird are recommending the immediate creation of the above referenced entity, with its sustained role and responsibility enabled under the Governor's Executive Order.

Statement of Need

Due to a combination of resource constraints, inexperienced personnel, "silo" bureaucratic processes and reactionary approaches to immediate problems, there is a nearly complete lack of coordination, communication, and connected management amongst all the departments and stakeholders who must work together to ensure Flint's return to clean, safe water and to coordinate mid and long term efforts to mitigate and address future health and behavioral consequences from lead ingestion. This group MUST be stood up regardless of whether (or when) the conditions required for a declaration of emergency are met by the City, County, State or Federal authorizers. This coordinating body must include:

- The creation of a routine information process between all parties.
- Pursuit of other avenues of funding including federal grants and legislative appropriations.
- While the Emergency Management Act or the Stafford Disaster Relief and Emergency Assistance Act may be mechanisms to fix the issues in Flint, portions of the Emergency Management Act outlining management of events are applicable and should be implemented without delay (e.g. Local emergency operations plans/emergency operations guides as well as emergency operations support plans).

Action Plan and Establishing the FIACCC

It appears that a request for a Governor's declaration may be from the county as soon as January 4, 2016. The state's Emergency Coordinator (Capt. Kelenske) will evaluate the request and provide a recommendation whether to issue a declaration, following established protocol and due diligence. But immediately, we will:

1. Establish an interagency workgroup Chaired and Vice-Chaired by Harvey Hollins and Chris Kelenske, respectively, and be comprised of DHHS, MDEQ, MSP, Treasury, Genesee County, City of Flint, MDE, LARA and external Subject Matter Experts (SMEs). Civil Rights may be added at a later time. If additional agencies/stakeholders who can assist with accomplishing the action plan are needed, they will be added. Personnel must be goal oriented, transparent with findings and measures of progress, and able to work toward accomplishing the Incident Action Plan created by the state in a timely manner. A draft Organization Chart is attached under separate cover.
2. This body should be created by Executive Order and it must complement and not replace the current system under the Emergency Management Act. In fact, it should demonstrate how to best leverage support where existing laws fall short under a man-made emergency.
3. Utilize the National Incident Management System and Unified/Incident Command as appropriate.
4. Establish routine communications protocols at the operational, executive, and legislative levels as determined appropriate.
5. Establish interagency workgroup objectives using the following as a starting point.

Interagency Workgroup Objectives

1. Determine and convey acceptable standards for potable water.
    - Identify needed remediation.
    - Convey the remediation plan objectives to all stakeholders and interested parties.
    - Logistics plan for distribution and serving homebound citizens with water and filtration
    - Implement the plan.
2. Determine health impacts for the impacted population.
    - Identify treatment methods.
    - Nutrition education and support
    - Coping with lead exposure (care, monitoring, neurodevelopmental screening, access to DBP specialists, psychologists/psychiatrists, expanded county services, etc.)
    - Convey the treatment plan objectives to interested parties.
    - Implement the plan.
3. Establish a public information protocol to effectively inform the community of the situation and actions taken.
    - Identify existing Public Information outlets within the city, county, and state.
    - Establish a Joint Information Center
    - Provide for Emergency Alerts and Updates
    - Leverage public and private education schools
    - Determine official information flow and approval of information.
    - Convey to interested parties.
4. Assess the status of the infrastructure and determine feasible actions to upgrade the water system.
    - Determine current state of the infrastructure.
    - Develop priorities, costs, and potential funding sources for infrastructure upgrades as part of a long term recovery plan.
    - Seek partners to assist (NGOs, Foundations, Business, etc.)
    - Implement the plan.

Final Thoughts

After the team provides input to this document, I would ask that Governor Snyder review and approve the approach, authorize Harvey Hollins to get the plan to Mayor Weaver no later than this weekend, and then proactively communicate the plan regardless of whether we get an Emergency declaration or not.

Also, we do believe setting up an Emergency Command Center which requires 24/7 staffing is sensible until AFTER Genesee County has demonstrated they did all they could and couldn't solve the problem. That is what is required under the law.

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer, who is the City Administrator. The CLO is responsible for the coordination, procurement, and* transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **IN PROGRESS Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. *Residents who are facing financial hardships must* have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. ***Reimbursement of Critical Expenditures:***
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this *process will help to achieve long term goals.*

KWA Capital Improvements:	**Estimated Costs:**
a. Transfer Station to Dort Reservoir	*$4,500,000*
b. Raw water line to pump station #4	*$636,000*
c. Phosphoric acid feed system	*$186,000*
d. Alum Feed system	*$40,000*
e. Post filtration system	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

Sam

If we identify a filter for showers/tubs due to some having reactions (getting a rash) from the water is that a commodity we could source through FEMA?

Subject: Rashes

Please have someone follow up on the below and provide me answers as soon as they can (hopefully prior to 7 pm).

- How many people have reported rashes and do we have the locations documented anywhere?
- What is the current number of residents (not parcels) of people on the Flint water system?
- Does DHHS or DEQ have concerns with the rashes that are occurring?
    - Do either know what is causing the rashes and if so, what is the fix?

Thanks

Subject: RE: Daily Summary

I received clarification from Bryce Feighner and Liz Browne from DEQ and they have confirmed the level of participation for the sentinel monitoring program is set. With regard to the number of lead service lines needed, Mr. Feighner provided the following information:

"Based on their population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. We wanted all of the compliance sites to be lead service lines. We were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, we now know we will need to do some more searching to find even the minimum number of sites for compliance monitoring."

Subject: RE: Daily Summary

Capt. Kelenske,

I just spoke to Mark Ducharme from MDEQ, the original information was from him at the local EOC. He said that 402 homes was the original number agreed upon to do outreach to for the Sentinel program. Of the 402 homes they have gone out to, 241 agreed to be part of the program, 17 declined, and 144 were not home. He is going to clarify the number of lead service homes that need to be part of the program and get us the information tomorrow.

Subject: RE: Daily Summary
Importance: High

Sorry but this came up on the call ...

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.

We need to get better info for the governor.

The above is confusing as we were told the 402 homes all agreed to be sights. The above indicates 241 agreed to be sample sights out of the 402. Is that correct?

Also, 17 of the 402 declined to participate initially?

Can we get more information and clearer information on the sentinel sights.

Subject: Daily Summary

Capt. Kelenske,

Below is summary event for the today. F/Lt. Covey asked me to pass this email along early for your 7:30 meeting. The Sit Rep is currently being finalized to send to Peter Manning. I will pass it along once has been published to MI CIMS.

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
- JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
  - 402 homes were initially contacted for the program.
  - 241 households have agreed to be sentinel monitoring points for long-term water testing.
  - Identified 10 lead service lines.
  - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Capt & Rich,
Can we get a report by early afternoon on where these 402 sites stand and when will we see testing results from the 240 sites that have agreed?

This testing data & the identification of the pipes are so vital to this next phase.

We were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, we now know we will need to do some more searching to find even the minimum number of sites for compliance monitoring.

So this information would definitely influence points #1 & #5 below. Points #2, #3 & #4 are all accurate, however our challenge is going to be able to find additional lead service lines to comply with the LCR monitoring. The 402 was derived from over 1900 volunteers through residential samples that have been turned in; we'll have to revisit that list & the geographical distribution across the City to find some older areas that should have lead lines.

I believe we'll be regrouping tomorrow to see how we can find these additional sites.

> >
> > 1) 400 sentinel sites have been selected and 2 week interval testing begins February 15.

2) The sentinel sites were carefully selected to cover the entire geography of the city and are comprised of high risk properties that either have lead service lines or are associated with high elevated blood or water tests, or both.

3) Additional sites were selected in areas identified by Dr. Mona Hanna-Attisha as having high blood levels and based on hydraulic indicators of water age.

4) These sites will be tested based on "pre-flush" morning samples every two weeks for 8 weeks in order to determine the effectiveness of the orthophosphate coating on the inside of the pipes.

5) The city, state and federal government have all agreed to the sentinel sites and the testing protocols.

> I talked to Mike Schram at NBC25 about the town hall. It would be a 1.5-hour panel, with experts as well as the general public in the audience. We discussed the idea of

having Capt. Kelenske, Dirs. Lyon and Creagh, and either Rich Baird or LG Calley on the panel. Mayor Weaver will also be on the panel, but I'm not sure who else - possibly somebody from the EPA. They had invited Congressman Kildee but he cannot make it.

Mike has invited a ton of stakeholders (Red Cross, United Way, churches, etc.) to fill audience seats. We discussed the possibility of having Dr. Eden Wells (and possibly DEQ's George K) in the audience as experts.

The town hall would be from 7-8:30 p.m. on Monday, Feb. 29. It would be broadcast in the Flint/Saginaw/BC, Grand Rapids/Kazoo and Cadillac/TC areas. Because it's at U-M Flint, the campus police force can help coordinate security.

Can you confirm with your directors – today hopefully - that this is something they could do? And if you want any expert backup for them in the audience, please provide those names as well. I'll confirm with Rich Baird and/or the LG.

> - Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water delivered. In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**

2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Subject: FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

Subject: FW: Concerns from the field on water distribution

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

External Affairs Specialist

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint . .I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor So that's the first problem.

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways.
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested These folks are expected to go to a fire station, get a test bottle,

take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested. . again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI.

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier)

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis

Thank you so much for listening!

Capt. Kelenske,

I just spoke to Mark Ducharme from MDEQ, the original information was from him at the local EOC. He said that 402 homes was the original number agreed upon to do outreach to for the Sentinel program. Of the 402 homes they have gone out to, 241 agreed to be part of the program, 17 declined, and 144 were not home. He is going to clarify the number of lead service homes that need to be part of the program and get us the information tomorrow.

Importance: High

Sorry but this came up on the call ...

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.

We need to get better info for the governor.

The above is confusing as we were told the 402 homes all agreed to be sights. The above indicates 241 agreed to be sample sights out of the 402. Is that correct?

Also, 17 of the 402 declined to participate initially?

Can we get more information and clearer information on the sentinel sights.

Capt. Kelenske,

Below is summary event for the today. F/Lt. Covey asked me to pass this email along early for your 7:30 meeting. The Sit Rep is currently being finalized to send to Peter Manning. I will pass it along once has been published to MI CIMS.

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
- JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics.
  - 402 homes were initially contacted for the program
  - 241 households have agreed to be sentinel monitoring points for long-term water testing.
  - Identified 10 lead service lines
  - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

From: MSP-SEOCSDEM
Sent: Saturday, February 13, 2016 4:48 PM
To: Kelenske, Chris (MSP); Katarsky, Anthony (MSP)
Subject: FW. "Non-Contacted" Flint Addresses

Importance: High

Capt. and Mr. Katarsky,

Please see the below explanation (I have cut and pasted) why the 186 addresses that the ARC have visited are still showing up as "non-contacted.

Hi Everyone,
1. Bridget Spencer will send the list of 193 addresses, which may be reduced to 186.

I met with GIS and Recovery (Bridget). They explained that an address will be removed from the list when the SEOC receives the complete address. If the team visited the parcel once or twice (or more) but didn't convey a complete address, it won't be removed from the list.

To ensure that the address they collect is complete, the WRT members should:
1. Walk on to the parcel. On the I-Pad, touch the parcel location, making sure the red dot location indicator is inside the parcel "box."
2. Enter the complete address into the I-Pad (and other fields as appropriate).
This 2 step process is the best way to deliver a complete address. If a team member is standing on the sidewalk when s/he touches the I-Pad, this may result in an incomplete address. If the team member only enters the address, it's easy to miss an element which will result in an incomplete or inaccurate address. The difference, for instance, between 123 Any Street; 123 S. Any Street; 123 N. Any Street, Flint; and 123 N. Any Street, Burton.

The master list the SEOC is working from is comprised of residential, active water customers. Accordingly, if there is doubt whether the residents are not home or the home is vacant, the teams should choose not home.

Team members' handwriting can be hard to read. This isn't an issue with the I-Pads.

The I-Pads may not function for long outside in extremely cold weather. In such conditions (today and tomorrow), the GIS team recommends keeping the I-Pads in the vehicles. A team member should touch and make sure the red dot location indicator appears inside the parcel "box" and not the sidewalk or street. Then, s/he should enter the other fields, including the complete address.

If the team can't walk onto the parcel, they should follow the process described above for very cold weather. They should add a remark in the comment section stating why they couldn't enter the parcel ("beware of dog" sign, for instance).

Seth, if this isn't as clear as it needs to be, please call me.

Thank you,

Linda

Good Afternoon,
You'll find below the explanation I provided the Red Cross explaining why 186 addresses the Red Cross has visited are still showing up as "non-contacted."

The GIS group and Recovery branch did a superb job of explaining to me their data entry screens, data flow and processing.

Respectfully yours,

Hey all –

Bridgit at the SEOC has also reached out directly to Diane in Ops. We have asked that this list of 193 be sent to Ops so that we can compare it to what we've done. Linda, can you connect with Bridgit?

We're confident that we have touched all the addresses that we've been sent via the state.

Cheryl – can you pass to Chris that we are working this with the state?

Thanks,
Seth

Subject: 180 list

All,

Chris DeVriendt, Genesee Emergency Manager, is asking about a list of approximately 180 addresses that the "state" keeps telling him have not been touched. It is Chris' impression that list has been given to the Red Cross and we have been including them in our routes. His request is:

What is the status of these addresses?
How many times have we gone there?
Is it a vacant lot?
Does it visually appear vacant?
Is there a padlock on the door?
What happens to these notes if they are written on the street sheets?

Chris would like to get to the bottom of this list, as I'm sure we would, and define a way of removing addresses from the not touched list for whatever reason is deemed acceptable.

On a similar note, Chris would also like to get to clear up these same questions with the NCCC team list but has decided to take that up after the Southern Baptist Convention takes this over next week.

> . Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water delivered. In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
> 2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
> 3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
> 4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
> 5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
> 6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**

7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Subject: RE: Concerns from the field on water distribution

Col Seeley, Gabe, Amanda and Kristy-

There are eight questions below we need to get an answer to. Can you answer the below questions and/or point me to the right person to get the answer. The questions are:

1. Elderly residents that cannot carry water back to their home/apartment from a POD;
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
4. Residents complaining that having to visit the POD daily is too burdensome;
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Thank you
Kevin S.

Subject: FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive *solution to these issues*?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
- Residents complaining that they are not permitted to get enough water to meet their needs *from the POD;*
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks

We were at Slidell Senior Housing on W Carpenter road this Sunday Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken One resident still is getting skin rashes from showering in the water Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested .. again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra

burdens placed on them due to the Flint water crisis

Thank you so much for listening!

Capt. Kelenske,

It has been determined that the 193 water customers documented not visited is due to a disconnect that is occurring due to volunteer data entry issues. When information is not properly entered, GIS is not able to see if any progress is made on this number.

To resolve this issue GIS is currently mapping out all of the 193 addresses. This list will then be broken down by Recovery into smaller "map section" lists. These map section lists will then be issued to ARC for their teams to begin addressing immediately. It is anticipated that teams will begin attacking the lists tomorrow morning. Now that the problem regarding data entry has been brought to ARC's attention, it is hoped that data will be entered correctly and be accessible/retrievable by GIS.

Please feel free to contact me if you have further questions.

Audrey

Captain,

I'm reading a news release and it is saying **"Pregnant woman and children under 6 years of age should continue to drink only bottled water"**. Inspector Bolger advised that this has been the same message for the last week. Seems to me we are sending a mixed message. If it isn't good enough for pregnant children and kids under six, then how is it safe for everyone else?

Your thoughts?
Gabe

Good afternoon,

Yesterday, you were asked by Captain Zarotney to provide an estimate number of pages/documents that you have within your email, on your computer, texts messages, or those saved on the S Drive as it relates to the Flint Water Emergency. This was due at 2:00 today, and has not yet been received. This will be from your Michigan.gov email address, different than your position specific email/files within the SEOC. If your SEOC position has not completed that yet either, please assist in completing that as well.

If you have no documents to report, please send a quick reply indicating that so Lori is able to track what she is missing. Otherwise, please provide an estimate to Lori by 4:30 PM today.

Thank you for assisting in this process.

Hi Nat,

I asked Sam the same question this morning. If you look at the chart again it only shows the date every other day, but the data is complete. We can easily make that change for tomorrow.

Amanda

Subject: RE: Access to online mapping for the governor

Walter,

We are happy to step out of this unless there is something we (the ECC IMT)need or can do to assist if necessary. Please let me know how you would like us to move forward or stand down if it is covered. Thanks for your help. We got involved as it was a request from the Governor to Director Creagh after he saw the information Director was able to access on his IPad relative to the Sentinel Testing Teams live activity on the dashboard and ARCGIS applications.

Thanks
Gary

Subject: Access to online mapping for the governor

Gary:
Walter Chomentowski here. I have been working with Ben Geiger for several days on connecting Governor Snyder to the online mapping resources available, specifically the dashboards you mention below, as well as other map layers. I spoke with Ben a few minutes ago and he is reviewing the ArcGIS Online application we have authored for the governor. I expect Ben to contact me at 1:30pm today with feedback about the application then shortly after that provide access for the governor.

Regards,
Walter Chomentowski

Subject: Governor's Access to ESRI and Collector APP

Walter,
I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at [redacted] you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

Gary Hagler

Update from City Liaison in local EOC:
Boiled Water Advisory will most likely be lifted between 1200 and 1500.

City Liaison was advised that City should coordinate with JIC for messaging.

Importance: High

Tony,

We need to respond this FOIA request, aside from the ongoing FOIA activity. I have copied the planners who I believe worked on the emergency declaration. This is due to the FOIA unit by next Friday, February 19. I will schedule a meeting.

Do you believe this would exceed 250 pages? I believe it would exceed the 2 hours to pull, copy and redact the documentation, unless there is very limited correspondence.

Thanks,
Brianna

From: Goodwin, Bethany (MSP)
Sent: Tuesday, February 09, 2016 4:28 PM

Subject: CR-20012653 Flint FOIA

Ma'am,

The Department has received the following FOIA request:

"any and all email communication between employees at the Department of State Police between Department of State Police employees with those of other state departments, the Executive Office of Governor Rick Snyder and with the city of Flint, discussing the subject of an emergency declaration regarding the Flint water crisis." The requestor would like all communication from7/1/15 through 1/5/16.

Can you please let me know if the Department has responsive documents pertaining to this request? If this request is going to require over 2 man hours and 250 pages of documents please contact me before gathering the documents.

Thanks,

Bethany K Goodwin

> **Subject: TV Town Hall**
>
> I talked to Mike Schram at NBC25 about the town hall. It would be a 1.5-hour panel, with experts as well as the general public in the audience. We discussed the idea of having Capt. Kelenske, Dirs. Lyon and Creagh, and either Rich Baird or LG Calley on the panel. Mayor Weaver will also be on the panel, but I'm not sure who else - possibly somebody from the EPA. They had invited Congressman Kildee but he cannot make it.
>
> Mike has invited a ton of stakeholders (Red Cross, United Way, churches, etc.) to fill audience seats. We discussed the possibility of having Dr. Eden Wells (and possibly DEQ's George K) in the audience as experts.

The town hall would be from 7-8:30 p.m. on Monday, Feb. 29. It would be broadcast in the Flint/Saginaw/BC, Grand Rapids/Kazoo and Cadillac/TC areas. Because it's at U-M Flint, the campus police force can help coordinate security.

Can you confirm with your directors – today hopefully - that this is something they could do? And if you want any expert backup for them in the audience, please provide those names as well. I'll confirm with Rich Baird and/or the LG.

Subject: 8:30 local call

Captain,
Since we are now on the UCG call at 8:30 am, should we try and continue with our phone call to the local EOC, perhaps at a different time? Or has this been scaled back and just you and Chris Devriendt having an occasional phone call to talk each other?
Thanks,
Gabe

Subject: Governor's Access to ESRI and Collector APP

Walter,
I wanted to give you advance notice of a request by Governor Snyder to have access to the GIS ESRI Data in relation to the Collector APP and Dashboard. This is the same access that was granted to Director Creagh yesterday. Tony Katarsky provided me your contact information due to Trevor's absence. Lisa Dygert from DNR GIS is assisting the Governor's Office with the loading of the app and or programs.

Lisa can be contacted at __ If you need to speak with her. Please respond reply all once this email is received and once the process is completed.

Fyi, additional individuals assisting with the Flint Water Event from DNR and the ECC Team were submitted last evening around 10 pm. If you could check the status of their access I would appreciate it.

Good Morning,

I had a request today from Tony Voirin for additional graphics in their reports up to the White House. I've shared the governor's report with EPA and they believe there is a lot of good information that can be used.

I don't see any problem in providing some of this information to Tony and possible distribution to White House but wanted to check first?

Where: 201 S. Main Street, Ann Arbor

Purpose: Third Tele-Town Hall with Flint Residents.

Last Two Tele Town-Hall Meetings

- 12,667 unique callers have joined a telephone town hall
- 739 callers have pressed zero to ask a question
  All who didn't get to ask received a letter from our office with info on water resources and how to contact us directly
- 27,750 voice messages have been left with info on water resources and how to contact us

Participating Via Phone:
Capt. Kelenske
Nick Lyon
Bryce Feighner, Waste Management and Radiological Protection

For governor and speakers to use:
Speaker Line: (

For media and internal staff:
Listen Only Line:

Agenda:
Call begins - Jarrod welcomes callers
Gov gives 2-3 minute opening remarks
JA asks for first questions
Q&A - moderated by JA
JA asks RDS to give closing remarks

Press: Comms will send 2 or 3 reporters the listen only line. (Dave Murray)

Talking Points:

- The Flint water situation is a tragedy and my immediate top priority is to ensure every Flint resident has access to clean, safe drinking water.
- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the EPA.
- We replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and have suspended civil servant scientists involved in water testing.

- I am working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.
- If you need water resources or assistance dial United Way 211 or call my office directly at 517-335-7858

To: Murray, David (GOV) <MurrayD1@michigan.gov>
Subject: RE: Flint Town Hall Meeting Invitation

Hi Dave,

I listed the potential state administration officials that we'd like to include on the panel in the email chain below:

- Governor Snyder
- Harvey Hollins, Michigan Office of Urban Initiatives
- Keith Creagh, Michigan Department of Environmental Quality
- Dr. Eden Wells, Michigan Department of Health & Human Services
- Col. Chris Klenske, Michigan State Police/Department of Homeland Security

If there are other state experts that you'd like me to send invitations to be part of the audience who could answer questions about the state response, please send me their name, title, and an email address. We've invited a lot of the community stakeholders (city-county officials, school leaders, community agencies, churches, health agencies) who are partners in the state's response and relief efforts. The follow-up email that we will send out next week will have more details about the town hall (location, arrival time, parking, etc.) and will serve as their "ticket" to the event.

-

The town hall meeting will be broadcast on WEYI-TV NBC25, WWMT in Grand Rapids, and WPBN in Traverse City. Due to the high interest we've already received, the forum will also be streamed live on Sinclair Broadcasting TV station websites across the country (79 media markets). It is a great opportunity for Governor Snyder and his team to get out their ongoing efforts to restore safe drinking water.

My team has produced numerous town hall meetings over the year and we are bringing in our corporate executive producer from Baltimore to make sure the Town Hall is a well-produced and informative broadcast.

Please get back to me ASAP about the Governor and administration official participation. We want to have a good discussion about the efforts taking place to resolve concerns over the water quality, as well as health and economic impacts for the residents living in the Flint area.

Thanks again for being so good to our news crews,
Mike

From: Michael Schram <mschram@sbgtv.com>
Date: February 6, 2016 at 7:13:04 PM EST
To: "Kaiser, David (MSP)" <KaiserD2@michigan.gov>
Subject: Flint Water Town Hall Meeting Invitation

Lt. Kaiser:

Many Flint residents can no longer use their water service for basic tasks like drinking, cooking, and taking baths. Lead contamination has resulted in an emergency declaration. National Guard, law enforcement, community groups are all pitching in to deliver bottled water, lead testing kits, and water filters.

How did we get here? What's being done to address the immediate and long-term health and economic impact the Flint water crisis has had on our community?

That will be the focus of a WEYI-TV NBC25 & University of Michigan-Flint Town Hall meeting. "Your Voice, Your Future: The Flint Water Crisis" will be broadcast live from the historic Northbank Center's Grand Ballroom (432 N. Saginaw Street) in downtown Flint on **Monday, February 29th at 7:00 p.m.** The forum will give government, health care, environmentalists, community groups, emergency/disaster response officials, and others the opportunity to speak directly with residents directly affected by the water crisis. We hope the forum will provide people the latest on efforts to restore safe water service to Flint's homeowners, business leaders, schools, and churches.

We believe that you can offer a unique perspective and background on this issue. We would like to invite you to be part of our audience for this important discussion.

Please let us know by Friday (February 12) if you are available to attend this Town Hall meeting. You can RSVP by e-mailing townhall@nbc25news.com.

If you have any questions, feel free to contact the NBC25-FOX66 newsroom at (810) 687-9600.

All the best,

Mike Schram

Sent: Thursday, February 11, 2016 3:25 PM
To: MSP-SEOCSDEM
Subject: RE: Water Main Breaks

Captain,

Lt. Russo made contact with Foreman Jeff Church at the city Water Distribution and Sewer Maintenance Building. Mr. Church reached out to Water Distribution Supervisor Robert Benczsik over the phone, so he was part of the discussion. In regard to the questions that have been asked regarding water main breaks in Flint:

How many water main breaks over the last two years?
- Over 600 in the last two winters.

How many boiled water advisories were issued in the last two years?
- For this winter alone (2015/2016), 12 Boiled Water Advisories would have been issued. Did not have information on two-year-time frame.

Resources available to respond to breaks?
- Due to a hiring freeze, the water department is currently understaffed by 11 personnel.
- Due to a purchasing freeze, they do not have access to an budget for purchase and maintenance of budget (generally over $1 million annually in the past).
- They work with a contractor to support them if they do not have the capabilities to respond to a water main break, but this is not cost efficient.

Let me know if you need anything else.
Gabe

Subject: Re: Forgotten Question

We are drafting 2 releases for when the boil advisory are lifted. We'll pick the one to use depending on the results of bacteria testing.

If they find any bacteria, we will advise to change the filter.

If they don't find any bacteria, we will tell them to continue status quo.

Insp-

I remember now what I wanted to ask you before. Capt Kelenske wants to discuss further the plan to not change our messaging on the filter replacement in regards to the boil water alert.

One of the concerns is that it was reported this am that there were 400 line breaks in the city of Flint (not all of which resulted in a boil water alert). If the cartiridges do not need to be replaced as now being presented by the DEQ, and we are replacing them every time there is a line break/boil water alert, we could run out of the cartridges even though the replacement is not needed.

Anyways, can you call him to discuss.

Thanks
K

Subject: [Non-DoD Source] Flint community member concern

Good Afternoon,

I spoke to Ms. Carma Lewis, a City of Flint Community Organizer who works with Flint Neighborhoods United. Ms. Lewis contacted the Governor and expressed an issue related to the PODs and the distribution process.

I was requested by MSP Capt Kelenske to contact MS Lewis and attempt to address her concerns.

She was concerned with the soldiers who are working the pods, that they may not have enough empathy for the plight of the residents of the City of Flint. She requested the opportunity to meet with the soldiers in the PODs to tell them how Flint got to this point and let them know what the residents feel in regards to the Water Crisis, the city of Flint, and the state of Michigan.

I suggested to her that if she wrote out a letter that has the message she would like to get across, then MSP could look over the letter and provide it to all volunteers and paid staff in the State to read then she could get the message to everyone.

She has agreed, and will provide the letter as soon as she can. She agrees that this is a better forum for her wish and is satisfied with the outcome.

I will forward the Letter to Capt Kelenske as soon as I have it.

To: MSP-SEOCSDEM
Subject: RE: Water Main Breaks

Captain,

Lt. Russo made contact with Foreman Jeff Church at the city Water Distribution and Sewer Maintenance Building. Mr. Church reached out to Water Distribution Supervisor Robert Benczsik over the phone, so he was part of the discussion. In regard to the questions that have been asked regarding water main breaks in Flint:

How many water main breaks over the last two years?
- Over 600 in the last two winters.

How many boiled water advisories were issued in the last two years?
- For this winter alone (2015/2016), 12 Boiled Water Advisories would have been issued. Did not have information on two-year-time frame.

Resources available to respond to breaks?
- Due to a hiring freeze, the water department is currently understaffed by 11 personnel.
- Due to a purchasing freeze, they do not have access to an budget for purchase and maintenance of budget (generally over $1 million annually in the past).
- They work with a contractor to support them if they do not have the capabilities to respond to a water main break, but this is not cost efficient.

Let me know if you need anything else.
Gabe

The Congressional Black Caucus Is Heading To Flint
"You cannot have, in 2016, 100,000 people unable to get clean drinking water out of their spigots."
02/11/2016 12:57 pm ET, Tyler Tynes
Politics Fellow, The Huffington Post

WASHINGTON -- **The Congressional Black Caucus will travel to Flint, Michigan, in March** to protest the city's ongoing water crisis.

The **"Speak Out" event will allow Flint residents to tell members of Congress how their lives have been affected by a crisis linked to environmental racism.**

"What has happened in Flint should touch the heart of anyone who has compassion for others, and especially for those who care for the well-being and safety of our children," CBC Chairman G. K. Butterfield said. "The CBC was among the first to demand a thorough federal investigation of the Flint water crisis and we will be among those visiting with Flint families to further amplify the urgency of this situation."

Rep. Dan Kildee (D-Mich.), a native of Flint, helped organize the event with Butterfield, Rep. Brenda Lawrence (D-Mich.) and Rep. Keith Ellison (D-Minn.), the co-chair of the Congressional Progressive Caucus. Kildee helped mobilize support, briefing CBC members on the Flint crisis in a series of meetings.

"What is happening in my hometown breaks my heart. Resources are needed right now for Flint and the families, particularly children, who are the victims of this terrible tragedy," Kildee said in a release. "Governor Snyder, whose administration's policies created this public health emergency, has a moral obligation to help the victims of this crisis."

And getting members to Flint and putting boots on the ground is important, since congressmen didn't fully understand until a few weeks ago how dire the situation is.

"Frankly, members of Congress were not aware of the problem until the last six or eight weeks. People knew there was a problem but it really didn't come up to a national recognition," Rep. Robert "Bobby" Scott (D-Va.) told The Huffington Post. "Obviously there needs to be an immediate response. There are short term and long term responses that have to be made. The health effects are permanent and long term."

The CBC has been busy this week. On Thursday, it formally announced that the caucus' political action committee would endorse Hillary Clinton for president. Clinton has courted the black vote, earning strong support from African-Americans and even holding campaign events in Flint last weekend. Additional details about the upcoming event in Flint haven't been released, but will be in the coming weeks. Other members of the caucus believe what happened in Flint wouldn't have happened in a more affluent community.

"You cannot have, in 2016, 100,000 people unable to get clean drinking water out of their [pipes]. That's unconscionable," Rep. Elijah Cummings (D-Md.) told HuffPost. "I am convinced that, you know, we have a lot of people who are very poor and who are minorities and we have people who many of them are underprivileged. If this were in a different type of neighborhood, if it were a predominately white community, this wouldn't happen. I think we would all be upset."

Subject: RE: FILTERS: Flint water main break

Update: I just received a call from the Flint Water Treatment Plant lab informing me that all of the results from the samples collected yesterday are non-detect for coliform bacteria. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break. Additional samples were collected today and those results will be available about this time tomorrow. If those sample results are good, the boil advisory can be lifted.

Subject: RE: FILTERS: Flint water main break

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

All
A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."
Thanks

Subject: Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

So what does that mean at this time as far as a need to replace filter cartridges once the boil advisory is lifted?

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

Subject: RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. *Only if bacteria are* actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Nat,

We might want to figure whether there is a way to track recycling activity. I am hearing greater noise about plastic bottle litter, bins too small to accommodate bottles being tossed, user unfriendly outreach requirements by the city's main vendor, Republic. I know we have a collaborative going but I don't know if we know whether it's working.

Subject: RE: [Non-DoD Source] FW: Contact Needed Tonight

ALCON,

After reading below.....these are all questions that Soldiers already ask. I've spent weeks at the PODs and all of the PODs are engaging Flint residents on their:

*Filters
*Filter Replacement Cartridges (types, compatibility, and usage life)
*Applications on installments both on filters and replacement cartridges
*Lead test procedures
*And contact information for any question that they cannot answer at the PODs (including 2-1-1 for the additional help of plumber visits)

After speaking with Soldiers at POD 6 (Pierson Rd) they are very confused as to what Ms. Lewis is talking about. The Soldiers at POD 6 remember Ms. Lewis very well. They are very appreciative for her participation. But the Soldiers are also confused on why she would think that they are not engaging the Flint Residents properly. I am being told that Ms. Lewis was educated in asking these questions by the Soldiers at POD 6.

Attached is a picture taken from a couple weeks ago of CPL King taking additional time to inform a Flint Resident in properly attaching a faucet filter. This resident said that she could not get the faucet to properly attach. CPL King went to Home Depot the day before and Home Depot gave CPL King a display floor model sink faucet. CPL King was able demonstrate to the resident on the proper install procedures. He fixed her issue without going to her house, or giving her the run around, or dishing out another filter she may have possibly had issues with.

As always the National Guard is here to help in anyway we can. There is no issue with anyone coming around to view and make suggestions in our procedures.

Just please take into consideration that on site constructive criticism during operations isn't as effective as it can be offline. And also, constructive criticism on policies/procedures that are already in place aren't received with open arms.

I personally think it would be best for the leadership of the National Guard to deal with this issue. If Ms. Lewis or anyone else has any concerns, they are more than welcome to contact LT Benke, SSG Wedding, SSG Gazzeny, or myself and we are more than capable of correcting any deficiencies in our procedures.

From the Gov Office...

Today, we met with Carma Lewis, from the Neighborhood Engagement Hub group in Flint. We discussed several issues, among them interaction between National Guard members at PODs and Flint residents. She indicated she spent a few days at the Pierson Road fire station working with the guard members on what questions they should be asking residents. For example, if a resident says they don't need a filter, ask if they need a replacement cartridge/ explain that those need to be monitored and changed.

I asked her if she would be willing to go to every fire station to meet with the guard members and let them know the questions and answers that Flint residents have and need – and she said she would like to. Is this something we can make happen? I would also recommend we consider asking her to present to any new hires we may add at PODs in the future.

Please contact the below TONIGHT to discuss. I want to know the discussion points are so we are on the same page before we move forward.

Subject: Water Main Breaks

Who can tell us what the normal amount of water main breaks Flint has? Trying to determine what we should expect for the remainder of the winter.

What are the typical number of breaks this time of year?
Do they have the tools and supplies necessary to make a quick fix?

Subject: RE: Contact Needed Tonight

Captain,

I spoke with Miss Lewis and she, being from Flint, wants to help out all she can. Most of her family lives around fire station 6 and when she went there she noticed the soldiers being a "bit too rigid". She also monitors a neighborhood Facebook page and sees that some people are complaining that with the guard it's like we are in a "military state". She said after spending some time with the soldiers, helping them load water etc. and explaining how the folks in Flint got into this situation (background info) that they seemed to become more sympathetic to their plight. Now that the soldiers have built a rapport with the citizens around fire station 6, folks are bringing in food and really "warming up" to the guardsmen.

Miss Lewis would be willing to visit the remaining 4 pods this Saturday if possible, and talk for less than an hour. She would like to do it while they are working so she can work with them and talk to them about the history of the situation and what folks are dealing with. She is willing to do whatever it takes to make it easier on all to get through this event. She is not going to preach to them, just explain how things got to where they are.

Let me know what else you need me to do reference this.

Thanks,
Gabe

Subject: Contact Needed Tonight

Gabe

From the Gov Office...

Today, we met with Carma Lewis, from the Neighborhood Engagement Hub group in Flint. We discussed several issues, among them interaction between National Guard members at PODs and Flint residents. She indicated she spent a few days at the Pierson Road fire station working with the guard members on what questions they should be asking residents. For example, if a resident says they don't need a filter, ask if they need a replacement cartridge/ explain that those need to be monitored and changed.

I asked her if she would be willing to go to every fire station to meet with the guard members and let them know the questions and answers that Flint residents have and need – and she said she would like to. Is this something we can make happen? I would also recommend we consider asking her to present to any new hires we may add at PODs in the future.

Please contact the below TONIGHT to discuss. I want to know the discussion points are so we are on the same page before we move forward.

Subject: RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

All
A slightly modified statement that addresses lead reduction at the same time would be:
"These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Capt and Mr Katarsky-

I'm following up with Paul every few minutes now. He said that a Mrs. Diana VanHorn with the ARC has written the document and sent it to her boss with in the ARC for review. He is simply waiting for the document to be forwarded from her to him and will send it to me when he has it

Not sure what else I can do to hurry this process along, but will send you the information as soon as I have it. This request was to sent Paul at 11:03am.

Subject: RE: Dam Question

I've done some follow up on this. There is a possibility that hazard mitigation funding could help but it is a bit of a long shot. As with all things mitigation the initial hurdle is the benefit-cost analysis. Byron Lane from DEQ is gathering some info for me help with a determination on that. Once I receive it I'll have another conversation with FEMA and let you know what I find.

> **Subject: FW: Dam Question**
>
> Attached is the inspection report for the Hamilton Dam in Flint. Byron indicated that the City's desire is to remove the dam and replace with a 'Rock Ramp'. The DEQ Dam Safety program staff have been told

that the Flint Downtown Development Association has funding to complete this. DNR also has been engaged to some degree as they administer a DNR Dam Management Grant Program which may have up to $500,000 which fund projects will help remove obsolete structures or repair functioning dams, resulting in improved fisheries, aquatic resources and public safety.

Byron stated the project would cost around $5 million and any funding sources should be considered. He indicated it may be the worst dam in the state.

Subject: RE: Dam Question

Jen,

As requested, attached is the most recent inspection report for the Hamilton Dam in Flint. We have rated it *unsatisfactory* which means, "A dam safety deficiency is recognized that requires immediate or emergency remedial action for problem resolution." We issued an order to the city in 2004 which required among other things, that they lower the water level behind the dam to reduce the chance of failure and to minimize any downstream damage if it does fail.

Cc: JICManager
Subject: Follow up from yesterday's conference call

All,

Here is some of the promised information from yesterday's call. Please let me know if there is additional information you'd like to get:

- As of Feb. 8, data being tracked by the state shows that 87.8 percent of City of Flint water customers have a water filter. That leaves approximately 12 percent or 3,323 customers whose filter status is unknown. Efforts to reach these homes continue in earnest.

- Five water resource sites at fire stations in the city, staffed by Michigan National Guard soldiers, remain operational daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

- Since January 9, through the efforts of both door-to-door water response teams and water resource sites, a total of 299,273 cases of water; 104,500 water filters; and 35,756 water testing kit have been distributed.

- On February 5, the Small Business Administration approved Governor Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint. The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations. Business owners have until Nov. 7, 2016, to apply. More information and criteria for SBA disaster loans is available at www.sba.gov/disaster. Eligible Flint business owners can apply online.

- This week the state secured a second warehouse that can accept bottled water that is not on pallets, filling a critical need, as many water drives are not palletized. The water donation guidelines on www.michigan.gov/flintwater and www.helpforflint.com have been updated to reflect this new option. To schedule a dock time for a delivery, call 517-420-3984 or email flintwarehouse2@michigan.gov.

Subject: Fw: trying to set up that follow up call with WH and Julie Rodriquez

Dr. Scott,

This is the email stream that I received. The meeting is set up for 2:30 today. Please advise if you would like me to proceed or if you would like someone else to do so.

Again, I am very sorry for the misunderstanding. When I received the email, I called Michelle and asked if this meant I had permission to respond and be on the call. She told me yes. I have learned that there is a process for such things and wanted to not overstep. Michelle is a great resource for the state and is doing a wonderful job. Please know that my sharing her name was to not shed any negative element on her role in this. I have a tremendous amount of respect for her. She may have thought the next step for me was to take it through the channels and I thought it was already done.

My apologies that I did not get to the SEOC before the 9:30 call. I had to take a call from my board chair and the GPS system took me off in the wrong direction and I found myself miles from the SEOC and had to pull over to finish the call and then replug in the address to get here.

I recognize the importance of keeping you informed and am sorry it did not happen in this situation. Richard and I will work on this and make sure you have information in the future.

Respectfully,

Ginna

Subject: RE: My contact info and State link to Helping Flint and Donations

Hi Jacqueline –

Tomorrow, she could be made free from 9:45 AM to 11:30 AM, 12 PM to 12:30 PM, 1 PM to 4:15 PM, or 5 PM onwards.
On Thursday, she could be made free from 9:30 AM onwards.
On Friday, she could be made free from 9:30 AM onwards.

In terms of preferences, tomorrow between 2:30 and 4 is great, Thursday between 9:30 and 11 or 12 and 5:30 is great, and Friday between 9:30 and 11 or 1 and 2 PM is great.

Let me know if you have any questions!

Tom,

Sorry, my meeting went way too long! I wanted to get a message to you and CPT Kelenske that our intent is to say in the fire stations until they are ready to move out. I understand that the city wants them out in two weeks, and the plan for the parking lots will take at least 4 weeks. Chris, can you broke a deal to hold us in the fire stations until the parking lot mission is ready to execute? It appears the delta (difference) is only two additional weeks.

Thanks, and please call with any questions.

Subject: [Non-DoD Source] RE: COAs

LTC Randall,

Thank you for those COA options. We'll be having a second planning day with FEMA today, and we'll be going over two alternate COAs to the one developed yesterday. We did discuss variations of the ones you outlined below, and I believe we'll be using at least one of them as an alternate COA in today's meeting.

LTC Seeley mentioned to me your concern about any possibility of the NG being deployed in any scenario other than the status quo at the fire stations. I do apologize that I don't recall us having that discussion as far as a limiting factor. My recollection and notes from Monday's meeting with you and Captain Kelenske and FEMA was that we need to get out of the fire stations and we need to transition from the guard to a civilian centered operation as soon as possible, but I don't have notes indicating that the guard could not deploy to help transition to civilians in alternate PODs (yesterday's discussion focused on mobile trucks/trailers deploying daily at fixed locations).

Please let me know if there are criteria in which the Guard could be utilized to assist in alternate POD locations for a limited time to assist with transitions/training civilians in POD operations.

Subject: COAs

Tom,

I came up with a few different COAs that might help the MSP to streamline its end game in the water business. If you want to bring them up to the gal who was facilitating the meeting today (forgot her name), that's fine.

COA1: 9 Hub with sub hubs
COA2: Stay at the Fire Stations with Civilians
COA3: Pull out of Fire Stations; reinforce food pantry's footprint
COA4: Move of the Fire Stations to new PODs; 5 (community centers)

Let me know what you think...
Thanks,

Both Joe and myself had mentioned PDF Creator for printing entire messages to PDF, but not for just converting attachments. Andrew at the AG's office was originally going to close the loop with AG about using Relativity, but then the whole HP Records Manager thing popped up.

So it sounds like they've had a little scope drift, but still want this?

Subject: RE: We don't, do we?

The quick answer is "not really".

Who is asking?

The subject of printing to PDF files with Outlook using Adobe plugins has been briefly discussed. However, there is a meeting tomorrow with multiple agencies and the AG's

office about utilizing HP Records Manager to coordinate document production for all of the FOIAs. Mike Marshall is heading up that initiative at least for DEQ. I know some other agencies are attending (as well as Chris Christensen and myself.)

In addition, we have multiple exports going on to IDiscovery's Relativity platform for the litigations, use of that platform was mentioned as a possible production method for FOIA, but nothing's been decided.

From: Nelson, Nick (DTMB)
Sent: Tuesday, February 09, 2016 1:35 PM
To: Partridge, Ken (DTMB) <partridgek@michigan.gov>
Subject: We don't, do we?

Ken,

We don't have anything like this currently, do we?

"We need a quick method to take all e-mails and their attachments and make them PDF's while staying associated with each other.

Right now, to PDF a Word doc attached to an e-mail, you have to PDF both and then associate them. With the large number of FOIA's and litigation, we need a fast method to preserve many e-mails. "

I ask because someone has requested some new software to do this and John wanted to know if we had something already.

Thanks.

All
A slightly modified statement that addresses lead reduction at the same time would be:
"These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Subject: Re: Filter Change after Boil Water Advisory

The city's advisory says to replace the filter cartridge after the boil water advisory is canceled. We were told the city received guidance direct from EPA on this. We can talk more about this tomorrow at Director's meeting.

We did post the advisory on our website tonight and we tweeted it out. It is being covered by media.

Subject: Re: Fwd: Flint Boil Water Advisory

This is way too cumbersome. Message should be clear and direct up front with the details following.

Temp drop caused a water main break.

Low water pressure and presence of bacteria are noted.

All Flint water should be filtered and filtered water should be boiled before drinking.

Bottled water is best to use for drinking and cooking when a boil notice is in effect.

Whether the city communicates or we do, the message cannot be cluttered or opaque.

USDA Deputy Under Secretary to Visit Flint, Highlight Federal Nutrition Programs Support for Flint Families

Flint, Mich., Feb. 9, 2016 – TOMORROW, Wednesday, Feb. 10, Dr. Kathryn Wilson, Deputy Under Secretary for Food, Nutrition and Consumer Services, will visit Flint to announce new ways USDA will use its nutrition programs to support Flint adults and children and mitigate the effects of lead-contaminated water. As part of her visit, she will tour a school operating the USDA school lunch and breakfast programs and the Fresh Fruit and Vegetable Program and she will also visit a WIC clinic. **Wilson will hold a media availability at 12:30 p.m. at Neithercut Magnet Elementary School.**

Wednesday, Feb. 10, 2016

WHAT: USDA Deputy Under Secretary Dr. Kathryn (Katie) Wilson will announce new ways that USDA will use its nutrition programs to support Flint residents affected by lead-contaminated water. She will also visit Neithercut Magnet Elementary School and meet with school officials to discuss how the school breakfast, school lunch and the Fresh Fruit and Vegetable Program are providing nutrition support in the Flint crisis.

Media Opportunities:

12:30 – 1:15 pm ***Neithercut Magnet Elementary School,*** 2010 Crestbrook Ln., Flint, MI (810) 760-1359 ***Dr. Wilson available for interviews to discuss the assistance and resources provided by USDA's school programs, WIC Program, SNAP nutrition education program and other federal nutrition assistance programs.*** *Please RSVP to Alan Shannon (312-860-3531) or Alan.Shannon@fns.usda.gov)* **PLEASE NOTE: This is an opportunity for media to speak to USDA leadership only, not staff and students.**

Phone interviews throughout the day: To schedule a phone interview with Dr. Wilson, please call Alan Shannon (312-860-3531).

Subject: RE: Flint Water Main Break

- City of Flint Public Works is currently working to close off the line on both sides of the break.
- Currently, water should be available to all customers on the water system. Customers might experience lower water pressure than usual.
- When the water line is closed on both sides of the break, they will fix the pipe.
- *Once the pipe is fixed and before it goes back into use, a Boiled Water Advisory will be issued.*
- Messaging for the Boiled Water Advisory is currently being developed. Genesee County Health Department is involved. Residents will be advised to use bottled water or boil filtered water. They will be advised NOT to boil unfiltered water.

Subject: Legal & FOIA concerns

Chris,

I am being told by Jeanette that the Legal and FOIA issues relating to Flint need to come in through the SEOC. The requests are about things that occurred before the SEOC was activated and the amount of work relating to the Legal issues is going to be huge. Additionally the FOIA things are for every agency and like legal require a quick turnaround. I personally wanted to avoid tasking the SEOC with additional responsibilities such as this however I am happy to follow whatever process works best for you. Again I am happy to support in any way possible, I just need clear directions on these issues. Below is the FOIA request that I believe every agency has received and we are meeting about it with the Governors legal counsel tomorrow to discuss the best way to respond. If you would like I can forward you the appointment.

Thanks again

Chris

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "you" or "your" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "records" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "*email*" *includes any electronic* message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to *expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent* to you. If your agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.
